Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

To the Honorable Mayor and
Members of the Board of Aldermen
City of St. Louis, Missouri:

We have audited the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of St. Louis, Missouri (the City), as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements and have issued our report thereon dated December 31, 2008. Our report on the basic financial statements was modified to include a reference to other auditors. Our report on the basic financial statements was also modified because effective July 1, 2007, the City implemented, Governmental Accounting Standards Board Statements No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, and No. 50, *Pension Disclosures*. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Other auditors audited the financial statements of the pension trust funds and the St. Louis Development Corporation and Forest Park Forever, Inc., discretely presented component units, as described in our report on the City's basic financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the pension trust funds and Forest Park Forever, Inc. were not audited in accordance with *Government Auditing Standards*.

For purposes of this report, our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters did not include Lambert – St. Louis International Airport, an enterprise fund of the City and The Metropolitan Police Department of the City of St. Louis, Missouri, a discretely presented component unit of the City. We have issued separate reports, dated December 19, 2008 and December 29, 2008, respectively, on our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters for these entities. The findings, if any, included in those reports are not included herein.

Internal Control over Financial Reporting

In planning and performing our audits, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control over financial reporting. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as Findings 2008-01, 2008-02, and 2008-03 to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that the significant deficiency described in the accompanying schedule of findings and questioned costs as Finding 2008-01 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the City in a separate letter dated December 31, 2008. We also noted certain matters that we reported to management of Lambert – St. Louis International Airport, an enterprise fund of the City, in a separate letter dated December 19, 2008.

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the City's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Mayor, members of the Board of Aldermen, management, others within the City, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Honorable Mayor and Members of
the Board of Aldermen of the
City of St. Louis, Missouri:

We have audited the financial statements of Lambert – St. Louis International Airport (Airport), an enterprise fund of the City of St. Louis, Missouri (City), as of and for the year ended June 30, 2008, and have issued our report thereon dated December 19, 2008. Our report was modified to include reference to the adoption of Governmental Accounting Standards Board Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, and Governmental Accounting Standards Board Statement No. 50, *Pension Disclosures*. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Airport's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Airport's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Airport's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Airport's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Airport in a separate letter dated December 19, 2008.

This report is intended solely for the information and use of the Mayor, the Board of Aldermen, City management, others within the entity and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

To the Board of Police Commissioners
The Metropolitan Police Department
of the City of St. Louis, Missouri:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of The Metropolitan Police Department of the City of St. Louis, Missouri (Department), a component unit of the City of St. Louis, Missouri, as of and for the year ended June 30, 2008, which collectively comprise the Department's basic financial statements, and have issued our report thereon dated December 29, 2008. Our report on the basic financial statements was modified because effective July 1, 2007, the Metropolitan Police Department of the City of St. Louis, Missouri implemented Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* and Governmental Accounting Standards Board Statement No. 50, *Pension Disclosures*. Additionally, our report was modified because the Department received 65% of the governmental activities revenues directly from the City of St. Louis, Missouri and 75% of the major fund (general fund) revenues from the City of St. Louis, Missouri for the year ended June 30, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Department's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control over financial reporting. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as Findings 2008-04, 2008-05, 2008-06, 2008-07, 2008-08, 2008-09, 2008-10, and 2008-11 to be significant deficiencies in internal control over financial reporting.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, of the significant deficiencies described above, we consider Findings 2008-04, 2008-05, 2008-08, and 2008-11 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Department's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Department's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the Department's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Board of Police Commissioners, Department management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133

To the Honorable Mayor and
Members of the Board of Aldermen
City of St. Louis, Missouri:

Compliance

We have audited the compliance of the City of St. Louis, Missouri with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The City of St. Louis, Missouri's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the City of St. Louis, Missouri's management. Our responsibility is to express an opinion on the City of St. Louis, Missouri's compliance based on our audit.

The City of St. Louis, Missouri's basic financial statements include the operations of the St. Louis Development Corporation, a discretely presented component unit, and St. Louis Area Agency on Aging, a department of the City of St. Louis, Missouri, which expended \$10,362,198 and \$3,346,014, respectively, in federal awards during the year ended June 30, 2008, which are not included on the City of St. Louis, Missouri's schedule of expenditures of federal awards for the year ended June 30, 2008. Our auditing procedures, described below, did not include the federal awards of St. Louis Development Corporation, because this discretely presented component unit engaged other auditors to perform an audit in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Additionally, our auditing procedures, described below, did not include the federal awards of St. Louis Area Agency on Aging, because this department engaged other auditors to perform an audit in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of St. Louis, Missouri's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of City of St. Louis, Missouri's compliance with those requirements.

In our opinion, the City of St. Louis, Missouri complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as Findings 2008-12, 2008-16, 2008-17, 2008-18, 2008-20, 2008-21, 2008-23, 2008-24, 2008-25, 2008-26, 2008-27, 2008-28, 2008-29, 2008-30, 2008-31, and 2008-32.

Internal Control Over Compliance

The management of the City of St. Louis, Missouri is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City of St. Louis, Missouri's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of St. Louis, Missouri's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the entity's internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as Findings 2008-12, 2008-13, 2008-14, 2008-15, 2008-16, 2008-17, 2008-18, 2008-19, 2008-20, 2008-21, 2008-22, 2008-23, 2008-24, 2008-25, 2008-26, 2008-27, 2008-28, 2008-29, 2008-30, 2008-31, and 2008-32 to be significant deficiencies.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. Of the significant deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs, we consider Findings 2008-13, 2008-16, 2008-17, 2008-20, 2008-21, 2008-23, 2008-27, and 2008-30 to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of St. Louis, Missouri, as of and for the year ended June 30, 2008, and have issued our report thereon dated December 31, 2008. Our report on the basic financial statements was modified because effective July 1, 2007, the City implemented, Governmental Accounting Standards

Board Statements No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues,* and No. 50, *Pension Disclosures*. Our report on the basic financial statements was also modified because we did not audit the financial statements of the pension trust funds, the St. Louis Development Corporation, and Forest Park Forever, Inc. The assets and additions/revenues of the pension trust funds represent 92% and 72% of the assets and additions/revenues, respectively, of the aggregate remaining fund information. The assets and revenues of the St. Louis Development Corporation and Forest Park Forever, Inc. represent 62% and 12% of the assets and revenues, respectively, of the aggregate discretely presented component units. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the City of St. Louis, Missouri's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The City of St. Louis, Missouri's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the City of St. Louis, Missouri's responses, and accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Mayor, members of the Board of Aldermen, management and others within the City, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

TOTAL EXPENDITURES OF FEDERAL AWARDS:						$116,933,695

See accompanying independent auditors' report and notes to the schedule of expenditures of federal awards.

(1) General

The accompanying schedule of expenditures of federal awards (the schedule) presents the activity of all federal financial award programs of the City of St. Louis, Missouri (the City) for the year ended June 30, 2008. The City's reporting entity is defined in Note 1 to the City's basic financial statements. For the purposes of the schedule, federal awards include grants, contracts, loans, and loan guarantee agreements entered into directly between the City and agencies and departments of the federal government or passed through other government agencies or other organizations.

(2) Basis of Accounting

The accompanying schedule is presented using the accrual basis of accounting, which is described in Note 1 to the City's basic financial statements.

(3) Basis of Presentation

The accompanying schedule does not include expenditures related to federal awards programs administered by the St. Louis Development Corporation, a discretely presented component unit, or St. Louis Area Agency on Aging, a department of the City of St. Louis, Missouri, because their federal awards programs are reported upon separately.

(4) Grants to Subrecipients

The City has contracts with various service providers to meet the objectives of the various federal award programs. The accompanying schedule includes approximately $33 million in federal expenditures that are passed through to subrecipients.

(1) Summary of Auditors' Results:

(a) **The type of report issued on the basic financial statements:**

- City of St. Louis, Missouri – **Unqualified Opinions on the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information**

- Lambert – St. Louis International Airport, an enterprise fund of the City of St. Louis, Missouri **– Unqualified Opinion**

- Metropolitan Police Department of the City of St. Louis, Missouri, a discretely presented component unit of the City of St. Louis, Missouri – **Unqualified Opinions on the governmental activities, each major fund, and the aggregate remaining fund information**

(b) Significant deficiencies in internal control were disclosed by the audit of the basic financial statements:

- City of St. Louis, Missouri – **Yes**

- Lambert – St. Louis International Airport, an enterprise fund of the City of St. Louis, Missouri – **None Reported**

- Metropolitan Police Department of the City of St. Louis, Missouri, a discretely presented component unit of the City of St. Louis, Missouri – **Yes**

Material weaknesses:

- City of St. Louis, Missouri – **Yes**

- Lambert – St. Louis International Airport, an enterprise fund of the City of St. Louis, Missouri **– No**

- Metropolitan Police Department of the City of St. Louis, Missouri, a discretely presented component unit of the City of St. Louis, Missouri – **Yes**

(c) Noncompliance which is material to the basic financial statements: **No**

(d) Significant deficiencies in internal control over major programs: **Yes**
Material weaknesses: **Yes**

(e) The type of report issued on compliance for major programs:

- CFDA #14.218 – U.S. Department of Housing and Urban Development – Community Development Block Grants/Entitlement Grants – **Unqualified Opinion**

- CFDA #14.235 – U.S. Department of Housing and Urban Development – Supportive Housing Program – **Unqualified Opinion**

- CFDA #14.905 – U.S. Department of Housing and Urban Development – Lead Hazard Reduction Demonstration Grant Program – **Unqualified Opinion**

- CFDA #16.000 – U.S. Department of Justice – Shared Federally Forfeited Property Program – **Unqualified Opinion**

- CFDA #17.258, 17.259, and 17.260 – U.S. Department of Labor – passed through the Missouri Department of Economic Development – Workforce Investment Act (WIA) Cluster – **Unqualified Opinion**

- CFDA #20.205 – U.S. Department of Transportation – Highway Planning and Construction – **Unqualified Opinion**

- CFDA #93.558 – U.S. Department of Health and Human Services – passed through the Missouri Department of Economic Development – Temporary Assistance for Needy Families (TANF) – **Unqualified Opinion**

- CFDA #93.914 – U.S. Department of Health and Human Services – Human Immunodeficiency Virus (HIV) Emergency Relief Project Grants – **Unqualified Opinion**

(f) Any audit findings which are required to reported under section. 510(a) of OMB Circular A-133: **Yes**

(g) Major Programs:

- CFDA #14.218 – U.S. Department of Housing and Urban Development – Community Development Block Grants/Entitlement Grants

- CFDA #14.235 – U.S. Department of Housing and Urban Development – Supportive Housing Program

- CFDA #14.905 – U.S. Department of Housing and Urban Development – Lead Hazard Reduction Demonstration Grant Program

- CFDA #16.000 – U.S. Department of Justice – Shared Federally Forfeited Property Program

- CFDA #17.258, 17.259, and 17.260 – U.S. Department of Labor – passed through the Missouri Department of Economic Development – Workforce Investment Act (WIA) Cluster

- CFDA #20.205 – U.S. Department of Transportation – Highway Planning and Construction Program

- CFDA #93.558 – U.S. Department of Health and Human Services – passed through the Missouri Department of Economic Development – Temporary Assistance for Needy Families (TANF)

- CFDA #93.914 – U.S. Department of Health and Human Services – Human Immunodeficiency Virus (HIV) Emergency Relief Project Grants

(h) Dollar threshold used to distinguish between Type A and Type B programs: **$3,000,000**

(i) Auditee qualified as a low-risk auditee under section. 530 of OMB Circular A-133: **No**

(2) Findings Relating to the Basic Financial Statements Reported in Accordance with *Government Auditing Standards:*

FINDING 2008-01 – COMPLETENESS AND ACCURACY OF THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Section .310 of OMB Circular A-133 requires the City to prepare a Schedule of Expenditures of Federal Awards (SEFA) that includes all accrual-basis federal awards expended for the fiscal year. Additionally, OMB Circular A-133 requires non-federal entities receiving federal awards to establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should ensure that accurate and complete accrual-basis federal expenditures for the fiscal year are reported on the SEFA.

We identified several items initially included in the year end expenditure accruals that should not have been recorded in fiscal year 2008. In order to mitigate the risk of improperly recognizing accruals as of the fiscal year end, we recommend the City enhance its process and procedures related to the identification and recording of such accruals for inclusion in the financial statements.

The City did not have an effective system of internal control over the preparation of the SEFA to ensure that all accrual-basis federal award expenditures were accurately and completely included within the SEFA. In order to ensure that federal award expenditures are accurately and completely presented, the City should enhance their current reconciliation between amounts recorded within the financial statements to the amounts presented within the SEFA. Although the City performed a reconciliation for the year ended June 30, 2008, the reconciliation was not designed properly which resulted in material adjustments being necessary to accurately and completely report accrual basis federal expenditures on the SEFA for the year ended June 30, 2008.

The City's SEFA is prepared by the Federal Grants Department based upon a compilation of information from the City's AIMS general ledger system, and information provided by the City's enterprise funds and The Metropolitan Police Department of the City of St. Louis, Missouri, for their respective federal grants. In order to prepare an effective reconciliation, the Federal Grants Department must be able to identify federal expenditures versus nonfederal expenditures from within the AIMS general ledger system account coding. The City did not have an effective system of internal control related to the communication between various program representatives and the Federal Grants Department related to the completeness and accuracy of the SEFA. This resulted in items not being accurately reported within the SEFA in terms of dollars expended and CFDA number. Additionally, the SEFA included non-federal expenditures.

We recommend the City perform an accurate and complete reconciliation between amounts recorded within the financial statements to the amounts presented within the SEFA as part of the process of preparing the SEFA. Additionally, we recommend the City enhance its internal control related to the communication between various program representatives and the Federal Grants Department, including understanding and documenting how amounts have been reported by the various program resepresentatives to the federal government or pass-through entities throughout the fiscal year, to ensure the completeness and accuracy of the SEFA.

Views of Responsible Officials/Management's Response –

The City agrees with condition found. Effective July 2008, the Federal Grants Department has established a permanent line of communication between city departments to reconcile SEFA. Federal Grants will meet with city departments on a semi-annual basis to ensure that accrual-based federal expenditures are accurate and complete based on general ledger reconciliations. CFDA numbers are confirmed and reported based on the Catalog of Federal Domestic Assistance and contract agreements. Non-cash expenditures are confirmed by each department and SEFA will be reconciled to the grant funds in the Comprehensive Annual Financial Report.

FINDING 2008-02 – FINANCIAL REPORTING INDEPENDENT REVIEW PROCESS

The preparation of the City's financial statements requires the City to assess and evaluate the adequacy of the presentation and disclosure of all financial activity in conformity with U.S. generally accepted accounting principles. The responsibility for the City's external financial reporting process, which includes preparation of the City's Comprehensive Annual Financial Report, resides with a limited number of individuals. While performing procedures related to the accuracy, presentation, and disclosure of information within the Comprehensive Annual Financial Report, we noted that certain individuals are responsible for both creating year end accounting entries and for the preparation of the Comprehensive Annual Financial Report. This situation can create a risk that errors would not be identified and corrected in the year end financial reporting process. As a result of these conditions, while performing our auditing procedures, we identified the following:

- A significant audit adjustment related to accrued interest payable was necessary as a result of an error in the accrued interest payable calculation. Additionally, we noted other immaterial financial statement adjustments as a result of our audit procedures.
- Pledged revenues were not initially disclosed and presented in accordance with the requirements of GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues,* and certain required footnote disclosures relating to GASB Statement No. 50, *Pension Disclosures,* required enhancements.

In order to mitigate the risk that errors within the Comprehensive Annual Financial Report would not be identified and corrected, we recommend that the City enhance its external financial reporting process by having a knowledgeable individual, other than the preparer, conduct a detailed formal review of the financial statements. Additionally, all year end accounting entries should be reviewed and approved for accuracy by an individual, other than the preparer.

Views of Responsible Officials/Management's Response –

The City concurs with the finding. All year-end accounting entries will be reviewed and approved by someone other than the preparer. An independent review of all financial statements will be undertaken by someone other than the preparer.

FINDING 2008-03 – ACCESS TO INFORMATION TECHNOLOGY SYSTEMS

Information systems and the related information technology general controls have a pervasive impact throughout the City. As a result of the reliance upon the integrity of system-generated information during the performance of the City's operations, it is imperative that the City establish appropriate information technology general controls, including controls over access to programs.

Entities should establish controls over access to programs and data in order to mitigate the risk of unauthorized or inappropriate access to an organization's financial reporting applications and data. While performing test work over internal controls relating to program and data access for the City's information systems, we noted the following:

- The maximum number of failed log-in attempts is ten for the mainframe. When more than three failed log-in attempts are permitted without a time-out option, the risk of a system breach increases significantly.
- We noted nineteen users with inappropriate access to the mainframe.
- There is no formal policy requiring a review of unauthorized access attempts for AIMS. As a result, patterns of unauthorized access attempts may go undetected.
- We noted twelve users who were terminated from the City during fiscal year 2008, and whose user access had not been removed from AIMS.
- There is no documentation maintained supporting the review of access rights for AIMS. As a result, the City has no evidence that access rights have been determined to be appropriate.
- A complete listing of users with access to the test and production environments could not be obtained. As a result, it is not possible to determine whether the level of access provided to employees is commensurate with their responsibilities.
- Documentation supporting authorization and termination of access rights to the network were not retained.

As a result of the pervasive impact of information systems and information technology general controls, we recommend the City enhance its control activities related to information technology access controls in response to the instances identified above.

Views of Responsible Officials/Management's Response –

The City will review and enhance control activities to information technology access. When the financial applications are moved to the new operating system, more than three failed login attempts will result in the user being denied access until granted by the systems administrator. The Comptroller's Office and ITSA will jointly periodically review all user access to financial systems to approve the appropriateness of access capabilities. Periodic review of all terminated employees will enable removing of all terminated employees from the system. Currently all requests for access are approved by the Comptroller's Office and a record of this is kept by ITSA. A list of all those with access to test and production systems is available. Access to test system is restricted to ITSA personnel assigned to the financial systems.

FINDING 2008-04 – INTERNAL CONTROL OVER FINANCIAL REPORTING

Comment and Recommendation:

The preparation of the basic financial statements and required supplementary information requires the Department to assess and evaluate the adequacy of the presentation and disclosure of the financial activity in conformity with U.S. generally accepted accounting principles (GAAP). While performing procedures related to the presentation and disclosure of information in conformity with U.S. GAAP, we identified the Department had not implemented internal controls that effectively assessed and evaluated the adequacy of the presentation and disclosure of the financial activity in conformance with U.S. GAAP, which resulted in the identification of the following matters:

- Audit adjustments related to the completeness, accuracy, and presentation of various assets, revenues, expenditures/expenses, liabilities, and reservations of fund balance, in accordance with U.S. GAAP were identified.

- Contributed capital assets were not initially reflected accurately within the governmental activities and governmental fund financial statements, in accordance with GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

- Insurance recoveries were not initially accurately reflected within the financial statements, in accordance with GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries.*

- Medicare Part D reimbursements were not initially accounted for in accordance with GASB Technical Bulletin 2006-1, *Accounting and Financial Reporting by Employers and OPEB Plans for Payments from the Federal Government Pursuant to the Retiree Drug Subsidy Provisions of Medicare Part D.*

- Special and extraordinary items were not initially identified and presented in accordance with GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

- The impact of an event occurring subsequent to June 30, 2008, which impacted the valuation of the worker's compensation benefits payable, was not initially presented in accordance with AICPA Auditing Standards, Section 560.03 and 560.04.

- Certain activity between the fiduciary funds and governmental funds was not initially presented in accordance with GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

- The undercollateralization of a deposit account was not initially disclosed in accordance with GASB No. 40, *Deposit and Investment Risk Disclosures.*

- Pension disclosures were not initially presented in accordance with the requirements of GASB Statement No. 50, *Pension Disclosures.*

- The reconciliation between budgetary basis information to the U.S. GAAP financial statements, which is required to be included within the required supplementary information in accordance with GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments,* was not accurate.

In order to mitigate the risk of not presenting information in accordance with U.S. GAAP, we recommend the Department enhance its process and procedures related to the assessment and evaluation of the adequacy of the presentation and disclosure of the financial activity in conformity with U.S. GAAP.

Additionally, the responsibility for the financial reporting process largely resides with one individual who is responsible for the preparation of the basic financial statements, with no trained backup or formal review process in place. Due to the specialized knowledge required for the preparation of the basic financial statements and lack of a formal financial policy and procedures manual, we recommend the Department formally document its financial policies and procedures, and identify and train a backup individual to assist with the preparation of the basic financial statements and footnotes. We also recommend a formal review of the draft financial statements occur by someone other than the preparer.

View of Responsible Official:

The Department will hire and train a backup for the individual who currently prepares the basic financial statements. As part of his/her training he/she will prepare a procedures manual for the preparation of the basic financial statements. In addition, the Department will issue an RFP for a new accounting system which will make preparation of the financial statements easier. The current process involves a great deal of manual work and creates too many opportunities for errors to occur.

FINDING 2008-05 – GENERAL LEDGER SYSTEM RELATED TO GRANTS AND CONTRACTUAL SERVICES

Comment and Recommendation:

General ledger systems are integral to maintaining effective control over the financial reporting process. As a component unit of the City of St. Louis, Missouri (the City), the Department is required to use the City's Accounting Information Management System for the recording of certain revenue and expense transactions, including transactions related to the Department's grant and contractual services. However, the Department maintains no separate general ledger that provides a comprehensive tracking mechanism to account for its grant and contractual services activity. As a result, management is required to manually accumulate all grants and contractual services information to be included within the basic financial statements from various sources, including grant billing summaries, prior year financial statements, and the City's Accounting Information Management System.

While performing procedures related to financial reporting of the Department's grants and contractual services, we identified errors which indicated the grant and contractual services information was not being accurately accumulated and compiled, and that the manual process was not sufficiently effective. In order to mitigate the risk of having an inaccurate record of transactions, posting one-sided entries, or not recording activity, we recommend that the Department determine the feasibility of implementing a formal general ledger system related to its grants and contractual services. A standard general ledger system would allow the Department to record all grants and contractual services activity of the Department and mitigate the risk of not accounting for various transactions properly.

View of Responsible Official:

The Department will issue an RFP for the purchase and implementation of a new financial reporting system. This new system will include at a minimum general ledger, purchasing, inventory, accounts receivable, accounts payable, fixed asset and grant accounting modules. An effective accounting system will allow Department leaders to more effectively manage the resources provided to the Department and do so more efficiently with fewer errors.

FINDING 2008-06 – PURCHASE REQUISITION PROCESS

Comment and Recommendation:

The Department's procurement policies require that each expenditure/expense be authorized via a Purchase Order and Purchase Requisition, except when the expenditure was made using a Department-issued Procurement Card. While performing procedures related to the authorization of expenditures, we identified two expenditures that were supported by an invoice that preceded the date of the authorized Purchase Order and/or Purchase Requisition. While a Purchase Order and Purchase Requisition were completed prior to payment of the expenditure, the authorization had not occurred as of the date the expenditure transaction was initiated and invoiced. Thus, the Department's established control procedures were not being consistently applied. This creates a risk that expenditures will be initiated for unauthorized activity, for which the Department may retain liability. Additionally, it creates the risk that expenditures requiring consideration within the basic financial statements will be incurred by the Department, yet not be identified by the Purchasing Department or Finance Department in a timely manner. In order to mitigate these risks, we recommend the Department review its process and procedures related to the authorization of expenditures.

View of Responsible Official:

The Department recognizes some of its employees on occasion fail to comply with purchasing processes. Legal counsel for the Department has advised us that although these failures occur the Department is still legally liable for payment. When these failures occur, commanders will be notified so that appropriate action can be taken to prevent a reoccurrence and a note will be placed in the file to provide documentation of management's processes detected the error in question.

FINDING 2008-07 – CUTOFF OF EXPENDITURES/EXPENSES

Comment and Recommendation:

The Department prepares its financial statements on the modified accrual basis of accounting for fund financial statements and the full accrual basis of accounting for the government-wide financial statements in accordance with U.S. generally accepted accounting principles. While performing procedures related to accounts payable and expenditures/expenses, we identified accounts payable and prepaid expenditures/expenses that were not accurately presented as of June 30, 2008. Thus, the Department's established control procedures to identify and record accounts payable and prepaid expenditures/expenses were not operating effectively. In order to mitigate the risk of not accurately presenting such items as of the fiscal year end, we recommend the Department enhance its process and procedures related to the cutoff of expenditures/expenses within the financial statements.

View of Responsible Official:

Expenditures over $500 occurring after year end are reviewed to see if they pertain to prior year activity. The Department will request a report be run after year end immediately prior to the beginning of the audit which will provide year to date activity by fund, cost center and account which will include both the invoice date and payment date. This should provide a more accurate cutoff of expenditures for the financial statements.

FINDING 2008-08 – EVALUATION OF MANAGEMENT ESTIMATES AND ASSUMPTIONS

Comment and Recommendation:

The preparation of the basic financial statements in conformity with U.S. generally accepted accounting principles requires the Department to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. While performing procedures related to certain estimates of the Department, we noted the Department does not have a formal process in place to routinely reevaluate the appropriateness of certain estimates recorded, including, but not limited to, accrued compensated absences or recoveries of stale dated checks. To mitigate the risk of misstatement relative to the assets and liabilities impacted, we recommend the Department implement procedures to routinely evaluate the estimates and assumptions that affect the reported amounts of assets and liabilities.

View of Responsible Official:

The Department will review its formulas for preparing estimates of accrued sick and vacation pay, and validate the appropriateness of key assumptions.

FINDING 2008-09 – ACCOUNTING FOR CAPITAL ASSETS

Comment and Recommendation:

Capital assets, which include land, buildings, and improvements, furniture and fixtures and other equipment, automotive equipment, communications equipment, and computers and software, are reported in the government-wide financial statements in accordance with U.S. generally accepted accounting principles. The Department's capital assets policy indicates that depreciation is computed on capital assets using the straight-line method (with the ½ year convention election applied in the first and last year) over the following estimated useful lives:

	Useful life/range
Buildings	50 – 100 years
Building improvements	10 – 15 years
Furniture and fixtures and other equipment	5 – 8 years
Automotive equipment	3 years
Communication equipment	5 years
Computer and software	3 years

While performing procedures related to the depreciation of capital assets, we identified two capital assets that were being depreciated over useful lives that differed from those indicated by the Department's policy. Management further indicated that the useful lives indicated by the Department's policy were appropriate for the identified capital assets, and therefore should have been followed. This indicates that the Department's control processes to assign useful lives to capital assets are not operating effectively. In order to mitigate the risk of inaccurately recording depreciation expense, we recommend the Department implement procedures to ensure that useful lives for all capital assets are recorded in accordance with the Department's policies, and/or are appropriate for the specific type of capital asset procured. Additionally, we recommend that a management review is performed over capital assets recorded.

View of Responsible Official:

A different employee than the employee who prepares the capital asset reports will perform a review of assets to see if asset lives match Department guidelines.

FINDING 2008-10 – COMPLETENESS AND ACCURACY OF SYSTEM-GENERATED REPORTS OR MANUALLY-PREPARED DOCUMENTS

Comment and Recommendation:

During the preparation of the financial statements, the Department may rely upon system-generated reports or manually-prepared documents, either produced internally or obtained from third-party organizations. While performing audit procedures related to the completeness and accuracy of system-generated reports and manually-prepared documents, we identified instances in which system-generated reports were not complete and accurate. Because such reports may serve as a basis for recording amounts within the financial statements, it is imperative that such reports are complete and accurate. In order to mitigate the risk of misstatement resulting from inherent reliance on system-generated reports or management-prepared documents, we recommend that upon receipt of system-generated reports or manually-prepared documents to be used in the preparation of the financial statements, the Department perform procedures to ascertain the completeness and accuracy of such system-generated reports or manually-prepared documents.

View of Responsible Official:

The Department went live with PeopleSoft at the end of April 2008. At year end, the Department was still experiencing difficulties with the generation of certain reports substantiating accrual information that have since been corrected.

FINDING 2008-11 – ACCOUNTING FOR NON-ROUTINE TRANSACTIONS WITH THE CITY OF ST. LOUIS, MISSOURI

Comment and Recommendation:

The preparation of the basic financial statements in conformity with U.S. generally accepted accounting principles requires the Department to obtain information related to various non-routine transactions from the City of St. Louis, Missouri (the City) to ensure complete and accurate presentation of information within the financial statements. Such information may include, but is not limited to, details of claims liabilities that will not be funded by the Public Facilities Protection Corporation (PFPC), amounts paid by the City to third-party entities on-behalf of the Department, the cost of capital assets contributed to the Department by the City, or information surrounding other agreements between the Department and the City.

While performing procedures related to non-routine transactions between the Department and City, we identified various audit adjustments arising from preliminary or incomplete information being obtained from the City. These errors indicate that the Department does not have effective controls designed and placed into operation to identify and account for such transactions. In order to mitigate the risk of inaccurate or inconsistent presentation of non-routine transactions within the financial statements, we recommend that the Department enhance its communication with the City and obtain adequate supporting documentation to provide evidence for management assertions related to such non-routine transactions.

View of Responsible Official:

The Department will schedule meetings at year end with the City's Internal Audit Executive and Comptroller's Office personnel responsible for preparation of the City Comprehensive Annual Financial Report so that non-routine transactions are properly identified and accounted for.

Findings and Questioned Costs relating to Federal Awards:

FINDING 2008-12

Federal Program Title – Community Development Block Grants/Entitlement Grants (CDBG)
CFDA No. – 14.218
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – B-07-MC-29-0006 – 2007 and B-08-MC-29-0006 - 2008
Grant Award Periods – January 1, 2007 through December 31, 2007 and January 1, 2008 through December 31, 2008, respectively
Compliance Requirement – Activities Allowed/Unallowed, Allowable Costs/Cost Principles, and Cash Management

Criteria – In order to be an allowable activity, all CDBG funds must comply with the various activities allowed by 24 CFR Part 570.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the activities allowed/unallowed, allowable costs/cost principles, and cash management compliance requirements. While performing test work on 40 expenditures, we noted that one expenditure for a bi-weekly payroll and FICA benefits had been entered onto the City's general ledger twice, and was therefore drawn down twice.

Questioned Cost – Total known questioned costs are $1,506 ($1,399 in salary and $107 in FICA benefits) and represent the total expenditure for the CDBG program that was recorded on the City's general ledger and drawn down twice. Likely questioned costs cannot be determined.

Context – Total cash-basis salaries and fringe benefits charged to the CDBG program for the year ended June 30, 2008 were approximately $3,000,000.

Cause and Effect – The payroll clerk keyed the $1,506 transaction twice into the general ledger and an effective reconciliation process to ensure that salary and benefit costs were not charged more than once was not functioning. Since the expenditure showed up twice on the City's general ledger, it was drawndown twice.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the activities allowed/unallowed, allowable costs/cost principles, and cash management compliance requirements. The City should have an effective reconciliation process in place to ensure that salaries and benefits charged do not exceed the payroll registers for the applicable time period.

View of Responsible Official and Corrective Action Plan – The City agrees with conditions found. The City's Federal Grants Section has implemented timely bi-weekly payroll reconciliations to the general ledger, in which this duty will be reviewed and approved by two separate individuals. The Federal Grants Section will continue to make efforts to improve its cash management function by requesting reimbursements from reconciled payroll accounts in a timely manner.

Contact Name: John Zakibe, Deputy Comptroller
Contact Telephone Number: (314) 622-4912

FINDING 2008-13

Federal Program Title – Community Development Block Grants/Entitlement Grants (CDBG)
CFDA No. – 14.218
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – B-07-MC-29-0006 – 2007 and B-08-MC-29-0006 - 2008
Grant Award Periods – January 1, 2007 through December 31, 2007 and January 1, 2008 through December 31, 2008, respectively
Compliance Requirement – Cash Management

Criteria – CDBG is funded on a reimbursement basis. As set forth in 45 Code of Federal Regulations (CFR) Part 92.21 and Treasury regulations 31 CFR Part 205, the City is required to pay program costs for CDBG before requesting reimbursement from the U.S. Department of Housing and Urban Development.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the cash management compliance requirement. Forty individual expenditures were selected for test work to assess whether the City was in compliance with the cash management compliance requirement. After investigation, the City determined that twelve of the forty selections had not yet been drawn down from the federal government at the time that test work was performed.

Questioned Cost – There are no questioned costs.

Context – Forty individual expenditures totaling approximately $1,800,000 were initially selected for test work, of which twelve totaling approximately $506,000 had not yet been drawn down from the federal government at the time that test work was performed. Per inspection of the expenditures, the dates that the City paid such expenditures ranged from November 2007 through April 2008.

Cause and Effect – The City's Federal Grants department generally prepares reimbursement requests related to CDBG on a periodic basis. The City's Federal Grants Department experienced employee turnover, which resulted in vacancies in key positions to the draw down process for reimbursement of federal expenditures. As a result, the City did not properly reconcile all allowable federal expenditures per the general ledger for CDBG to reimbursement requests to ensure that all allowable expenditures were being drawn down. The lack of an effective system of internal control could result in an instance where the City is no longer able to draw down federal funds.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the cash management compliance requirement. The City utilizes specific general ledger funds and cost centers to record all activities relative to CDBG. A reconciliation of expenditures incurred and paid as recorded in these general ledger funds and cost centers to the requests for reimbursement should be performed on a consistent, periodic basis and prior to any draw downs of federal funds to ensure compliance with the cash management compliance requirement. Documentation of such reconciliations should be maintained by the City.

View of Responsible Official and Corrective Action Plan – The City agrees with conditions found. The City's Federal Grants Section is in the process of implementing revised draw down policies and procedures. The Federal Grants Section will have several levels of review for cash management to establish an effective system of internal control. Each period of reimbursement for allowable federal expenditures will be reconciled to the general ledger, reviewed, and management will strengthen its review process to ensure draw down requests do not exceed actual expenditures. Supporting documentation with IDIS screen printouts will be kept by the City.

Contact Name: John Zakibe, Deputy Comptroller
Contact Telephone Number: (314) 622-4912

FINDING 2008-14

Federal Program Title – Community Development Block Grants/Entitlement Grants (CDBG)
CFDA No. – 14.218
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – B-07-MC-29-0006 – 2007 and B-08-MC-29-0006 - 2008
Grant Award Periods – January 1, 2007 through December 31, 2007 and January 1, 2008 through December 31, 2008, respectively
Compliance Requirement – Matching, Level of Effort, and Earmarking

Criteria – The earmarking requirements relative to the CDBG program are set forth in 24 CFR Part 570.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the matching, level of effort, and earmarking compliance requirement. The Financial Summary Report for the 2007 program year, which is part of the CAPER, includes multiple "adjustment" lines throughout each section of the report. In testing these adjustment amounts (lines 07, 10, 14, and 20 of the Financial Summary Report), we noted that a reconciliation that included supporting documentation for such adjustments did not agree to the adjustments as reported.

Questioned Cost – There are no questioned costs.

Context – The City did not maintain documentation that agreed to the amounts reported as adjustments on the Financial Summary Report for the 2007 program year. The City subsequently drafted a revised Financial Summary Report that included adjustments for lines 07, 10, 14 and 20 that agreed to their supporting documentation to evidence that the earmarking requirements had been met.

Cause and Effect – An oversight occurred by the City as to how to complete the Financial Summary Report accurately.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the matching, level of effort, and earmarking compliance requirements. The City should ensure that amounts reported on the Financial Summary Report are supported by adequate documentation and records.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. Subsequent to the fiscal year ended June 30, 2008, CDA considers this finding resolved. The City revised the Financial Summary Report so that it includes corrected adjustment amounts.

Contact Name: John Zakibe, Deputy Comptroller
Contact Telephone Number: (314) 622-4912

FINDING 2008-15

Federal Program Title – Community Development Block Grants/Entitlement Grants (CDBG)
CFDA No. – 14.218
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – B-07-MC-29-0006 – 2007 and B-08-MC-29-0006 - 2008
Grant Award Periods – January 1, 2007 through December 31, 2007 and January 1, 2008 through December 31, 2008, respectively
Compliance Requirement – Procurement and Suspension and Debarment

Criteria – 2 Code of Federal Regulations (CFR) Part 180 states that non-Federal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. Covered transactions include all nonprocurement transactions (i.e., subawards to subrecipients), irrespective of award amount. Specifically, when entering into a covered transaction, the City must verify that the other party is not excluded or debarred by (a) checking the Excluded Party List System (EPLS), (b) collecting a certification from the entity, if allowed by the Federal agency responsible for the transaction, or (c) by adding a clause or condition to the covered transaction with the entity.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the procurement and suspension and debarment compliance requirement. The City did not have a mechanism in place, as prescribed above, for complying with the suspension and debarment requirements for covered transactions relative to subawards made to subrecipients for the entire period under audit. Beginning in March 2008, the City subsequently verified that that each entity that they had contracted with in January 2008 was not excluded or debarred by checking the EPLS.

Questioned Costs – There are no questioned costs as the subrecipients the City had covered transactions with were not suspended or debarred per review of the EPLS website.

Context – The condition found impacts all covered transactions with subrecipients for CDBG during the year ended June 30, 2008. Cash-basis expenditures for the year ended June 30, 2008 relative to subawards provided to subrecipients for CDBG were $14,734,241. Upon subsequent testing of all subrecipients with expenditures during the year ended June 30, 2008, it was noted that none of the subrecipients selected for test work were suspended or debarred.

Cause and Effect – The City did not have a mechanism in place, as prescribed above, for complying with the procurement and suspension and debarment compliance requirement for covered transactions relative to subawards made to subrecipients for the nine of the twelve months under audit.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the procurement and suspension and debarment compliance requirement. We recommend the City establish processes and controls relative to ensuring covered transactions for subawards to subrecipients under CDBG are not entered into with suspended or debarred parties in accordance with 2 CFR Part 180.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. Subsequent to the fiscal year ended June 30, 2008, the CDA considers this finding resolved and has revised its procedures to ensure compliance with the suspension and debarment requirements. Prior to entering into a contract with a subrecipients or approving awards to subcontractors or vendors, CDA staff confirms with the on-line registry (EPLS) that the entity is not excluded or debarred on the effective date of its contract with CDA. The dated EPLS confirmation screen is then printed and placed in each contract file.

Contact Name: John Zakibe, Deputy Comptroller
Contact Telephone Number: (314) 622-4912

FINDING 2008-16

Federal Program Title – Community Development Block Grants/Entitlement Grants (CDBG)
CFDA No. – 14.218
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – B-07-MC-29-0006 – 2007 and B-08-MC-29-0006 - 2008
Grant Award Periods – January 1, 2007 through December 31, 2007 and January 1, 2008 through December 31, 2008, respectively
Compliance Requirement – Program Income

Criteria – Per 24 CFR Part 570, the City must account for any program income generated from the use of CDBG funds and must treat such income as additional CDBG funds which are subject to all program rules.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the program income compliance requirement. The total amount of program income reported on the quarterly SF – 272, *Federal Cash Transactions Reports* (272 reports), for the fiscal year ended June 30, 2008, was $926,278. The total amount of program income per the City's general ledger for the fiscal year ended June 30, 2008 was $1,133,168, for a difference of $206,890.

Questioned Costs – The difference between the 272 reports and the City's general ledger for the fiscal year ended June 30, 2008 was $206,890.

Context – The condition found impacts the accuracy of the 272 reports.

Cause and Effect – The City's Community Development Administration (CDA) completes various required reports for the CDBG program. CDA experienced turnover that resulted in a temporary vacancy and transition of individuals in its Fiscal Manager position, which is key to the accuracy and completion of required reports.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the program income compliance requirement. We recommend the City establish processes and controls to ensure that the reports required by 24 CFR Part 570 are completed accurately.

View of Responsible Official and Corrective Action Plan – The City agrees with conditions found. The City continues to make efforts to ensure that reports required by 24 CFR Part 570 are accurately completed. A revised report has been forwarded to the funding agency.

Contact Name: John Zakibe, Deputy Comptroller
Contact Telephone Number: (314) 622-4912

FINDING 2008-17

Federal Program Title – Community Development Block Grants/Entitlement Grants (CDBG)
CFDA No. – 14.218
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – B-07-MC-29-0006 – 2007 and B-08-MC-29-0006 - 2008
Grant Award Periods – January 1, 2007 through December 31, 2007 and January 1, 2008 through December 31, 2008, respectively
Compliance Requirement – Reporting

Criteria – 24 Code of Federal Regulations (CFR) Part 570 requires that CDBG grantees complete the Consolidated Annual Performance and Evaluation Report (CAPER) within 90 days of the grantee's program year. Grantees may utilize the Integrated Disbursement & Information System (IDIS) to gather and track some of the financial and other program information required to be completed as part of the CAPER. Additionally, as prescribed by OMB Circulars A-102 and A-110, grantees for CDBG are also required to complete the Standard Form 272, Federal Cash Transactions Report, on a quarterly basis.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the reporting compliance requirement. The City submitted the CAPER for the 2007 program year, which included the Financial Summary Report. Within the Financial Summary Report for the 2007 program year, the City reported $21,711,486 in total expenditures (as adjusted for non CDBG expenditures) on line 15. In the quarterly 272 reports for the 2007 program year, $20,210,505 was reported.

Questioned Costs – There are no questioned costs.

Context – The condition found impacts the accuracy of the 2007 program year Financial Summary Report completed within IDIS and the applicable 272 – Federal Cash Transaction Reports. The sum of gross disbursements for the CDBG program from the Federal Cash Transaction Reports for the four quarters ended December 31, 2007 totaled $20,210,505. Total amounts reported in the CAPER for the calendar year ended December 31, 2007 were $21,711,486 (as adjusted to reflect CDBG program expenditures only), resulting in an unreconciled difference of $1,500,981.

Cause and Effect – The City's Community Development Administration (CDA) completes various required reports submitted within IDIS as part of the preparation of the CAPER for the CDBG program. CDA experienced turnover that resulted in a temporary vacancy and transition of individuals in its Fiscal Manager position, which is key to the accuracy and completion of required reports.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the reporting compliance requirement. We recommend the City establish processes and controls to ensure that the reports required by 24 CFR Part 570 are completed accurately.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. Subsequent to the fiscal year ended June 30, 2008, CDA considers this finding resolved. A successful reconciliation of the quarterly 272 reports and IDIS was performed for program year 2007. However, all reconciling amounts were not contained in the adjustment line items reported on the Financial Summary. CDA will ensure that all future adjustment line items reported on the Financial Summary include all reconciling amounts.

Contact Name: John Zakibe, Deputy Comptroller
Contact Telephone Number: (314) 622-4912

FINDING 2008-18

Federal Program Title– Community Development Block Grants/Entitlement Grants (CDBG)
CFDA No. – 14.218
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – B-07-MC-29-0006 – 2007 and B-08-MC-29-0006 - 2008
Grant Award Periods – January 1, 2007 through December 31, 2007 and January 1, 2008 through December 31, 2008, respectively
Compliance Requirement – Subrecipient Monitoring

Criteria – As set forth in United States Code (USC) 7502 and OMB Circular A-133, paragraph .400, the City is required to perform subrecipient monitoring. The City is responsible for ensuring the federal award information and compliance requirements are identified and provided to subrecipients and also for monitoring subrecipient activities to ensure compliance with applicable laws and regulations.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the subrecipient monitoring compliance requirement. One of the City's primary mechanisms for subrecipient monitoring for CDBG occurs through the performance of fiscal monitoring, which includes a site visit and occurs on a periodic rotational basis. Supplemental subrecipient monitoring procedures for CDBG occur each fiscal year, including reviews of requests for reimbursement and reviews of OMB Circular A-133 Single Audit reports for subrecipients subject to the provisions of OMB Circular A-133. In order to track subrecipients for fiscal monitoring, the City's Internal Audit Department maintains a spreadsheet whereby all subrecipients and contracts of CDBG are to be listed (and all information contained in the spreadsheet is accurate and complete to ensure that appropriate monitoring occurs. We noted that for six of 40 subrecipients that the City had not obtained a current certification from the subrecipient that stated an OMB Circular A-133 audit was not required.

Questioned Cost – There are no questioned costs.

Context – The condition found impacts six of 40 subrecipients who had a total of $759,753 in CDBG expenditures for the fiscal year ended June 30, 2008. Total expenditures for the year ended June 30, 2008 relative to all subrecipients were approximately $14,340,000.

Cause and Effect – The tracking spreadsheet did not contain a column to track which subrecipients had provided a certification to the City.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the subrecipient monitoring compliance requirement. The City should ensure that the spreadsheet used to track all subrecipients for CDBG is accurate and complete and that all information necessary to track compliance is maintained.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. Subsequent to the fiscal year ended June 30, 2008, the CDA considers this finding resolved. Five of the six certifications were subsequently received from the subrecipients. CDA will increase its monitoring of Internal Audit to ensure that the certifications are received in a timely manner. The sixth subrecipient is no longer a CDA subrecipient, and board members contacted did not respond to requests from Internal Audit and CDA to submit the required certification. It should be noted that Internal Audit does maintain a separate and specific tracking sheet regarding A-133 audits and certifications received from subrecipients.

Contact Name: John Zakibe, Deputy Comptroller
Contact Telephone Number: (314) 622-4912

FINDING 2008-19

Federal Program Title – Supportive Housing Program
CFDA No. – 14.235
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – *MO36B201001, MO36B201003, MO36B201006, MO36B301002, MO36B301004, MO36B301005, MO36B301006, MO36B301007, MO36B301008, MO36B301009, MO36B301010, MO36B301011, MO36B401006, MO36B401007, MO36B401008, MO36B401009, MO36B401010, MO36B401011, MO36B401014, MO36B501004, MO36B501007, MO36B501008, MO36B501009, MO36B501010, MO36B501011, MO36B501013, MO36B501014*
Grant Award Periods – Various
Compliance Requirement – Cash Management

Criteria – The Supportive Housing Program is funded on a reimbursement basis. As set forth in 45 Code of Federal Regulations (CFR) Part 92.21 and Treasury regulations 31 CFR part 205, the City is required to pay program costs for the Supportive Housing Program before requesting reimbursement from the U.S. Department of Housing and Urban Development.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the cash management compliance requirement. Forty individual expenditures were selected for test work to assess whether the City was in compliance with the cash management compliance requirement. After investigation, the City determined that five of the forty selections had not yet been drawn down from the federal government. Additionally, fifteen of the forty selections were drawn down ranging from 106 days to 287 days after the expenditure had been paid by the City.

Questioned Costs – There are no questioned costs.

Context – Forty individual expenditures totaling approximately $1,029,000 were initially selected for test work, of which eight totaling $119,716 had not yet been drawn down from the federal government. Per inspection of the expenditures, the dates that the City paid such expenditures ranged from November 2007 through May 2008. Additionally, $573,243 were drawn down ranging from 106 days to 287 days after the expenditure had been paid by the City.

Cause and Effect – The City's Federal Grants department generally prepares reimbursement requests related to the Supportive Housing Program on a monthly basis. The City's Federal Grants Department experienced employee turnover, which resulted in vacancies in key positions to the draw down process. As a result, the City did not properly reconcile all allowable federal expenditures per the general ledger for the Supportive Housing Program to reimbursement requests to ensure that all allowable expenditures were being drawn down timely. The lack of an effective system of internal control could result in an instance where the City is no longer able to draw down federal funds.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the cash management compliance requirement. The City utilizes specific general ledger funds and cost centers to record all activities relative to the Supportive Housing Program. A reconciliation of expenditures incurred and paid as recorded in these general ledger funds and cost centers to the requests for reimbursement should be performed on a consistent, periodic basis and prior to any draw downs of federal funds to ensure compliance with the cash management compliance requirement.

View of Responsible Official and Corrective Action Plan – The City agrees with conditions found. The City's Federal Grants Section is in the process of implementing revised draw down policies and procedures. The Federal Grants Section will have several levels of review for cash management to establish an effective system of internal control. Each period of reimbursement for allowable federal expenditures will be reconciled to the general ledger, reviewed, and management will strengthen its review process to ensure draw down requests do not exceed actual expenditures. Reconciliations will be performed on a monthly basis and the Federal Grants Section will continue to work with the Department of Human Services to increase levels of communication, obtain timely submission of APR's, and to decrease possibilities of suspension of draw downs.

FINDING 2008-20

Federal Program Title – Supportive Housing Program
CFDA No. – 14.235
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – *MO36B201001, MO36B201003, MO36B201006, MO36B301002, MO36B301004, MO36B301005, MO36B301006, MO36B301007, MO36B301008, MO36B301009, MO36B301010, MO36B301011, MO36B401006, MO36B401007, MO36B401008, MO36B401009, MO36B401010, MO36B401011, MO36B401014, MO36B501004, MO36B501007, MO36B501008, MO36B501009, MO36B501010, MO36B501011, MO36B501013, MO36B501014*
Grant Award Periods – Various
Compliance Requirement – Procurement and Suspension and Debarment

Criteria – 2 Code of Federal Regulations (CFR) Part 180 states that non-Federal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. Covered transactions include all nonprocurement transactions (i.e., subawards to subrecipients), irrespective of award amount. Specifically, when entering into a covered transaction, the City must verify that the other party is not excluded or debarred by (a) checking the Excluded Party List System (EPLS), (b) collecting a certification from the entity, if allowed by the Federal agency responsible for the transaction, or (c) by adding a clause or condition to the covered transaction with the entity.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the procurement and suspension and debarment compliance requirement. The City did not have a mechanism in place, as prescribed above, for complying with the suspension and debarment requirements for covered transactions relative to subawards made to subrecipients. More specifically, the City did not verify that the entity was not excluded or debarred by checking the EPLS, collecting a certification or adding a clause or condition to the covered transaction with the entity.

Questioned Costs – There are no questioned costs as the subrecipients the City had covered transactions with were not suspended or debarred per review of the EPLS website.

Context – The condition found impacts all covered transactions with subrecipients for the Supportive Housing Program during the year ended June 30, 2008. Total expenditures for the year ended June 30, 2008 relative to subawards provided to subrecipients under the Supportive Housing Program were approximately $5,045,000. We subsequently tested all subrecipients with expenditures during the year ended June 30, 2008 by verifying whether or not any of these entities were suspended or debarred. None of the subrecipients selected for test work were suspended or debarred upon review of the EPLS.

Cause and Effect – The City did not have a mechanism in place, as prescribed above, for complying with the procurement and suspension and debarment compliance requirement for covered transactions relative to subawards made to subrecipients.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the procurement and suspension and debarment compliance requirement. We recommend the City establish processes and controls relative to ensuring covered transactions for subawards to subrecipients under the Supportive Housing Program are not entered into with suspended or debarred parties in accordance with 2 CFR Part 180.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. The City's Homeless Services Division will immediately establish a system of internal control to ensure compliance with the procurement and suspension and debarment compliance requirement. The Homeless Services Division will use the Excluded Parties List System (EPLS) to search for subcontractors not meeting the requirements. The search results will be included with the contracts. Also, the Homeless Services Division will include language in the contracts (similar to language in other contracts associated with the U.S. Department of Housing and Urban Development) regarding compliance with the procurement and suspension and debarment compliance requirement.

CFDA No. – 14.235
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Number – *MO36B201001, MO36B201003, MO36B201006, MO36B301002, MO36B301004, MO36B301005, MO36B301006, MO36B301007, MO36B301008, MO36B301009, MO36B301010, MO36B301011, MO36B401006, MO36B401007, MO36B401008, MO36B401009, MO36B401010, MO36B401011, MO36B401014, MO36B501004, MO36B501007, MO36B501008, MO36B501009, MO36B501010, MO36B501011, MO36B501013, MO36B501014*
Grant Award Periods – Various
Compliance Requirement – Reporting

Criteria – As set forth in 24 CFR Part 583, the City is required to prepare and submit Annual Progress Reports (HUD 40118) for each Supportive Housing Program grant received within 90 days after the end of the grant's operating year-end. Such Annual Progress Reports track program progress and accomplishments and contain both program-specific and financial data.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the reporting compliance requirement. Each subrecipient is required to prepare and submit an Annual Progress Report to the City, which in turn, submits the Annual Progress Report to the U.S. Department of Housing and Urban Development. Nineteen Annual Progress Reports related to fiscal year 2008 were required to be submitted, all of which were selected for test work. Of the nineteen Annual Progress Reports selected for test work, seven were submitted to the City by subrecipients after the date due to the U.S. Department of Housing and Urban Development and on two, the date submitted could not be readily determined.

Questioned Costs – There are no questioned costs.

Context – Of the nineteen Annual Progress Reports selected for test work, seven were submitted to the City by subrecipients after the date due to the U.S. Department of Housing and Urban Development. The following was noted:

- One Annual Progress Reports was submitted to the City by a subrecipient between one and ten days after the date due to the U.S. Department of Housing and Urban Development.
- Two Annual Progress Reports were submitted to the City by a subrecipient between eleven and twenty days after the date due to the U.S. Department of Housing and Urban Development.
- Two Annual Progress Reports were submitted to the City by a subrecipient between thirty and ninety days after the date due to the U.S. Department of Housing and Urban Development.
- Two Annual Progress Reports were submitted to the City by a subrecipient greater than ninety days after the date due to the U.S. Department of Housing and Urban Development.

Cause and Effect – Seven subrecipients for the Supportive Housing Program did not submit an Annual Progress Report to the City until after the date due to the U.S. Department of Housing and Urban Development. To the extent the City does not receive Annual Progress Reports from its subrecipients within required timeframes, the City is unable to submit timely Annual Progress Reports to the U.S. Department of Housing and Urban Development, which may result in the suspension of draw downs by the U.S. Department of Housing and Urban Development.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the reporting compliance requirement. The City needs to hold its subrecipients accountable for preparing and submitting the Annual Progress Reports in accordance with 24 CFR Part 583. Additionally, the City needs to maintain adequate supporting documentation and records related to the Annual Progress Reports.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. The City's Homeless Services Division continues to make efforts to establish an effective system of internal control to ensure compliance with the reporting compliance requirement. The City holds its subrecipients accountable for preparing and submitting the Annual Progress Reports in accordance with 24 CFR Part 583, including withholding payments until the agencies have complied with the requirements. On occasions, there are budget issues at the end of the contracts that will delay timely submission. Homeless Services will evaluate the causes of untimely submissions and submit it if necessary. HUD will provide technical assistance to the City to address this concern.

FINDING 2008-22

Federal Program Title – Lead Hazard Reduction Demonstration Grant Program (LEAD)
CFDA No. – 14.905
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Number – MOLHD0022-04 and MOLHD0145-06
Grant Award Period – October 1, 2004 through March 31, 2009 and April 15, 2007 through April 14, 2010, respectively
Compliance Requirement – Eligibility

Criteria – Title X, Section 1101 as amended by Section 217 of Public Law 104-134 contains the eligibility requirements for the LEAD program.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the eligibility compliance requirement. The City maintains a "checklist" for each lead remediation address. We noted that two of thirty files selected for test work did not have a completed checklist.

Questioned Cost – There are no questioned costs.

Context – Expenditures for the year ended June 30, 2008 that are other-than-payroll for the LEAD program were approximately $2,500,000.

Cause and Effect – At the time the two project files were started, the LEAD program had just started and the checklist had not yet been developed.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the eligibility compliance requirement and ensure the checklist is completed and maintained in each respective file.

View of Responsible Official and Corrective Action Plan – The two files in question did not have a checklist as the participants were among the first to participate in the City's Multi-Family Lead Remediation Program. As such, at the time that the program was established, the checklist had not been developed for this facet of the program. To correct this issue going forward, a new checklist will be established for all files and staff will be required to review work done by peers to verify that all of the eligibility items have been included within the file, and that the client is eligible. Staff will be required to sign off on cases handled by peers, and a case will not be allowed to proceed without appropriate staff review and sign off.

FINDING 2008-23

Federal Program Title – Lead Hazard Reduction Demonstration Grant Program (LEAD)
CFDA No. – 14.905
Federal Agency – U.S. Department of Housing and Urban Development – Direct Program
Federal Award Numbers – MOLHD0022-04 and MOLHD0145-06
Grant Award Periods – October 1, 2004 through March 31, 2009 and April 15, 2007 through April 14, 2010, respectively
Compliance Requirement – Reporting

Criteria – The grant agreement provisions for the LEAD program require the City to complete the Standard Form 269, Financial Status Report (FSR).

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the reporting compliance requirement. The City submitted quarterly FSR's for both LEAD awards. The following discrepancies were noted between the City's general ledger and the quarterly FSR's:

Grant MOLHD0022-04:

Quarter Ended	Per Form 269	Per G/L	Difference
9/30/2007	$548,333	$552,752	($4,419)
12/31/2007	695,959	761,602	(65,643)
3/31/2008	229,272	336,838	(107,566)
6/30/2008	350,448	490,463	(140,015)
Totals	$1,824,012	$2,141,655	($317,643)

Grant MOLHD0145-06:

Quarter Ended	Per Form 269	Per G/L	Difference
9/30/2007	$0	$90,545	($90,545)
12/31/2007	0	30,656	(30,656)
3/31/2008	344,148	597,129	(252,981)
6/30/2008	1,070,835	654,551	416,284
Totals	$1,414,983	$1,372,881	$42,102

Questioned Costs – The above table documents the discrepencies between the City's general ledger and the quarterly FSR's.

Context – The condition found impacts the quarterly FSR's. Total amounts reported in the FSR's for the MOLHD0022-04 award were $1,824,012 and the City's general ledger documented $2,141,655, resulting in an unreconciled difference of ($317,643). Additionally, total amounts reported in the

FSR's for the MOLHD0145-06 award were $1,414,983 and the City's general ledger documented $1,372,881, resulting in an unreconciled difference of $42,102.

Cause and Effect – The City's Community Development Administration (CDA) did not accurately reconcile and report amounts on the FSR's that agreed to the City's general ledger.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the reporting compliance requirement. We recommend the City establish processes and controls to ensure that the reports required by the grant agreements are completed accurately.

View of Responsible Official and Corrective Action Plan – CDA had prepared the SF-269 Financial Report based on the actual amount of funds drawdown through the LOCCS system. The rationale for this is based on the fact that after the City files its quarterly reports through HUD's Quarterly Progress Reporting System (QPRS), a Web-based reporting system, that HUD provides the City with a report card. A total of 35% of the score on the report card is based on the amount of funds drawn down through LOCCS as related to the quarterly benchmark standard. As such, it was our understanding that the report needed to reflect the actual amount of funds drawn down through LOCCS as opposed to the actual amount expended and reported on the general ledger.

To correct this issue going forward, we will comply with the reporting requirement, reconcile, and report amounts on the Financial Status Reports that agree to the City's general ledger. We will also contact HUD's Office of Healthy Homes and Lead Hazard Control and ask them if they want us to revise the reports in question, as it will require them to make changes within the QPRS.

Contact Telephone Number: (314) 622-4912

FINDING 2008-24

Federal Program – Shared Federally Forfeited Property Program
CFDA No. – 16.000
Federal Grantor – U.S. Department of Justice – Direct Program
Federal Award Number – MOSPD0024
Award Period – October 1, 2005 through September 30, 2008
Compliance Requirement – Reporting

Criteria – As established within the U.S. Department of Justice letter dated July 25, 2008 to Equitable Sharing Program Participants, the City is required to prepare and submit the Equitable Sharing Agreement and Certification form within 60 days of completion of the City's fiscal year. Within the Equitable Sharing Agreement and Certification, the City must report information on revenues received and expenditures incurred in conjunction with the Shared Federally Forfeited Property Program.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the reporting compliance requirement for the Shared Federally Forfeited Property Program. Specifically, the Equitable Sharing Agreement and Certification requires separate classification and presentation of various types of expenditures. While performing test work over the completeness and accuracy of the Equitable Sharing Agreement and Certification, it was identified that the City did not originally classify the following expenditures accurately:

Actual Classification	Amount
Overtime	$ 106,000
Body Armor and Protective Gear	47,000
Permissible Use Transfers	5,000
	$ 158,000

Questioned Costs – There are no questioned costs, as the conditions found relate solely to classification and presentation of expenditures. Prior to submission to the U.S. Department of Justice, the Department modified the presentation of expenditures related to body armor and protective gear and permissible use transfers. Additionally, the City disclosed the composition of other law enforcement expenditures within the Equitable Sharing Agreement and Certification.

Context – The City did not accurately classify $158,000 of Shared Federally Forfeited Property Program expenditures within its original Equitable Sharing Agreement and Certification. Total cash basis Shared Federally Forfeited Property Program expenditures reported within the Equitable Sharing Agreement and Certification for the year ended June 30, 2008 were $1,278,000.

Cause and Effect – The City did not have an effective system of internal control in place to ensure that all expenditures were accurately classified within the Equitable Sharing Agreement and Certification, which resulted in expenditures being inaccurately classified.

Recommendations – The City needs to establish an effective system of internal control to ensure all expenditures are accurately classified in the Equitable Sharing Agreement and Certification.

View of Responsible Official and Corrective Action Plan – The City agrees with the finding and the Director of Budget and Finance for the Metropolitan Police Department will review future submissions. This corrective action will be implemented for the Equitable Sharing Agreement and Certification due for the year ended June 30, 2009.

Contact Telephone Number: (314) 622-4912

FINDING 2008-25

Federal Program Title – Workforce Investment Act (WIA) Cluster
CFDA No. – 17.258; 17.259; and 17.260
Federal Agency – U.S. Department of Labor – passed through the Missouri Department of Economic Development - Division of Workforce Development
Federal Award Number – 10-06-06-08, 10-06-06-07 and 99-06-06-07
Grant Award Period – April 1, 2007 through June 30, 2008, April 1, 2006 through June 30, 2007, and July 1, 2006 through June 30, 2007, respectively
Compliance Requirement – Cash Management

Criteria – The City's WIA Cluster is funded on a reimbursement basis as set forth in the award with the Division of Workforce Development to prevent the accumulation of excess cash. As set forth in 45 CFR Part 92.21 and Treasury regulations 31 CFR Part 205, the City is required to pay program costs for the WIA Cluster before requesting reimbursement.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the cash management compliance requirement. The City draws down WIA Cluster funds several times each month. We noted the drawdowns for the following months exceeded expenditures per the general ledger as follows:

Month	Expenditures per General Ledger	Request for Reimbursement	Cash Surplus
December 2007	$1,165,622	$1,167,197	$ 1,575
February 2008	595,589	595,614	25
June 2008	860,073	883,818	23,745

Questioned Costs – Known questioned costs are $18,347 (the equivalent of the total cash surplus less cash deficits throughout the fiscal year ended June 30, 2008), which represents the cumulative cash on hand as of June 30, 2008 relative to 2008 fiscal year expenditures.

Context – Known questioned costs are $18,347 and total accrual-basis expenditures for the year ended June 30, 2008 are $8,148,149 per the Schedule of Expenditures of Federal Awards (SEFA).

Cause and Effect – The City had cash on hand during and subsequent to, the year ended June 30, 2008 as a result of not appropriately reconciling its expenditures incurred to reimbursement requests and funds received from the Division of Workforce Development.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the cash management compliance requirement. The City should ensure that it appropriately reconciles expenditures incurred for the WIA program to reimbursement requests and cash received from the Division of Workforce Development in an effort to mitigate the risk of having excess cash on hand.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. SLATE does weekly drawdowns using the online AIMS report. At the end of the month the accountant who does the drawdowns and the accountant who does the state reporting (Contract Progress Report) reconciles both the g/l expenses and the CPR and makes adjustments accordingly to the final drawdown for the month.

FINDING 2008-26

Federal Program Title – Workforce Investment Act (WIA) Cluster
CFDA No. – 17.258; 17.259; and 17.260
Federal Agency – U.S. Department of Labor – passed through the Missouri Department of Economic Development - Division of Workforce Development
Federal Award Number – 10-06-06-08, 10-06-06-07 and 99-06-06-07
Grant Award Period – April 1, 2007 through June 30, 2008, April 1, 2006 through June 30, 2007, and July 1, 2006 through June 30, 2007, respectively
Compliance Requirement – Eligibility

Criteria – The City's WIA grant is passed through the Missouri Department of Economic Development – Division of Workforce Development (State). U.S. Department of Labor Regulation 20 CFR 667.410 (b) (6) authorizes the State to issue additional requirements and instructions. The State issued DWD Issuance 02-01 which imposed additional requirements relative to eligibility on the City.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the eligibility compliance requirement. Paragraph 8 of DWD Issuance 02-01 requires the City to sample a minimum of 51 files when the participant universe is between 1 and 200. The City's Younger Youth program population for the fiscal year ended June 30, 2008 was 95 but only 20 files were sampled by the City for the Younger Youth program.

Questioned Costs – There are no questioned costs.

Context – The City's Younger Youth program population for the fiscal year ended June 30, 2008 was 95 but only 20 files were sampled by the City.

Cause and Effect – The City experienced turnover in a key position that dealt with the eligibility compliance requirement and an oversight was made relative to the State's DWD Issuance 02-01 requirement.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the eligibility compliance requirement. The City should ensure that it appropriately samples the required number of files in accordance with the State's DWD Issuance 02-01.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. SLATE will, in the future, ensure that the correct percentage of files are reviewed.

FINDING 2008-27

Federal Program Title – Workforce Investment Act (WIA) Cluster
CFDA No. – 17.258; 17.259; and 17.260
Federal Agency – U.S. Department of Labor – passed through the Missouri Department of Economic Development - Division of Workforce Development
Federal Award Number – 10-06-06-08, 10-06-06-07 and 99-06-06-07
Grant Award Period – April 1, 2007 through June 30, 2008, April 1, 2006 through June 30, 2007, and July 1, 2006 through June 30, 2007, respectively
Compliance Requirement – Subrecipient Monitoring

Criteria – As set forth in United States Code (USC) 7502 and OMB Circular A-133, the City is required to perform subrecipient monitoring. The City is responsible for ensuring the federal award information and compliance requirements are identified and provided to subrecipients and also for monitoring subrecipient activities to ensure compliance with applicable laws and regulations.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the subrecipient monitoring compliance requirement. One of the City's primary mechanisms for subrecipient monitoring for the WIA Cluster occurs through the performance of fiscal monitoring, which includes a site visit and occurs on a periodic rotational basis. Supplemental subrecipient monitoring procedures for the WIA Cluster occur each fiscal year, including reviews of requests for reimbursement and reviews of OMB Circular A-133 Single Audit reports for subrecipients subject to the provisions of OMB Circular A-133. In order to track subrecipients for fiscal monitoring, the City's Internal Audit Department maintains a spreadsheet whereby all subrecipients and contracts of the WIA Cluster to be listed (and all information contained in the spreadsheet is accurate regarding CFDA numbers, etc.) to ensure that appropriate monitoring occurs. We noted that 29 contracts with subrecipients were not specifically listed on the spreadsheet.

Questioned Cost – There are no questioned costs.

Context – The condition found impacts the subrecipients within the WIA Cluster. Total expenditures for the year ended June 30, 2008 relative to subrecipients were approximately $5,500,000. The subrecipient contracts not included on the spreadsheet had approximately $1,250,000 in expenditures.

Cause and Effect – There was a communication breakdown between the City's St. Louis Agency on Training and Employment Department and the City's Internal Audit Department regarding which subrecipient contracts had been entered into and were expected to have WIA Cluster expenditures during the fiscal year ended June 30, 2008.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the subrecipient monitoring compliance requirement. The City should ensure that the spreadsheet used to track all subrecipeints of the WIA Cluster is accurate and complete with all necessary information.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. SLATE is working with Internal Audit to ensure that all contracts are tracked. Internal Audit is receiving copies of all new or modified contracts and the SLATE accountants will be checking regularly to verify that Internal Audit has a listing of all contracts.

FINDING 2008-28

Federal Program Title – Temporary Assistance for Needy Families (TANF) Program
CFDA No. **–** 93.558
Federal Agency – U.S. Department of Health and Human Services – passed through the Missouri Department of Economic Development - Division of Workforce Development
Federal Award Number – 99-06-06-08
Grant Award Period – July 1, 2007 through June 30, 2008
Compliance Requirement – Period of Availability

Criteria – Per OMB Circular A-110, Part 205.28, when a funding period is specified within grant agreements and amendments, the City may charge to the grant only allowable costs resulting from obligations incurred during the funding period authorized by the Federal awarding agency or pass-through entity.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the period of availability compliance requirement. One of 31 expenditures selected for test work related to an expenditure incurred before the period of availability contained in the award document for the grant period and fiscal year ended June 30, 2008. Specifically, the expenditure related to a reimbursement request from a subrecipient for expenditures incurred prior to the fiscal year ended June 30, 2007, and no accrual was made in the prior year. The invoice from the subrecipient, which related to the grant period and fiscal year ended June 30, 2007, was not received by the City until February 2008 and was charged to the 2008 TANF program.

Questioned Costs – Known questioned costs related to subrecipient expenditures incurred prior to the period of availability specified in the award document are $4,975.

Context – The condition found related to a subrecipient expenditure incurred prior to the period of availability specified in the award document.

Cause and Effect – The City did not have an effective system of internal control in place to ensure compliance with the period of availability compliance requirement related to subrecipient expenditures received subsequent to fiscal year end. As a result, federal funds were expended prior to the period of availability for the grant year and fiscal year ended June 30, 2008.

Recommendations – We recommend the City strengthen its existing processes and controls relative to ensuring federal expenditures are within the period of availability and in accordance with OMB Circular A-110, Part 205.28.

View of Responsible Official and Corrective Action Plan – The City agrees with the conditions found. SLATE is working with the State of Missouri and the City Comptroller's office to ensure that implementation time of new programs and the reimbursement of the same is done in a more timely matter so that reimbursement can occur in the period of availability.

FINDING 2008-29

Federal Program Title – Temporary Assistance for Needy Families (TANF) Program
CFDA No. **–** 93.558
Federal Agency – U.S. Department of Health and Human Services – passed through the Missouri Department of Economic Development - Division of Workforce Development
Federal Award Number – 99-06-06-08
Grant Award Period – July 1, 2007 through June 30, 2008
Compliance Requirement – Subrecipient Monitoring

Criteria – As set forth in United States Code (USC) 7502 and OMB Circular A-133, the City is required to perform subrecipient monitoring. The City is responsible for ensuring the federal award information and compliance requirements are identified and provided to subrecipients and also for monitoring subrecipient activities to ensure compliance with applicable laws and regulations.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the subrecipient monitoring compliance requirement. One of the City's primary mechanisms for subrecipient monitoring for the TANF Program occurs through the performance of fiscal monitoring, which includes a site visit and occurs on a periodic rotational basis. Supplemental subrecipient monitoring procedures for the TANF Program occur each fiscal year, including reviews of requests for reimbursement and reviews of OMB Circular A-133 Single Audit reports for subrecipients subject to the provisions of OMB Circular A-133. In order to track subrecipients for fiscal monitoring, the City's Internal Audit Department maintains a spreadsheet whereby all subrecipients and contracts of the TANF Program are to be listed (and all information contained in the spreadsheet is accurate regarding CFDA numbers, etc.) to ensure that appropriate monitoring occurs. We noted that seven contracts with subrecipients were not listed on the spreadsheet.

Questioned Cost – There are no questioned costs.

Context – The condition found impacts the subrecipients within the TANF Program. Total expenditures for the year ended June 30, 2008 relative to subrecipients were approximately $3,000,000. The subrecipient contracts not included on the spreadsheet had approximately $420,000 in expenditures.

Cause and Effect – There was a communication breakdown between the City's St. Louis Agency on Training and Employment Department and the City's Internal Audit Department regarding which subrecipient contracts had been entered into and were expected to have TANF expenditures during the fiscal year ended June 30, 2008.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the subrecipient monitoring compliance requirement. The City should ensure that the spreadsheet used to track all subrecipeints of the TANF Program is accurate and complete with all necessary information.

View of Responsible Official and Corrective Action Plan – SLATE is working with Internal Audit to ensure that all contracts are tracked. Internal Audit is now receiving copies of all new or modified contracts and the SLATE accountants will be checking regularly to verify that Internal Audit has a listing of all contracts.

Contact Name: John Zakibe, Deputy Comptroller
Contact Telephone Number: (314) 622-4912

FINDING 2008-30

Federal Program Title – Human Immunodeficiency Virus (HIV) Emergency Relief Project Grants
CFDA No. – 93.914
Federal Agency – U.S. Department of Health and Human Services – Direct Program
Federal Award Numbers – H89HA00033-14-02 and H89HA00033-15-00
Grant Award Periods – March 1, 2007 through February 28, 2008 and March 1, 2008 through February 28, 2009, respectively
Compliance Requirement – Cash Management

Criteria – The City's HIV grant is funded on a reimbursement basis. As set forth in 45 CFR Part 92.21 and Treasury regulations 31 CFR Part 205, the City is required to pay program costs for the HIV grant before requesting reimbursement from the federal government.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the cash management compliance requirement. The City did not properly reconcile all allowable federal expenditures per the general ledger for the HIV program to reimbursement requests to ensure that amounts in excess of expenditures were not drawn down or that all allowable expenditures were being drawn down on a timely basis.

Questioned Cost – There are no questioned costs.

Context – The general ledger reflects approximately $4,590,000 in expenditures for the HIV program for the year ended June 30, 2008. For the quarters ended September 30, 2007 and December 31, 2007, the City drew down for more expenditures than what was evidenced by the general ledger in the amounts of approximately $3,700 and $12,900, respectively.

Cause and Effect – The City's Federal Grants department experienced employee turnover during the fiscal year ended June 30, 2008, which resulted in vacancies in key positions relative to the draw down process for reimbursement of federal expenditures. The noncompliance noted above occurred because an 8% administrative allowance was added to invoices that were not eligible for the administrative allowance and one voucher was requested for reimbursement twice.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the cash management compliance requirements. The City utilizes a specific general ledger fund and cost center to record all activities relative to the HIV program. A reconciliation of expenditures incurred and paid as recorded in the general ledger fund and cost center to the requests for reimbursement should be performed on a consistent, periodic basis and prior to any draw downs of federal funds to ensure compliance with the cash management compliance requirement.

View of Responsible Official and Corrective Action Plan – The City agrees with conditions found. The City's Federal Grants Section is in the process of implementing revised draw down policies and procedures. The Federal Grants Section will have several levels of review for cash management to establish an effective system of internal control. Each period of reimbursement for allowable federal expenditures will be reconciled to the general ledger, reviewed, and management will strengthen its review process to ensure draw down requests do not exceed actual expenditures. Reconciliations will be performed on a monthly basis and the Federal Grants Section will continue to work with the Department of Health to increase levels of communication. The Federal Grants Section is current with reconciling all allowable federal expenditures to the general ledger for the HIV grant.

Grant Award Periods – March 1, 2007 through February 28, 2008 and March 1, 2008 through February 28, 2009, respectively
Compliance Requirement – Reporting

Criteria – As set forth in 45 CFR part 92.41 and the applicable grant awards noted above, the City must prepare and submit on a quarterly basis, a Form 272 - Federal Cash Transaction Report.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the reporting compliance requirement. The City did not accurately report the amount of cash on hand at the end of the period on the January 1, 2008 to March 31, 2008 quarterly Form 272.

Questioned Cost – There are no questioned costs.

Context – The amount of cash on hand at the end of the period on the January 1, 2008 to March 31, 2008 quarterly Form 272 should have been $(494,016) but was listed as $0.

Cause and Effect – A clerical error occurred by the preparer of the Form 272 and the management review of the Form 272's did not function effectively in identifying the error.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the reporting compliance requirement. We recommend the City establish processes and controls to ensure that the quarterly Federal Cash Transaction Reports are accurately completed and reviewed by someone other than the preparer prior to submission to the Division of Payment Management.

View of Responsible Official and Corrective Action Plan – The City partially agrees with condition found. The amount of cash on hand at the end of period on January 1, 2008 to March 31, 2008 was accurate. After the request for reimbursement in the amount of $1,812,203.16 was reversed by the Federal Grants Section, the balance returned to ($494,016) on the revised 272 report.

Contact Telephone Number: (314) 622-4912

FINDING 2008-32

Federal Program Title – Human Immunodeficiency Virus (HIV) Emergency Relief Project Grants
CFDA No. – 93.914
Federal Agency – U.S. Department of Health and Human Services – Direct Program
Federal Award Numbers – H89HA00033-14-02 and H89HA00033-15-00
Grant Award Periods – March 1, 2007 through February 28, 2008 and March 1, 2008 through February 28, 2009, respectively
Compliance Requirement – Subrecipient Monitoring

Criteria – As set forth in 31 United States Code (USC) 7502 and OMB Circular A-133, the City is required to perform subrecipient monitoring. The City is responsible for ensuring the federal award information and compliance requirements are identified to subrecipients and also for monitoring subrecipient activities to ensure compliance with applicable laws and regulations.

Conditions Found – The City did not have an effective system of internal control in place to ensure compliance with the subrecipient monitoring compliance requirement. One of the City's primary mechanisms for subrecipient monitoring for the HIV Emergency Relief Project Grants occurs through the performance of fiscal monitoring, which includes a site visit and occurs on a periodic rotational basis. Supplemental subrecipient monitoring procedures for the HIV Emergency Relief Project Grants occur each fiscal year, including reviews of requests for reimbursement and reviews of OMB Circular A-133 Single Audit reports for subrecipients subject to the provisions of OMB Circular A-133. In order to track subrecipients for fiscal monitoring, the City's Internal Audit Department maintains a spreadsheet whereby all subrecipients of the HIV Emergency Relief Project Grants are to be listed to ensure that appropriate monitoring occurs on each subrecipient. We noted that one subrecipient was not listed on the spreadsheet.

Questioned Cost – There are no questioned costs.

Context – The condition found impacts the subrecipients within the HIV Emergency Relief Project Grants. Total expenditures for the year ended June 30, 2008 relative to subrecipients were approximately $4,200,000. The subrecipient not included on the spreadsheet had approximately $2,000 in expenditures.

Cause and Effect – There was a communication breakdown between the City's Department of Health and the City's Internal Audit Department regarding the notification that a subrecipient agreement had been entered into for the subrecipient that was not included on the spreadsheet.

Recommendations – The City needs to establish an effective system of internal control to ensure compliance with the subrecipient monitoring compliance requirement. The City should ensure that the spreadsheet used to track all subrecipients of the HIV Emergency Relief Project Grants is accurate and complete.

View of Responsible Official and Corrective Action Plan – The City of St. Louis Department of Health (DOH) agrees with the Subrecipient Monitoring audit finding as cited. Currently the Subrecipient Monitoring responsibilities reside with Internal Audit via an Interdepartmental Agreement. DOH and Internal Audit meet on a monthly basis to discuss the status of DOH subrecipient monitoring. The Subrecipient Log, prepared by DOH staff, was periodically forwarded to Internal Audit rather than at each monthly DOH / Internal Audit meeting.

The DOH will include the Subrecipient Log as an item on each monthly DOH / Internal Audit meeting agenda to ensure that Internal Audit has an accurate and complete Subrecipient Log.

AMTRAK®

"MOVING ST. LOUIS FORWARD"

2008

CITY OF ST. LOUIS, MISSOURI

COMPREHENSIVE ANNUAL FINANCIAL REPORT

YEAR ENDED JUNE 30

GATEWAY TRANSPORTATION CENTER

THE GATEWAY TRANSPORTATION CENTER

The Gateway Transportation Center is the city of St. Louis' $27 million state-of-the-art multimodal transportation hub operated by the City of St. Louis Comptroller's Office, led by Comptroller Darlene Green. It is conveniently located in the heart of downtown St. Louis where Amtrak, Greyhound, MetroLink and MetroBus service converge. This new facility provides passengers with a clean, safe, and friendly transportation center featuring 24-hour operations staff, security and food service. For more information, visit the website at www.stlouis.missouri.org/citygov/comptroller.

AMTRAK SERVICE

At St. Louis, Amtrak offers five daily round-trips to and from Chicago, two daily round-trips to and from Kansas City and one daily round-trip to and from Arkansas and Texas. Amtrak passengers also have a daily shuttle connecting St. Louis with Carbondale, Ill., and a daily train to and from New Orleans. For ticket and schedule information call 1-800-USA-RAIL or visit the website at www.amtrak.com.

GREYHOUND SERVICE

From the Gateway Transportation Center, Greyhound offers 35 daily schedules to destinations across the United States, including Chicago, Memphis, Nashville, New York, Kansas City, Denver, Springfield and Los Angeles. For fare and schedule information and to buy tickets, call 1-800-231-2222 or visit the website at www.greyhound.com.

METRO SERVICE

The MetroLink Civic Center station (located adjacent to the Gateway Transportation Center) offers daily arrivals and departures to destinations like Lambert Airport, Scott Air Force Base and Shrewsbury. The MetroBus terminal (located just east of the GTC) offers daily routes to destinations throughout the St. Louis metro area. For a complete listing of all MetroLink and MetroBus routes, visit the website at www.metrostlouis.org or call (314) 231-2345 from Missouri or (618) 271-2345 from Illinois.

December 31, 2008

The Honorable Francis G. Slay, Mayor
The Honorable Members of the Board of Aldermen
and the Citizens of the City of St. Louis, Missouri:

The Comprehensive Annual Financial Report of the City of St. Louis, Missouri (City) for the fiscal year ended June 30, 2008 is hereby submitted.

This report has been prepared pursuant to, and to demonstrate compliance with, Article VIII, Section 10, of the City Charter. The Comprehensive Annual Financial Report (CAFR) is in conformance with the standards for financial reporting of the Governmental Accounting Standards Board (GASB) and the Government Finance Officers Association of the United States and Canada (GFOA).

Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operation. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The City's basic financial statements have been audited by KPMG LLP, an independent certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the basic financial statements of the City for the fiscal year ended June 30, 2008, are free of material misstatement. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City's basic financial statements for the fiscal year ended June 30, 2008, are fairly presented in conformity with Generally Accepted Accounting Principles (GAAP). The independent auditors' report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD & A). This letter of transmittal is designed to compliment MD & A and should be read in conjunction with it. The City's MD & A can be found immediately following the report of the independent auditors.

ACCOUNTING SYSTEM, INTERNAL CONTROLS, AND BUDGETARY CONTROL

The City utilizes a fully computerized Accounting Information Management System (AIMS). This system is based on a single input of information. The AIMS system provides: 1) integrated, general and subsidiary accounting of all funds; 2) appropriation/encumbrances accounting and control; and 3) the ability to generate cost/expenditure data in a multitude of formats useful for budgetary control and other managerial purposes.

In developing and evaluating the City's accounting system, consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding:

- The safeguarding of assets against loss from unauthorized use or disposition, and
- The reliability of financial records for preparing financial statements and maintaining accountability for assets.
- The concept of reasonable assurance recognizes that:
  - The cost of a control should not exceed the benefits likely to be derived, and
  - The evaluation of assets and benefits requires estimates and judgements by management.

All internal control evaluations occur within this framework. Therefore, the Comptroller's Office believes that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Through annual appropriations, the City maintains budgetary control at the fund level. Cost classifications are categorized in the following groups: personnel services, materials and supplies, rental and non-capital leases, non-capital equipment, capital assets, contractual and other services, and debt service and special extraordinary items.

Encumbrances are recorded by the Control Section (or in some cases by the requesting department) through an on-line budgetary control module before requisitions are sent to the Purchasing Division. If sufficient appropriations are not available to cover a purchase, the requisitions is returned to the originating department for transfer of appropriations between departments with prior approval of the Board of Estimate and Apportionment (E&A). A formal monthly expense monitoring procedure has been established to help eliminate rejected requisitions and related cancellations, and to minimize line item transfers. Encumbrances are detailed for current year budgetary presentations. While appropriation balances lapse at the end of the fiscal year, appropriation balances for encumbrances remain.

Within the Strategic Financial Plan for the city, major controls that, among other things, guide city officers in their deliberation over the financial wisdom of potential actions. One of those controls requires the city to informally reserve a minimum of 5% of the next year's general fund expenditures for appropriation only under severe circumstances. The reserve effectively reduces the funds available for appropriation.

BUDGET PROCESS

The City's fiscal year is July 1 through June 30. The budget process begins in the preceding December with a revenue forecast for the upcoming fiscal year. By February, department budget requests are submitted to the Budget Division, and the review process begins immediately.

The Budget Division works closely with E&A in developing, within forecasted revenue constraints, the proposed budget. By law, E&A must recommend a balanced budget to the Board of Aldermen (the Board), the City's legislative body, sixty days prior to the start of a new fiscal year. The Board may decrease but not increase any recommended appropriation amount. The Board, however, may recommend changes in the proposed budget. Any changes must be mutually agreed upon between the Board and E&A. If a budget cannot be agreed upon prior to July 1, the final budget presented by E&A becomes the official budget.

As part of the long-term financial planning, the Budget Division prepares a 5-year projection of revenues and expenditures. The projection is based on known challenges facing the city as well as straight-line growth based on recent history. No formal action is taken on the projections.

ECONOMIC OUTLOOK

The City is the core of a sixteen county metropolitan area covering parts of both Missouri and Illinois (MSA). It is the employment and entertainment center of an area containing a population of more than 2.8 million residents. The downtown area is the office center, with over 11 million square feet of Class A and B office space. According to the Missouri Department of Labor and Industrial Relations there are approximately 1.3 million non-agricultural jobs in the MSA. Although the distribution of jobs across industry sectors has resulted in a decline in the City's share of jobs in the metropolitan area, the City remains a significant source of jobs in the region with nearly 16.9% of all the jobs. Job growth in the City has been in the service sector and the expectation is that long term employment growth in the City will be in the areas of medical and business services, as well as convention and tourism business and education.

RISK MANAGEMENT

The City uses a combination of insurance and self-insurance for risk protection. Certain coverage has been obtained for high-risk activities or as required by law. All general liability cases are handled by the City Counselor's Office. The City's staff of attorneys attempts to settle or defend all claims made against the City. Each year an appropriation is made to a judgement account which is segregated in the Public Facilities Protection Corporation (PFPC), a not-for-profit corporation. PFPC implements programs to assure continued municipal and governmental services, which could be jeopardized by the escalating costs of insurance and /or exposure to claims and judgements that exceed fiscal abilities. It is administered by three City officials representing the Office of the Comptroller, the City Counselor's Office and the Budget Division, and treated as a blended component unit of the City. These officials are responsible for obtaining and maintaining adequate funding and reserves.

RISK MANAGEMENT (Continued)

Additionally, PFPC administers all workers' compensation liabilities. A third party administrator was contracted to process all claims and make recommendations regarding workers' compensation concerns. The utilization of a third party administrator working with improved City safety efforts has resulted in a reduction in the number and severity of workers' compensation claims. This has also enabled the City to more timely process claims and payments, as well as provide more timely and accurate statistical data.

INTERNAL AUDIT

It is the special responsibility of the Comptroller, as set out in the Charter, to provide City officials and taxpayers with reasonable assurance that public funds and property are adequately safeguarded and that financial transactions are authorized and properly recorded.

The Comptroller's internal audit staff audits various departments within the City testing for the methods employed by the department to safeguard the assets, ensuring the reliability of the accounting data, promoting efficient operations and ensuring compliance with established ordinances and the City Charter. Audits may also be performed on various corporations and not-for-profit organizations to ensure compliance with the various contractual agreements with the City. In addition to audits, the internal audit staff reviews the revenue collection procedures established by those departments and employees who receive or collect City revenue. As a result of these audits and reviews, the internal auditors develop recommendations of procedures that should be implemented to improve internal controls. These audits and reviews are performed on a continual basis.

CERTIFICATE OF ACHIEVEMENT

The City's CAFR for the fiscal year ended June 30, 2007 was awarded the Certificate of Achievement for Excellence in Financial Reporting from the GFOA. This is the twenty-first year the City has received this prestigious award.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. The report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for one year only. We believe that our current CAFR will continue to meet the Certificate of Achievement Program requirements and we will be submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENT

I would like to express my appreciation to the staff members of the Comptroller's Office for their many hours in the preparation of this report. I also extend my appreciation to the independent accounting firm of KPMG LLP for their professional service. Contributions to the completion and publication of this financial history were made by staff of other departments to whom I also express my appreciation.

Respectfully submitted,

Darlene Green

Independent Auditor's Report

Honorable Mayor and Members of
the Board of Aldermen of the
City of St. Louis, Missouri:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of St. Louis, Missouri, as of and for the year ended June 30, 2008, which collectively comprise the City of St. Louis, Missouri's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of St. Louis, Missouri's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the pension trust funds, St. Louis Development Corporation and Forest Park Forever, Inc. The assets and additions/revenues of the pension trust funds represent 92% and 72% of the assets and additions/revenues, respectively of the aggregate remaining fund information. The assets and revenues of the St. Louis Development Corporation and Forest Park Forever, Inc. represent 62% and 12% of the assets and revenues, respectively, of the aggregate discretely presented component units. The financial statements of the pension trust funds, St. Louis Development Corporation and Forest Park Forever, Inc. were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts includes for those funds and discretely presented component units, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the pension trust funds and Forest Park Forever, Inc. were not audited in accordance with *Government Auditing Standards*. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City of St. Louis, Missouri's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit, and the reports of other auditors, provides a reasonable basis for our opinions.

In our opinion, based upon our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of St. Louis, Missouri, as of June 30, 2008, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in conformity with U.S. generally accepted accounting principles.

Effective July 1, 2007, the City of St. Louis, Missouri implemented Governmental Accounting Standards Board Statements No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues,* and No. 50, *Pension Disclosures*. Effective July 1, 2007, the Metropolitan Police Department of the City of St. Louis, Missouri implemented Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2008, on our consideration of the City of St. Louis, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 19, the Budgetary Comparison Information on pages 149 through 154, and the Retirement Systems and Other Postemployment Benefit Plan Information on pages 155 through 156 are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of St. Louis, Missouri's basic financial statements. The combining and individual fund financial statements and schedules – additional supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

KPMG LLP

St. Louis, Missouri
December 31, 2008

CITY OF ST. LOUIS
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2008

As management of City of St. Louis, Missouri (the City), we offer readers of the City's Comprehensive Annual Financial Report this narrative overview and analysis of the City for the fiscal year ended June 30, 2008. The information presented here should be read in conjunction with our letter of transmittal and the City's financial statements including footnotes.

FINANCIAL HIGHLIGHTS (excluding discretely presented component units)

- On a government-wide basis the City's total assets exceeded its liabilities for the current fiscal year by $1.4 billion.

- Governmental activities and business-type activities had net assets of $213.8 million and $1.2 billion, respectively.

- The cost of services for the City's governmental activities was $689.3 million in fiscal year 2008 (excluding interest and fiscal charges).

- As of June 30, 2008, the City's governmental funds reported combined ending fund balances of $279 million. Of this amount, $66.8 million is unreserved fund balance.

- The unreserved fund balance for the general fund was $33.7 million or 5.8% of total general fund expenditures.

- In fiscal year 2008, the City issued $324.9 million in long-term debt to finance projects and refund debt. There was a net increase of $157.1 million or 9.8% in bond debt during the current fiscal year.

- Net pension obligations/assets changed by $124.7 million due to the difference between the actuarial determined pension contributions to the three pension funds and the amounts actually contributed.

- Tax increment financing (TIF) debt increased liabilities in the amount of $22.7 million. There is no related asset for TIF debt, so net increases in TIF debt reduce unrestricted net assets by an equal amount.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances using accounting methods similar to those used by private sector business.

The **Statement of Net Assets** presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Increases and decreases in net assets may serve as a useful indicator of whether or not the financial position of the City is improving or deteriorating.

The **Statement of Activities** presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus revenues and expenses reported in this statement for some items will only result in cash flows in future fiscal periods (for example, uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and inter-governmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities).

The governmental activities of the City include general government, convention and tourism, parks and recreation, judicial, streets, public safety (fire, police, other), health and welfare, public service, community development as well as interest and fiscal charges. The business-type activities of the City include an airport, water division, and parking division.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate redevelopment agency, a legally separate police department for which the City is financially accountable, a legally separate corporation that owns and leases the downtown steam loop, and a not-for–profit corporation whose primary purpose is to promote and rebuild a major park owned by the City. Financial information for these component units is reported separately from the financial information presented for the primary government.

The government-wide financial statements also include blended component units within the primary government because of their governance. Included within the governmental activities of the government-wide financial statements are the operations of the Public Facilities Protection Corporation (PFPC), St. Louis Municipal Finance Corporation, and St. Louis Parking Commission Finance Corporation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

1. *Governmental Funds.* Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of a fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The City maintains several individual governmental funds according to their type (general, special revenue, debt service, and capital projects). Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, capital projects fund, and grants fund, which are considered to be major funds. Individual fund data for each of the non-major governmental funds is provided in the form of combining statements.

2. *Proprietary Funds*. Proprietary funds offer short-term and long-term financial information about services for which the City charges customers, both external customers and internal departments of the City. The City maintains the following two types of proprietary funds:

   - *Enterprise Funds* are used to report information similar to business-type activities in the government-wide financial statements. The City uses the enterprise funds to account for the operations of the Lambert-St. Louis International Airport (Airport), Water Division, and the Parking Division.

   - *Internal Service Funds* are used to report activities that provide supplies and services for certain City programs and activities. The City uses internal service funds to account for its mail handling services, for payment of workers' compensation and various other claims, and health insurance.

3. *Fiduciary Funds.* Fiduciary funds are used to account for resources held for the benefit of individuals or units outside of the City. The City is the trustee or fiduciary responsible for assets that can be used only for the trust beneficiaries per trust arrangements. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. The City's pension trust funds and agency funds are reported under the fiduciary funds. Since the resources of these funds are not available to support the City's own programs, they are not reflected in the government-wide financial statements.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and notes to the financial statements, this report presents required supplementary information concerning the City's budgetary comparisons for the general fund and required supplementary information pertaining to the Firemen's Retirement System of St. Louis, the Police Retirement System of St. Louis and the Employees' Retirement System of the City of St. Louis pension trust funds and other post-employment benefits of the Police Department.

Combining Statements

The combining statements provide fund level detail for all non-major governmental funds, internal service funds, pension trust funds, and agency funds.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

Net assets. The City's combined net assets for fiscal years 2008 and 2007 were $1.4 billion and $1.5 billion, respectively. Looking at the net assets of governmental and business-type activities separately provides additional information.

The City of St. Louis, Missouri
Schedule of Net Assets Summary
June 30, 2008 and 2007
(dollars in millions)

	Governmental Activities		Business-type Activities		Total	
	2008	2007	2008	2007	2008	2007
Assets:						
Current and other assets	$ 508.2	372.2	385.1	369.7	893.3	741.9
Capital assets	780.6	774.9	1,873.7	1,906.0	2,654.3	2,680.9
Total assets	1,288.8	1,147.1	2,258.8	2,275.7	3,547.6	3,422.8

ANALYSIS OF NET ASSETS

As noted earlier, net assets may serve as a useful indicator of a government's financial position. For the City, assets exceeded liabilities by $1.4 billion in the current year and $1.5 billion in the previous year.

Of the largest portion of the City's net assets totaling $1.4 billion, 98.3% reflects its investments of capital assets (for example, infrastructure, land, buildings, and equipment), less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be liquidated for these liabilities.

Included in the City's total net assets at the end of fiscal year 2008 and fiscal 2007, respectively, is $360.1 million and $240.0 million, which represent resources that are subject to external restrictions on how they may used.

Total unrestricted net assets decreased by $113.8 million for the year ended June 30, 2008. Consequently, unrestricted governmental activities net assets showed a $359.3 million deficit at the end of 2008 as compared with a $253.2 million deficit in 2007. This deficit does not mean that the City does not have resources available to pay its bills next year. Rather, it is the result of having long-term commitments that are greater than currently available resources. For example, the City's policy and practice is to budget for certain long-term expenses as they come due. Specifically, the City did not include in past annual budgets the full amounts needed to finance future liabilities arising from property and casualty claims and amounts to pay for unused employee vacation and sick days. The City will continue to include these amounts in future year's budgets as they come due.

In addition, three particular features of the City's recent financial activity affected the deficit in unrestricted governmental net assets. These activities over the past several years reflect debt to provide development stimulus for which the City received no offsetting asset. They include the following:

- Section 108 loan agreements, $56 million
- Joint venture financing agreement for the expansion of the convention center, $61 million
- Tax increment financing debt for economic development projects in the amount of $137 million

Also, other financial activity effecting unrestricted governmental net assets in which no capital asset is associated with the debt issued is:

- Pension funding projects (Leasehold revenue bonds) $159.5 million

Although the net assets of the business-type activities account for 85.1% of overall net assets, these resources cannot be used to make up for the unrestricted net asset deficit in governmental activities. The City generally can only use these net assets to finance the continuing operations of the Airport, Water Division, and the Parking Division.

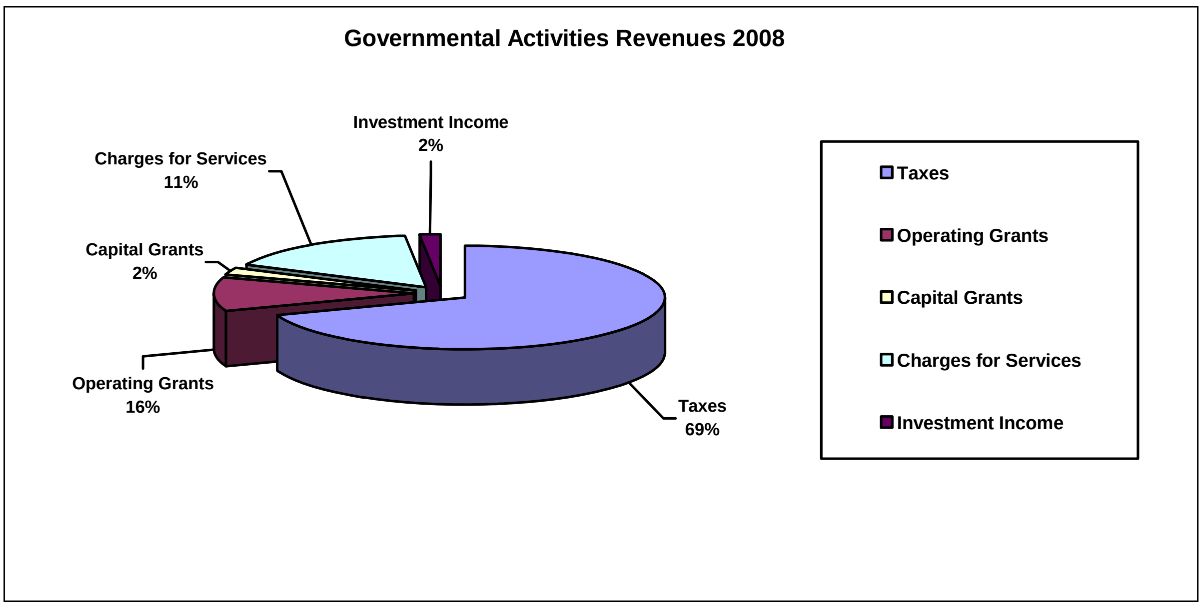
Changes in net assets. The City's total revenue on a government-wide basis was $951.3 million, an increase of $10.9 million over the previous year. Taxes represent 49.8% of the City's revenue as compared with 47.6% last year. Additionally, 35.2% comes from fees charged for services, the same as the previous year's. The remainder is state and federal aid, interest earnings, and miscellaneous revenues.

The total cost of all programs and services was $1,014.6 million, an increase from $951.6 million last year. The City's expenses cover a range of typical City/county services. The largest program was the Airport. The program with the largest burden on general revenues was public safety.

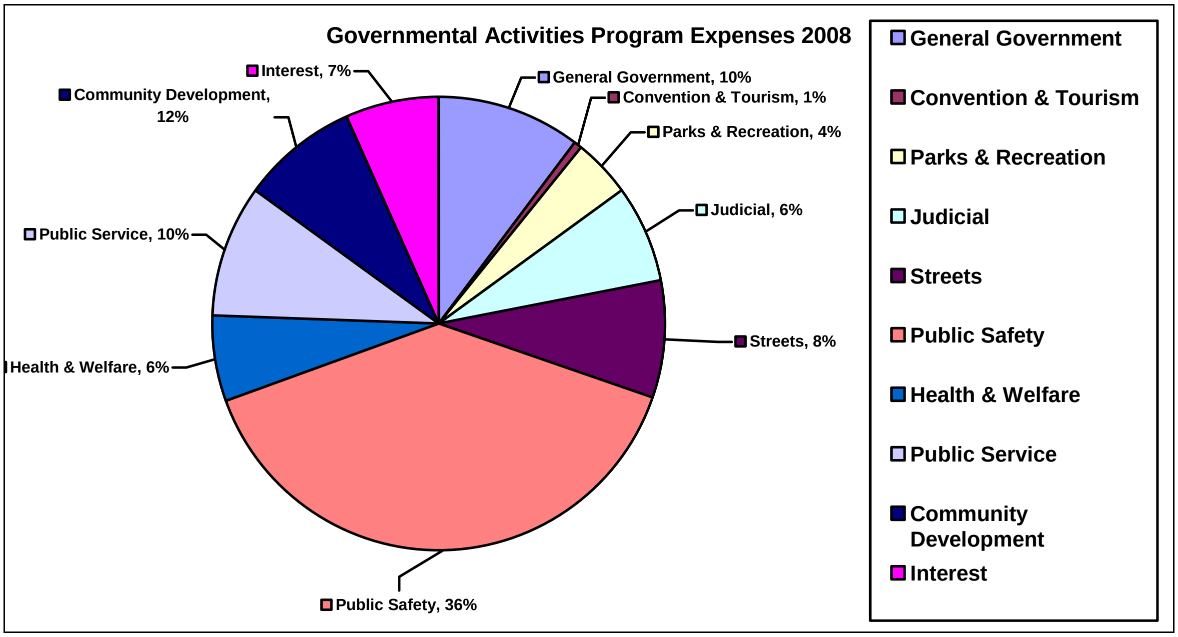
Governmental activities. As a result of this year's operations, the net assets of governmental activities decreased by $47.3 million or 18.1%. The net asset decrease is primarily related to the anticipated level of spending over the expected growth in revenues. Revenues increased by $16.2 million or 2.4%, while total expenses increased by $20.4 million or 2.8%.

Although assessed values for real property have been increasing, the Missouri Constitution requires a rollback of tax rates to prevent a tax revenue windfall to municipal governments.

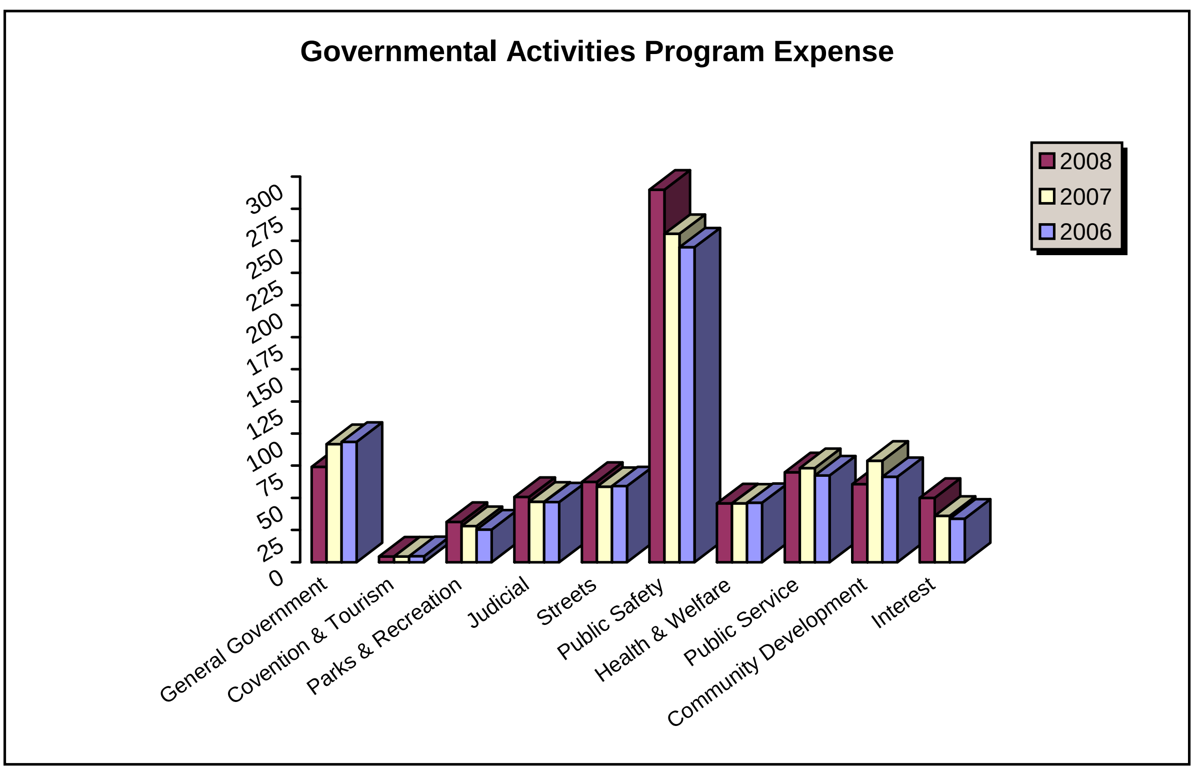
The following chart reflects the revenues by type as a percentage of total revenues for governmental activities for fiscal year 2008.



The following chart illustrates the City's governmental activities expenses by program. Total cost of governmental activities was $739.2 million, an increase of $20.4 million or 2.8% over the prior year. As shown, public safety is the largest function in expense (39.2%). The majority of the spending was the result of funding the Police Department $143.5 million and the Fire Department $69.7 million.



The following chart is a comparison of expense of governmental activities for fiscal years ended 2008, 2007, and 2006.



The following chart depicts the total expenses and total program revenues of the City's governmental functions. This format identifies the extent to which each governmental function is self-financing through fees, intergovernmental revenue, or general revenues.

Community development		60.6	78.8	18.1	36.8
Totals	$	689.3	682.8	491.9	475.4

The preceding charts represent the cost of governmental activities this year excluding interest and fiscal charges. The cost this year was $689.3 million compared with $682.8 million last year. However, as shown in the statement of activities, the amount that our taxpayers ultimately financed for these activities through City taxes was only $491.9 million. The difference of $197.3 million comprises charges for services ($110.1 million), operating grants and contributions ($72.9 million), and capital grants and contributions ($14.3 million).

Business-Type activities. Business-type activities reflect a decrease in net assets of $16.0 million or 1.3%. The reduction in net assets is due primarily to the loss on sale of capital assets at the Airport.

Lambert – St. Louis International Airport. The net assets of the Airport decreased by $17.3 million or 1.6%. The operating loss was $6.4 million this year versus an operating loss of $9.5 million in 2007. Total operating revenues for 2008 was $134.6 million. Of this amount, major sources of operating revenue included aviation revenue (66.3%), concession revenue (17.9%), parking (13.5%), and lease revenue (2.3%). A significant non-operating revenue is passenger facility charges which accounts for $28.8 million.

At June 30, 2008, the capital assets balance was $1,647.7 million. This amount includes buildings and structures with $182.0 million, pavings with $663.6 million, and equipment with $22.3 million, all net of accumulated depreciation. Land is $750.5 million and construction in progress is $29.3 million.

At June 30, 2008, the Airport had bonded debt of $818.8 million.

Water Division. The net assets of the Water Division decreased by $1 million or 0.7%. Operating income was $1.2 million this year versus an operating income of $2.8 million in 2007. Total operating revenues for 2008 was $45.0 million. Of this amount, major sources of operating revenue included metered revenue (43.9%) and flat rate revenue (40.7%).

At June 30, 2008, the capital assets balance was $155.8 million. This amount includes buildings and structures (net of accumulated depreciation) with $19.1 million, reservoirs and water mains with $90.3 million, equipment with $42.3 million, land with $1.2 million, and construction-in-progress with $2.9 million.

At June 30, 2008, the Water Division had bonded debt of $26.3 million.

Parking Division. The net assets of the Parking Division increased by $2.4 million or 10.1%. Operating income was $3.6 million this year versus an operating income of $4.2 million in 2007. Total operating revenues for 2008 was $14.5 million. Of this amount, major sources of operating revenue included parking meter revenue (22.0%), parking violations notices revenue (29.3%), and parking facilities revenue (45.7%).

At June 30, 2008, the capital assets balance was $70.2 million. This amount includes buildings and parking garages (net of accumulated depreciation) $40.7 million, parking meters and lot equipment $2.9 million, land $21.3 million and construction-in-progress $5.3 million.

At June 30, 2008, the Parking Division had bonded debt of $80.4 million.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Governmental Funds

The focus of the City's governmental funds is to provide information on inflows, outflows and balances of current financial resources that are available for spending. An unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the unreserved fund balance of the general fund was $33.7 million, while the total general fund balance was $54.9 million. As of June 30, 2007, the balances were $53.6 million and $74.7 million respectively. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures and transfers out. Unreserved fund balance of $33.7 million represents 5.7% of total general fund expenditures and transfers out of $594.4 million, while total general fund balance of $54.9 million represents 9.2% of total general fund expenditures and transfers out. This compares with 12.6% and 17.5%, respectively, in fiscal year 2007.

The total fund balance in the City's general fund decreased by $19.9 million or 26.6% in the current fiscal year. The City's general fund decreased by $5.6 million or 7.0% in the prior fiscal year. Key factors in the decrease of the general fund balance are primarily due to pension contribution and debt service expenses.

The capital projects fund ended the fiscal year with a negative unreserved fund balance of $9.3 million and a total positive fund balance of $137.9 million, as compared with a positive unreserved fund balance of $12.7 million and a total positive fund balance of $68.4 million in fiscal year 2007. Capital project bond proceeds were in place to cover all expenditures in excess of revenues for the capital projects fund.

The grants fund received $72.9 million in intergovernmental revenues that funded community development in the amount of $36.5 million, or 50.0%, and health and welfare in the amount of $22.2 million, or 30.5%.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the fiscal year, the unrestricted net assets for the Airport was $20.8 million, the Water Division a negative amount of $1.1 million, and the Parking Division was $4.7 million, as compared with $23.1 million, $2.5 million, and $6.6 million, respectively in 2007. The total decrease in net assets for the enterprise funds was $16.0 million in the current year and decrease of $45.5 million the previous year.

Fiduciary Funds

The City maintains fiduciary funds for the assets of the pension trust funds for the Firemen's Retirement System, the Police Retirement System, and the Employee's Retirement System. As of the end of the current fiscal year, the net assets of the pension funds totaled $2.0 billion an increase of $315.0 million from the previous year. The net increase is primarily due to the increase in market value of the pension funds' investment and added contributions.

The City is the custodian of the agency funds and the most common use of agency funds is for pass-through activity. Since, by definition, all assets of the agency funds are held for the benefit of other entities, there are no net assets to discuss. As of the end of the current fiscal year, the combined gross assets of the agency funds totaled $53.3 million. This amount comprises activity from the collector of revenue, property tax escrow, general insurance, bail bonds, license collector, and circuit clerk, and other miscellaneous agency activities.

General Fund Budgetary Highlights

The final budget for the City's General Fund represents the original budget plus any previously appropriated funds set aside for the purpose of honoring legally incurred obligations (prior year encumbrances and commitments) plus any additional supplemental appropriations that may occur during the fiscal year. The general fund budget includes appropriations for the police department that is a component unit of the city. This discussion presents the budget information on the budgetary basis as the Board of Alderman approves the budget.

In the fiscal year, $6.1 million had been set aside for prior year encumbrances and commitments, and there were no supplemental appropriations. The original general fund budget totaled $435.8 million. Actual results for the fiscal year had revenues and transfers in falling short of original estimates by $.4 million, totaling $435.4 million.

Actual expenditures and transfers out totaled $437.8 million. This includes expenditures of $4.7 million from prior year encumbrances and commitments. The encumbrances and commitments carried over into the next fiscal year in regard to the fiscal year 2008 budget total $3.2 million. A transfer out of $1.5 million was made to the Capital Projects Fund per an ordinance mandating half of the prior year operating surplus must be used for capital projects and a transfer out to a 27th Pay Reserve. The General Fund ended the fiscal year with a budget basis deficit of $.4 million. As of June 30, 2008, the unreserved fund balance of the General Fund was $18.1 million on a cash basis.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City had invested $2.6 billion in a broad range of capital assets, including fire equipment, park facilities, roads, bridges, runways and water systems. This amount represents a net decrease for the current fiscal year (including additions and deductions) of $26.7 million, or 1.0%, over last year.

The City of St. Louis, Missouri

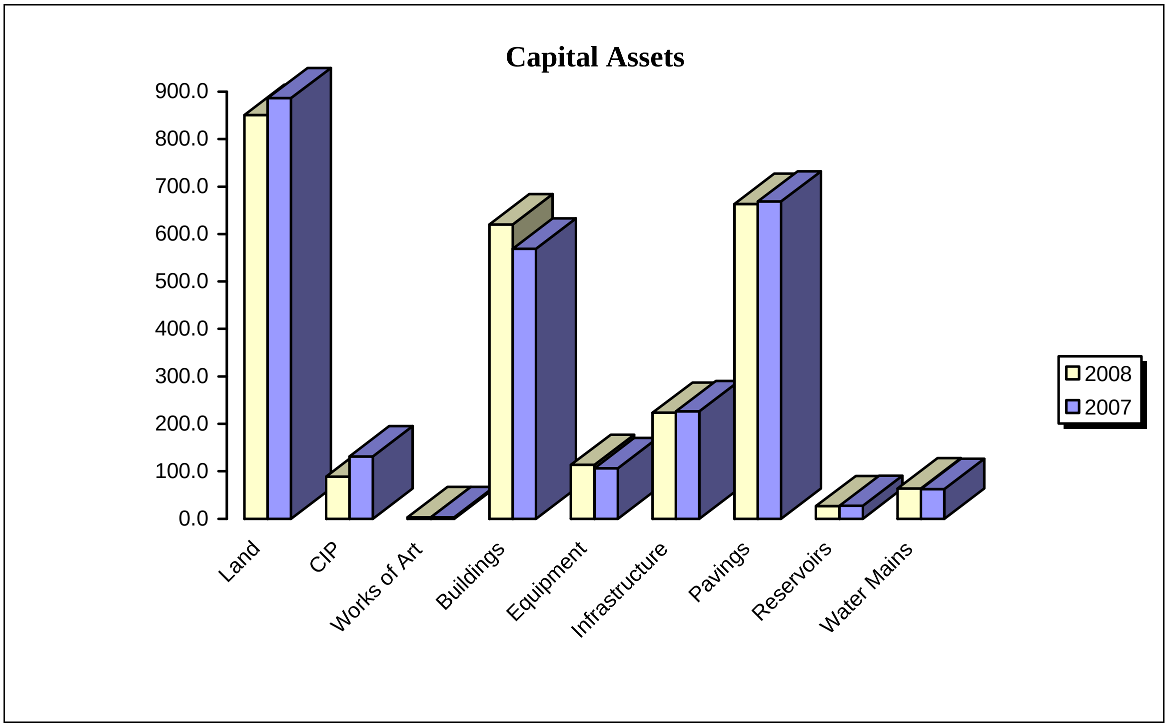
Total	$	780.6	775.0	1,873.7	1,906.0	2,654.3	2,681.0

This year's major capital asset changes included:

- $35.9 million decrease in Land due to disposal of surplus property in business type activities
- Additions of construction-in-progress in governmental activities of $26.2 million due mainly due to construction of two new recreation centers. Transfers from construction-in-progress in the amount of $26.9 were mainly due to the completion of the new transportation center increased building and improvements in governmental activities.



For government-wide financial presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Governmental fund financial statements record capital asset purchases as expenditures.

For additional information on capital assets, refer to note 7 in the notes to the basic financial statements.

Long-Term Debt

At the end of fiscal year 2008, the City had outstanding long-term debt obligations for governmental activities in the amount of $890.8 million compared with $665.1 million in fiscal year 2007. Of this amount, $50.9 million are general obligation bonds and $137 million are tax increment financing bonds. Leasehold revenue obligations outstanding totaled $520.1 million.

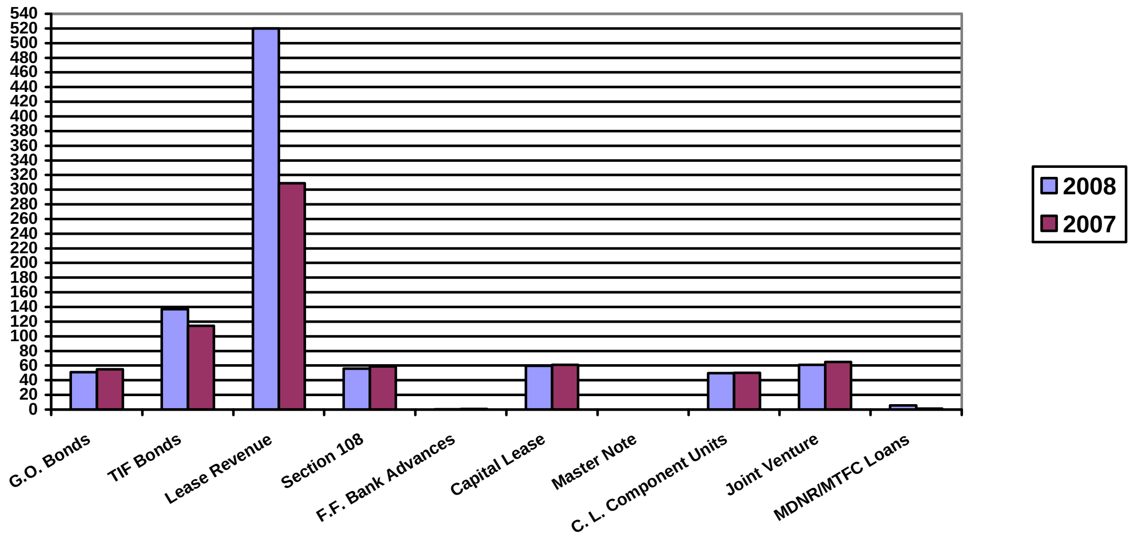
Outstanding Long-Term Debt Obligations 2008 and 2007



State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of its total assessed valuation. The City's authorized debt limit for calendar year 2008 was $455,718 million. The City's effective legal debt margin as of June 30, 2008 was $404,843 million. For additional information on long-term debt, refer to the notes 13 to 16 to the basic financial statements.

The City's underlying general obligation credit ratings remained unchanged for fiscal year 2008. The City ratings on uninsured general obligation bonds as of June 30, 2008 were:

Moody's Investor's Service, Inc.	A3
Standard and Poor's Corporation	A+
Fitch IBCA, Inc. Ratings	A

The City of St. Louis, Missouri
Revenue Bonds Outstanding

Long-Term Debt Obligations-Business Type Activities
(dollars in millions)

		Fiscal Year 2008	Fiscal Year 2007	$ change	% change
Airport	$	818.8	843.9	(25.1)	-2.97%
Water Division		26.3	29.2	(2.9)	-9.93%

Total	$	925.5	943.2	(17.7)	-1.88%

Outstanding revenue bonds of the business-type activities of the City as of June 30, 2008 and June 30, 2007 were $925.5 million and $943.2 million, respectively. The amount reflects a decrease of $17.7 million, or 1.9%. This amount includes Airport bonds of $818.8 million, Water Division bonds of $26.3 million, and Parking Division bonds of $80.4 million. For additional information on revenue bonds of the business-type activities, refer to note 17 of the basic financial statements.

Economic Factors and Next Year's Budget

- The fiscal year 2009 annual operating budget allocates $961.0 million among all budgeted funds, an increase of 10.8% incorporating funding relating to:
  - Additional funds for police and crime prevention programs as well as police and firemen pension funding, both for debt requirements and current year contributions. This initiative is funded by an addition to the sales tax rate of one half percent which is expected to generate $15 million.
  - A cost of living pay increase of 3.5%.

- The fiscal year 2009 general fund budget is $460.5 million compared with $435.3 million in the prior year. This amount reflects an increase of $25.2 million, or 5.8%. This relates to:
  - A cost of living pay increase of 3.5%
  - Funding for four city-wide elections, including the presidential election.
  - Funding for past obligations of $12.6 million due to the Employees' Retirement System.

- Total positions for fiscal year 2009 is 7,289, an increase of 64 positions mainly in the public safety departments.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives.

If you have any questions about this report or need additional information, please contact the Office of the Comptroller of the City of St. Louis, 1200 Market Street, Room 311, Saint Louis, Missouri 63103.

City of St. Louis, Missouri
Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Assets
June 30, 2008
(dollars in thousands)

Total fund balances—governmental funds—balance sheet	$	278,984
Amounts reported for governmental activities in the statement of net assets are different because:		
Capital assets and certain other assets used in governmental activities (excluding internal service fund capital assets) are not financial resources and, therefore, are not reported in the fund financial statements.		783,747
The City reports a net pension asset on the statement of net assets to the extent actual contributions to the City's retirement plans exceed the annual actuarial required contribution. This asset is not reported in the fund financial statements. Fluctuations in net pension assets are reported in the statement of activities.		38,856
Various taxes related to fiscal year 2008 will be collected beyond the 60-day period used to record revenue in the fund financial statements. Revenue for this amount is recognized in the government-wide financial statements.		10,768
Property taxes are assessed by the City on January 1st of each calendar year, but are not due until December 31st. Taxes assessed on January 1, 2008 and payable on December 31, 2008 are deferred within the fund financial statements. However, revenue for this amount is recognized in the government-wide financial statements.		67,656
Internal service funds are used by management to charge the cost of risk management and mailroom services to the individual funds, generally on a cost reimbursement basis. The assets and liabilities of internal service funds are included in governmental activities in the statement of net assets, net of amounts due from enterprise funds.		1,165
Bond issuance costs are reported in the governmental funds financial statements as expenditures when debt is issued, whereas the amounts are deferred and amortized over the life of the debt on the government-wide financial statements.		15,437
Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and, accordingly, are not reported as liabilities within the fund financial statements. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities—both current and long-term—are reported on the government-wide statement of net assets. Also, during the year, the City issued new debt and refunded some of its existing debt. Discounts, premiums, bond issuance costs, and deferred amounts on refunding are reported in the governmental fund financial statements when the debt was issued, whereas these amounts are deferred and amortized over the life of the debt on the government-wide financial statements.		
Balances as of June 30, 2008 are:		
Accrued compensated absences		(26,300)
Net pension obligation		(20,903)
Accrued interest payable on bonds		(49,186)
Landfill closure liability		(100)
Capital leases		(59,531)
Bonds and notes payable		(831,324)
Unamortized discounts		4,890
Unamortized premiums		(14,240)
Unamortized deferred amounts on refunding		13,910
Total net assets—governmental activities—statement of net assets	$	213,829

See accompanying notes to basic financial statements.

See accompanying notes to basic financial statements.

City of St Louis, Missouri
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities
Year ended June 30, 2008
(dollars in thousands)

Net change in fund balances—governmental funds—statement of revenues, expenditures, and changes in fund balances		$ 58,646
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets, meeting the capitalization threshold, is allocated over their estimated useful lives and recorded as depreciation expense. Additionally, contributions of capital assets to the City are recorded as capital contributions on the statement of activities. This is the amount by which capital outlays and capital contributions, meeting the capitalization threshold, exceeded depreciation expense in the current year. Details of the reported amounts are as follows:		
Capital outlay	51,103	
Capital contribution	420	
Loss on disposal of capital assets	(459)	
Depreciation expense	(42,218)	
		8,846
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund financial statements. These amounts represent the extent to which revenues not providing current financial resources in the current fiscal year exceeded revenues not providing current financial resources in the prior fiscal year (which are recognized in the fund financial statements in the current year). Such amounts are attributable to the following factors:		
Change in revenues received after the 60-day accrual period	(2,006)	
Property taxes due in the fiscal year following the fiscal year in which they were assessed	988	
		(1,018)
Internal service funds are used by management to charge the cost of risk management and mailroom services to the individual funds. The net income of internal service funds attributable to governmental activities is reported on the statement of activities.		1,060
The City reports a net pension obligation/asset on the statement of net assets to the extent actual contributions to the City's retirement plans fall below/exceed the annual required contribution. This obligation/asset is not reported in the fund financial statements. Fluctuations in net pension obligations/assets are reported in the statement of activities.		110,253
Bond proceeds are reported as financing sources in governmental funds financial statements and thus contribute to the net change in fund balance. In the statement of net assets, however, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, repayments of principal is an expenditure in the governmental funds financial statements, but reduces the liability in the statement of net assets.		
Debt issued during the current year:		
Series 2007 Recreation Sales Tax Leasehold Revenue Bonds	(51,965)	
Series 2007 Pension Funding Project Leasehold and Refunding Bonds	(126,002)	
Series 2007 Police Capital Improvements Sales Tax Leasehold Revenue Bonds	(25,000)	
Series 2008A Public Safety Sales Tax Pension Funding Leasehold Revenue Bonds	(19,445)	
Series 2008B Juvenile Detention Center Leasehold Revenue Bonds	(25,555)	
Capital Lease-Rolling Stock	(1,478)	
Loan agreement with Missouri Transportation Finance Corporation	(4,500)	
Tax increment financing notes payable	(19,307)	
Tax increment financing bonds payable-Loughborough	(18,430)	
Repayments during the current year:		
Advance refunding of Series 1996 Firemen's Retirement Leasehold Revenue Bonds	8,430	
Advance refunding of tax increment financing bonds and notes payable-Loughborough	11,000	
Annual principal payments on bonds and notes payable	43,487	
Annual principal payments on capital leases	2,997	
		(225,768)
Under the modified accrual basis of accounting used in the governmental funds financial statements, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis of accounting, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues.		
This adjustment combines the net changes of the following:		
Accrued compensated absences	1,189	
Reversal of court ruling for Firemen's overtime related to Proposition B	1,148	
Accrued interest payable on bonds	(11,122)	
Landfill closure liability	20	
Discounts on debt issuances, net of amortization	3,757	
Premiums on debt issuances, net of amortization	1,083	
Deferred bond issuance costs, net of amortization	6,009	
Deferred advanced refunding differences on debt issuances, net of amortization	(1,433)	
		651
Change in net assets—governmental activities—statement of activities		$ (47,330)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of St. Louis, Missouri (the City) is a constitutional charter City not a part of any county, which is organized and exists under and pursuant to the constitution and laws of the State of Missouri (the State). The City's current form of government is provided for in its charter, which first became effective in 1914 and has been subsequently amended by City voters. The City provides a wide range of municipal services as follows: fire and other public safety; parks and recreation; forestry; health, welfare, and other social services; street maintenance; refuse collection; public services; community and economic development; convention and tourism; and general administrative services. The City also owns and operates a water utility, parking facilities, and an international airport as self-supporting enterprises.

The accounting policies and financial reporting practices of the City conform to U.S. generally accepted accounting principles applicable to governmental entities. The following is a summary of the more significant policies:

a. Reporting Entity

The City's financial reporting entity has been determined in accordance with governmental standards for defining the reporting entity and identifying entities to be included in its basic financial statements. The City's financial reporting entity consists of the City of St. Louis (the primary government) and its component units.

1) Blended Component Units

The component units discussed below are included in the City's reporting entity due to the significance of their operational or financial relationships with the City.

Public Facilities Protection Corporation (PFPC)

The PFPC is an internal service fund governed by a five-member board of persons in designated City positions. The PFPC is reported as if it were part of the primary government because its sole purpose is to provide the City with a defined and funded self-insurance program for claims, judgments, and other related legal matters including workers' compensation.

St. Louis Municipal Finance Corporation (SLMFC)

The SLMFC, established in 1991, is governed by a five-member board, consisting of persons in designated City positions. The SLMFC is reported as if it were part of the primary government because its sole purpose is to lessen the burden on the City by financing, acquiring, leasing, or subleasing real property, and improvement thereon, and personal property to the City.

St. Louis Parking Commission Finance Corporation (SLPCFC)

The SLPCFC, established in 2003, is governed by a five-member board as appointed by the Parking Commission. The SLPCFC finances the purchase of and owns, leases and sells certain real property on behalf of the Parking Commission. SLPCFC is considered to be a component unit of the City because the Parking Division of the City of St. Louis (the Parking Division) is financially accountable for SLPCFC, as it appoints all of SLPCFC's directors and is able to impose its will on SLPCFC. The SLPCFC provides services entirely to the Parking Division and is reported as if it were part of the Parking Division because its sole purpose is to lessen the burden on the Parking Division by coordinating real property transactions.

2) Discretely Presented Component Units

The component unit columns in the statement of net assets and statement of activities include the financial data of the City's four discretely presented component units. These are reported individually to emphasize that they are legally separate from the City.

St. Louis Development Corporation (SLDC)

The SLDC was organized in 1988 to improve the efficiency and effectiveness of the economic development activity of the City. SLDC combined the administrative staffs of six independent development agencies for the purpose of coordinating administrative services for all six agencies. The agencies that are considered component units of SLDC are the Land Reutilization Authority, the Land Clearance for Redevelopment Authority (LCRA), the St. Louis Industrial Development Authority, the Planned Industrial Expansion Authority, the Local Development Company, and the St. Louis Port Authority. SLDC is included as a component unit of the City because the City is financially accountable for SLDC, as SLDC is fiscally dependent upon the City. SLDC is considered to be fiscally dependent on the City because SLDC may not legally issue bonded debt or implement a budget for its redevelopment activities until the City's Board of Alderman has approved the redevelopment project and declared the redevelopment area blighted.

The Metropolitan Police Department of the City of St. Louis, Missouri (SLPD)

The SLPD, established by state statute, is administered by a five-member board of commissioners, the mayor, and four members appointed by the governor. The City is obligated to provide a minimum level of funding for the operations of the SLPD. SLPD's operating budget is prepared and submitted to the City for approval. SLPD has no authority to levy a tax or issue debt in its name, and therefore, is fiscally dependent on the City for substantially all of its funding.

Solid Waste Management and Development Corporation (SWMDC)

The SWMDC owns a system of underground pressurized steam transport pipe in the downtown St. Louis area commonly known as the "steam loop." The steam loop is leased on a long-term basis to a steam-generating private entity unrelated to the City. The steam loop serves City Hall and other municipal buildings, and is the only non-private source of steam in downtown St. Louis. The City appoints a voting majority of SWMDC's board of directors. The board of directors consists of representatives of the president of the Board of Public Service (Chairperson), deputy mayor/chief of staff, and director of the Street Department. Separate financial statements are not prepared for SWMDC. SWMDC is directed by employees of the City, and therefore, the City is able to impose its will on SWMDC.

Forest Park Forever, Inc. (FPF)

Forest Park is a 1,293 square foot park owned and operated by the City. In addition to being a City park, it is the home to many of the region's major cultural institutions – the St. Louis Zoo, the St. Louis Art Museum, St. Louis Science Center, the Missouri History Museum and the Muny Opera. Each of these cultural institutions are legally separate not-for-profit entities.

During 2008, the City determined that the economic resources held by FPF for the direct benefit of Forest Park are significant to the City and, hence, have included FPF as a discretely presented component unit. FPF is a legally separate tax-exempt component unit of the City and reports its financial statements under Financial Accounting Standards Board (FASB) Statements. FPF is a not for profit organization organized under the laws of Missouri in 1986 that works in partnership with the City whose mission and principal activities are to promote the rebuilding and continual maintenance of Forest Park through wide-based financial and citizen support in order that Forest Park retain its preeminence as a major metropolitan and regional asset of greater St. Louis. The economic resources received or held by FPF are almost entirely for the direct benefit of Forest Park. Historically the City as owner of Forest Park has received economic resources from FPF since calendar year 2000 significantly enhancing the park. FPF's fiscal year end is December 31, 2007, which falls within the City's current fiscal year-end. See note 29 for additional information and note disclosures relating to this discretely presented component unit.

Complete financial statements of the discretely presented component units other than SWMDC may be obtained from their administrative offices as follows:

St. Louis Development Corporation
1015 Locust Street
St. Louis, Missouri 63101

The Metropolitan Police Department of the City of St. Louis, Missouri
1200 Clark Avenue
St. Louis, Missouri 63103

Forest Park Forever, Inc.
5595 Grand Drive in Forest Park
St. Louis, MO 63112

3) Related Organizations

The City's officials are also responsible for appointing the voting majority of board members for other organizations, but the City's accountability for these organizations does not extend beyond making the appointments. Thus, no financial data for these organizations are included in the City's basic financial statements. These related organizations include the Mental Health Board, the St. Louis Housing Authority, the St. Louis Office for Mental Retardation & Developmental Disability Resources, and the St. Louis Public Library.

4) Joint Venture

St. Louis Regional Convention and Sports Complex Authority (Authority)

The Authority, established in 1990 as a separate legal entity by an Act of the Missouri State legislature, is governed by an 11-member board of commissioners. The mayor of the City and the county executive of St. Louis County, Missouri (the County) each appoint three members and the governor of the State appoints the remaining five commissioners. The Authority is considered a joint venture of the City, the County, and the State because the three governments have entered into a contractual agreement with the Authority to sponsor the issuance of convention facility bonds, to repay the facility bonds through rental payments to the Authority, and to make annual preservation payments for facility maintenance and renovations, all of which create an ongoing financial responsibility of the City. The Authority is subject to joint control of the City, the County, and the State. Complete financial statements for the Authority can be obtained from the Authority's administrative offices at 901 North Broadway, St. Louis, Missouri 63101.

b. Government-wide and Fund Financial Statements

The government-wide financial statements (that is, the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the City and its component units. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on charges for services. Likewise, the City is reported separately from certain legally separate component units for which the City is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges for services to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, unrestricted interest earnings, gains, and other miscellaneous revenues not properly included among program revenues are reported instead as general revenues.

Following the government-wide financial statements are separate financial statements for governmental funds, proprietary funds, and fiduciary funds. Fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The City has determined that the general fund, the capital projects fund, and the grants fund are major governmental funds. All other governmental funds are reported in one column labeled "Other Governmental Funds". The total fund balances for all governmental funds is reconciled to total net assets for governmental activities as shown on the statement of net assets. The net change in fund balance for all governmental funds is reconciled to the total change in net assets as shown on the statement of activities in the government-wide statements. The City has three enterprise funds (business-type activities): Lambert-St. Louis International Airport (the Airport), the Water Division of the City of St. Louis (the Water Division), and the Parking Division. Each of these enterprise funds is a major fund within the fund financial statements. Additionally, the City has three internal service funds (governmental activities): PFPC, mailroom services, and health. All internal service fund activity is combined into a single column on the proprietary fund statements, since major fund reporting requirements do not apply to internal service funds.

The fund financial statements of the City are organized on the basis of funds, each of which is considered a separate accounting entity with self-balancing accounts that comprise its assets, liabilities, fund balances/net assets, revenues and expenditures, or expenses. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are summarized by type in the basic financial statements. The following fund types are used by the City:

1) Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The acquisition, uses, and balances of the City's expendable financial resources and the related liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

The following are the City's governmental major funds:

General Fund—The general fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Projects Fund—The capital projects fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds. This fund accounts for acquisition or construction of capital improvements, renovations, remodeling, and replacement for the City's major capital projects.

Grants Fund—The grants fund is a special revenue fund that is used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes. The grants fund accounts for the majority of the City's federal grant programs received from the U.S. Department of Health and Human Services, U.S. Department of Housing and Urban Development, U.S. Department of Justice, U.S. Department of Labor, U.S. Department of Transportation, and various other federal agencies.

The other governmental funds of the City are considered nonmajor. They are special revenue funds, which account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes, and a debt service fund, which accounts for the accumulation of resources for, and repayment of, general obligation long-term debt principal, interest, and related costs.

2) Proprietary Fund Types

Proprietary funds are used to account for activities that are similar to those found in the private sector. The measurement focus is on the determination of net income and capital maintenance.

The following are the City's proprietary fund types:

Enterprise—Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises—where the intent of the governing body is that the costs (including depreciation) of operations are financed primarily through user charges. Enterprise funds have been established for the Airport, the Water Division, and the Parking Division. The Airport is used to account for the activities of the Airport. The principal services provided are financed primarily through landing fees and terminal concession revenues. The Water Division is used to account for sale of water to the general public and the operation of the water delivery system. The Parking Division is used to account for the operation of public parking facilities and parking meters. Each of the enterprise funds is a major fund in the fund financial statements.

Internal Service—Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government, or to other governments, on a cost-reimbursement basis. An internal service fund has been established for PFPC, mailroom services, and health. The PFPC fund is used to account for payment of workers' compensation and various other claims against legal actions on behalf of other funds. The mailroom services fund is used to account for mail-handling services provided to other funds. The health fund is used to account for payment of health insurance claims for participants.

In the government-wide and proprietary fund financial statements, the City applies all applicable Governmental Accounting Standards Board (GASB) pronouncements, as well as the following private-sector pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARBs) of the Committee on Accounting Procedure. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

3) Fiduciary Fund Types

Trust and Agency—Trust and agency funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, or other governmental units. These include pension trust funds and agency funds. Pension trust funds are accounted for and reported similar to proprietary funds. The pension trust funds account for the Firemen's Retirement System of St. Louis, Police Retirement System of St. Louis, and the Employees' Retirement System of the City of St. Louis pension benefits. Agency funds are accounted for using the accrual basis of accounting. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of the collector of revenue, property tax escrow, general insurance, bail bonds, license collector, circuit clerk, and other agency operations.

c. Measurement Focus and Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting, as are the proprietary fund, pension trust fund, and discretely presented component unit financial statements. Agency funds adhere to the accrual basis of accounting, and do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. At year-end, entries are recorded for financial reporting purposes to reflect the modified accrual basis of accounting for governmental fund types, and the accrual basis of accounting for the proprietary fund types, pension trust funds, and agency funds.

Under the modified accrual basis of accounting, revenues are recorded when both measurable and available. The term “available” is defined as collectible within the current period or soon enough thereafter to be used to pay the liabilities of the current period. For the City, available is defined as expected to be received within 60 days of fiscal year-end, except for government grants, which is within 120 days of fiscal year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due (that is, matured).

GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, groups nonexchange transactions into the following four classes, based upon their principal characteristics: derived tax revenues, imposed nonexchange revenues, government mandated nonexchange transactions, and voluntary nonexchange transactions.

The City recognizes assets from derived tax revenue transactions (such as city earnings and payroll taxes, sales and utilities gross receipt taxes) in the period when the underlying exchange transaction on which the tax is imposed occurs or when the assets are received, whichever occurs first. Revenues are recognized, net of estimated refunds and estimated uncollectible amounts, in the same period that the assets are recognized, provided that the underlying exchange transaction has occurred. Resources received in advance are reported as deferred revenues until the period of the exchange.

The City recognizes assets from imposed nonexchange revenue transactions in the period when an enforceable legal claim to the assets arises or when the resources are received, whichever occurs first. Revenues are recognized in the period when the resources are required to be used or the first period that use is permitted. The City recognizes revenues from property taxes, net of estimated refunds and estimated uncollectible amounts, in the period for which the taxes are levied. Imposed nonexchange revenues also include permits, court fines, and forfeitures.

Intergovernmental revenues, representing grants and assistance received from other governmental units, are generally recognized as revenues in the period when all eligibility requirements, as defined by GASB Statement No. 33, have been met. Any resources received before eligibility requirements are met are reported as deferred revenues.

Charges for services in the governmental funds, which are exchange transactions and are, therefore, not subject to the provisions of GASB Statement No. 33, are recognized as revenues when received in cash because they are generally not measurable until actually received.

Under the accrual basis of accounting used by the proprietary fund types and pension trust funds, revenues are recognized when earned and expenses are recognized when incurred. Unbilled service revenues are accrued by the Airport and the Water Division based on estimated billings for services provided through the end of the current fiscal year.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Airport enterprise fund are revenues from airlines, concessions, and parking. Transactions that are capital-, financing-, or investing-related are reported as nonoperating revenues. The principal operating revenues of the Water Division enterprise fund, the Parking Division enterprise fund, and internal service funds are charges to customers for sales and services. All expenses related to operating the Airport enterprise fund are reported as operating expenses. Interest expense, financing costs, and miscellaneous expenses are reported as nonoperating expenses. Operating expenses for the Water Division enterprise fund, the Parking Division enterprise fund, and internal service funds include the cost of sales and services, administrative expenses, and depreciation and amortization. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first and then unrestricted resources as they are needed.

For the pension trust funds, under the accrual basis of accounting, contributions are recognized in the period in which the contributions are due and benefits are recognized when they become due and payable.

d. Property Taxes

Taxes are levied annually in November based on the assessed valuation of all real and personal property located in the City as of the previous January 1. The City tax rate levied in November 2007 was \$1.3451 per \$100 (in dollars) of assessed valuation of which \$1.2123 (in dollars) is for the general fund and $0.1328 (in dollars) is for the debt service fund. Taxes are billed in November and are due and collectible on December 31. All unpaid taxes become delinquent on January 1 of the following year and attach as an enforceable lien on the related property at that date.

e. Cash and Investments

The City Treasurer maintains a cash and investment pool that is available for use by all funds including certain component units, except pension trust funds. In accordance with the City's budget ordinance the majority of investment income is considered earned by the general fund except for earnings otherwise legally restricted for a specific purpose. Income from investments associated with one fund is not assigned to another fund for other than legal or contractual reasons. In addition, cash and investments are separately maintained by other City officials, several of the City's departments and third-party trustee and fiscal agents.

Investments are recorded at fair value. Fair values for investments are determined by closing market prices at year-end as reported by the investment custodian. Mortgages are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments.

f. Inventories

Purchase of materials and supplies in the governmental fund types are charged to expenditures as incurred. Amounts of inventories in such funds are immaterial. For the enterprise fund type, inventories are recorded at cost using a method that approximates the first-in, first-out method or the moving average cost method, and the expense is recognized when inventories are consumed in operations.

g. Capital Assets

1) Governmental Activities Capital Assets

Capital assets, which include buildings, improvements, equipment, and infrastructure assets (for example, roads, bridges, docks, promenade, traffic signals, and similar items), are reported in the governmental activities column in the government-wide financial statements, net of accumulated depreciation. Capital assets are defined by the City as assets with an estimated useful life in excess of one year with an initial, individual cost of $5 or more, infrastructure with a cost of $500 or more, building improvements with a cost of $100 or more, and all land, land improvements, and buildings.

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value at the date of donation. General infrastructure assets acquired prior to July 1, 2001 consist of the road network and other infrastructure assets that were acquired or that received substantial improvements subsequent to June 30, 1980 and are reported at estimated historical cost using deflated replacement cost. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

The City has determined that all works of art and historical treasures other than the City's statues, monuments, and fountains meet the definition of a collection, and accordingly, has not capitalized these assets. A collection is defined as:

- Held for public exhibition and education
- Protected, cared for, and preserved
- Subject to an organizational policy that requires the proceeds from the sale to be used to acquire other items for the collection

The City has adopted a policy related to the sale of these assets, stating that the proceeds from the sale of any City-owned collections, in part or in its entirety, will be used for the acquisition of collection items.

All City-owned statues, monuments, and fountains are capitalized at their historic cost based upon original acquisition, construction documents, or estimates of original costs. Because of the nature of these assets and the manner in which the City maintains its historic treasures, these assets are considered inexhaustible, and therefore, are not subject to depreciation.

Depreciation, including depreciation recognized on assets acquired through government grants and other aid, is computed on the straight-line method over the estimated useful lives of the various classes of assets, except for roads, which is computed using the composite method. The estimated useful lives of depreciable capital assets are as follows:

	Years
Buildings	40 to 99
Improvements other than buildings	20 to 40
Equipment	5 to 15
Infrastructure	18 to 50

City management has evaluated prominent events or changes in circumstances affecting capital assets to determine whether any impairments of capital assets have occurred. Such events or changes in circumstances that were considered by the City management to be indicative of impairment include evidence of physical damage, enactment or approval of laws or regulations or other changes in environmental factors, technological changes or evidence of obsolescence, changes in the manner or duration of use of a capital asset, and construction stoppage.

2) Business-type Activities Capital Assets

Capital assets for the Airport, the Water Division, the Parking Division, and the mailroom are reported in the business-type activities column in the government-wide financial statements, net of accumulated depreciation.

(dollars in thousands)

3) Airport

Capital assets are recorded at cost. Depreciation, including depreciation recognized on assets acquired through government grants and other aid, is computed on the straight-line method over the estimated useful lives of the various classes of assets. Land is recorded at cost which, in addition to the purchase price, includes appraisal and legal fees, demolition, and homeowner relocation costs. Net interest costs on funds borrowed to finance the construction of capital assets are capitalized and amortized over the life of the related asset. The estimated useful lives of depreciable capital assets are as follows:

	Years
Pavings	18 to 30
Buildings and facilities	20 to 30
Equipment	2 to 20

4) Water Division

Capital assets were originally recorded in the accounts in 1958 and were based on an engineering study of the historical cost of properties constructed by employees of the Water Division. Accumulated depreciation at the date the assets were recorded was established after a review by a consulting firm.

Additions to capital assets subsequent to 1958 are recorded at historical cost. Provisions for depreciation of capital assets are computed on a straight-line basis over the estimated useful lives of the assets and are charged to operating expenses. The estimated useful lives of depreciable capital assets are as follows:

	Years
Buildings and structures	44 to 55
Pumping equipment	28 to 44
Hydrants, transmission mains, and lines	50 to 100
Meters	33
Other equipment	5 to 25

Net interest costs on funds borrowed to finance the construction are capitalized and depreciated over the life of the related asset.

5) Parking Division

Capital assets are recorded at historical cost, including applicable interest incurred during the construction period. Donated capital assets are recorded at estimated fair market value at the date of donation. The contributions are reflected as capital contributions. Depreciation is computed using the straight-line method over the estimated useful lives of the various classes of assets. The estimated useful lives of depreciable capital assets are as follows:

	Years
Buildings and parking garages	10 to 40
Buildings and land improvements	5 to 10
Equipment	5 to 15
Parking meters and lot equipment	5 to 10

6) Mailroom

Capital assets are recorded at historical cost. Depreciation is computed using the straight-line method over the estimated useful lives of the various classes of assets. The estimated useful life of equipment, other than computer equipment, is 10 years. The estimated useful life of computer equipment is five years.

7) Component Unit—SLDC

SLDC's property, plant, equipment, and infrastructure with useful lives of more than one year are stated at historical cost. Historically, SLDC maintained infrastructure asset records consistent with all other capital assets. SLDC generally capitalizes assets with costs of $2,500 (not in thousands) or more as purchase and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated useful lives, in years, for depreciable assets are as follows:

	Years
Buildings and structures	40
Improvements other than buildings (includes infrastructure)	3 to 15
Furniture, fixtures, and equipment	3 to 10

8) Component Unit—SLPD

Capital assets are capitalized at cost or estimated historical cost. Donated capital assets are valued at estimated fair market value as of the date received. Major outlays for capital assets and improvements are capitalized as projects are constructed. All capital assets over the capitalization levels are depreciated. SLPD's capitalization threshold is $5.

Depreciation is computed using the straight-line method (with the 1/2-year convention election applied in the first and last year) over the following estimated useful lives:

	Years
Buildings	50 – 100
Building improvements	10 – 15
Furniture and fixtures and other Equipment	5 – 8
Automotive equipment	3
Communication equipment	5
Computer and software	3

9) Component Unit—SWMDC

Capital assets are capitalized at cost. Depreciation is computed using the straight-line method over the estimated useful lives to the depreciable capital assets. The estimated useful lives of infrastructure is 30 to 40 years.

h. Long-term Liabilities

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets/statement of fund net assets.

i. Passenger Facility Charges (PFCs)

The Airport collects a $4.50 (in dollars) facility charge per enplaned passenger to fund approved Federal Aviation Administration (FAA) projects. The PFC is withheld by the respective airlines for each ticket purchased and passenger transfer made in St. Louis and remitted to the Airport one month after the month of receipt, less an $0.11 (in dollars) per ticket operating fee retained by the airlines. PFCs represent an exchange-like transaction and are recognized as nonoperating revenue based upon passenger enplanements.

j. Capital Contributions

Capital contributions to the proprietary fund type represent government grants and other aid used to fund capital projects. Capital contributions are recognized as revenue when the expenditure is made and amounts become subject to claim for reimbursement. Amounts received from other governments by the proprietary fund type, which are not restricted for capital purposes, are reflected as nonoperating intergovernmental revenue.

k. Capitalization of Interest

Net interest costs on funds borrowed to finance the construction of capital assets are capitalized and depreciated over the life of the related asset for business-type activities and proprietary fund types. Interest is not capitalized for governmental activities or governmental fund types.

l. Amortization

In government-wide financial statements and the proprietary fund types in the fund financial statements, bond discounts are recorded as a reduction of the debt obligation, bond premiums are recorded as an addition to the debt obligation, and bond issuance costs are recorded as a deferred charge. Such amounts are amortized using the interest method or bonds-outstanding method over the term of the related revenue bonds. The deferred amount on refunding is amortized as a component of interest expense over the remaining life of the bonds using the bonds-outstanding method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

m. Compensated Absences

The City grants vacation to full-time and part-time employees who work 50% of full-time or more based on years of continuous service. Compensatory time is granted to certain employees for hours worked in excess of a normal week that are not taken within the current bi-weekly pay period. These benefits are allowed to accumulate and carry over, with limitations, into the next calendar year and will be paid to employees upon departure from service for any reason. The entire accrued benefit liability related to the City's compensated absences has been recorded in the government-wide financial statements and in the proprietary funds in the fund financial statements. Certain amounts have been recorded in the governmental fund financial statements, since such amounts came due (that is, matured) during the fiscal year ended June 30, 2008.

Non-uniformed employees retiring after June 30, 2001 who have an unused sick leave balance may, at retirement, elect to receive payment for one-half of the sick leave balance. As an estimate of the portion of sick leave that will result in termination payments, a liability has been recorded on the government-wide financial statements and the proprietary funds in the fund financial statements representing one-half of the accumulated sick leave balances for those employees who will be eligible to retire within five years.

Component Unit—SLPD

Banked overtime is granted to certain employees for hours worked in excess of their normal workday that are not taken within the current bi-weekly pay period. Banked overtime is allowed to accumulate up to 40 hours and will be paid to employees upon resignation, retirement, or death.

Vacation is granted to all full-time employees based on years of continuous service.

Both commissioned and civilian employees accumulate sick leave hours and will be paid a minimum of 25% of their unused sick leave upon termination of employment. The liability for accrued sick leave pay has been calculated using the vesting method. Commissioned and civilian employees retiring from SLPD with 1600+ hours of sick leave accrued and 20+ years of service will be paid 25% of their unused sick leave plus one additional month's salary. Commissioned employees retiring from SLPD with 2200+ hours of sick leave accrued and 30+ years of service will be paid 50% of their unused sick leave. Civilian employees retiring from SLPD with 2200+ hours of sick leave accrued and 85 points (years of service plus age) or age 65 will be paid 50% of their unused sick leave.

n. Encumbrances

Within the governmental fund financial statements, fund balance is reserved for outstanding encumbrances, which serves as authorization for expenditures in the subsequent year. Of encumbrances outstanding at year-end, $58,174 will remain in force and will be liquidated under the current year's budget and $1,160 will automatically be re-appropriated and re-encumbered as part of subsequent year budgets.

o. Interfund Transactions

In the fund financial statements, the City has the following types of transactions among funds:

1) Transfers

Legally authorized transfers are reported when incurred as transfers in by the recipient fund and as transfers out by the disbursing fund.

2) Interfund Services Provided/Used

Charges or collections for services rendered by one fund for another are recognized as revenues (interfund services provided) of the recipient fund and expenditures or expenses (interfund services used) of the disbursing fund. These transactions are recorded as interfund services because they would be treated as revenues and expenditures or expenses if they involved organizations external to the City.

Within the accompanying activity from the statement of activities, interfund services provided and used are not eliminated from the various functional categories. Transfers are eliminated from the various functional categories.

Certain internal payments are treated as program revenues, such as internal services provided and used. Certain internal payments are treated as a reduction of expense, such as reimbursements.

p. Reserved Fund Balance

Within the governmental fund financial statements, reserved fund balance represents the portion of fund balance that is not available for subsequent year appropriation and is legally segregated for a specific future use. In addition to encumbrances, reserved fund balances at June 30, 2008 are comprised of the following:

1) General Fund
Cash and investments with trustees to be used for debt service related to the Kiel Site Project, the Parking Revenue Bonds Series 2006 pledge, Civil Courts, Justice Center, Carnahan Courthouse, and Pension Funding Bonds-Series 2007 & Series 2008.

2) Capital Projects Fund
Cash and investments with trustees to be used for debt service and construction related to the Forest Park Redevelopment, Justice Center construction, Carnahan Courthouse construction, Recreational Centers construction, Police Capital Improvement Projects, and the Juvenile Detention Centers Project. Reserved fund balance also includes proceeds of capital improvement sales tax restricted for construction.

3) Other Governmental Funds
Cash and investments with a trustee to be used for debt service of tax increment financing bonds and notes payables and other bond principal payments, use tax funding for affordable housing, health and building demolition, transportation sales tax, sewer lateral repair program funds, gaming revenue, parks and recreation sales tax, public safety sales tax, and Barnes/City lease agreement funds.

q. Net Assets

In the government-wide and proprietary fund financial statements, equity is displayed in three components as follows:

1) Invested in Capital Assets, Net of Related Debt
This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition and construction of those assets.

2) Restricted
This consists of net assets that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation. Net assets restricted by statutory restrictions represent tax and other revenue sources that are required by statute to be expended only for a specific purpose or purposes.

3) Unrestricted
This consists of net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

r. Component Unit—SLPD

During fiscal year 2008, SLPD sold its license to operate a television station to a third-party for $2,506. This has been reflected as special item – sale of TV license within the accompanying financial statements, as it is infrequent in occurrence and within the control of management.

s. Statement of Cash Flows

For the purpose of the statement of cash flows, cash and cash equivalents are defined as all highly liquid investments (including restricted assets) with a maturity of three months or less at the date of purchase.

t. Use of Estimates

The preparation of the basic financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements, and the reported amounts of revenue, expenses, and expenditures during the reporting period. Actual results could differ from those estimates.

u. Individual Fund Deficit

At June 30, 2008, the grants fund has a deficit fund balance of $(62). This amount will be offset by future commissions. The mail room services internal service fund has deficit net assets of $(186). This amount will be offset by charges for services to other funds in future years.

v. Adoption of New Accounting Pronouncements

Effective July 1, 2007, the City adopted GASB Statement No. 48, Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues. This statement establishes criteria for governments to use to account for the exchange of an interest in their expected receivables or specific future revenues for immediate cash payments. This statement also requires disclosures pertaining to future revenues that have been pledged or sold. This statement had no impact on the financial statements other than additional disclosure.

Effective July 1, 2007, the City adopted GASB Statement No. 50, Pension Disclosures – an amendment of GASB Statements No. 25 and No. 27. This statement more closely aligns the financial reporting requirement for pensions with those of other postemployment benefits. This statement had no impact on the financial statements other that additional disclosure.

Effective July 1, 2007, the SLPD adopted GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions. This statement establishes accounting and financial reporting standards for employers that participate in a defined benefit “other postemployment benefit” (OPEB) plan.

2. DEPOSITS AND INVESTMENTS

a. Primary Government

The following is a reconciliation of the City’s deposit and investment balances as of June 30, 2008:

As the investment strategies and associated risks for the Firemen’s Retirement System of St. Louis (Firemen’s System), Police Retirement System of St. Louis (Police System), and Employees’ Retirement System of the City of St. Louis (Employees’ System) are substantially different than those of the remainder of the primary government, the deposit and investment disclosures for the Firemen’s

(dollars in thousands)

System, Police System, and Employees' System are presented separately from those of the remainder of the primary government.

		Cash and Cash Equivalents	Investments	Restricted Assets	Total
Government-wide statement of net assets	$	55,454	126,574	422,756	604,784
Fiduciary statement of fiduciary net assets—agency funds		18,701	11,802		30,503
Total primary government excluding pension trust funds		74,155	138,376	422,756	635,287
Fiduciary statement of fiduciary net assets—pension trust funds:					
Firemen's System		5,308	505,259	—	510,567
Police System		5,725	791,868	—	797,593
Employees' System		130	681,558	—	681,688
Total pension trust funds		11,163	1,978,685	—	1,989,848
Total primary government	$	85,318	2,117,061	422,756	2,625,135

(dollars in thousands)

1) Primary Government Excluding Pension Trust Funds

Investments are recorded at fair value. Fair value for investments is determined by closing market prices at year-end, as reported by the respective investment custodian.

Certificates of deposit are defined as investments for statement of net assets/balance sheet/statement of fund net assets classification and cash flow purposes; for custodial risk disclosure; however, they are described below as cash deposits. In addition, money market mutual funds are classified as cash on the statement of net assets/balance sheet/statement of fund net assets, but as investments for custodial risk disclosure.

As of June 30, 2008, the primary government (excluding the pension trust funds) had the following cash deposits and investments:

Federal National Mortgage Association	$	123,108
Federal Home Loan Mortgage Corp.		85,243
Federal Home Loan Bank		218,193
United States Treasuries		5,932
Government Backed Trusts		798
Federal Farm Credit Discount Note		54
Guaranteed Investment Contract		10,895
Commercial Paper		7,480
Money Market Mutual Funds		54,843
Certificates of Deposit		46,149
Other Cash Deposits		82,592
	$	635,287

State statutes and City investment policies authorize the deposit of funds in financial institutions and trust companies. Investments may be made in obligations of the U.S. Government or any agency or instrumentality thereof; bonds of the State, the City, or any city within the state with a population of 400,000 inhabitants or more; or time certificates of deposit; provided, however, that no such investment shall be purchased at a price in excess of par. In addition, the City may enter into repurchase agreements maturing and becoming payable within 90 days secured by U.S. Treasury obligations or obligations of the U.S. Government agencies or instrumentalities of any maturity as provided by law. City funds in the form of cash on deposit or time certificates of deposit are required to be insured or collateralized by authorized investments held in the City’s name.

Additionally, the City’s indentures with its bond trustees also permit City bond proceeds to be invested in commercial paper having an original maturity of 270 days or less and rated “A-l” or better by Standard & Poor’s Corporation and “P-l” by Moody’s Investors Service, money market funds rated “AAAM” or “AAAM-G” by Standard & Poor’s Corporation, and other obligations fully and unconditionally guaranteed by the U.S. Government. These investments, while permitted by the indentures with the bond trustees, are not permitted by the Investment Policy for the City of St. Louis, Missouri (Investment Policy).

(dollars in thousands)

Interest Rate Risk

The City seeks to minimize its exposure to fair value losses arising from changes in interest rates by selecting investments in adherence to the Investment Policy for the City of St. Louis, Missouri (Investment Policy). The Investment Policy provides that, to the extent possible, the City shall attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the City will not directly invest in securities or make a time deposit with a stated maturity or more than five years from the date of purchase. The average maturity for collateral provided to the City for deposits in connection with a repurchase agreement shall not exceed five years without the written approval of the Treasurer. In connection with any outstanding bond issue, debt service reserve funds may be invested to a maximum maturity of 15 years, and up to 30 years with the approval of the Treasurer.

The investments of the primary government (excluding the pension trust funds) had the following maturities on June 30, 2008:

			Investment Maturities (in years)			
		Fair Value	**Less Than 1**	**1-5**	**6-10**	**More Than 10**
Federal National Mortgage Association	$	123,108	113,686	7,032	2,390	—
Federal Home Loan Mortgage Corp.		85,243	84,877	366	—	—
Federal Home Loan Bank		218,193	213,367	—	—	4,826
United States Treasuries		5,932	3,346	2,586	—	—
Federal Farm Credit Discount Notes		54	54	—	—	—
Government Backed Trusts		798	—	—	798	—
Guaranteed Investment Contract		10,895	—	—	—	10,895
Commercial Paper		7,480	7,480	—	—	—
Money Market Mutual Funds		54,843	54,843	—	—	—
	$	506,546	477,653	9,984	3,188	15,721

Credit Risk

The Investment Policy provides that investments of the City be rated in one of the three highest ratings categories by Moody’s Investors Service, Standard & Poor’s Corporation, or Fitch’s Ratings Service.

(dollars in thousands)

The investments of the primary government (excluding the pension trust funds) were rated as follows by Standard & Poor's Corporation as of June 30, 2008:

	Fair Value	AAA	Aaa	A-1+	A-1	Not Rated
Federal National Mortgage Association	$ 123,108	—	7,725	115,383	—	—
Federal Home Loan Mortgage Corp.	85,243	—	1,069	84,174	—	—
Federal Home Loan Bank	218,193	—	14,840	203,353	—	—
United States Treasuries	5,932	—	—	—	—	5,932
Federal Farm Credit Discount Notes	54	—	—	54	—	—
Government Backed Trusts	798	798	—	—	—	—
Guaranteed Investment Contract	10,895	—	—	—	—	10,895
Commercial Paper	7,480	—	—	—	7,480	—
Money Market Mutal Funds	54,843	—	—	—	—	54,843
	$ 506,546	798	23,634	402,964	7,480	71,670

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of a counterparty, the City will not be able to recover the value of the investments or collateral securities that are in the possession of the counterparty.

The Investment Policy requires that all cash deposits, time certificates of deposit, deposits with listed institutions, and repurchase agreements be covered by adequate pledged collateral. Acceptable collateral includes U.S. Treasury obligations, other interest-bearing securities guaranteed as to principal and interest by the U.S. or an agency or instrumentality of the U.S., bonds of the State or bonds of the City. The market value of the principal and accrued interest of the collateral must equal 103% of the deposits secured, less any amount subject to federal deposit insurance. All City securities and securities pledged as collateral must be held in a segregated account on behalf of the City by an independent third party with whom the City has a current custodial agreement and has been designated by the Treasurer and Funds Committee as eligible to serve in such a capacity.

At June 30, 2008, the following City investments are held by the counterparty's trust department or agent, and are not in the City's name: $45,853 of Federal National Mortgage Association securities, $1,677 of Federal Home Loan Mortgage Corporation securities, $41,577 Federal Home Loan Bank securities, $3,458 of U.S. Treasury securities, and the $10,895 Guaranteed Investment Contract. All remaining City investments and collateral securities pledged against City deposits are held by the counterparty's trust department or agent in the City's name.

(dollars in thousands)

Concentration of Credit Risk

The Investment Policy provides that, with the exception of U.S. Treasury Securities, no more than 35% of the City's total investment portfolio will be invested in a single security type or with a single financial institution.

At June 30, 2008, the concentration of the City's deposits and investments was as follows:

Federal National Mortgage Association	19.38	%
Federal Home Loan Mortgage Corp.	13.42	
Federal Home Loan Bank	34.34	
United States Treasuries	0.93	
Government Backed Trusts	0.12	
Federal Farm Credit Discount Notes	0.01	
Guaranteed Investment Contract	1.72	
Commercial Paper	1.18	
Money Market Mutual Funds	8.63	
Certificates of Deposit	7.27	
Other Cash Deposits	13.00	
	100.00	

2) Primary Government—Pension Trust Fund—Firemen' s System

As of September 30, 2007, the Firemen's System had the following cash deposits and investments:

Common Stock	$	230,431
Collective Investment—Equity		49,328
Hedge funds		22,823
Corporate Obligations		111
Collective Investment—Bonds		102,309
U.S. Government Securities		1
Real estate investment trust		48,314
Money Market Funds		51,942
Other Cash Deposits		5,308
	$	510,567

Marketable securities are stated at fair value. Fair values are based on the last reported sales price on September 30 or on the last reported bid price if no sale was made on that date.

The Firemen's System's investments are continuously exposed to various types of inherent risks. These risks are mitigated by the Firemen's System's development and continual monitoring of sound investment policies. The investment maturities, credit rating by investment, and foreign currency exposures by asset class schedules are presented to provide an illustration of the Firemen's System's current level of exposure to various risks.

(dollars in thousands)

The following schedule provides a summary of the investment maturities by investment type, which helps demonstrate the current level of interest rate risk assumed by the Firemen's System as of September 30, 2007:

	Fair Value	No Maturity	Investment maturities (in years)			
			Less than 1	1-5	6-10	More than 10
Common Stock	$ 230,431	230,431	—	—	—	—
Collective Investment—Equity	49,328	49,328	—	—	—	—
Hedge fund-equity	22,823	22,823	—	—	—	—
Corporate Obligations	111	—	—	—	—	111
Collective Investment—Bonds	102,309	—	1,616	54,132	35,624	10,937
U.S. Government Securities	1	—	—	—	—	1
Real estate investment trust	48,314	48,314	—	—	—	—
Money Market Funds	51,942	51,942	—	—	—	—
	$ 505,259	402,838	1,616	54,132	35,624	11,049

The Firemen's System's current level of exposure to credit risk, or the risk that an issuer or other counterparty to an investment will not fulfill its obligations, is demonstrated by the following table as of September 30, 2007:

Credit Rating Level	Common Stock	Collective Investment	Hedge Fund	Corporate Obligations	Government Securities	Real estate Investment	Money Market
AAA	$ —	82,011	—	111	1	—	—
AA	—	972	—	—	—	—	—
A	—	7,591	—	—	—	—	—
BBB	—	11,674	—	—	—	—	—
N/A	230,431	—	—	—	—	—	—
Not Rated	—	49,389	22,823	—	—	48,314	51,942
	$ 230,431	151,637	22,823	111	1	48,314	51,942

(dollars in thousands)

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Firemen's System's policy is to allow the individual investment managers to decide what action to take regarding their respective portfolio's foreign currency exposure. The following table demonstrates the Firemen's System's current level of foreign currency exposure as of September 30, 2007:

	Money Market	Equities	Fixed Income	Hedge Fund	Real Estate Investment Trust	Total
Australian Dollar	$ —	4,938	—	—	—	4,938
British Pound Sterling	—	8,017	—	—	—	8,017
Canadian Dollar	—	2,110	—	—	—	2,110
Danish Krone	—	1,300	—	—	—	1,300
Euro	—	17,822	—	—	—	17,822
Hong Kong Dollar	—	1,598	—	—	—	1,598
Indonesian Rupiah	—	141	—	—	—	141
Japanese Yen	—	18,448	—	—	—	18,448
Mexican Peso	—	291	—	—	—	291
Norwegian Krone	—	3,975	—	—	—	3,975
South African Zar	—	155	—	—	—	155
Swedish Krona	—	1,676	—	—	—	1,676
Swiss Franc	—	3,246	—	—	—	3,246
Total Foreign Currency	—	63,717	—	—	—	63,717
U.S. Dollar	51,942	216,042	102,421	22,823	48,314	441,542
Total	$ 51,942	279,759	102,421	22,823	48,314	505,259

Custodial credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Firemen's System's minimum credit quality rating for each issue shall be "BBB" (or its equivalent) at the time of purchase. In the event of a split-rating, the higher rating shall apply. The fixed income portfolio should have an average quality rating of at least "A" (or its equivalent). Commercial paper issues must be rated at least "Al" (or its equivalent) at the time of purchase. In the event of a split-rating, the higher rating shall apply. In the event of a downgrade below investment grade by any rating agency, the investment manager is required to notify the Board and investment consultant as soon as possible and to refrain from any further investment in the downgraded issue.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The effective duration of any fixed income portfolio shall not exceed 120% of the effective duration of the investment manager's broad market benchmark.

(dollars in thousands)

Concentration of credit risk is the risk of loss attributed to the magnitude of the Firemen's System's investment in a single issuer. The Firemen's System's policy does not allow the concentration per issuer to exceed 5% of the portfolio's market value at cost, with the exception of cash, cash equivalents, U.S. Treasury, of U.S. Agency securities. Furthermore, the investment manager may not hold more than 5% of the outstanding shares of any single issuer with exception of U. S. Treasuries or Agencies. Investment in any single fund of hedge funds shall not exceed 10% of the fund's market value. It is the Firemen's System's policy to invest in each asset class ranging between a minimum and maximum as shown below:

Asset Class as a Percent of Total Assets

Asset Class	Minimum	Target Mix	Maximum
Domestic Equity:			
Large Cap	24%	29%	34%
Small Cap	10	15	20
Domestic Fixed Income	25	20	35
International Equities	16	21	26
Real estate trust	—	10	15
Hedge fund	—	5	10

Investments that exceed 5% or more of net assets held in trust for pension benefits for the Firemen's System at September 30, 2007 are as follows:

Aberdeen Core Plus Fixed	$102,309
Artisan International Stock	49,328
The Principal US Property	48,314

The Firemen's System participates in securities lending programs in order to enhance investment yield. In a securities lending transaction, the Firemen's System transfers possession—but not title—of the security to the borrower. Borrowers shall be rated AA, A, or higher by Moody's or Standard and Poors. Collateral consisting of cash, letter of credit, U.S. government or agency securities, or floating rate notes of U.S. issuers is received and held by a financial institution. The collateral maintained is at least 102% of loan value for domestic securities and 105% of loan value for international securities of the market value of the securities lent. The Firemen's System maintains all the rights in the collateral of a secured lender under the Uniform Commercial Code. The Firemen's System continues to earn income on the loaned security. In addition, the Firemen's System receives 60% of the net lending fees generated by each loan of securities. The financial institution indemnifies operation risk and counter party risk. The Firemen's System authorizes the lending and loans of the following: domestic securities, U.S. Treasuries, corporate bonds, and equities. The Firemen's System does not have the ability to pledge or sell collateral securities without borrower default. Therefore, for accounting purposes, the financial statements do not reflect an increase in assets or liabilities associated with securities lent. At September 30, 2007, $47,845 in loans was outstanding to borrowers. The Firemen's System earned income of

(dollars in thousands)

$158 for its participation in the securities lending program for the year ended September 30, 2007.

3) Primary Government—Pension Trust Fund—Police System

As of September 30, 2007, the Police System had the following cash deposits and investments:

Equities:		
Common Stock	$	277,043
Collective Investment Funds		200,888
Real Estate Equities		32,380
Mortgaged-Backed Securities-Government		33,357
Mortgaged-Backed Securities-Non-Government		34,077
Fixed Income Collective Investment Fund		10,641
Corporate Bonds		92,351
Government Securities		63,801
Short-Term Notes and Commercial Paper		900
Money Market Funds		44,915
Investment Property		1,515
Other Cash Deposits		5,725
	$	797,593

Marketable securities are stated at fair value. Fair values are based on the last reported sales price on September 30 or on the last reported bid price if no sale was made on that date.

The Police System's investments are continuously exposed to various types of inherent risks. These risks are mitigated by the Police System's development and continual monitoring of sound investment policies. The investment maturities, credit rating by investment, and foreign currency exposures by asset class schedules are presented below to provide an illustration of the Police System's current level of exposure to various risks.

(dollars in thousands)

The following schedule provides a summary of the investment maturities by investment type, which helps demonstrate the current level of interest rate risk assumed by the Police System as of September 30, 2007:

			Investment maturities (in years)			
	Fair Value	No Maturity	Less than 1	1 – 5	6 – 10	More than 10
Equities	$ 510,311	510,311	—	—	—	—
Mortgaged-Backed Securities—Government	33,357	—	95	—	1,920	31,342
Mortgaged-Backed Securities—Nongovernment	34,077	—	107	730	1,057	32,183
Corporate Bonds	92,351	—	55,806	13,101	13,847	9,597
Collective investment funds	10,641	10,641	—	—	—	—
Government Securities	63,801	—	20,980	24,114	14,102	4,605
Short-Term Notes and Commercial Paper	900	—	900	—	—	—
Money Market Funds	44,915	44,915	—	—	—	—
Investment Property	1,515	1,515	—	—	—	—
	$ 791,868	567,382	77,888	37,945	30,926	77,727

The Police System's current level of exposure to credit risk, or the risk that an issuer or other counterparty to an investment will not fulfill its obligations, is demonstrated by the following table as of September 30, 2007:

Credit Rating Level	Equities	Government Mortgage-Backed Securities	Nongovernment Mortgage-Backed Securities	Corporate Bonds	Collective Invest-ment Funds	Government Securities	Short-term Notes and Commercial Paper	Money Market Fund	Investment Property
AAA	$ —	32,631	27,872	1,226	—	62,220	—	—	—

(dollars in thousands)

Foreign currency risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The Police System's policy is to allow the individual investment managers to decide what action to take regarding their respective portfolio's foreign currency exposure. The following table demonstrates the Police System's current level of foreign currency exposure as of September 30, 2007:

		Money Money Market/ Commercial Paper	Investment Property	Equities	Fixed Income	Total
Australian Dollar	$	—	—	—	438	438
British Pound Sterling		—	—	3,981	297	4,278
Canadian Dollar		—	—	4,356	960	5,316
Cayman Islands Dollar		—	—	575	—	575
Euro		—	—	4,694	965	5,659
Indian Rupee		—	—	1,287	125	1,412
Israeli Shekel		—	—	270	—	270
Korean Won		—	—	—	450	450
Mexican Peso		—	—	768	159	927
Panama Dollar		—	—	—	177	177
Russian Rubles		—	—	406	—	406
Swiss Franc		—	—	4,094	—	4,094
Total Foreign Currency		—	—	20,431	3,571	24,002
U.S. Dollar		45,815	1,515	489,880	230,656	767,866
Total	$	45,815	1,515	510,311	234,227	791,868

Custodial credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Fixed Income Portfolio must have an average rating of "A" or better in the aggregate as measured by at least one credit rating service. In cases where the yield spread adequately compensates for additional risk, securities rated lower than "A" may be purchased, provided overall fixed income quality is maintained. All issues will be of investment grade quality (BBB or Baa rated) or higher at the time of purchase. Up to 15% of the total market value of fixed income securities may be invested in BBB or Baa rated securities. In cases where credit rating agencies assign different quality ratings to a security, the lower rating will be used. Should the rating of a fixed income security fall below minimum investment grade, the Investment Manager may continue to hold the security if they believe the security will be upgraded in the future, there is low risk of default, and buyers will continue to be available throughout the anticipated holding period. The Investment Manager has the responsibility of notifying the Board of Trustees through their designee whenever an issue falls below investment grade.

(dollars in thousands)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The average effective duration of the aggregate portfolio, reflecting all instruments including Collateralized Mortgage Obligations and Asset-Backed Securities, must be maintained at plus or minus one year of the duration of the respective investment manager's benchmark index.

Concentration of credit risk is the risk of loss attributed to the magnitude of the Police System's investment in a single issuer. Emerging markets asset class as a sub-set of foreign equities has a target of 5% with a minimum of 3% and a maximum of 7%. It is the Police System's policy to invest in each asset class ranging between a minimum and maximum as shown below:

Asset Class as a Percent of Total Assets

Asset Class	Minimum	Target Mix	Maximum
Fixed Income	28%	30%	32%
Real Estate Equity	3	5	7
Large Cap U.S. Stocks	38	40	42
Small Cap U.S. Stocks	8	10	12
Foreign Equities	13	15	17

Investments which exceed 5% or more of net assets held in trust for pension benefits for the Police System are as follows:

MFB Daily S&P 500 Equity Index Fund	$100,814
COLTV Short-term Investment Funds	41,292

The Police System participates in securities lending programs in order to enhance investment yield. In a securities lending transaction, the Police System transfers possession—but not title—of the security to the borrower. Collateral consisting of cash, letter of credit, or government securities is received and held by a financial institution. The broker/dealer collateralizes their borrowing (usually in cash) to 102% of the security value plus accrued interest, and this collateral is adjusted daily to maintain the 102% level. The Police System maintains all the rights in the collateral of a secured lender under the Uniform Commercial Code. The Police System continues to earn income on the loaned security. In addition, the Police System receives 60% of the net lending fees generated by each loan of securities. The financial institution receives the remaining 40% of the net lending fees as compensation for its services provided in the securities lending program. The financial institution indemnifies operational risk and counterparty risk. The Police System authorizes the lending of domestic securities, U. S. Treasuries, corporate bonds, and equities. The Police System does not have the ability to pledge or sell collateral securities without borrower default. Therefore, for accounting purposes, the financial statements do not reflect an increase in assets or liabilities associated with securities lent. At September 30, 2007, outstanding loans to borrowers were $106,920. The Police System earned income of $130 for its participation in the securities lending program for the year ended September 30, 2007.

(dollars in thousands)

4) Primary Government—Pension Trust Fund—Employees' System

As of September 30, 2007, the Employees' System had the following cash deposits and investments:

Stocks	$	266,481
Managed International Equity Funds		141,246
Corporate Bonds and Debentures		17,089
Foreign Governmental and Corporate Obligations		23,593
Domestic Bond Funds		45,101
Real Estate Funds		75,597
U.S. Government and Agency Securities		37,498
Temporary Cash Investments		48,439
Managed hedge fund		26,514
Other Cash Deposits		130
	$	681,688

Investments are reported at fair market value. Securities traded on a national or international exchange are funds are valued at the unit value quoted by the investee entity.

Foreign Currency Risk

The Employees' System does not have a formal policy to limit foreign currency risk. Risk of loss arises from changes in currency exchange rates. The Employees' System's exposure to foreign currency risk is presented on the following table:

		Short-Term	**Debt**	**Equity**	**Total**
British Pound	$	736	818	—	1,554
Brazilian Real		—	158	—	158
Canadian Dollar		—	1,017	—	1,017
Euros		109	9,631	—	9,740
Japanese Yen		5	3,509	—	3,514
Total	$	850	15,133	—	15,983

(dollars in thousands)

Credit Risk of Debt Securities

Credit risk is the risk that an issuer or other counter party to an investment will not fulfill its obligation to the Employees' Retirement System. Below is a list of fixed income credit qualities.

Quality Rating		
Aaa/U.S. Governments	$	90,674
Aa		8,416
A		11,931
Baa		7,383
Below Baa		4,878
Total	$	123,282

All temporary cash investments held by the Employees' Retirement System at September 30, 2007 were unrated.

Interest Rate Risk

The Employees' System does not have a formal policy to limit interest rate risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair values of an investment. Duration is a measure of debt instrument's exposure to a change in interest rate and the related sensitivity of market price to parallel shifts in the yield curve. It uses the present value of cash flows, weighted for those cash flows as a percentage of the instrument's full price.

Investment		**Fair Value**	**Effective Duration**
Payden and Rygel	$	34,841	5.5 years
Allegiant		43,340	5.2 years
SSGA		45,101	4.7 years
	$	123,282	

The Employees' System participates in a securities lending program administered by a financial institution. Brokers who borrow the securities provide collateral, usually in the form of cash valued at 102% for domestic securities. There are no restrictions on the amount of securities that can be lent at one time. At September 30, 2007, the term to maturity of the securities lent is matched with the term to maturity of the investment of the cash collateral. These loans can be terminated on demand by either the lender or borrower. The Employees' System cannot pledge or sell non-cash collateral unless the borrower defaults. As of September 30, 2007, the Employees' System has lending arrangements outstanding with a market value for securities lent of $112,378 and a total market value for securities received as collateral of $115,491 resulting in no credit risk for the Employees' System.

(dollars in thousands)

Concentration of Credit Risk

At September 30, 2007, the Employees' System has the following concentrations, defined as investments (other than those issued or guaranteed by the U.S. Government) in any one organization, that represent five percent or more of total investments to the Employees' System:

State Street Global Advisors Passive Bond Market Index Fund	$45,101
Silchester International Investors International Value Equity Group Trust	$81,395
Walter Scott & Partners Limited Group Trust International	$59,851
Principal Global Investors Real Estate Group Annuity Contract	$75,597

b. Component Unit—SLDC

State statutes and SLDC investment policies are the same as for the primary government. SLDC funds, in the form of cash on deposit or certificates of deposit, are required to be insured or collateralized by authorized investments held in SLDC's name. At June 30, 2008, all of SLDC's cash deposits were covered by federal depository insurance or collateral held by the pledging institution's trust department or agent in SLDC's name. At June 30, 2008, the market value of investments approximates the carrying value of $116.

c. Component Unit—SLPD

Investments are recorded at fair value, which is determined by closing market prices at year-end as reported by the investment custodian. Investments with an original maturity date of less than one year are carried at cost plus earned interest, which approximates fair value.

As of June 30, 2008, the SLPD had the following cash deposits and investments:

Federal Farm Credit Bank	$	486
Federal Home Loan Discount Notes		5,499
Other cash deposits		1,735
Total	$	7,720

State statutes and SLPD investment policies are the same as for the primary government SLPD funds in the form of cash on deposit or time certificates of deposit are required to be insured or collateralized by authorized investments held in the SLPD's name. Actual investment decisions are made by the director of budget and finance, the Board of Police Commissioners, and the SLPD's fiscal agents.

Interest Rate Risk

The SLPD seeks to minimize its exposure to fair value losses arising from changes in interest rates by selecting investments in adherence to the Board of Police Commissioner's (Investment Policy). The Investment Policy provides that, to the extent possible, the SLPD shall attempt to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the SLPD will not directly invest in securities or make a time deposit with a stated maturity or more than five years from the date of purchase. The average maturity for collateral provided to the SLPD for deposits in connection with a repurchase agreement shall not exceed five years without the written approval of the Treasurer. In connection with any outstanding bond issue, debt service reserve funds may be invested to a maximum maturity of 15 years, and up to 30 years with the approval of the Treasurer.

The SLPD had investments in Federal Farm Credit Bank and Federal Home Loan Discount Notes securities had maturities of one year or less as of June 30, 2008.

Credit Risk

The Investment Policy provides that investments of the SLPD be rated in one of the three highest ratings categories by Moody's Investors Service, Standard & Poor's Corporation, or Fitch's Ratings Service.

The SLPD's investments in U.S. Government agencies as of June 30, 2008 were rated AAA by Moody's Investor Service and Standard & Poor's.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of a counterparty, the SLPD will not be able to recover the value of the investments or collateral securities that are in the possession of the counterparty.

The Investment Policy requires that all cash deposits, time certificates of deposit, deposits with listed institutions, and repurchase agreements be covered by adequate pledged collateral. Acceptable collateral includes U.S. Treasury obligations, other interest-bearing securities guaranteed as to principal and interest by the U.S. or an agency or instrumentality of the U.S., bonds of the State, or bonds of the City. The market value of the principal and accrued interest of the collateral must equal 103% of the deposits secured, less any amount subject to federal deposit insurance. All SLPD securities and securities pledged as collateral must be held in a segregated account on behalf of the SLPD by an independent third-party with whom the SLPD has a current custodial agreement and has been designated by the Board of Police Commissioners to serve in such capacity.

(dollars in thousands)

At June 30, 2008, all SLPD investments and all collateral securities pledged against SLPD deposits are held by the counterparty's trust department or agent in the SLPD's name. Additionally, at June 30, 2008, $112 of SLPD funds held in the form of cash on deposit were not insured or collaterized.

Concentration of Credit Risk

The SLPD has no investment policy related to the concentration of credit risk. At June 30, 2008, the concentration of the SLPD's investments (excluding cash deposits) was as follows:

	Concentration
Federal Farm Credit Bank	8%
Federal Home Loan Discount Notes	92%
	100%

d. Component Unit—SWMDC

At June 30, 2008, all of SWMDC's cash deposits were covered by federal depository insurance or collateral held by the pledging institution's trust department or agent in the City's name. SWMDC's investments of $734 at year-end consisted entirely of Federal Home Loan Mortgage Corporation, Federal Home Loan Bank, and Federal National Mortgage Securities with less than one year to maturity and rated A-1+ by Standard & Poor's Corporation.

All amounts are scheduled for collection during the subsequent fiscal year.

(dollars in thousands)

4. ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS

The allowance for uncollectible accounts, which has been deducted from the related receivable in the government-wide statement of net assets and fund financial statements, consists of the following balances:

Governmental activities:		
Taxes receivable—general fund	$	859
Taxes receivable—other governmental funds		132
License and permits receivable—general fund		60
Charges for services receivable—other governmental funds		398
Business-type activities:		
Charges for services receivable—Airport		200
Charges for services receivable—Water Division		3,429
	$	5,078

5. COMPONENT UNIT—SLDC RECEIVABLES

SLDC receivables consist principally of small business commercial loans to facilitate business growth. The commercial loans were financed utilizing funds provided by the Community Development Agency (CDA) of the City, the Economic Development Administration, and the State. The proceeds from any repayment of these loans are payable back to the funding source or re-loaned in accordance with the lending program. Thus, a corresponding liability has been recorded.

6. RESTRICTED ASSETS

a. Airport

Cash and investments, restricted in accordance with City ordinances and bond provisions, are as follows at June 30, 2008:

Airport bond fund:		
Debt service account	$	43,267
Debt service reserve account		35,755
Airport renewal and replacement fund		3,500
Passenger facility charge fund		28,468
Airport development fund		68,846
Airport construction fund		75,589
Drug enforcement agency funds		2,118
	$	257,543

City ordinances require that revenues derived from the operation of the Airport be deposited into the unrestricted Airport Revenue Fund. From this fund, the following allocations are made (as soon as practicable in each month after the deposit of revenues, but no later than five business days before the end of each month) in the following order of priority:

1) *Unrestricted Airport Operation and Maintenance Fund:* an amount sufficient to pay the estimated operation and maintenance expenses during the next month.

2) *Airport Bond Fund:* for credit to the Debt Service Account, if and to the extent required, so that the balance in said account shall equal the accrued aggregate debt service on the bonds, to the last day of the then current calendar month. This account shall be used only for payment of bond principal and interest as the same shall become due.

3) *Airport Bond Fund:* for credit to the Debt Service Reserve Account: an amount sufficient to maintain a balance in such account equal to the debt service reserve requirement (an amount equal to the greatest amount of principal and interest due in any future fiscal year). This account shall be available for deficiencies in the Debt Service Account on the last business day of any month, and the balance shall be transferred to the debt service account whenever the balance in the Debt Service Account (before the transfer) is not sufficient to fully pay all outstanding bonds.

4) *Arbitrage Rebate Fund*: an amount necessary to fund the Arbitrage Rebate in order to pay the Rebate Amount when due and payable.

5) *Subordinated Indebtedness*: an amount sufficient to pay Subordinated Indebtedness in accordance with the authorizing and implementing documents for such Subordinated Indebtedness.

6) *Airport Renewal and Replacement Fund:* an amount equal to $57, provided that no deposit shall be required to be made into said fund whenever and as long as uncommitted moneys in said fund are equal to or greater than $3,500 or such larger amount as the City shall determine is necessary for purposes of said fund; and provided further that, if any such monthly allocation to said fund shall be less than the required amounts, the amount of the next succeeding monthly payments shall be increased by the amount of such deficiency. This fund shall be used for paying costs of renewal or replacement of capital items used in connection with the operation of the Airport.

7) *A sub-account in the Airport Revenue Fund:* an amount determined from time-to-time by the City, such that if deposits were made in amounts equal to such amount in each succeeding month during each Airport fiscal year, the balance in such sub-account shall equal the amounts payable to the City with respect to such Airport fiscal year for the payment of 5% of gross receipts from operations of the Airport. A maximum of 80% of the monthly transfer to this sub-account may be paid to the City during the Airport's fiscal year. The final installment may only be paid to the City upon delivery of the Airport's audited financial statements to the Airport Bond Fund Trustee.

8) *Airport Debt Service Stabilization Fund and the Airport Development Fund*: various amounts for Airport fiscal years 2006 through 2011, achieving a balance of $38,211 at the end of fiscal year 2011. Beginning in Airport fiscal year 2012, the Airport will allocate an amount sufficient to

(dollars in thousands)

bring the amount on deposit in the Debt Stabilization Fund equal to the Debt Stabilization Fund Requirement (or such lesser amount as is available in the Revenue Fund for such transfer).

9) The remaining balance in the Revenue Fund shall be deposited into the Airport Development Fund. This fund shall be used for extensions and improvements to the Airport, including equipment acquisition.

City ordinances provide that, in the event the sum on deposit in the Airport Bond Fund—Debt Service and Debt Service Reserve Accounts are insufficient to pay accruing interest, maturing principal or both, the balance in the Airport Contingency Fund, Airport Development Fund, and Airport Renewal and Replacement Fund may be drawn upon, to the extent necessary, to provide for the payment of such interest, principal, or both. Any sums so withdrawn from these accounts for said purposes shall be restored thereto in the manner provided for in their original establishment. City ordinances also provide that the principal proceeds from the sale of Airport revenue bonds shall be held in the Airport Construction Fund from which they shall be disbursed for the purposes contemplated in these ordinances.

b. Water Division

Cash and investments restricted in accordance with City ordinances at June 30, 2008 are as follows:

Bond funds:		
Waterworks bond fund	$	3,980
Water replacement and improvement account		819
Total bond funds		4,799
Construction funds		6,932
Customer deposits		1,809
	$	13,540

City ordinances require that revenues derived from the operation of the Waterworks System be deposited in the Waterworks Revenue Account. From this account, the following allocations are made on the first business day of each month in the following order of priority:

1) 1998 Water Revenue Bond Funds

a. To the unrestricted *Waterworks Operations and Maintenance Fund*, an amount sufficient to pay the estimated operation and maintenance expenses during the next month.

b. To the *Waterworks Bond Fund*, an amount at least equal to 1/6 of the amount of interest that will come due on the next interest payment date, plus an amount at least equal to 1/12 of the aggregate principal amount of bonds that will come due on the next bond maturity date. This account is to be used only for the payment of bonds principal and interest, as the same shall become due.

c. To the *Water Revenue Debt Service Reserve Account*, a sum equal to the Debt Service Reserve Fund Requirement or a debt service reserve fund policy or a surety bond shall be provided by a Bond Issuer in such amount or a letter of credit shall be provided by a bank acceptable to the City in such amount. All amounts paid and credited to this account shall be used solely to prevent any default in the payment of the principal of and interest on the Bonds.

d. To the *Water Replacement and Improvement Fund*, an amount equal to $25 per month until the account balance aggregates $750. This account shall be used for making replacements, extensions, and improvements to the Waterworks System, and for the purpose of meeting unforeseen contingencies and emergencies arising in the operation of the Waterworks System of the City.

e. The remaining balance in the *Waterworks Revenue Fund* is to be deposited into the unrestricted Water Contingent Fund. This account shall be used for paying the cost of the operation, maintenance, and repair of the Waterworks System; paying the cost of extending, improving, or making replacements to the Waterworks System; preventing default in, anticipating payments into, or increasing the amounts in the other accounts; paying any gross receipts tax now or hereafter levied by the City; paying the principal or the interest on any subordinate or junior lien bonds; paying any redemption premium due on the bonds; or any other lawful purpose for use by the Waterworks System.

2) Construction Funds

City ordinances also provide that the principal proceeds from the sale of Series 1998 Revenue Bonds and amounts appropriated from the Water Contingent Account shall be held in the Construction Fund, from which they shall be disbursed for the purposes contemplated in these ordinances.

3) Customer Deposits

City ordinances provide that amounts paid by customers as deposits on water meters, construction, and unclaimed meter deposits be held in escrow until such time as they are returned to customers in the form of cash or as a credit on the applicable customer's water bill.

4) Service Line Maintenance

In accordance with a City ordinance, the Water Division collects a $3.00 (in dollars) per quarter surcharge from flat-rate and metered residential customers having six or less dwelling units. These funds are deposited in the service line maintenance account. This account, including interest earned, is used to pay for the repair of certain portions of the water lines for these customers.

(dollars in thousands)

c. Parking Division

Cash and investments restricted in accordance with revenue bond indentures at June 30, 2008 are as follows:

Series 2007 and 2006 bonds:		
Debt service reserve	$	4,897
Debt Service		649
Capitalized interest		611
Construction Funds		12,739
Cost of issuance		3
Repair and replacement		2,607
Net project revenues		173
TIF funds-Argyle		46
Parking trust—Parking Division accounts		1,924
Total series 2007 and 2006 bonds		23,649
Series 2003A and 2003B bonds:		
Gross revenues		107
Bond		53
Repair and replacement		42
Operating reserve		100
Redemption		51
Total series 2003A and 2003B bonds		353
	$	24,002

Descriptions of the above funds required by the Series 2007 and 2006 bond indentures are as follows:

1) *Debt service reserve*—Maintains funds from the proceeds of the respective bond series to be available to pay principal of and interest on the respective bonds if other funds are not available.

2) *Debt service*—Moneys deposited into this account pay principal and accrued and unpaid interest on the respective bonds.

3) *Capitalized interest* – Moneys deposited in this account to pay accrued and unpaid interest.

4) *Construction funds*—Provides for the payment of construction costs to complete the respective projects.

5) *Cost of issuance*—Provides for the payment of costs of issuance incurred in conjunction with the issuance of the bonds.

6) *Net project revenues*—Maintains funds used to fund the debt service account.

(dollars in thousands)

7) *Argyle TIF* – Money from the Argyle TIF district to help pay principal and interest on the bonds.

8) *Parking Trust*—Parking Division Accounts—Maintains funds transferred from the respective bond account to be available to pay principal and interest on the respective refunded bonds if other funds are not available.

9) *Repair and Replacement*—Provides for the repair and upkeep of parking garages.

Descriptions of the funds required by the Series 2003A and 2003B bond indenture are as follows:

1) *Gross Revenues*—Maintains revenues resulting from the operations of the Cupples Garage and uses these to pay the operating and debt service costs associated with the Cupples Garage.

2) *Bonds*—Moneys deposited into this account pay principal and accrued and unpaid interest on the Series 2003A and 2003B Bonds.

3) *Repair and Replacement*—Provides for the repair and upkeep of the Cupples Garage.

4) *Operating Reserve*—Maintains operating reserve as required by the Bond indenture.

5) *Redemption*—Maintains funds set aside for the future redemption of the Series 2003A and 2003 Bonds.

d. Component Unit—SLDC

Restricted cash and investments at June 30, 2008 are as follows:

Bond funds	$	2,167

Cash and investments restricted in accordance with the SLDC Parking Facilities Revenue Refunding Bonds, Series 1999, Bond Indenture. Amortization expense was $36 during the year ended June 30, 2008.

The revenue bond indenture requires that gross operating revenues be paid to the bond trustee for deposit in the parking facility fund. From this fund, the revenues are to be applied by the trustee to various reserve accounts including principal and interest, repair and replacement, and operating reserve up to specified limits. Amounts received above the required limits are remitted by the Trustee to SLDC.

d. Component Unit—SWMDC

The following represents a summary in SWMDC's capital assets for the year ended June 30, 2008:

	Balance June 30, 2007	Additions	Retirements	Balance June 30, 2008
Capital assets being depreciated:				
Infrastructure	$ 8,056	669	—	8,725
Total capital assets being depreciated	8,056	669	—	8,725
Less accumulated depreciation for:				
Infrastructure	2,919	276	—	3,195
Total accumulated depreciation	2,919	276	—	3,195
SWMDC capital assets, net	$ 5,137	393	—	5,530

8. COMPONENT UNIT—SLDC PROPERTY HELD FOR DEVELOPMENT

SLDC property held for development consists primarily of land and property held for sale or other development purposes. This land and property is reported in SLDC's financial statements based on management's intent of ultimate disposition of the property. Proceeds received upon the sale of most of these properties will revert back to the funding source. At June 30, 2008, SLDC has established a reserve for impairment of $5,841 on its properties held for development.

9. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	Vendors	Contracts and retainage payable	Total
Governmental activities:			
General fund	$ 16,542	2	16,544
Capital projects fund	6,128	3,210	9,338
Grants fund	7,705	—	7,705
Other governmental funds	2,878	37	2,915
Internal service	291	—	291
Total governmental activities	$ 33,544	3,249	36,793
Business-type activities:			
Airport	$ 13,794	14,781	28,575
Water Division	2,250	—	2,250
Parking Division	673	—	673
Total business-type activities	$ 16,717	14,781	31,498

(dollars in thousands)

The general fund accounts payable to vendors includes a payable to the Employees System of $12,284 for the payment of the fiscal years 2007 and 2008 contribution.

10. RETIREMENT PLANS

The City contributes to three defined benefit retirement plans. The Firemen's Retirement System of St. Louis (Firemen's System) and the Police Retirement System of St. Louis (Police System) are single – employer plans. The Employees' Retirement System of the City of St. Louis (Employees' System) is a cost-sharing multiple-employer plan. However, due to the City's participation in the Employees' System being greater than 99% of the total participation of all employers, the disclosures provided for the Employees' System are those for a single-employer plan. Each system is administered by a separate board of trustees, who are partially appointed by City officials, plan participants, and the governor of the State (Police System only). For financial reporting purposes, these retirement systems are included as fiduciary pension trust funds of the City. Financial information for these funds has been included within the accompanying basic financial statements as of each System's fiscal year-end, which falls within the City's current fiscal year-end as follows:

System	System Fiscal Year-end
Firemen's	September 30, 2007
Police	September 30, 2007
Employees'	September 30, 2007

a. Firemen's Retirement System of St. Louis

1) System Description

All firefighters qualify as members of the Firemen's System and are thereby eligible to participate from their date of hire.

The Firemen's System issues a publicly available financial report that includes financial statements and supplementary information. That information may be obtained by writing to the Firemen's Retirement System of St. Louis, 1601 South Broadway, St. Louis, Missouri, 63104.

The Firemen's System provided retirement benefits as well as death and disability benefits. Members can voluntarily retire after a minimum of 20 years of service. The monthly allowance consists of 40% of the final two-year average monthly compensation at 20 years of service, plus 2% of such final average compensation for each of the next five years of service, plus 5% of final average compensation for each additional year of service over 25 years with a maximum pension of 75%. Unused accrued sick pay may increase the maximum pension beyond the 75% limitation. Such benefits are authorized by State statues and adopted by City ordinance.

The Firemen's System, in accordance with Ordinance 62994 of the City, initiated during the Firemen's System's fiscal year ended August 31, 1994, the Deferred Retirement Option Plan (DROP). The DROP option is available to members of the Firemen's System who have achieved at least 20 years of creditable service and have achieved eligibility for retirement. Those members who elect to participate will continue active employment, will have a service retirement allowance credited monthly into the DROP account of the member, and the member's contribution will be reduced to 1% from the normal 8%. During participation in the DROP, the member will not receive credit for City contributions or credit for service. A member may participate in the DROP only once for any period up to five years. At retirement, the funds in the member's DROP account plus interest and accrued sick leave, if elected, is available to the member in a lump sum or in installments.

(dollars in thousands)

2) Funding Policy

Covered members contribute 8% of their salary to the Firemen's System, as mandated per the State statute and adopted by City ordinance. The City is required to contribute the remaining amounts necessary to fund the Firemen's System. Members of the Firemen's System are entitled to a lump-sum distribution of the entire amount of their contribution without interest upon service retirement. Members whose employment terminates prior to retirement are entitled to a lump-sum distribution of their contribution, plus interest thereon.

3) Funded Status

The funded status of the Firemen's System as of October 1, 2007, the most recent actuarial valuation date is a follows:

Actuarial Valuation Date	Actuarial Value of Assets	Entry Age Actuarial Accrued Liability (AAL)	Unfunded AAL (UAAL)	Funded Ratio	Annual Covered Payroll	UAAL As A Percentage of Covered Payroll
October 1, 2007	$495,116	$533,235	$38,119	92.9%	$37,690	101.1%

The schedule of funding progress, presented as required supplementary information following the notes to the basic financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

4) Annual Pension Cost and Net Pension Asset (Obligation)

The City's annual pension cost and net pension asset to the Firemen's System for the year ended June 30, 2008 are as follows:

(dollars in thousands)

Annual required contribution	$	(17,206)
Interest on net pension asset		(824)
Adjustment to annual required contribution		925
Annual pension cost		(17,105)
Contributions made		63,690
Decrease in net pension obligation		46,585
Net pension obligation, beginning of year		(10,799)
Net pension asset, end of year	$	35,786

The net pension asset of $35,786 as of June 30, 2008 is reflected as a net pension asset within governmental activities in the government-wide financial statements.

Historical trend information about the City's participation in the Firemen's System is presented below to help readers assess the Firemen's System's funding status on a going-concern basis and assess progress being made in accumulating assets to pay benefits when due.

Fiscal Year		Annual Pension Cost (APC)	Percentage of APC Contributed			Net Pension Asset (Obligation)
2008	$	17,105	372	%	$	35,786
2007		17,899	23			(10,799)
2006		14,896	28			2,990

Significant actuarial assumptions used in the valuation of the Firemen's System are as follows:

Date of actuarial valuation	October 1, 2007
Actuarial cost method	Entry age-frozen liability method
Amortization method	30 year closed period from establishment
Remaining amortization period	Various
Asset valuation method	3-year smooth market
Inflation rate	3.500%, per year
Investment rate of return	7.625%, compounded annually
Projected salary increases	4.000%, per year to retirement age
Projected postretirement benefit increases:	
Under age 60:	
20-24 service years	1.5%, per year
25-29 service years	2.25%, per year
30 or more service years	3.0%, per year
Over age 60	3.000% with a maximum of 25% in increases after age 60

5) Lawsuit

The Firemen's System filed lawsuits against the City and the Board of Estimate and Apportionment to require the City to contribute the actuarially determined annual contribution for the Firemen's System for the City's 2004, 2005, 2006, and 2007 fiscal years. The City received an unfavorable ruling in the initial court proceedings relative to the fiscal year 2004 suit, and appealed the decision. In August 2006, the Missouri Court of Appeals affirmed the lower court's decision but transferred the case to the Missouri Supreme Court (Supreme Court). On March 13, 2007, the Supreme Court affirmed the judgments of the Circuit Court.

In response to the judgments, the Board of Aldermen authorized and approved the issuance and sale of bonds for the purpose of paying certain judgments and other amounts in connection with the Retirement Systems. During fiscal year 2008, SLMFC issued Taxable Leasehold Revenue and Refunding Bonds Series 2007 and Taxable Public Safety Sales Tax Leasehold Revenue Bonds Series 2008A to fund the Firemen's System in the amounts of $49,405 and $12,800, respectively (see note 15).

b. Police Retirement System of St. Louis

1) System Description

All persons who become police officers and all police officers that enter or reenter SLPD after October 1, 1957 become members of the Police System and are thereby eligible to participate from their date of hire. The Police System issues a publicly available financial report that includes financial statements and supplementary information. That information may be obtained by writing to the Police Retirement System of St. Louis; 2020 Market Street, St. Louis, Missouri 63103.

The Police System provides retirement benefits as well as death and disability benefits. Members can voluntarily retire after a minimum of 20 years of service or attaining age 55. The monthly allowance consists of 40% of the two-year average final compensation for the first 20 years of services, plus 2% of such final average compensation for each of the next five years of service, plus 4% of average final compensation for each additional year of service after 25 years up to a maximum of 30 years. The monthly allowance of members who have in excess of 30 years of service is increased by 5%. The maximum pension is 75% of average final compensation. Such benefits are established by the State statute.

The Police System implemented a DROP feature during the Police System's fiscal year ended September 30, 1996. The DROP option is available to members of the Police System who have at least 20 years of creditable service and have achieved eligibility for retirement. Those members who elect to participate will continue active employment, will have a service retirement allowance credited monthly in the DROP account, and will no longer make contributions to the Police System. During participation in the DROP, the member will not receive credit for service and the member shall not share in any benefit improvement that is enacted or becomes effective while such member is participating in the DROP. A member may participate in the DROP only once for any period up to five years, at which point the member may reenter the Police System. At retirement, the funds in the member's DROP account plus interest is available to the member in a lump sum or in installments.

2) Funding Policy

Police officers are required to contribute 7% of their compensation to the Police System per State statute. The City is required to contribute the remaining amounts necessary to fund the Police System, determined in accordance with City ordinances. Upon leaving employment due to service retirement, death, or disability due to an accident in the actual performance of duty, the member's contributions are refunded. Members whose employment terminates prior to retirement are entitled to a lump-sum distribution of their contribution plus interest thereon.

3) Funding Status

The funded status of the Police System as of October 1, 2007, the most recent actuarial valuation date is a follows:

Actuarial Valuation Date	Actuarial Value of Assets	Entry Age Actuarial Accrued Liability (AAL)	Unfunded AAL (UAAL)	Funded Ratio	Annual Covered Payroll	UAAL As A Percentage of Covered Payroll
October 1, 2007	$752,502	$775,669	$23,167	97.0%	$62,179	37.3%

The aggregate actuarial cost method is used to determine the annual required contribution of the employer (ARC) for the Police System. Because the method does not identify or separately amortize unfunded actuarial liabilities, information about funded status is prepared using the entry age actuarial cost method and is intended to serve as a surrogate for the funded status of the plan.

The schedule of funding progress, presented as required supplementary information following the notes to the basic financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

(dollars in thousands)

4) Annual Pension Cost and Net Pension Asset (Obligation)

The City's annual pension cost and net pension asset to the Police System for the year ended June 30, 2008 are as follows:

Annual required contribution	$	(12,703)
Interest on net pension obligation		(2,142)
Adjustment to annual required contribution		3,259
Annual pension cost		(11,586)
Contributions made		42,290
Increase in net pension obligation		30,704
Net pension obligation beginning of year		(27,634)
Net pension asset end of year	$	3,070

The net pension asset of $3,070 is reflected as a net pension asset within governmental activities in the government-wide financial statements.

Historical trend information about the City's participation in the Police System is presented below.

Fiscal Year		**Annual Pension Cost (APC)**	**Percentage of APC Contributed**			**Net Pension Asset (Obligation)**
2008	$	11,586	365	%	$	3,070
2007		16,504	49			(27,634)
2006		14,418	56			(19,223)

Significant actuarial assumptions used in the valuation of the Police System are as follows:

Date of actuarial valuation	October 1, 2007
Actuarial cost method	Aggregate cost method (this method does not identify or separately amortize unfunded actuarially accrued liabilities)
Asset valuation methods	5-year smoothed average of market value
Inflation rate	3.00%, per year
Investment rate of return	7.75%, per year
Projected salary increases	3.50 – 7.00%, varying by age
Projected postretirement benefit increases	3.00% maximum per year, cumulative 30% cap

5) Lawsuit

The Police System filed lawsuits against the City and the Board of Estimate and Apportionment to require the City to contribute the actuarially determined annual contribution for the Police System for the City's 2004, 2005, 2006 and 2007 fiscal years. The City received an unfavorable ruling in the initial court proceedings relative to the fiscal year 2004 suit, and appealed the decision. In August 2006, the Missouri Court of Appeals affirmed the lower court's decision but transferred the case to the Missouri Supreme Court (Supreme Court). On March 13, 2007, the Supreme Court affirmed the judgments of the Circuit Court.

In response to the judgments, the Board of Aldermen authorized and approved the issuance and sale of bonds for the purpose of paying certain judgments and other amounts in connection with the Retirement Systems. During fiscal year 2008, SLMFC issued Taxable Leasehold Revenue and Refunding Bonds Series 2007 and Taxable Public Safety Sales Tax Leasehold Revenue Bonds Series 2008A to fund the Police's System in the amounts of $29,587 and $6,000, respectively (see note 15).

c. Employees Retirement System of the City of St. Louis

1) System Description

All non-uniformed employees of the City and certain other public entities funded by or providing services to residents of the City become members of the Employees Retirement System upon employment with the exception of employees hired after attaining age 60.

The Employees System issues a publicly available financial report that includes financial statements and supplementary information. That report may be obtained by writing to the Employees' Retirement System of the City of St. Louis; 1114 Market Street, Suite 900; St. Louis, Missouri 63101.

The Employees System provides for defined benefit payments for retirement, death, or disability to eligible employees or their beneficiaries based upon creditable service, final average compensation, and a benefit compensation base. Benefits vest with employees covered by the Employees System after the employee has attained five years of creditable service. Employees retire with full retirement benefits after the age of 65 or if the employee's age and creditable service combined equal or exceed 85. Employees may retire and receive a reduced benefit after age 60 with five years of creditable service; age 55 with at least 20 years of creditable service; or at any age with 30 years of creditable service.

On June 8, 2000, the Mayor of the City approved an ordinance passed by the Board of Aldermen, Authorizing a Deferred Retirement Option Plan (DROP), which became effective January 1, 2001. This plan states that when members reach retirement age, they are allowed to work for five additional years and defer receipt of their retirement allowance. The calculation of average salary for retirement benefits will not include the additional years of service after normal retirement age. The amount that would have been received as retirement benefit is put in a special DROP account monthly. The DROP account will not be adjusted for cost of living increases as the normal retirement benefits are. The DROP account earns interest at the actuarial valuation rate of return and at the 10 year U.S. Treasury Bond yield as of September 30 for DROP participants enrolling February 1, 2003 and thereafter. After the member completely terminates employment, the member can withdraw amounts from the DROP account in a lump sum or according to a deferred retirement payment plan.

2) Funding Policy

Employer contribution rates are established annually by the Board of Trustees of the Employees' System based on an actuarial study. The Board of Trustees established the required employer contributions rate based on active member payroll of 13.21% effective July 1, 2007 and 13.17% of active member payroll effective July 1, 2006. The City contributed 6% of active member payroll beginning July 2003 through June 2006 and 7.55% of active member payroll beginning July 2006. The City made an additional contribution of $46,699 in September 2007 and $14,222 in July 2008 which is recorded within accounts payable at June 30, 2008.

Employees who became members of the Employees System prior to October 14, 1977, and continued to make contributions, may make voluntary contributions to the Employees System equal to 3% of their compensation until the employee's compensation equals the maximum annual taxable earnings under the Federal Social Security Act. Thereafter, employees may contribute 6% of their compensation for the remainder of the calendar year. These voluntary contributions vest immediately.

(dollars in thousands)

3) Funded Status

The funded status of the Employees System for the actuarial valuation as of September 30, 2007 is as follows:

Actuarial Valuation Date	**Actuarial Value of Assets**	**Entry Age Actuarial Accrued Liability (AAL)**	**Unfunded AAL (UAAL)**	**Funded Ratio**	**Annual Covered Payroll**	**UAAL As A Percentage of Covered Payroll**
September 30, 2007	$646,569	$732,576	$86,007	88.26%	$231,029	37.23%

The schedule of funding progress, presented as required supplementary information following the notes to the basic financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

4) Annual Pension Cost and Net Pension Obligation

The City's annual pension cost and net pension obligation to the Employees System for the year ended June 30, 2008 are as follows:

Annual required contribution	$	(29,599)
Interest on net pension obligation		(6,002)
Adjustment to annual required contribution		6,664
Annual pension cost		(28,937)
Contributions made		76,310
Increase in net pension obligation		47,373
Net pension obligation, beginning of year		(75,020)
Net pension obligation, end of year	$	(27,647)

The net pension obligation of $(27,647) is reflected as a long-term liability within the accompanying basic financial statements as follows:

Governmental activities	$	(20,903)
Business-type activities		(3,782)
Component unit—SLPD		(2,962)
	$	(27,647)

(dollars in thousands)

Historical trend information about the City's participation in the Employees System is presented below.

Fiscal Year		Annual Pension Cost (APC)	Percentage of APC Contributed			Net Pension Obligation
2008	$	28,937	264	%	$	(27,647)
2007		28,939	52			(75,020)
2006		28,824	53			(61,034)

Significant actuarial assumptions used in the valuation of the Employees' System are as follows:

Date of actuarial valuation	October 1, 2007
Actuarial cost method	Projected unit credit cost method
Amortization method	Level dollar amount for unfunded liability, open
Remaining amortization period	30 years as of October 1, 2007
Actuarial value of assets	The market value of assets less unrecognized returns in each of the last five years, but no earlier than October 1, 2005. Initial unrecognized return is equal to the difference between the actual market return and expected market return, and is recognized over a five-year period. The actuarial asset value is further adjusted, if necessary, to be within 20% of the market value. The actuarial asset value was initialized at the market value as of October 1, 2005.
Investment rate of return	8.00%
Projected salary increases	varies by age, ranging from 3.825% to 7.226%
Projected postretirement benefit increases	5.00% per year, maximum cumulative increase of 25%.

5) Lawsuit

Due to the Supreme Court's ruling in the lawsuits filed by the Firemen's and Police Retirement System, the Employees' System declared notice of its intent to seek similar court judgments for alleged shortfalls in the City's funding of the Employees System for fiscal years 2004 through 2007.

In response, the Board of Aldermen authorized and approved the issuance and sale of bonds for the purpose of paying certain judgments and other amounts in connection with the Retirement Systems. During fiscal year 2008, SLMFC issued Taxable Leasehold Revenue and Refunding Bonds Series 2007 of which $46,699 was used to fund the Employees' System. (see note 15).

(dollars in thousands)

d. Component Unit—SLDC

The SLDC Employees Retirement Plan and Trust (SLDC plan) is a defined contribution plan and became effective January 1, 1989. Required year-ended June 30, 2008 contributions of $293, which amount to 9% of current covered payroll, were made by SLDC. For the year ended June 30, 2008, SLDC's current covered payroll was $3,250 and total payroll amounted to $3,469. Employees are not required to contribute to the SLDC Plan; however, they can contribute up to 5 ½ % of their monthly compensation if they so elect. In order to be eligible under the SLDC Plan, the participant must be a full-time employee, have attained the age of 18, and have completed at least six months of active service. The employees vest at a rate of 33% per annum with full vesting occurring after the end of their third year of service. The SLDC Plan does not hold any employer or related-party securities. All plan investments are self-directed by the respective plan participants, within the limitations of the plan.

11. COMPONENT UNIT—SLPD OTHER POSTEMPLOYMENT BENEFITS PLAN

Plan Description

The SLPD is obligated under Chapter 84.160 RSMo to provide medical and life insurance benefits for former civilian and commissioned employees who retire subsequent to 1969. The SLPD provides these other postemployment benefits (OPEB) under a single-employer, defined benefit postemployment plan. The SLPD's OPEB plan does not issue a separate financial report.

Commissioned employees may retire and receive benefits under the SLPD's OPEB plan after 20 years of creditable service, regardless of age. Civilian employees may retire and receive benefits under the SLPD's OPEB plan after attaining age 55 with 20 years of service, or after attaining age 60 with five years of service. The disability eligibility for officers for a service disability has no minimum age or service requirements and for an ordinary disability is 10 years of service. The disability eligibility for civilians is 5 years of service.

For eligible retired employees and disabled employees under age 65, the SLPD pays the full cost of a base healthcare plan. Retirees may elect to pay costs associated with a buy-up healthcare plan, which provides coverage in excess of the base healthcare plan. For eligible retired employees and disabled employees over 65, the SLPD pays the costs of a Medicare Supplement Plan. Retirees pay the full cost of spouse healthcare coverage. Additionally, the SLPD provides a postretirement death benefit of $3.

At July 1, 2007, the date of the latest actuarial valuation, plan membership consisted of the following:

Retirees and beneficiaries receiving benefits	1,342
Terminated plan members entitled to, but not yet receiving benefits	129
Active members	1,907
Total plan members	3,378

(dollars in thousands)

Funding Policy

Contributions made to the SLPD's OPEB plan are established and may be amended by Board of Police Commissioners. For the year ended June 30, 2008, the SLPD contributed $6,263, which was based upon pay-as-you-go financing requirements.

Annual Other Postemployment Benefit Cost and Net Other Postemployment Benefit Obligation

The SLPD's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, and amount actuarially determined in accordance with the parameters of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions*. The annual required contribution represents a level of funding that, if paid on an on-going basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

Effective July 1, 2007, the SLPD prospectively implemented GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, and the net liability at transition was set at zero.

The following table shows the components of the SLPD's annual OPEB cost for the year, the amount actually contributed to plan, and changes in the SLPD's net OPEB obligation:

Annual required contribution	$	22,668
Contributions made		(6,263)
Increase in net OPEB obligation		16,405
Net OPEB obligation, beginning of year		—
Net OPEB obligation, end of year	$	16,405

The SLPD's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2008 was as follows:

Fiscal year		Annual OPEB cost (AOC)	Percentage of AOC contributed		Net OPEB obligation
2008	$	22,668	27.6%	$	16,405

Funding Status and Funding Progress

As of July 1, 2007, the most recent actuarial valuation date, the plan was 0% funded. The actuarial accrual liability for benefits was $236,138, and the actuarial value of assets was $0. The covered payroll (annual payroll of active employees covered by the plan) was $85,372, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 276.6%. The actuarial valuation was updated to incorporate significant changes to the substantive plan.

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made throughout the future. In future years, the schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

The projection of future benefit payments for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and includes the types of benefits provided at the time of each valuation, as amended for significant changes to the plan that would impact the valuation. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2007 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 5% investment rate of return, and an annual healthcare cost trend rate of 10% initially, reduced by decrements to an ultimate rate of 5% after five-years. The unfunded actuarial accrued liability is being amortized as a level dollar amount on an open basis over a 30-year amortization period.

12. DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City and SLPD employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employees or other beneficiary) held in trust for the exclusive benefit of the employees. As such, the trust account and related liability are not included in the basic financial statements.

(dollars in thousands)

13. LONG-TERM LIABILITIES

a. Changes in Long-Term Liabilities

Following is a summary of the changes in long-term liabilities for the year ended June 30, 2008:

	Balance June 30, 2007	Additions	Reductions	Balance June 30, 2008	Due Within One Year
Governmental activities:					
General obligation bonds payable	$ 54,820	—	(3,945)	50,875	1,085
Section 108 Loan Guarantee Assistance Programs	58,820	—	(2,740)	56,080	2,920
Federal Financing Bank advances	680	—	(50)	630	50
Tax increment financing bonds and notes payable	114,251	37,737	(15,001)	136,987	5,191
Master note purchase agreement	66	—	(14)	52	—
Loan agreement with Missouri Department of Natural Resources	1,458	—	(481)	977	499
Loan agreement with MTFC	—	4,500	—	4,500	329
Capital lease—rolling stock	10,895	1,478	(2,532)	9,841	1,903
Capital leases—obligations with component units	50,155	—	(465)	49,690	485
Leasehold revenue improvement and refunding bonds	308,824	247,967	(36,596)	520,195	24,458
Joint venture financing agreement	65,116	—	(4,088)	61,028	3,512
Unamortized discounts, premiums, and deferred amounts on refunding	(1,153)	(3,514)	107	(4,560)	—
Net pension obligation	92,300	—	(71,397)	20,903	—
Accrued vacation, compensatory, and sick time benefits	27,489	15,601	(16,790)	26,300	17,697
Landfill closure	120	—	(20)	100	100
Firemen's overtime payable	1,148	—	(1,148)	—	—
Claims and judgments payable	16,344	14,106	(13,601)	16,849	10,704
Governmental activities long-term liabilities	$ 801,333	317,875	(168,761)	950,447	68,933

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. Also, for the governmental activities claims and judgments payable, accrued vacation, compensatory and sick leave benefits, net pension obligations, and landfill closure costs are generally liquidated by the general fund.

b. General Obligation Bonds

In June 1999, the City issued $65,000 Public Safety General Obligation Bonds, Series 1999. The series consisted of $64,305 current interest serial bonds due in the years 2000 through 2008 and 2010 through 2019 with rates ranging from 4% to 5.125%. The 2009 maturity is entirely capital appreciation bonds in the amount of $695 sold to yield 5.15% and mature at $3,655 (collectively, the Series 1999 bonds). The proceeds of the Series 1999 bonds were to be used as follows: (i) $44,000 for new fire equipment, new fire communication equipment, reconstruction and renovation of various existing fire houses, and new construction of fire houses; (ii) $10,000 for new police laboratory equipment, reconstruction, and renovation of existing police buildings, and; (iii) $11,000 for demolition and abatement of various abandoned or condemned buildings under the control of the City. The Series 1999 bonds are payable from ad valorem taxes to be levied without limitation as to rate or amount upon all taxable, tangible property, real, and personal property within the City. The principal and interest on the Series 1999 bonds is guaranteed under a municipal bond new issue insurance policy issued by Financial Guaranty Insurance Company. Principal payments are made from other governmental funds.

On June 15, 2005, the City issued $37,555 in General Obligation Refunding Bonds, Series 2005, with an average interest rate of 4.48% to refund $37,710 in outstanding Series 1999 General Obligation Bonds with an average interest rate of 5.09%. The net proceeds of $39,621 (after the addition of a $2,645 premium and less a payment of $550 in issuance costs and a $29 discount), along with $642 of City funds, were deposited with the Escrow Agent to be applied on June 16, 2005 to the redemption of the Series 1999 bonds. After the refunding transaction, $10,215 in current interest Series 1999 bonds and $695 in capital appreciation Series 1999 bonds remained outstanding.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of $1,911. This difference, reported in the accompanying financial statements as a reduction of bonds payable, is being charged to operations through year 2019 using the straight-line method, which approximates the effective interest method.

In November 2006, the City issued $13,000 General Obligation Bonds, Series 2006. The series consists of current interest serial bonds due 2008 through 2026 with rates ranging from 3.75% to 4.2%. The Series 2006 bonds were issued for the purpose of providing funds to (i) replace, improve, and maintain the City's radio system used by the Police Department, Fire Department, Emergency Medical Services, and other City departments; (ii) reconstruct, repair, and improve major streets, bridges, and the City's flood wall where federal funding is available and local funding is required. The City shall levy an ad valorem tax on all taxable, tangible property in the City, without limit as to rate or amount, for the payment of the principal of and interest on the Series 2006 bonds. The principal and interest on the Series 2006 bonds is guaranteed under a municipal bond new issue insurance policy issued by MBIA Insurance Corporation. Principal payments are made from other governmental funds.

(dollars in thousands)

Principal and interest requirements are as follows:

		Principal	Interest	Total
Year ending June 30:				
2009	$	1,085	5,146	6,231

	$	50,875	20,871	71,746

c. Section 108 Loan Guarantee Assistance Programs

During 2001, the City entered into contracts with the U.S. Department of Housing and Urban Development for Section 108 loan guarantee assistance for the following maximum amounts:

- $50,000 for Downtown Convention Headquarters Hotel project
- $20,000 for Darst-Webbe Housing Redevelopment project

During 2001, the City issued a note in the amount of $50,000 for the Downtown Convention Headquarters Hotel project. Additionally, during 2001, the City received $5,000 in an advance funding draw for the Darst-Webbe Housing Redevelopment project. The $50,000 note is intended to spur redevelopment in the downtown area. The $50,000 note is a 20-year note at a variable rate of interest. The $5,000 received during 2001 was an advance funding draw note related to the $20,000 Darst-Webbe Housing Redevelopment project. During 2002, the City finalized each of the loans at fixed rates ranging from 3.66% to 6.62%, and received the remaining $15,000 draw for the Darst-Webbe Housing Redevelopment project. The Darst-Webbe note is a 20-year note with final payment due in fiscal 2021.

Principal and interest requirements for the combined Section 108 program notes are as follows:

		Principal	Interest	Total
Year ending June 30:				
2009	$	2,920	3,402	6,322
2010		3,110	3,234	6,344

	$	56,080	26,266	82,346

(dollars in thousands)

d. Federal Financing Bank Advances

Federal Financing Bank Advances represent promissory notes issued by the Federal Financing Bank to the City for redevelopment projects. These notes were issued under Section 108 of the Housing and Community Development Act of 1974. Interest is payable semiannually based on rates established by the secretary of the treasury on the dates the notes are made. These notes and the related interest will be repaid from intergovernmental revenues of the grants fund. In 1997, the City signed a new contract and loan agreement under Section 108 in the amount of $1,000. The proceeds were used to fund a portion of a multi-modal distribution center, which integrates trucking, railway, and waterway transportation and distribution channels. The loan initially consisted of 20 variable rate notes, due in July of each year, to be retired over the 20 years ending July 2016. Interest, payable semiannually and calculated monthly, is based on the variable rate of LIBOR plus 0.2%. In October 1997, the notes were changed to fixed rates with interest due in February and August of each year. The notes currently bear interest at rates ranging from 5.87% to 7.08%.

Principal and interest requirements are as follows:

		Principal	Interest	Total
Year ending June 30:				
2009	$	50	42	92
2010		55	38	93
2011		60	35	95
2012		65	30	95
2013		70	26	96
2014 – 2017		330	48	378
	$	630	219	849

e. Tax Increment Financing Bond and Notes Payable

In 1991, the City issued $15,000 in tax increment financing (TIF) bonds (Series 91 TIF Bonds) to provide funds to enable the City to acquire certain land and, upon such land, among other things, to widen and improve an existing street. Other governmental funds are used to account for the revenues, expenditures, including debt service, and other activities related to the Series 91 TIF Bonds. The Series 91 TIF Bonds constitute special obligations of the City, and are payable from payments in lieu of taxes from owners or property within the Scullin Redevelopment Tax Increment Financing Area (the 91 Area). In the event these payments are not sufficient to meet the debt service requirements, the Series 91 TIF Bonds are payable, first, from the additional tax revenue generated by increases in economic activities in the 91 Area, other than personal property tax revenue, and, second, from any moneys legally available in the City's general fund. During 2006, $620 of payments in lieu of taxes and $679 in economic activity taxes were received. The Series 91 TIF Bonds bear interest at the rate of 10% per year, mature on August 1, 2010, and are subject to mandatory redemption prior to maturity.

In 2007, the City issued $16,961 Taxable Tax Increment Financing Revenue Notes (600 Washington Redevelopment Project 1 One City Centre Component) Series 2007 (Series 2007 TIF Notes). The

(dollars in thousands)

Series 2007 TIF Notes constitute special obligations of the City, and are payable from (a) certain moneys on deposit in the Special Allocation Fund (payments in lieu of taxes, economic activity tax revenue), (b) Municipal Revenues and (c) City Revenues, which constitute other legally available funds of the City's general fund in the amount equal to pay the principal and interest on the TIF note. Payments commence on March 1, 2008. The Series 2007 TIF Notes bear interest at the rate of 6.75% per year, mature on September 1, 2029, and are subject to mandatory redemption prior to maturity.

Additionally, from time to time, the City issues tax increment financing bonds and notes payable to developers in conjunction with various redevelopment projects throughout the City. These are special limited obligations of the City, payable solely from the payments in lieu of taxes and increased economic activity taxes generated by the redevelopment areas. No other City moneys are pledged to repay these bonds and notes and, should these financing sources be insufficient to repay the bonds and notes prior to their stated maturity dates, the City's obligation under the bonds and notes will cease. As of June 30, 2008, the City had $136,987 in TIF bonds and notes payable outstanding, at interest rates ranging from 5.5% to 10.0%, payable in various installments through 2029. The City issued $37,737 in TIF bonds and notes payable during fiscal year 2008. Included in this amount is an IDA Tax Increment and Community Improvement District Refunding Revenue Bond Series 2007-Loughborough Commons Redevelopment Project in the amount of $18,430. This financing refunded the TIF notes in the amount of $11,000 for the Loughborough Commons District issued in 2006.

Principal and interest requirements for the tax increment financing debt issues are as follows:

f. Master Note Purchase Agreement

In February 2000, the SLMFC, the City, and the Federal National Mortgage Association (Fannie Mae) entered into a Master Note Purchase Agreement (Series 2000 Note) to provide a low-interest, second mortgage for use as down payment and/or to pay other purchase costs to those who buy a single family residence in the City. The City provided a deposit of $250 into a note reserve account and SLMFC pledged all payments of interest and principal from the homeowners as payment for the Fannie Mae

$1,250 loan. The SLMFC obligation is limited to the moneys in the various accounts established by the agreement including the note reserve account. A trustee holds the loan proceeds to be used exclusively for the City of St. Louis Homebuyers Incentive Program (CHIPS). The program is designed to provide funding to assist homebuyers with a down payment and closing costs associated with the purchase of a home. The loan bears interest at the rate of 8.27% per annum and will mature on March 1, 2011 subject to prepayment based on the payment of the second loans to homeowners.

In November 2001, the SLMFC, the City, and Fannie Mae amended the Series 2000 Note. Under the amendment, Fannie Mae purchased a Series 2001 Note in the amount of $460 from SLMFC. The amendment required the City to provide an additional deposit of $130 into a Series 2001 Note reserve account, and required SLMFC to pledge all payments of principal and interest from the homeowners as payment for the Series 2001 Note. A portion of the proceeds of the Series 2001 Note, along with a portion of the Series 2000 Note reserve account, was used to prepay a portion of the Series 2000 Note in the amount of $650. A portion of the Series 2001 Note provided additional funds for the CHIPS. The Series 2001 Note bears interest at the rate of 5.21% per annum and will mature on December 1, 2012, subject to prepayment based upon the payment of the second loans to homeowners. As of June 30, 2008, the balance of the note outstanding is $52.

g. Loan Agreement with Missouri Department of Natural Resources (DNR)

In July 2001, the City agreed to enter into a loan agreement with the DNR pursuant to the Missouri Energy Efficiency Leveraged Loan Program in the amount of $2,000 at an annual interest rate of 4.35%. The proceeds of the loan are to be used to complete energy conservation measures designated as approved by the DNR. During fiscal year 2004, the City made draws of $1,953 against the loan agreement. The purpose of this funding is to convert signal lights to LED fixtures resulting in a projected savings of $395 per year in electricity costs.

In April 2003, the City agreed to enter into a second loan agreement with the DNR pursuant to the Missouri Energy Efficiency Leveraged Loan Program in the amount of $1,613 at an annual interest rate of 2.95%. The proceeds of the loan are to be used to complete energy conservation measures designated as approved by the DNR.

In December 2005, the City entered into another agreement with the Missouri DNR (pursuant to the Energy Efficiency Leverage Loan Program) for the amount of $782 of which $9 was loan origination fee and the remaining $773 was the actual proceeds. The proceeds will be utilized for the purchase and installation of signal and walk lights throughout various locations in the City. The payments are due in semi-annual installments from 2007 to 2013 with an annual interest rate of 2.85%.

(dollars in thousands)

Principal and interest requirements under the loan agreement with the DNR are as follows:

	Principal	Interest	Total
Year ending June 30:			
2009	$ 499	28	527
2010	158	13	171
2011	125	8	133
2012	127	5	132
2013	68	1	69
	$ 977	55	1,032

h. Loan Agreement With Missouri Transportation Finance Corporation (MTFC)

In October 2007, the City entered into a loan agreement with the MTFC in the amount of $4,500 at an annual interest rate of 4.2%. The proceeds of the loan are to be used for the construction of a transportation center to consolidate urban buses, intercity buses, light rail, passenger rail, commercial space and parking at one location. Annual payments are $567 beginning January 2009 and ending January 2018.

Principal and interest requirements under the loan agreement with the MTFC are as follows:

	Principal	Interest	Total
Year ending June 30:			
2009	$ 329	239	568
2010	392	175	567

	$ 4,500	1,160	5,660

(dollars in thousands)

i. Component Unit—SLDC Long-Term Liabilities

The following is a summary of changes in long-term liabilities for SLDC for the year ended June 30, 2008:

	Balance June 30, 2007	Additions	Reductions	Balance June 30, 2008	Due Within One Year
Due to other governmental agencies	$ 10,413	3,890	(2,384)	11,919	4,208
Notes payable	4,437	3,524	—	7,961	736
Other liabilities	5,819	3,518	(3,953)	5,384	1,583
Revenue bonds	12,465	—	(335)	12,130	365
	$ 33,134	10,932	(6,672)	37,394	6,892

Maturities on notes payable are as follows:

	Principal	Interest	Total
Year ending June 30:			
2009	$ 736	249	985
2010	5,360	176	5,536
2011	1,360	42	1,402
2012	505	11	516
	$ 7,961	478	8,439

Revenue bonds outstanding at June 30, 2008 consist of LCRA Parking Facility Revenue Bonds Series 1999A (Series 1999A bonds), Parking Facility Revenue Refunding Bonds Series 1999B (Series 1999B bonds), and Parking Facility Revenue Refunding and Improvement Bonds Series 1999C (Series 1999C bonds) (Bonds). Collectively, the Bonds are dated October 21, 1999.

The Series 1999A bonds with an original issue amount of $2,470 are due at intervals until September 1, 2009. These bonds carry rates of interest ranging from 7.625% to 9.0%.

The Series 1999B bonds with an original issue amount of $8,300 are due at intervals until September 1, 2019, and are payable solely from, and secured by, a pledge of gross revenues from the operation of SLDC Parking Facilities' St. Louis Centre East Parking Garage. The bonds may be redeemed prior to maturity at the option of LCRA and are subject to special mandatory redemption prior to maturity following the occurrence of a determination of taxability as defined in the bond indenture. These bonds carry rates of interest ranging from 6.5% to 7.0%.

The Series 1999C bonds with an original issue amount of $3,040 are due September 1, 2024. Bond proceeds were to repay an LCRA note payable and construct a parking lot on property in the St. Louis Centre Development Area. The bonds may be redeemed prior to maturity at the option of LCRA and are subject to special mandatory redemption prior to maturity following the occurrence of a determination of taxability as defined in the bond indenture. These bonds carry a rate of interest of 7.05%.

14. CAPITAL LEASES

Certain City services are provided by equipment financed under various capital lease agreements as follows:

a. Capital Lease—Rolling Stock

In March 2000, the City entered into a capital lease agreement with Banc One Leasing Corporation in the amount of $9,000 at a rate of 5.8%. Proceeds of the lease are to be used to purchase certain rolling stock, such as dump trucks and refuse trucks. In September 2002, the City refinanced its existing capital lease agreement with Banc One Leasing Corporation resulting in a new balance of $7,889. This revised capital lease agreement supersedes the capital lease agreement entered into during March 2000. In addition to refinancing the existing lease, the proceeds of the lease are to be used to purchase certain rolling stock, such as dump trucks and refuse trucks, and computer software and hardware. The lease agreement payments are due in semi-annual installments from 2003 through 2009 with an annual interest rate of 3.6%. The final installment was paid during fiscal year 2008 with residual proceeds.

In June 2003, the City amended its capital lease agreement with Banc One Leasing Corporation to increase the capital lease by $4,002 in order to finance the acquisition of additional rolling stock. This portion of the capital lease is due in annual installments from 2004 through 2018 with an annual interest rate of 4.78%.

On July 7, 2004, the City amended its capital lease agreement with Banc One Leasing Corporation to increase the capital lease by $851 in order to finance the acquisition of additional rolling stock. This portion of the capital lease is due in annual installments from 2005 through 2007 with an annual interest rate of 3.19%. Final payment was made during fiscal year 2008.

In September 2005, the City amended its capital lease agreement with Chase Equipment Leasing Inc. resulting in new debt of $942. This capital lease agreement is included as part of the capital lease agreement entered into in March of 2000. The proceeds of the lease are to be used to purchase computer equipment. The lease agreement payments are due in semi annual installments from 2006 through 2009 with an annual interest rate of 3.9%.

In February 2006, the City amended its lease agreement with Chase Equipment Leasing Corporation resulting in new debt of $1,048. The proceeds of the lease are to be used to purchase equipment for a new 911 emergency system. The lease agreement payments are due in semi annual installments from 2007 to 2011 with an annual interest rate of 4.88%.

In September 2006, the City amended its lease agreement with Chase Equipment Leasing Corporation resulting in new debt of $6,014. The proceeds of the lease are to be used to purchase additional rolling stock. This portion of the capital lease is due in semi annual installments from 2007 through 2012 with an annual interest rate of 4.0534%.

In November 2007, the City amended its lease agreement with Chase Equipment Leasing Corporation resulting in new debt of $825. The proceeds of the lease are to be used to purchase computer hardware and software. This portion of the capital lease is due in semi annual installments from 2008 through 2010 with an annual interest rate of 4.0238%.

(dollars in thousands)

In March 2008, the City amended its lease agreement with Chase Equipment Leasing Corporation resulting in new debt of $653. The proceeds of the lease are to be used to purchase microwave communication system equipment. This portion of the capital lease is due in semi annual installments from 2008 through 2018 with an annual interest rate of 3.96%.

Principal payments of $2,532 were made on these lease agreements in fiscal year 2008. The following is a schedule of future minimum lease payments as of June 30, 2008.

Year ending June 30:		
2009	$	2,308
2010		2,140
2011		1,992
2012		1,606
2013		1,037
2014 – 2018		2,337
Total future minimum lease payments		11,420
Amount representing interest		(1,579)
Present value of net minimum lease payments	$	9,841

Capital assets (equipment) of $12,751 are recorded by the City on its statement of net assets in conjunction with these capital leases.

b. Capital Lease—Kiel Site Project—Obligation with Component Unit

The City has a master lease agreement with SLDC, whereby the City has leased Stadium East Redevelopment Project and related property and portions of the City Block 210 (the Kiel Premises) to SLDC.

SLDC subleases the Kiel Premises back to the City. In 1998, SLDC issued two series of bonds for the purpose of refunding the outstanding bonds on which the City's lease payments were based. Pursuant to the master lease agreement, the lease payments made by the City are to be used by SLDC to fund annual debt service payments for SLDC's Kiel Site Lease Revenue Refunding Bonds, Series 1997A and B in the original amount of $13,605. The Series 1997A and B bonds were issued by SLDC in September 1997, and the proceeds were used to retire SLDC's Station East Redevelopment Project Lease Revenue Bonds, Series 1990 and 1992. The capital lease obligation is recorded as a long-term liability. The City's lease payments are payable from the general fund.

(dollars in thousands)

The following is a schedule, by years, of the future minimum lease payments together with the present value of the net minimum payments for the Kiel Premises as of June 30, 2008.

Year ending June 30:		
2009	$	970
2010		971
2011		969
2012		967
2013		966
2014 – 2018		4,848
2019 – 2022		3,915
Total future minimum lease payments		13,606
Amount representing interest		(3,916)
Present value of net minimum lease payments	$	9,690

No capital assets are recorded by the City on its statement of net assets in conjunction with this capital lease due to the proceeds of this obligation being used for demolition and site preparation.

c. Capital Lease—Convention Center Hotel—Obligation with Component Unit

The City is subject to a Third Supplemental and Restated Lease Purchase Agreement (the Agreement) between the City, SLMFC, and SLDC, whereby SLMFC leases the Convention Center to the City. In 2000, SLDC issued Series 2000 Compound Interest Leasehold Revenue Bonds (Series 2000 Bonds) in the amount of $40,000 for the purpose of providing funding for the construction of a convention center hotel within the vicinity of the Convention Center. Under the Agreement, SLMFC has assigned its rights under the lease relative to the Series 2000 Bonds to SLDC. The City is required, beginning on July 15, 2011, to make lease payments to SLDC to fund the annual debt service payments for the Series 2000 Bonds. The City's obligation to make these lease payments to SLDC is subordinate to the City's obligation to meet the debt service requirements of the Series 1993A and Series 2003 Convention Center Leasehold Revenue Bonds (see note 15).

(dollars in thousands)

The capital lease obligation is recorded as a long-term liability. The City's lease payments are payable from the capital projects fund. The following is a schedule, by years, of the future minimum lease payments together with the present value of the net minimum payments for the capital lease as of June 30, 2008.

Year ending June 30:		
2009	$	—
2010		—
2011		—
2012		3,525
2013		2,700
2014 – 2018		63,465
2019 – 2020		30,590
Total future minimum lease payments		100,280
Amount representing interest		(60,280)
Present value of net minimum lease payments	$	40,000

No capital assets are recorded by the City on its statement of net assets in conjunction with this capital lease due to the proceeds of this obligation being used for construction of a convention center hotel that is not owned by the City.

15. LEASEHOLD REVENUE IMPROVEMENT AND REFUNDING BONDS

a. Civil Courts

On June 1, 2003, the SLMFC issued $23,400 in Leasehold Revenue Refunding Bonds (Series 2003A) with an average interest rate of 4.02% to advance refund $22,480 of Series 1994 Bonds with an average interest rate of 6.08%. The net proceeds of $24,434 (after the addition of a $1,811 premium less a payment of $777 in issuance costs) were deposited with the escrow agent under the escrow deposit agreement and, together with interest earnings thereon, were applied to the payment of principal and interest on the Series 1994 Bonds maturing on August 1, 2003 and 2004, and to the redemption on August 1, 2004 of the remaining Series 1994 Bonds.

b. Convention Center

On July 15, 1993, SLMFC issued $144,362 in Leasehold Revenue Refunding Bonds (Series 1993A Bonds). The Series 1993A Bonds were issued to refund bonds previously issued by SLDC (SLDC Bonds). Pursuant to the SLDC Bonds, SLDC held title to the Convention Center. Once the proceeds of the Series 1993A Bonds were deposited in an irrevocable trust to pay the principal and interest on the outstanding SLDC Bonds and certain other conditions were satisfied, the Convention Center property was conveyed to SLMFC. The Series 1993A Bonds consisted of current interest bonds ($51,330 serial bonds and $90,465 term bonds) and compound interest bonds with an initial offering price of $2,567 and a final maturity amount on July 15, 2014 of $9,615. The yield to maturity for the compound interest bonds at the initial offering price was 6.4%. Lease payments calculated to meet the principal, interest, and other costs related to the Series 1993A Bonds are paid for in the City's general fund.

On April 15, 2003, the SLMFC issued $118,575 in Leasehold Revenue Refunding Bonds (Convention Center Project) with an average interest rate of 4.67% to advance refund the current interest bonds portion of the Series 1993A Bonds with an average interest rate of 5.87%. The net proceeds of $125,373 (after the addition of a $9,439 premium less a payment of $2,641 in issuance cost) were deposited with the escrow agent under the escrow deposit agreement, and were applied on July 15, 2003 to the redemption of the $119,960 of Series 1993A current interest leasehold revenue bonds. Thus, as of June 30, 2007, only the compound interest bonds of the Series 1993A Bonds remain outstanding.

On May 26, 2005, the SLMFC issued Series 2005A and B Compound Interest Leasehold Revenue Bonds in the amount of $44,997 for the purpose of providing funding for the construction of the Convention Center Hotel, in addition to making debt service payments for other ongoing projects, within the vicinity of the Convention Center. Principal payments plus compounded interest (4.66%) will be made July 15, 2021 through 2030. The final maturity amounts on bonds are $54,050 and $62,430 for the Series 2005A and 2005B, respectively.

c. Justice Center

In August 1996, the SLMFC issued $75,705 in Leasehold Revenue Improvement Bonds, Series 1996A (Series 1996A Bonds) and $34,355 Leasehold Revenue Improvement and Refunding Bonds, Series 1996B (Series 1996B Bonds) (collectively, the 1996 Justice Center Bonds). The Series 1996A Bonds include serial bonds in the principal amount of $20,155 and term bonds in the principal amount of $55,550. The Series 1996B Bonds include serial bonds in the principal amount of $23,500 and term bonds in the principal amount of $10,835. Interest is payable semiannually on all bonds. The term bonds are subject to mandatory sinking fund redemption prior to their stated maturity dates.

The City's payments are secured by a pledge between the City and the trustee for the 1996 Justice Center Bonds, which authorizes the State to make direct payment to the trustee of the City's per diem reimbursement entitlements for costs incurred in boarding State prisoners. The City's payments are further insured by AMBAC Financial Group, Inc. The principal amount of the bonds outstanding is recorded as a long-term liability. The City's payments for debt service are payable from the capital projects fund. Interest rates on the 1996 Justice Center Bonds range from 4.25% to 6.0%.

Proceeds from the Series 1996A Bonds were used to construct the City Justice Center, which replaced the former municipal jail that has been demolished and will house a total of 732 prisoners. The facility is a major addition to the City's justice system, bringing total detention capacity to over 1,500 beds. The City Justice Center site is located east of City Hall, south of the city-owned Carnahan Building, and west of the Thomas F. Eagleton Federal Courthouse. The City Justice Center is designed to meet standards established by the American Correctional Association.

In February 2000, the SLMFC issued $22,025 in City Justice Center Leasehold Revenue Improvement Bonds (Series 2000A Bonds) for the purpose of financing the completion of the City Justice Center, and funding the debt service reserve fund with respect to the Series 2000A Bonds, and paying costs of issuance of the Series 2000A Bonds. The Series 2000A Bonds, bearing a stated maturity of February 15, 2010, are not subject to redemption prior to their stated maturities. The Series 2000A Bonds, bearing a stated maturity of February 15, 2011 are subject to optional redemption and payment prior to their stated maturities at the election of SLMFC, upon direction and instruction by the City on February 15, 2010, and, at any time thereafter, as a whole at any time, in part at any time, and if, in part, in such order as the SLMFC shall determine, upon the direction and instruction by the City in its sole discretion, at redemption prices ranging from 100% to 101%, plus accrued interest thereon, to the redemption date.

On September 1, 2001, the SLMFC issued $62,205 in City Justice Center Leasehold Revenue Bonds (Series 2001A bonds) with an average interest rate of 4.93% to advance refund $58,115 of Series 1996A Bonds with an average interest rate of 5.93%. As a result, this portion of the Series 1996A Bonds are considered to be defeased, and the liability for those bonds has been removed from the basic financial statements.

On September 1, 2005, the SLMFC issued $15,485 in Justice Center Leasehold Revenue Refunding Bonds, Series 2005 with an average interest rate of 4.56% to advance refund $14,360 in Series 2000A Leasehold Revenue Bonds with an average interest rate of 6.09%.

The principal amount of the bonds outstanding is recorded as a long-term liability of the City. The City's payments for debt service are payable from the capital projects fund.

d. Forest Park

On December 1, 2004, the SLMFC issued $16,400 in Leasehold Revenue Refunding Bonds (Series 2004) with an average interest rate of 4.23% to advance refund $16,120 of outstanding Series 1997 Forest Park Leasehold Revenue Improvement Bonds with an average interest rate of 5.45%. As a result, the Series 1997 bonds are considered defeased, and the liability for those bonds have been removed from the financial statements.

e. Firemen's System

On April 1, 1998, the SLMFC issued $28,695 in Firemen's Retirement Systems Lease Revenue Bonds, Series 1998 (Series 1998 Bonds). Interest is paid semiannually on the bonds at the rate of 5.6% to 6.55%. The Series 1998 Bonds are subject to mandatory sinking fund redemption prior to maturity.

The proceeds derived from the sale of the Series 1998 Bonds were used to prepay a portion of the City's unfunded accrued actuarial liabilities in the form of a contribution to the Firemen's Retirement System and to pay cost of issuance for the Series 1998 Bonds.

The Series 1998 Bonds were advance refunded on September 27, 2007 by the SLMFC Taxable Leasehold Revenue and Refunding Bonds Series 2007-Pension Funding Project. The advance refunding did not result in a gain/loss on refunding due to no significant difference between the reacquisition price and the net carrying amount of the old debt.

f. Carnahan Courthouse

On October 1, 2006, the SLMFC issued $23,725 Leasehold Revenue Refunding Bonds, Series 2006A (Series 2006A) with an average interest rate of 4.23% to refund the $21,750 Carnahan Courthouse Leasehold Revenue Bonds Series 2002A (series 2002A) with an average interest rate of 5.37%. The net proceeds of $22,830 (after deduction of $321 discount and less payment of $560 in issuance costs) were used to purchase investments that mature at the same times and in such amounts as will be sufficient to pay the principal of the redemption premium, if any and the accrued interest on all of the Series 2002A Bonds being redeemed.

The City's payments are secured by a pledge agreement between the City and the Series 2006A Bonds trustee. The City's payments are further insured by the AMBAC Assurance Corporation.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of $1,080. This difference, reported in the accompanying financial statements as a reduction of bonds payable, is being charged to operations through 2027 using the straight-line method, which approximates the effective interest method.

The City advance refunded the Series 2002A bonds to reduce its total debt service payments over the next 10 years by approximately $742 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of $687.

g. Abram Building

In June 2007, the SLMFC issued $4,000 in Abram Building Leasehold Revenue Bonds Series 2007 with an interest rate of 4.15%. The proceeds of the bonds are being used to fund the cash portion needed to purchase the Abram Federal Building.

h. Recreation Sales Tax

On July 12, 2007, the SLMFC issued $51,965 in Recreation Sales Tax Leasehold Revenue Bonds Series 2007 (Series 2007 Bonds). The purpose of the Series 2007 Bonds is to pay the costs of designing and construction two new recreational center facilities in the City and to renovate several existing recreational facilities. Interest is paid semi-annually on the bonds at the rate of 4% to 5%. The Series 2007 Bonds are subject to redemption, in whole on February 15, 2017 and any date thereafter, or in part on February 15, 2017, and on any interest payment date thereafter at the option of the corporation. The Series 2007 Bonds maturing 2028, 2032, and 2037 (the term bonds) shall be subject to mandatory sinking fund redemption and payment prior to maturity on February 15, 2025, February 15, 2029 and February 15, 2033 respectively and annually in the years thereafter.

i. Police Capital Improvement Sales Tax

On December 13, 2007, the SLMFC issued $25,000 in Police Capital Improvements Sales Tax Leasehold Revenue Bonds Series 2007 (Police Series 2007 Bonds). A portion of the proceeds will be used to pay for the cost of purchasing and installing equipment for a new interoperable communications system for the City. The communications property includes infrastructure equipment to be installed in the Police department communication's center and mobile radio units. The other portion of the proceeds will be used by the Police Board for facilities improvements including improvements to be made to the Police three area command stations.

Debt payments will be made from the Police Capital Improvement Sales Tax revenues. Interest is paid semi-annually on the bonds at the rate of 3.625% to 4.1%. The Police Series 2007 Bonds maturing on

(dollars in thousands)

February 15, 2023, 2025, 2028, 2033 and 2037 are subject to mandatory redemption and payment prior to maturity pursuant to the sinking fund requirements.

j. Public Safety Sales Tax Pension Funding Project

On June 12, 2008, the SLMFC issued $19,445 Taxable Public Safety Sales Tax Leasehold Revenue Bonds Series 2008A –Pension Funding Project (Series 2008A Bonds). The proceeds were used to complete the funding due the Police and Firemen's Retirement Systems. Debt service will be paid by the Public Safety Sales Tax approved by the voters in February 2008. The Series 2008A Bonds include serial bonds in the principal amount of $9,190 with interest rates ranging from 3.826% to 5,207% and are not subject to optional redemption prior to stated maturity. There are term bonds in the principal amount of $10,255 with an interest rate of 5.857%. The bonds maturing in 2019 shall be subject to mandatory sinking fund redemption and payment prior to stated maturity pursuant to the mandatory redemption requirements of the Indenture on June 1, 2015.

k. Juvenile Detention Center

On June 12, 2008, the SLMFC issued $25,555 Tax-Exempt Juvenile Detention Center Leasehold Revenue Bonds Series 2008B (Series 2008B Bonds). The proceeds will be used to fund the constructions, installation, rehabilitation and improvements of the property know as the Juvenile Detention Center as well as improvements to other real property. The Series 2008A Bonds include serial bonds in the principal amount of $8,170 with an interest rate of 4% and term bonds in the principal amount of $17,385 with interest rates ranging from 4.25% to 4.5% The term bonds maturing in 2025, 2028, and 2038 shall be subject to mandatory sinking fund redemption and payment prior to stated maturity pursuant to the mandatory redemption requirements of the Indenture on June 1, 2023, June1, 2026, and June 1, 2029 respectively.

l. Principal and Interest Requirements

m. Pension Funding Project

The Police Retirement System and the Firemen's Retirement System filed two lawsuits in the Circuit Court of the City against the City seeking declaratory and injunctive relief and damages on the basis that the City was required to pay the entire certified amounts submitted by the Police System and the Firemen's System for their fiscal years 2004-2007. The Circuit Court granted summary judgment in favor of the Systems relative to the fiscal year 2004 suit and the City appealed the rulings. The

(dollars in thousands)

Missouri Eastern District Court of Appeals transferred the cases to the Supreme Court of Missouri. On March 13, 2007, the Supreme Court affirmed the judgments of the Circuit Court.

In late May 2007, the Employees Retirement System delivered notice to the City of their intent to seek similar court judgments for the alleged shortfalls in the City's funding of the Employee System for fiscal year 2004 through 2007.

On September 27, 2007, in response to these cited actions, the SLMFC issued $140,030 in Taxable Leasehold Revenue and Refunding Bonds Series 2007- Pension Funding Project (Pension Funding Project Bonds). Included in the financing was the refunding of the Firemen's System Series 1998 Bonds in the amount of $8,430. The distribution of funds to the retirement systems were as follows:

Firemen's Retirement System	$	49,405
Police Retirement System		29,587
Employees' Retirement System		46,699
	$	125,691

The Pension Funding Project Bonds is a term bond bearing an interest rate of 6.5% due June 1, 2037. They are subject to pro rata mandatory sinking fund redemption and payment prior to stated maturity on June 1, 2011 and annually on June 1 in each of the years thereafter to and including June 1, 2036 at the redemption price of 100% of the principal amount so redeemed.

The cost savings to refund the bonds was minimal. By refunding the bonds, collateral used to secure them was needed to secure the Series 2007 bonds.

The long-term liability for the Employees' System portion of the Pension Funding Project Series 2007 debt is reflected as a long-term liability within the accompanying basic financial statements as follows:

Governmental activities	$	32,671
Business-type activities		9,666
Component unit—SLPD		4,362
	$	46,699

(dollars in thousands)

Principal and interest requirements for the Pension Funding Project Bonds Series 2007 are as follows:

		Pension Funding Project	
		Principal	**Interest**
Year ending June 30:			
2009	$	—	9,102
2010		—	9,102

2012		2,165	8,970
2013		2,305	8,829
2014 – 2018		13,985	41,693
2019 – 2023		19,165	36,514
2024 – 2018		26,250	29,424
2029 – 2033		35,975	19,707
2034 – 2038		38,150	6,394
	$	140,030	178,837

16. JOINT VENTURE FINANCING AGREEMENT

a. St. Louis Regional Convention and Sports Complex Authority (Authority)

In April 1990, the Authority was established as a separate legal entity by an act of the Missouri State legislature to acquire, purchase, or lease, and construct, operate, and maintain convention centers, sports stadiums, field houses, indoor and outdoor convention, recreational, and entertainment facilities, and to do all things incidental or necessary to facilitate these purposes.

b. Series C 2007 Bonds (Series C Bonds)

On August 15, 1991, the City sponsored the issuance of $60,075 in Convention and Sports Facility Project Bonds Series C 1991 (Series C 1991 Bonds). The Series C Bonds were issued by the Authority, together with the proceeds of the Authority's $132,910 principal amount of Convention and Sports Facility Project Bonds, Series A 1991 (State, Sponsor) (Series A Bonds) and the Authority's $65,685 principal amount of Convention and Sports Facility Bonds, Series B 1991 (County, Sponsor) (Series B Bonds). The Series A Bonds, the Series B Bonds, and the Series C 1991 Bonds (collectively, the Project Bonds) were issued for the purpose of providing funds to finance the costs of acquiring land and constructing thereon an eastward expansion of the Cervantes Convention Center to be used as a multipurpose convention and indoor sports facility (Project).

During February 1997, the Authority issued Convention and Sports Facility Project and Refunding Bonds Series C 1997 (Series C 1997 Bonds) in the amount of $61,285. The proceeds were used to refund, in advance of maturity, $47,155 of the Series C 1991 bonds.

In May 2007, the Authority issued Convention and Sports Facility Project Refunding Bonds Series C 2007 (Series C 2007 Bonds) in the amount of $49,585. The proceeds were issued for the purpose of (i) providing funds to refund all of the Authority's $61,285 original principal amount of Series C 1997

(dollars in thousands)

Bonds, and (ii) for the City to make various project improvements to the Cervantes Convention Center in the amount of $2,421.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of $1,054. This difference, reported in the accompanying financial statements as an increase of bonds payable, is being charged to operations through 2022 using the straight-line method, which approximates the effective interest method.

The City advance refunded the Series C 1997 bonds to reduce its total debt service payments over the next 10 years by approximately $2,084 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of $906.

The Authority entered into a Project Financing Construction and Operation Agreement (Financing Agreement) dated August 1, 1991 with the City, State, and County (collectively, the Sponsors) providing for the application of the proceeds of the Project Bonds, for the repayment of the Project Bonds, and for the operation and maintenance of the Project. Pursuant to the Financing Agreement, the Authority will lease the Project to the Sponsors who will sublease the project back to the Authority. The rental payments made by the Sponsors under the Financing Agreement are designed to be sufficient to pay the principal and interest on the Project Bonds. The preservation payments to be made by the Sponsors under the Financing Agreement will be used to pay for repairs and replacement of major Project components and renovation necessary to maintain the Project. A portion of the preservation payments from each sponsor was deposited to the bond fund of the Authority each year from 1994 through 1999 to pay principal and interest on the Project Bonds. On August 1 and February 1 of each year, the City is obligated (subject to appropriations) to make rental payments of $2,500 and preservation payments of $500 regardless of the principal and interest payments due.

At June 30, 2008, the City's obligation for the Series C Bonds and net preservation payments (after deposits to the bond fund) payable from the general fund under the Financing Agreement is as follows:

		Principal	Interest	Preservation Payments	Total
Year ending June 30:					
2009	$	2,440	2,488	1,072	6,000
2010		2,565	2,357	1,078	6,000
2011		2,700	2,219	1,081	6,000
2012		2,840	2,073	1,087	6,000
2013		2,990	1,920	1,090	6,000
2014 – 2018		17,485	7,008	5,507	30,000
2019 – 2022		17,595	1,907	1,498	21,000
	$	48,615	19,972	12,413	81,000

Series C Bonds' principal and the preservation payments are included in the City's basic financial statements as a long-term liability.

(dollars in thousands)

17. REVENUE BONDS PAYABLE

a. Airport

Bonds outstanding at June 30, 2008 are summarized as follows:

Bond Series 1997, Series B, interest rates ranging from 5.25% to 6%, payable in varying amounts through 2015	$	35,465
Bond Series 1998, interest rates ranging from 4.0% to 5.13%, payable in varying amounts through 2016		49,380
Bond Series 2001A, interest rates ranging from 4.13% to 5.50%, payable in varying amounts through 2012		25,020
Bond Series 2002, Series A, B, and C, interest rates ranging from 4.0% to 5.50%, payable in varying amounts through 2033		43,385
Bond Series 2003A, interest rates ranging from 2.80% to 5.25%, payable in varying amounts through 2019		65,875
Bond Series 2005, interest rate ranging from 4.00% to 5.50%, payable in varying amounts through 2032		263,695
Bond Series 2007A, interest rate ranging from 4.00% to 5.25%, payable in varying amounts through 2033		231,275
Bond Series 2007B, interest rate ranging of 5.00%, payable in varying amounts through 2028		104,735
		818,830
Less:		
Current maturities		(21,725)
Unamortized discounts and premiums		56,778
Deferred amounts on refunding		(35,200)
	$	818,683

Interest payments on the above issues are due semiannually on January 1 and July 1.

On January 23, 2007, the Airport issued $231,275 in Series 2007A Revenue Refunding Bonds with an average interest rate of 4.88 percent to advance refund $178,395 of outstanding 2001A Series Revenue Refunding bonds, and $54,670 of outstanding 2002A Series Revenue Refunding bonds with an average interest rate of 5.07 percent. The net proceeds of $241,933 (after the addition of a net issue premium of $15,798 and payment of $5,140 in underwriting fees, insurance, and other issuance costs) were deposited into an irrevocable trust with an escrow agent to provide for the refunded debt service payments. At June 30, 2007, $178,395 of 2001A Series Revenue Refunding bonds, and $54,670 of 2002A Series Revenue Refunding bonds are considered defeased. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Airport's financial statements.

The advance refunding with the Series 2007A Revenue Refunding Bonds resulted in a difference between the reacquisition price and the net carrying amount of the old debt of $11,455. This difference, reported in the accompanying financial statements as a deduction from bonds payable, is being charged to operations through the year 2032 using the bonds outstanding method. The Airport completed the advance refunding to reduce its total debt service payments over the next 25 years by $8,641 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of $7,238.

(dollars in thousands)

On April 3, 2007, the Airport issued $104,735 in Series 2007B Revenue Refunding Bonds with an average interest rate of 4.93 percent to advance refund $106,150 of outstanding 1997B Series Revenue Refunding bonds with an average interest rate of 5.25 percent. The net proceeds of $108,765 (after the addition of a net issue premium of $6,324 and payment of $2,294 in underwriting fees, insurance, and other issuance costs) were deposited into an irrevocable trust with an escrow agent to provide for the refunded debt service payments. At June 30, 2007, $106,150 of 1997B Series Revenue Refunding bonds is considered defeased. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Airport's financial statements.

The advance refunding with the Series 2007B Revenue Refunding Bonds resulted in a difference between the reacquisition price and the net carrying amount of the old debt of $4,399. This difference, reported in the accompanying financial statements as a deduction from bonds payable, is being charged to operations through the year 2014 using the bonds outstanding method. The Airport completed the advance refunding to reduce its total debt service payments over the next 20 years by $8,018 and to obtain an economic gain (difference between the present values of the old and new debt service payments) of $5,754.

The deferred amounts on refunding of $35,200 at June 30, 2008, relate to the refunded Bond Series 1984, Bond Series 1987, Bond Series 1992, Bond Series 1997A, Bond Series 1997B, Bond Series 2000, Bond Series 2001A, Bond Series 2002A, Bond Series 2003A, and Bond Series 2003B and are included in revenue bonds payable. The deferred amounts on refunding are amortized as a component of interest expense using the bonds outstanding method over the life of the new bonds.

Management of the Airport is not aware of any violations of significant bond covenants with respect to the above issues at June 30, 2008.

As of June 30, 2008, the Airport's aggregate debt service requirements for the next five years and in five-year increments thereafter are as follows:

		Principal	Interest	Total
Year ending June 30:				
2009	$	21,725	41,731	63,456
2010		21,670	40,594	62,264
2011		24,015	39,380	63,395
2012		25,965	38,061	64,026
2013		27,030	36,673	63,703
2014 – 2018		188,865	155,927	344,792
2019 – 2023		182,370	107,523	289,893
2024 – 2028		183,420	62,499	245,919
2023 – 2033		143,770	16,412	160,182
	$	818,830	538,800	1,357,630

(dollars in thousands)

In the current and prior years, the Airport advance refunded various Airport Revenue Bonds by placing funds in an irrevocable trust to provide for all future debt service payments on these bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the financial statements. At June 30, 2008, $547,880 of outstanding revenue bonds are considered defeased.

b. Water Division

Water revenue bonds outstanding at June 30, 2008 are payable solely from, and secured by, a pledge of net revenues from the operation of the Water Division and are summarized as follows:

Series 1998 Water Revenue Bonds, 4.15% - 4.75% Payable in varying amounts through July 1, 2014	$	26,325
Less:		
Current maturities		(3,300)
Deferred amount on refunding		(633)
Unamortized discounts		(43)
	$	22,349

Debt service requirements to maturity of the 1998 Water Revenue Bonds are as follows:

		Principal	Interest	Total
Year ending June 30:				
2009	$	3,300	1,101	4,401
2010		3,440	959	4,399
2011		3,585	809	4,394
2012		3,740	650	4,390
2013		3,905	480	4,385
2014 – 2015		8,355	399	8,754
	$	26,325	4,398	30,723

(dollars in thousands)

c. Parking Division

Revenue bonds outstanding at June 30, 2008 are as follows:

SLPCFC Series 2003A tax-exempt revenue bonds interest rates variable not to exceed 12% payable in varying amounts through 2028	$	4,425
SLPCFC Series 2003B taxable revenue bonds interest rates variable not to exceed 5% payable in varying amounts through 2038		6,585
Series 2006 revenue bonds interst ranging from 3.75% to 5.14% payable in varying amounts through 2032		56,685
Series 2007 revenue bonds interst ranging from 4.125% to 6.00% payable in varying amounts through 2034		12,705
		80,400
Less:		
Current maturities		(1,546)
Unamortized discount and deferred loss on refunding		(6,105)
	$	72,749

Debt service requirements for the Parking Division revenue bonds are as follows:

		Principal	Interest	Total
Year ending June 30:				
2009	$	1,546	3,723	5,269
2010		1,879	3,639	5,518
2011		1,973	3,551	5,524
2012		2,074	3,452	5,526
2013		2,186	3,354	5,540
2014 – 2018		12,794	15,123	27,917
2019 – 2023		16,148	12,040	28,188
2024 – 2028		18,691	8,193	26,884
2029 – 2033		20,151	2,896	23,047
2034 – 2038		2,958	336	3,294
	$	80,400	56,307	136,707

On December 13, 2007, the Parking Division issued $9,370 in Series 2007A Parking Revenue Tax Exempt Bonds and $3,335 in Series 2007B Parking Revenue Taxable Bonds. The Series 2007 Bonds were issued for the purpose of providing funds, together with other available funds, for the construction of the Downtown Justice Center Garage, adjacent to the City's new criminal justice center. In addition, the 2007 Series Bonds provided funding for debt service reserves, capitalized interest and bond insurance premiums and other costs of issuance with respect to the Series 2007 Bonds.

On December 14, 2006, the Parking Division issued $46,250 in Series 2006A Parking Revenue Tax-Exempt Bonds and $11,650 in Series 2006B Parking Revenue Taxable Bonds. The bonds were issued for the purpose of current refunding the outstanding Series 1996 and Series 1999 parking revenue bonds, and advance refunding the outstanding Series 2002 parking revenue bonds to achieve present value savings, provide debt service relief, modernize and streamline the issuance of future revenue bonds, fund the construction of the Euclid/Buckingham Garage, fund the Series 2006A and Series 2006B debt service reserves, and to fund the bond insurance premium and other costs of issuance of the Series 2006A and 2006B bonds. The bond series refunded and the amount outstanding were:

Parking Revenue Refunding Bonds, Series 1996 – $22,085

Parking Revenue Bonds (Argyle Project), Series 1999 – $9,805

Subordinated Parking Revenue Bonds (Downtown Parking Facilities), Series 2002 – $20,170

A portion of the net proceeds from the Series 2006A and Series 2006B issuance in the amount of $53,685, plus an additional $924 from the Series 2002 Revenue Bonds debt service reserve monies, $312 from the Series 2002 Revenue Bonds debt service reserve fund, and $276 from the Series 1999 Revenue Bonds debt service reserve funds were deposited into an irrevocable trust with an escrow agent to current refund the Series 1996 and Series 1999 Bond issuances on December 15, 2006, and to advance refund the Series 2002 Bond issuance on February 1, 2012. Therefore, as of June 30, 2007, the Series 1996, Series 1999, and Series 2002 bonds are considered defeased. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the financial statements. As of June 30, 2007, $19,270 and $0, respectively, of defeased Series 2002 Bonds remain outstanding.

The current and advance refundings resulted in a difference between the reacquisition price and the net carrying amount of the old debt of $7,029. This difference is reported as a deduction from bonds payable and is being charged to operations over the life of the new bond issue using the straight-line method, which approximates the effective interest method.

The current and advance refunding increases total debt service payments over the life of the Series 2006A and Series 2006B bond issuances by $5,745, and results in an economic gain (difference between the present values of the old and new debt service payments) of $2,102.

On November 20, 2003, the SLPCFC issued $6,730 in Series 2003A Tax-Exempt Parking Revenue Bonds at a variable interest rate not to exceed 12% and $6,882 in Series B Taxable Parking Revenue Bonds at a variable interest rate not to exceed 5% for the purpose of purchasing the Cupples Garage located in downtown St. Louis. The net proceeds of the bonds were $13,127, after the deduction of $485 in underwriting fees and issuance costs. The Series 2003 A and Series 2002B bonds are secured solely by the net revenues of the Cupples Garage and do not constitute a general obligation of the Parking Division or the City.

During the fiscal year 2008, the Parking Division sold certain parking spaces within its Cupples property. The proceeds of the sale of these items were utilized to pay a mutually agreed-upon lease termination fee of $951 to the Parking Division, which is reported as a nonoperating revenue within its 2008 financial statements. The fee proceeds along with other funds held by the Parking Division's trustee on behalf of the Parking Division were remitted to the financial institution that had purchased the Series 2003A Bonds and were utilized to redeem $950 of the bonds maturing on June 1, 2028 plus accrued interest. These bonds were called for redemption on January 1, 2008.

(dollars in thousands)

18. PLEDGED REVENUES

The City has pledged specific revenue streams to secure the repayment of certain outstanding debt issues. The following tables and narratives list those revenues and the corresponding debt issue along with the purpose of the debt, the amount of the pledge remaining, the term of the pledge commitment, the current fiscal year principal and interest on the debt, the amount of pledged revenue collected during the current fiscal year, and the approximate percentage of the revenue stream that has been committed, if estimable:

a. Governmental activities

The City has pledged an ad valorem tax levied upon all taxable, tangible property, real and personal (property tax revenue). The tax rate is set annually based on revenue required to pay debt. Total principal and interest remaining on the debt is $71,746 with annual requirements ranging from $6,231 in fiscal year 2009 to $1,240 in the final year. During fiscal year 2008, the proportion of pledged revenues needed for debt service to revenues collected was 89.9%.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
Public Safety General Obligation Revenue Bonds Series 1999	Renovation of fire and police buildings and demolition of unsafe or condemned buildings	Through fiscal year 2009	$6,321	$7,031
Public Safety General Obligation Refunding Bonds Series 2005	Renovation of fire and police buildings and demolition of unsafe or condemned buildings	Through fiscal year 2019		
General Obligation Revenue Bonds Series 2006	Communications equipment for fire, police and EMS and police infrastructure improvements	Through fiscal year 2026		

(dollars in thousands)

The City has pledged all payments in lieu of taxes (PILOTs) and fifty per cent of the economic activity taxes (EATS) captured in specified TIF districts to pay debt outstanding. Total principal and interest outstanding on the various TIF bonds and notes outstanding is paid based on the amount of revenue captured in each particular district. The principal and interest remaining as of June 30, 2008 is $304,182. During fiscal year 2008, the proportion of pledged revenues needed to revenues collected was 100%.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
Section 108 Downtown Convention Headquarters Hotel Project	Provide financial assistance with the development and construction of Convention Hotel	Through fiscal year 2021	$4,756	$5,219
Tax Increment Revenue Bonds Scullin Steel Area Series 1991	Assist in development of blighted property	Through fiscal year 2011	$1,801	$705
IDA Tax-Exempt Tax Increment Revenue Bond- Edison Brothers Warehouse Redevelopment Area--Series 2004	Assist in development of blighted property	Through fiscal year 2022	$594	$620
IDA Tax-Exempt Tax Increment Revenue Bond- MLK Plaza Warehouse Redevelopment Project--Series 2004	Assist in development of blighted property	Through fiscal year 2024	$243	$247
IDA Tax-Exempt Tax Increment Revenue Bond- Southtown Redevelopment Project - Series 2006	Assist in development of blighted property	Through fiscal year 2027	$646	$576
IDA Tax-Exempt Tax Increment and Community Improvement Refunding Revenue Bonds - Loughborough Commons-- Series 2007	Assist in development of blighted property	Through fiscal year 2028	$563	$561
Combined Various Tax Increment Financing Notes	Assist in development of blighted property	Through fiscal year 2030	$7,562	$6,740

(dollars in thousands)

A $45 (in dollars) surcharge on civil cases in the circuit court is imposed by state statute to be used for courthouse restoration. A city ordinance also imposes a $5 (in dollars) court cost on all municipal ordinance violation cases to be used for courthouse restoration. The funds are used as pledges for the Civil Court and Carnahan Courthouse Leasehold Revenue Refunding Bond Series. Total principal and interest remaining on these financings is $53,025 ranging from $3,718 in fiscal year 2009 to $2,846 in the final year. The charges for services have averaged $1,251 over the past ten years for an average pledge of 100% of the pledged revenue stream.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
SLMFC Civil Courts Building Leasehold Revenue Refunding Bonds Series 2003A	Financing renovations at the City Civil Courts Building	Through fiscal year 2014	$3,726	$1,496
SLMFC Carnahan Courthouse Leasehold Revenue Refunding Bonds Series 2006A	Financing renovations at the Carnahan Courthouse	Through fiscal year 2027		

The City has pledged State per diem prisoner reimbursements for boarding of State prisoners to Justice Center debt issuances. Total principal and interest remaining on the debt is $119,219 with annual requirements ranging from $11,127 in fiscal year 2009 to $1,862 in the final year. The prisoner reimbursements have averaged $5,744 over the past ten years for an average pledge of 100% of the pledged revenue stream.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
SLMFC City Justice Center Leasehold Revenue Improvement Bonds Series 1996B and Series 2000A; SLMFC City Justice Center Leasehold Revenue Bonds Series 2001A	Construction of a new Justice Center	Through fiscal year 2020	$11,121	$6,375
SLMFC Leasehold Revenue Refunding Bonds Series 2005				

The City has pledged a portion of the one half cent capital improvement sales tax to fund the Forest Park Leasehold Revenue Refunding Bonds. As legally committed by ordinance, 10.4% of the revenue collected from this sales tax is allocated for Forest Park. The annual debt payment is appropriated from this source of funds. Total principal and interest remaining on the debt is $19,180 with annual requirements ranging from $1,372 in fiscal year 2009 to $1,371 in the final year. The portion of the sales tax committed to for Forest Park has averaged $1,822 over the past ten years so that the proportion of pledged revenues needed to revenues collected was 75.5% for the ten year period.

(dollars in thousands)

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
SLMFC Forest Park Leasehold Revenue Refunding Bonds Series 2004	Finance improvements to Forest Park	Through fiscal year 2022	$1,370	$1,849

The City has pledged the one eighth cent parks and recreation sales tax to fund the Recreation Sales Tax Leasehold Revenue Bonds Revenue Bonds. The annual debt payment is appropriated from this source of funds. Total principal and interest remaining on the debt is $94,438 with annual requirements ranging from $3,236 in fiscal year 2009 to $3,266 in the final year. The underlying debt was issued in fiscal year 2008 and fiscal year 2008 revenues from the tax were $4,425. During fiscal year 2008, the proportion of pledged revenues needed to revenues collected was 70.2%.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
SLMFC Recreation Sales Tax Leasehold Revenue Bonds Series 2007	Construction of two new recreational center facilities	Through 2037	$3,107	$4,425

The City has pledged a portion of the one half cent capital improvement sales tax to fund the Police Capital Improvements Sales Tax Leasehold Revenue Bonds Series 2007. As legally committed by ordinance, 10% of the revenue collected from this sales tax is allocated for police capital improvements. The annual debt payment is appropriated from this source of funds. Total principal and interest remaining on the debt is $44,757 with annual requirements ranging from $1,306 in fiscal year 2009 to $1,708 in the final year. The portion of the sales tax committed for police capital improvements has averaged $1,709 over the past ten years. The estimated proportion of pledged revenues needed to revenues collected is 90.3% for the average debt service requirement over the life of the bonds.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
SLMFC Police Capital Improvements Sales Tax Leasehold Revenue Bonds Series 2007	Capital improvements to police buildings and certain interoperable communications equipment to be used by police, fire and EMS.	Through fiscal year 2037	$1,309	$1,777

(dollars in thousands)

The 3.5% sales tax imposed on the amount of sales or charges for all rooms paid by the transient guests of hotels and motels is pledged by the City to fund the Convention and Sports Facility Refunding Bonds Series C 2007. Total principal and interest remaining on the debt is $81,000 with annual requirements of $6,000. The source of funds pledged averaged $5,117 over the past ten years for an average pledge of 100%.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
Convention and Sports Facility Project Refunding Bonds Series C 2007	Construction of a multipurpose convention and indoor sports facility	Through fiscal year 2022	$6,000	$5,616

The City has pledged all payments in lieu of taxes (PILOTs) and fifty per cent of the economic activity taxes (EATS) captured in the Argyle TIF district to pay debt outstanding on a portion of the Parking Revenue Bonds Series 2006 associated with the Argyle Parking garage. Total principal and interest outstanding at June 30, 2008 on this portion of the debt is $13,205. During fiscal year 2008, the collection of PILOTs and EATs totaled $799 for the Argyle TIF district so that the proportion of pledged revenues need to revenues collected was 100%.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
Parking Revenue Bonds Series 2006 -Argyle TIF	Construction of parking garage	Through fiscal year 2022	$899	$799

The City has pledged general fund police parking ticket revenues to the Parking Revenue Bonds Series 2006 & Series 2007 in parity with the Parking Division to make up any shortfall of other committed sources. Total principal and interest remaining on the debt is $56,685 with annual requirements ranging from $5,180 in fiscal year 2009 to $879 in the final year. During fiscal year 2008, revenue from the police parking ticket revenues totaled $1,987. Since Parking Division revenues for fiscal year 2008 and cash held at the trustee were sufficient to pay the debt service requirement, no general fund revenues were necessary for fiscal year 2008. See footnote 18b.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
Parking Revenue Bonds Series 2006 & 2007	Constructing parking facilities in the City	Through fiscal year 2034	$4,227	$1,987

(dollars in thousands)

b. Business-type activities

Airport

The Airport has pledged a specific revenue stream to secure the repayment of an outstanding debt issue. Pledged PFC (Passenger Facility Charge) revenues for a given year constitute that portion of the PFC revenues that equals 125% of the amount of PFC-eligible 2001 Airport Development Program (ADP) debt service due during the given fiscal year. The following table summarizes information relevant to the PFC pledged revenues for the Airport Revenue Refunding Bonds Series 2005 as of June 30, 2008.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
Airport Revenue Refunding Bonds Series 2005	Land acquisition for the construction of a new runway	Through fiscal year 2032	$20,707	$25,887

As of June 30, 2008 the remaining principal and interest requirement is $494,164, payable through July 2031. For the last two years, the proportion of pledged revenue, in the amount of $51,771, to total PFC revenue, in the amount of $58,017 was 90%. It can be projected that through July 2031, estimated PFC revenues in the amount of $686,300 will be collected, of which $617,705 will be pledged for principal and interest.

Water

The Water Division has pledged all Water Division revenues to secure repayment of the Water Revenue Refunding Bonds (Series 1998 Bonds). The following table and narrative lists the purpose of the debt, the term of commitment, the approximate proportion of the pledged revenue to revenue collected of the revenue stream as estimated at June 30, 2008, the current fiscal year principal and interest on the debt and the amount of pledged revenue earned during the current fiscal year:

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
Water Revenue Refunding Bonds, Series 1998	Funding of various Water Division infrastructures	Through fiscal year 2015	$4,078	$46,836

As of June 30, 2008, the remaining principal and interest requirement is $30,723, payable through July 2014 (fiscal year 2015). The proportion of pledged revenue to revenue collected is estimated at 8.7% at June 30, 2008.

(dollars in thousands)

In February 1996, the Water Division sold the rights to invest the Debt Service Reserve Fund. Under the agreement, the Water Division was paid $941 in advance for interest. The transaction was recorded as deferred interest revenue and is currently amortized over the life of the bonds.

Parking

The Parking Division has pledged net Parking Division project revenues and net Parking Division revenues to secure the repayment the City of St. Louis Parking Revenue Bonds, Series 2006 & 2007. The general purpose of the bonds is to build parking facilities in the City. As of June 30, 2008 the remaining principal and interest requirement is $136,707, payable through fiscal year 2034. Fiscal year 2008 net revenues were $3,999 so that the proportion of pledged revenues needed to revenues collected was 100% for fiscal year 2008.

Issue	General Purpose for debt	Term of Commitment	Principal and interest for the fiscal year ended ended June 30, 2008	Pledged revenue for the fiscal year ended ended June 30, 2008
Parking Revenue Bonds Series 2006 & 2007	Constructing parking facilities in the City	Through fiscal year 2034	$4,227	$3,999

19. SHORT-TERM DEBT

a. City

Short-term debt activity for the year ended June 30, 2008 was as follows:

	Balance June 30, 2007	**Issued**	**Redeemed**	**Balance June 30, 2008**
Tax revenue anticipation notes	$ —	32,000	(32,000)	—

b. Airport

On May 1, 2004, the City's Board of Alderman authorized the Airport to issue Commercial Paper Notes, 2004 Program, in an aggregate principal amount not to exceed $125,000 outstanding at any one time. As of June 30, 2008, commercial paper of $1,000 was outstanding. This commercial paper bore interest at rate of 1.65% and was due on September 4, 2008.

Following is a summary of the changes in commercial paper payable for the Airport for the year ended June 30, 2008:

(dollars in thousands)

	Balance June 30, 2007	Issued	Redeemed	Balance June 30, 2008
Commerical paper payable	$ 1,000	3,000	(3,000)	1,000

20. FORWARD PURCHASE AGREEMENTS

a. Objective of the Forward Purchase Agreements

The Airport and Water Division have entered into 10 forward purchase agreements with financial institutions, which guarantee a fixed rate of return on the invested proceeds of the debt service and debt service reserve funds of certain revenue bond issuances. The Airport and Water Division entered into these agreements in order to ensure that their investments will earn a guaranteed rate of interest regardless of fluctuations in market interest rates.

(dollars in thousands)

b. Terms

The terms of Airport forward purchase agreements I – VI are as follows:

	Airport I	Airport II	Airport III	Airport IV	Airport V	Airport VI
Date of origin	June 1995	September 1997	October 2000	December 2003, as amended July 2005	December 2003, as amended January 2007	December 2003, as amended July 2005 and January 2007
Underlyind bond account(s)	Series 1996, Series 2002C, Series 2003B debt service	Series 1997 debt service reserve	Series 2003A debt service reserve	Series 1997 A, Series 2005 debt service reserve	Series 1997B debt service	Series 2001A, Series 2005, Series 2007A debt service
Guaranteed interest rate	6.34%	terminated	6.47%	5.34%	5.35%	Series 2001: 5.432% Series 2005: 5.432% Series 2007A: 5.440%
Lump-sum payment received at beginning of agreement	$7,209	terminated	N/A	N/A	N/A	N/A
Date of termination (upon maturity of bond series)	2015	terminated	2008	2027	2015	2031
Notional amount (representing balance in applicable accounts)	$1,147	terminated	$7,034	$1,015	$5,364	$17,953
Obligation (representing the unamortized portion of lump-sum payment) recorded on the statement of fund net assets at June 30, 2008	$733	terminated	N/A	N/A	N/A	N/A

(dollars in thousands)

The terms of Airport forward purchase agreements VII – IX and the Water Division forward purchase agreement are as follows:

	Airport VII	Airport VIII	Airport IX	Water Division
Date of origin	December 2003, as amended July 2005 and January 2007	December 2003	December 2003	February 1996
Underlying bond account(s)	Series 2002A, Series 2005 debt services	Series 2002B debt service	Series 2003A debt service	Series 1994 and Series 1998 debt service
Guaranteed interest rate	5.473%	5.332%	5.579%	6.200%
Lump-sum payment received at beginning of agreement	N/A	N/A	N/A	$941
Date of termination (upon maturity of bond series)	2020	2032	2018	2015
Notional amount (representing balance in applicable accounts)	$707	$1,409	$6,282	$3,559
Obligation (representing the unamoritzed portion of the initial lump-sum payment) recorded on the statement of fund net assets at June 30, 2008	N/A	N/A	N/A	$237

In January 2007, the Airport's forward purchase agreement VI and VII were amended to replace the defeased portions of Bond Series 2001A and Bond Series 2002B with Bond Series 2007A. No payments were made in consideration of this amendment.

In January 2007, forward purchase agreement V was amended to exclude the defeased portion of Bond Series 1997B. No payments were made in consideration of this amendment.

In April 2007, forward purchase agreement II was terminated with the issuance of the Series 2007B Bonds. No payments were made in consideration of this amendment.

In July 2005, the Airport's forward purchase agreements IV, VI, and VII were amended to replace Bond Series 1997A, Bond Series 2001A, and Bond Series 2002A, respectively, with Bond Series 2005 bonds. No payments were made in consideration of this amendment.

(dollars in thousands)

For the Airport forward purchase agreement I and the Water Division forward purchase agreement, in exchange for the lump-sum payment received, the City has contracted to buy qualified eligible securities from financial institutions every month until the bonds mature, are called, or are refinanced. These institutions receive the actual interest earned on the securities purchased every month. The difference between the fixed interest rate earned by the City and the variable interest rate paid to the financial institution is recorded as a net adjustment to net interest expense.

For the Airport forward purchase agreements III through IX, the City has contracted to buy qualified eligible securities from a financial institution on a semiannual basis and the financial institution has guaranteed that the securities will earn a stated rate. To the extent the securities earn a greater rate of return, the City is required to refund the differential to the financial institution, if a lesser rate is earned, the financial institution absorbs the loss.

c. Fair Value

As disclosed above, the City's obligations associated with Airport forward purchase agreement I and the Water Division forward purchase agreement are recorded on the financial statements as other liabilities. This liability represents the unamortized portion of the initial lump-sum payment received pursuant to these agreements.

The fair value of the remaining forward purchase agreements, under which no initial lump-sum payments were received, is not recorded on the financial statements. As of June 30, 2008, these fair values are as follows:

Agreement	Fair Value
Airport III	$ 170
Airport IV	297
Airport V	347
Airport VI	4,295
Airport VII	104
Airport VIII	231
Airport IX	633

These fair values were calculated using the following method: the variable rate of return to be retained by the financial institutions was assumed to be the rate of a return available at June 30, 2008 for a U.S. Treasury obligation with a comparable length of time remaining until maturity. The variable rate of return was then subtracted from the fixed rate of return guaranteed, and multiplied by the securities required to be invested under the agreements for all future periods. The resulting differential in future cash flows was discounted to the present at the rate of a return available at June 30, 2008 for a U.S. Treasury obligation with a comparable length of time remaining until maturity.

(dollars in thousands)

d. Credit Risk

The forward purchase agreements' fair value represents the credit exposure of the Airport and the Water Division to the financial institutions as of June 30, 2008. Should the financial institutions fail to perform according to the terms of the agreement, the Airport and the Water face a maximum possible loss equivalent to the agreements' fair value.

e. Interest Rate Risk

The forward purchase agreement exposes the Airport and the Water Division to interest rate risk. Should interest rates increase above the levels guaranteed by the agreement, the financial institution, and not the Airport, the Water Division would realize this increase in investment earnings.

f. Termination Risk

Should the Airport or the Water Division terminate the agreements or default on their obligations pursuant to the agreements, a termination payment would either be owed to or due from the financial institution, and would be calculated based upon market interest rate conditions at the time of the termination.

21. OPERATING LEASES

a. At June 30, 2008, the City was committed under miscellaneous operating leases for office space and equipment. Future minimum base rental payments under terms of the operating leases are as follows:

Year ending June 30:		
2009	$	1,169
2010		639
2011		582
2012		529
2013		487
2014 – 2018		1,839
2019 – 2023		250
2024 – 2028		238
	$	5,733

b. Airport – Use Agreements and Leases with Signatory Air Carriers

Effective January 1, 2006, the Airport entered into new long-term use and lease agreements with signatory air carriers that expires on June 30, 2011. The previous long-term use and lease agreements with signatory air carriers expired on December 31, 2005. Under the terms of the use agreements and leases, the air carriers have agreed to pay airfield landing fees; terminal and concourse rentals; hangar, cargo, and maintenance facility rentals; and certain miscellaneous charges in consideration for use of the Airport. The use and lease agreements also require the Airport to make certain capital improvements and to provide maintenance of certain Airport facilities. Payments by the air carriers are determined as follows:

(dollars in thousands)

- Landing fees are calculated based on estimated operating and maintenance expenses of the airfield, and allocated to the air carriers on the basis of landing weights. Landing fee revenues are adjusted each year by retroactive rate adjustment, which is calculated as the difference between estimated and actual costs incurred and estimated and actual landing weights. These revenues are included in aviation revenue—airfield.

- Rentals are calculated based on estimated operating and maintenance expenses of the terminal and concourse areas and hangars, cargo, and maintenance facilities, and allocated to the air carriers on the basis of square footage utilized. Rental revenue is adjusted each year by retroactive rate adjustment, which is calculated as the difference between estimated and actual costs incurred. These revenues are included in aviation revenue—terminal and concourses, hangars and other buildings, or cargo buildings, respectively.

- Miscellaneous income is derived from the air carriers for their use of sanitary disposal facilities and airline service buildings.

During fiscal year 2008, revenues from signatory air carriers accounted for 58% of total Airport operating revenues.

Minimum future rentals for each year in the next five years and in the aggregate are not determinable given the method of calculation.

The following is a summary of aviation revenue by category and source from signatory and nonsignatory air carriers for the year ended June 30, 2008:

		Signatory	Non-signatory	Total
Airfield	$	57,582	8,258	65,840
Terminal and concourses		19,753	2,157	21,910
Hangars and other buildings		740	65	805
Cargo buildings		545	128	673
	$	78,620	10,608	89,228

(dollars in thousands)

The Airport also leases facilities and land with varying renewal privileges to various nonsignatory air carriers, concessionaires, and others. These leases, for periods ranging from 1 to 50 years, require the payment of minimum annual rentals. The following is a schedule by year of minimum future rentals on noncancelable operating leases, other than leases with signatory airlines, pursuant to long-term use agreements:

Year ending June 30:		
2009	$	17,432
2010		10,843
2011		9,109
2012		7,667
2013		4,734
2014 – 2018		11,178
2019 – 2023		6,922
2024 – 2028		3,872
2029 – 20333		3,872
2034 – 2035		1,171
Total minimum future rentals	$	76,800

The above amounts do not include contingent rentals that may be received under certain leases. Such contingent rentals amounted to $6,009 for the year ended June 30, 2008.

The Airport leases computer and other equipment and has service agreements under noncancelable arrangements that expire at various dates through 2010. Expenses for operating leases and service agreements were $4,352 for the year ended June 30, 2008. Future minimum payments (excluding payments for snow removal, which are not determinable) are as follows:

Year ending June 30:		
2009	$	121
2010		89
2011		58
2012		27
Total minimum future rentals	$	295

(dollars in thousands)

c. Component Unit—SLDC

In December 1996, SLDC signed a five-year lease for office space, which commenced March 1997 with three months abated rent and thereafter, monthly base payments of $38 through February 2002. In January 2001, SLDC signed an agreement to extend the lease for 15 years. The new agreement, which increased the base rent to $47 and the leased space to 6,216 square feet, will end February 2017. SLDC also has sublease agreements with the Planning and Urban Design Development Agency (PDA) and CDA in effect through February 2017.

Future minimum base rents under the terms of the lease agreements, net of sublease rents anticipated from CDA and PDA, are as follows:

Year ending June 30:		
2009	$	255
2010		255
2011		255
2012		270
2013		301
2014 – 2017		1,104
	$	2,440

Additionally, at June 30, 2008, SLDC was committed through February 2012 under an original 25-year operating lease with the City, which requires annual rental payments of $1 (in dollars) for certain property. Under the lease agreement, SLDC shall make improvements to the leased premises and award subleases for all or a portion of the leased premises. Sublease revenue is retained by SLDC for use at the site.

(dollars in thousands)

22. INTERFUND BALANCES

Individual fund interfund receivable and payable balances as of June 30, 2008 are as follows:

Receivable Fund	Payable Fund		Amount
General fund	Special revenue—grants fund	$	13,133
	Capital projects fund		3,006
	Other governmental nonmajor funds		16
	Enterprise:		
	Airport		1,397
	Water Division		1,094
	Parking Division		835
	Internal service funds		256
			19,737
Other governmental nonmajor funds	General fund		1,414
	Capital projects fund		1,670
	Other governmental nonmajor funds		643
			3,727
Internal service funds	General fund		108
	Enterprise:		
	Airport		2,333
	Water Division		1,695
	Parking Division		254
			4,390
		$	27,854

All of these interfund balances are due to either timing differences or due to the elimination of negative cash balances within the various funds. All interfund balances are expected to be repaid during the fiscal year ending June 30, 2009.

Advances to/from other funds as of June 30, 2008 are as follows:

Advance from	Advance to		Amount
General fund	Internal Service Fund	$	12,369
Water Division	General fund		585
		$	12,954

(dollars in thousands)

23. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2008 consisted of the following:

		Transfer To					
		General Fund	**Capital Projects Fund**	**Other Govern-mental Funds**	**Water Division**	**Parking Division**	**Total**
	General fund	$ —	10,295	2,920	—	—	13,215
	Capital Projects fund	—	—	—	—	—	—
	Other Governmental Funds	10,297	8,700	362	—	410	19,769
Transfer From	Airport	5,831	—	—	—	—	5,831
	Water Division	2,639	—	—	—	—	2,639
	Parking Division	680	—	—	—	—	680
		$ 19,447	18,995	3,282	—	410	42,134

Interfund transfers were used to: (1) move revenues from the fund that ordinance or budget requires to collect them to the fund that ordinance or budget requires to expend them, (2) use unrestricted revenues collected in the general fund to finance capital improvements and other funds in accordance with budgetary authorization, or (3) move revenues in excess of current year expenditures to other funds. Additionally, gross receipt payments from the Airport, the Water Division, and the Parking Division are handled as transfers from each respective enterprise fund to the general fund.

24. COMMITMENTS AND CONTINGENCIES

a. Grants

In connection with various federal, state, and local grant programs, the City is obligated to administer related programs and spend the grant moneys in accordance with regulatory restrictions and is subject to audit by the grantor agencies. In cases of noncompliance, the agencies involved may require the City to refund program moneys. Through June 30, 2008, claims have been made on the City to make refunds under certain programs and other programs are still open as to compliance determination by the respective agencies. In the opinion of City officials, settlement of these matters will not result in a material liability to the City.

b. Landfill Closure

Pursuant to the original agreement between the DNR and the City, the City will be closing the Hall Street Landfill. The property was a 47-acre demolition waste landfill located at 8700 Hall Street. The property is owned by SLDC. The City holds the operating permit and is responsible for the closing. In July 2001, the City entered into an irrevocable standby letter of credit in the amount of $4,174 with DNR as the beneficiary. DNR may draw upon that letter of credit to complete the closure if the City does not fulfill its obligations under the agreement. As of June 30, 2008, no amounts had been drawn against the letter of credit by DNR. At June 30, 2008, $100 has been recorded as a liability, which is an estimate of expenses the City will incur for closure and postclosure costs. In addition, the City has estimated that a penalty of $50 to $100, which the City Counselor's Office has determined there is a reasonable possibility that a loss contingency may be incurred but no accrual has been made within the government-wide financial statements or fund financial statements because the loss is not both probable and estimate able. In April 2007, the City notified DNR of completion of the project. Comments were received from DNR in February 2008. The City has discussed the comments with DNR and is awaiting final acceptance by the state.

c. Commitments

At June 30, 2008, the City had outstanding commitments amounting to approximately $68,074, resulting primarily from service agreements.

Additionally, at June 30, 2008, the Airport had outstanding commitments amounting to approximately $44,270 resulting primarily from contracts for construction projects both related and unrelated to the W–1W expansion project.

d. American Airlines and Southwest Airlines

American Airlines (American) and Southwest Airlines (Southwest) represent the major air carriers providing air passenger service at the Airport.

American provided 20% of the Airport's total operating revenues and 34% of total revenues from signatory air carriers for the fiscal year ended June 30, 2008. Accounts receivable at June 30, 2008 contained of $1,793 relating to amounts owed to the Airport by American. These amounts include $1,780 of unbilled aviation revenues at June 30, 2008.

Southwest provided 18% of the Airport's total operating revenues and 31% of total revenues from signatory air carriers for the fiscal year ended June 30, 2008. Accounts receivable at June 30, 2008 contained of $4,044 relating to amounts owed to the Airport by Southwest. These amounts include $2,432 of unbilled aviation revenues at June 30, 2008.

e. Airport Expansion

On September 30, 1998, the City received a favorable Record of Decision from the FAA for the W–1W expansion of the Airport, marking the beginning of a new economic era for aviation in St. Louis. The proposed $2.6 billion program will provide the building blocks for a highly competitive "world class" aviation system for the 21st century, including one additional 9,000 foot parallel runway to add capacity in all weather conditions, and renovation of the Airport's existing runway and taxiway system.

The construction of this program will be funded with Airport development funds, passenger facilities charges, FAA improvement program grants, and Airport revenue bonds.

Lawsuits previously filed by the cities of St. Charles and Bridgeton, Missouri challenging the project have been adjudicated and fully reviewed by the appellate courts. In both cases, final judgments were rendered in favor of the City and the Airport. As of June 30, 2007, land acquisition activities relative to the W–1W expansion project are complete.

During the year ended June 30, 2008, as a result of an agreement between the City of St. Louis and City of Bridgeton (Bridgeton), the Airport recognized a $30,532 loss on the disposal of surplus property, which was originally acquired by the Airport for the purpose of noise mitigation and airport expansion. This agreement resolves and settles the remaining disputes between the Airport and Bridgeton. The key items in the agreement require the Airport to (1) pay over a three year period, $10,800 to Bridgeton, (2) convey to Bridgeton approximately forty-two acres of land, and (3) lease to Bridgeton various parcels of land. Other key items in the agreement require Bridgeton to convey to the Airport approximately twenty-six acres of land. The land conveyed to Bridgeton by the Airport was originally recorded at cost. The cost of the land capitalized by the Airport in prior years represented all costs associated with preparing the land for its intended purpose of noise mitigation and airport expansion, including the costs of acquiring the land and returning the land to an undeveloped state. The land conveyed to the Airport by Bridgeton was recorded at fair market value. The difference resulted in a loss to the Airport. The terms of settlement for the surplus land included restrictions on the use of land resulting from its proximity to the Airport. Approximately ten acres of the land conveyed to the Airport will be leased to Bridgeton.

The above land transactions are part of a larger settlement agreement with Bridgeton. The Airport obtained FAA approval on the settlement agreement prior to closing on the agreement. As such, the Airport did not receive cash, but consideration in the form of an exchange of similar properties. The receipt of these properties will complete the land acquisition of all remaining properties owned by Bridgeton that are within the W-1W boundaries. As stated in the preceding paragraph, the Airport will pay over a three year period, $10,800 to Bridgeton. In fiscal years 2009, 2010, and 2011 $3,300, $4,000, and $3,500 respectively is due to Bridgeton. The liability totaled $10,800 as of June 30, 2008, and $3,300 is included in accounts payable and accrued expenses with the remaining $7,500 included in other long-term liabilities within the accompanying balance sheet at June 30, 2008.

f. Asbestos Removal

The Water Division has identified certain of its structures as having asbestos in place. As part of its continuing process of upgrading facilities, the costs for removal of the asbestos material and restoration or replacement of the affected areas are being included in budgets for capital projects. No mandatory time requirement is in effect. The removal plan would be accelerated by changes in plans for remodeling, if any.

g. Component Unit—SLDC

In the normal course of its operations, certain lawsuits and legal action are pending against SLDC. In the opinion of SLDC officials and legal counsel, these items are not expected to have a material effect, individually or in the aggregate, upon the financial position or the results of operations of SLDC.

In addition, certain properties held for development may be subject to future environmental remediation costs. In the opinion of SLDC officials, these costs would not have a material adverse effect upon the financial position or the results of operations of SLDC.

SLDC has entered into various cooperative agreements with the CDA as a subrecipient/administrator of the Community Development Block Grant Programs. The purpose of these grants and contracts is to provide support for economic development in the City. Revenues from these contracts amounted to $9,066 during the year ended June 30, 2008.

SLDC has been awarded federal tax credits through the U.S. Department of Treasury's New Markets Tax Credit Program (NMTC) to support $52,000 in private investments in low-income areas. The entire $52,000 of tax credits had been allocated to seven entities of which six of the transactions had closed as of June 30, 2008. SLDC has received administrative and closing costs totaling $2,898 as of June 30, 2008. SLDC has incurred $916 of related legal, accounting, and financial start-up expenses and recorded $916 of revenue as of June 30, 2008. $129 was recorded as revenue during 2008 with the rest having been recognized in previous years. During the fiscal year ended June 30, 2008, SLDC has incurred $129 of related legal, accounting and financial start-up expenses and recorded $129 of revenue. SLDC is holding the remaining amount of $1,982 in cash and investments with a corresponding liability recorded to be recognized as revenue when expenses or program initiatives to the NMTC are incurred. Subsequent to year end SLDC was awarded an additional $45,000 in NMTC's under the same program.

h. Component Units—SLDC and SLPD

SLDC and SLPD receive financial assistance from several federal, state, and local government agencies in the form of grants and contracts. The disbursements of funds received under these programs generally require compliance with terms and conditions specified in the contract and grant agreements and are subject to audit by the granting agencies. Any disallowed claims resulting from such audits could become an SLDC or SLPD liability. However, in the opinion of their respective management, any such disallowed claims will not have a material effect on the financial statements of SLDC or SLPD at June 30, 2008.

25. RISK MANAGEMENT

a. Primary Government

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City is self-insured with respect to its obligation to provide workers' compensation, general liability, unemployment benefits, and prescription drug coverage. Effective February 1, 2003, the City became self-insured for property damage caused by garbage and refuse trucks. The City has sovereign tort immunity from liability and suit for compensatory damages for negligent acts or omissions, except in the case of injuries arising out of the operation of City motor vehicles or caused by the condition of City property. The maximum claim settlement established by state statute for such claims is $300 per person and $2,000 per occurrence. Various claims and legal actions involving the City are presently pending. Additionally, a number of legal suits against SLPD are presently pending for alleged wrongful personal injuries, civil rights violations, and negligence in the line of duty. The City's policy is to record these claims in its government-wide financial statements when it is probable that a liability has been incurred and the amount can be reasonably estimated.

For workers' compensation and general liability, the estimated liability for payment of incurred (both reported and unreported) but unpaid claims and claim adjustment expenditures of $16,450 at June 30, 2008, relating to these matters is recorded in the self-insurance internal service fund—PFPC. The City obtains periodic funding valuations from a claims-servicing company managing the appropriate level of estimated claims liability. Enterprise funds reimburse PFPC on a cost-reimbursement basis.

The City was also self-insured for healthcare coverage for its employees and retirees through June 12, 2004 and June 30, 2004, respectively. The City was self-insured for healthcare coverage for employees of Harry S. Truman Restorative Center (HSTRC) and Tower Grove Park through June 30, 2004. Effective June 13, 2004, for employees of the City and July 1, 2004 for retirees and employees of HSTRC and Tower Grove Park, the City elected to purchase commercial insurance for its previously self-insured health insurance program. The City remains self-insured for the prescription drug coverage provided to employees and retirees. Additionally, the City is still self-insured for any healthcare claims that arise from incidents occurring prior to June 13, 2004 for employees and July 1, 2004 for retirees and employees of HSTRC and Tower Grove Park.

For the period the City was self-insured for healthcare coverage, it paid the cost of the lowest available coverage for all City employees. Employees were required to pay, through bi-weekly payroll deductions, for a higher level of care, if desired, or for coverage of a spouse and/or dependents. Retirees and employees of HSTRC and Tower Grove Park had to contribute a monthly amount to cover the cost of their healthcare if participating in the plan. During the self-insured period, all funding levels were actuarially determined at the start of the plan and reevaluated at the beginning of each fiscal year.

For healthcare coverage, the estimated liability for payment of incurred but unpaid claims and claim adjustment expenditures of $399 at June 30, 2008 relating to such matters is recorded in the self-insurance internal service fund—health.

Additionally, as of June 30, 2008, the following claims were recorded/accrued within the noted funds because the claims are not accounted for within the PFPC internal service fund; Airport in the amount of $1,070; General fund in the amount of $263; and special revenue use tax fund in the amount of $548.

(dollars in thousands)

The City maintains a blanket surety bond covering all City employees through PFPC. In addition, the City purchases commercial insurance for property damage for large City buildings and some contents. Damage and liability coverage is applicable to the Airport. There were no significant changes in coverage for the year ended June 30, 2008 and, for the years ended June 30, 2008, 2007, and 2006 settlements did not exceed coverage.

Changes in the self-insurance claims liability for the years ended June 30, 2008 and 2007 are as follows:

		Beginning Balance	Current Year Claims and Changes in Estimates	Claim Payments	Ending Balance
2008	$	16,344	14,106	(13,601)	16,849
2007		17,019	12,942	(13,617)	16,344

Additionally, there is an estimate of general liability claims outstanding of $7,641 to $7,791, which the City Counselor's office has determined there is a reasonable possibility that a loss contingency may be incurred but no accrual has been made within the government-wide financial statements or fund financial statements because the loss is not both probable and estimate able.

b. Component Unit—SLPD

SLPD is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. A number of legal suits against SLPD are presently pending for alleged wrongful personal injuries, civil rights violations, and negligence in the line of duty.

During fiscal year 2005, the Court of Appeals for the State of Missouri affirmed that under Missouri State Statutes, Chapter 84, the SLPD is an agency of the state. As an agency of the state, the SLPD was covered by the State of Missouri's legal expense fund for most general liability and various other claims and legal actions occurring prior to August 28, 2005. On August 28, 2005, Missouri legislations became effective modifying the coverage provided to the SLPD by the State of Missouri for general liability and various other claims and legal actions. State of Missouri Bill No. 420 provides that the State of Missouri is liable annually for funding general liability claims on an equal share basis per claim with the Public Facilities Protection Corporation (PFPC), an internal service fund of the City of St. Louis, up to a maximum of $1,000. The SLPD is covered by PFPC for most self-insured risks, including general liability and various other claims and legal actions, exceeding the limitations set forth by the enacted legislation. Accounting for and funding of these self-insured risks is generally covered by the City. At June 30, 2008, claims payable of $1,500, represents the amount attributable to a lawsuit with a probable adverse outcome potential that is not covered by the City. Additionally, at June 30, 2008, $1,625 of claims with a reasonable possibility of adverse outcome were not covered by the City. No amounts have been accrued within the accompanying financial statements for these claims.

(dollars in thousands)

SLPD has established a risk management program and retains the risk related to workers' compensation. At June 30, 2008, these liabilities amounted to $17,643 for workers' compensation. Of SLPD's total worker's compensation liability, $10,133 has been accrued for benefits to be paid for long-term medical care for an officer seriously injured in the line of duty. Benefit payments for this case amounted to approximately $416 for the year ended June 30, 2008.

In prior years, the SLPD accrued the estimated cost of long-term care for a second officer that had been injured in the line of duty. As a result of the death of this officer, the SLPD has recorded a worker's compensation recovery in the amount of $21,996. This has been reflected within incurred claims and changes in estimates in the table below for the year ended June 30, 2008 and as an extraordinary item within the financial statements. Benefit payments for this case amounted to approximately $925 for the year ended June 30, 2008.

Changes in the balances of claims payable and workers' compensation claims liabilities during fiscal years ended June 30, 2008 and 2007 were as follows:

		Beginning of year	Incurred claims and changes in estimates	Claim payments	End of year
Claims payable:					
2008	$	—	1,500	—	1,500
2007		—	—	—	—
Worker's compensation claims:					
2008	$	40,357	(17,710)	(5,004)	17,643
2007		40,786	3,918	(4,347)	40,357

The SLPD obtains periodic funding valuations from a third-party administrator who manages workers' compensation claims to maintain the appropriate level of estimated claims liability. The SLPD also purchases excess liability coverage for workers' compensation claims.

26. GRANT LOAN PROGRAMS

The City's general fund and grants fund include the activities of the CDA that, among other activities, makes loans to developers under the Housing Implementation Program. This program, which is administered for the City by certain financial institutions, provides funds to rehabilitate housing units for low- and moderate-income families. These loans typically are noninterest bearing, due in 25 years, and secured by a second deed of trust. CDA also made loans under the Urban Development Action Grant (UDAG) program to assist organizations with development projects within the City. These loans typically have a lower-than-market interest rate and payback periods ranging from 10 to 40 years after completion of the projects.

Any funds received from the repayments of these loans are to be spent by the City in accordance with Community Development Block Grant program regulations. Since repayment of the loans is dependent on the success of projects that involve considerable risk, collectibility is not assured, and accordingly, the City reflects these loans as an expenditure of the grants fund in the year the loans are made. Any loan repayments are reflected as intergovernmental revenue (or deferred revenue if moneys have not been spent) in the year of receipt.

27. COMPONENT UNIT—SLDC CONDUIT DEBT

SLDC facilitates the issuance of tax-exempt bonds for various private enterprises and government agencies. After the bonds are sold, the proceeds are typically used to purchase real estate or fund capital improvements for the respective organization. These organizations enter into lease agreements with SLDC that are, in substance, sales of the related properties or improvements. SLDC assigns these leases to various trusts that collect the lease payments to satisfy the debt service requirements. After SLDC assigns the leases to the trusts, the properties are no longer under their control and they have no liability for the bonds. Therefore, transactions related to the leases and the bond liability are not presented in SLDC's financial statements. The amount of tax-exempt bonds outstanding at June 30, 2008 could not be determined; however, the original issue amounts totaled approximately $2 billion (in dollars).

28. TRANSPORTATION DEVELOPMENT DISTRICT

In August 2003, the City and a hotel developer entered into an agreement for the creation of a transportation development district (TDD). The TDD is a separate political subdivision of the State. Its boundaries coincide with the property upon which the hotel developer is constructing a new 206-room hotel and 415-car garage. During 2005, the TDD issued $6,350 in TDD obligations to finance this construction. The TDD has the authority to levy a 1% sales tax within the district in order to repay this debt, which the City collects on behalf of the TDD and remits to the TDD. Since the TDD obligations were issued in the name of the TDD, and the 1% sales tax that will finance these obligations is levied under the authority of the TDD, these TDD obligations are not recorded as a liability within the accompanying financial statements. Additionally, the City has agreed to pledge 75% of the City tax revenues generated within the district to the TDD in exchange for the TDD's pledge to leave at least 200 of the spaces in the parking garage available for public use.

On October 13, 2006, the City and the Southtown TDD entered into an Intergovernmental Cooperation Agreement in which the district has pledged an annual appropriation of the TDD Revenue to pay debt service on the portion of the TIF bonds related to the transportation projects. TDD revenues cannot exceed 13.7295% of the debt service requirements.

On April 5, 2007, the City and the Highlands TDD entered into an Intergovernmental Cooperation Access and Parking Agreement in which the district has pledged an annual appropriation of the TDD Revenues to pay TDD notes. A TDD Revenue Note Series 2007B was issued in the amount of $605 at an interest rate of 6%. Since the TDD obligations were issued in the name of the TDD, and the 1% sales tax which will finance these obligations is levied under the authority of the TDD, these TDD obligations are not recorded as a liability within the accompanying financial statements.

(dollars in thousands)

29. COMPONENT UNIT - FOREST PARK FOREVER, INC. (FPF)

FPF is a not-for-profit organization organized under the laws of Missouri in 1986 that works in partnership with the City whose mission and principle activities are to promote the rebuilding and continual maintenance of Forest Park through wide-based financial and citizen support in order that Forest Park retain its preeminence as a major metropolitan and regional asset of greater St. Louis. During FPF's fiscal year ended December 31, 2007, FPF incurred $3,880 for park projects and $1,442 for park maintenance.

a. Investments

Investments in equity securities having a readily determinable fair value and in all debt securities are carried at fair value. Other investments are valued at the lower of cost (or fair value at time of donation, if acquired by contribution) or fair value.

Investments at December 31, 2007 consisted of the following:

Certificates of Deposit	$	1,099
Federal Agency Bonds		7,250
Mutual Funds		4,025
Commons Stocks		7,073
Money Funds		2,865
Equity Method Investment		399
	$	22,711

b. Restricted Net Assets

At December 31, 2007, restricted expendable net assets (temporarily restricted) were available for park projects in the amount of $1,160 and operations in the amount of $1,344. Restricted non-expendable net assets (permanently restricted) are restricted to investment in perpetuity, the income of which is expendable to support maintenance of Forest Park.

c. Fundraising Agreement

FPF entered into an agreement with the City on September 9, 1997. Prior to this agreement, the City's Community Development Commission adopted a "Master Plan for Forest Park" which guides development in Forest Park to the year 2010 at which time it shall be reviewed by the City. The Master Plan calls for multiple projects comprising repairs of infrastructure, new construction, and landscaping in Forest Park with an estimated aggregate cost of approximately $92,000. FPF endeavored to raise $48,000 for use in the implementation of the Master Plan, and its Board of Directors raised those funds. As of December 31, 2007 approximately $48,760 has been raised.

d. Maintenance and Trust Agreements

In March 2007, FPF entered into a Trust Agreement (FPF Trust Agreement) and Maintenance Cooperation Agreement (Maintenance Agreement) with the City. FPF and the City entered into such agreements with the intent of establishing a long-term funding mechanism for the maintenance of Forest Park. The City was authorized by Ordinance to enter into these agreements. The agreements became effective in 2007 and extend for a term of 50 years, unless terminated earlier under the provisions of the agreement.

Under the terms of the FPF Trust Agreement, FPF agreed to make donations to the Trustee established under the Trust Agreement of $1,800 annually (FPF donation), payable in equal installments on January 1, and July 1 of each year, beginning July 1, 2007, solely to pay for the costs of maintaining Forest Park, as defined and described in the Maintenance Agreement. For the year ended December 31, 2007, FPF made donations to the Trustee of $900 as required under the agreement. As of December 31, 2007, $313 remained on deposit with the Trustee solely to pay for the costs of maintaining Forest Park. As a condition of the Maintenance Agreement, FPF purchased $150 of lawn equipment during 2007 with was donated to the City for use solely in the Park.

Pursuant to Ordinance, the City also executed a Maintenance Trust Agreement with Barnes Jewish Hospital (BJH Trust Agreement) to establish a long-term funding mechanism for Forest Park' maintenance and operations. Under the BJH Trust Agreement, BJH will make donations in trust to a Trustee for the benefit of Forest Park to be used for the operation and maintenance of Forest Park (BJH Donation) and not for new construction. The total amount initially payable annually by BJH under the BJH Trust Agreement is $2,000.

Under the terms of the Trust Agreements, a Trustee was designated and an irrevocable trust fund established (FPF Park Maintenance Fund). A Steering Committee comprised of representatives of both the City and FPF annually prepares a budget of costs of maintaining Forest Park based on the City's fiscal year beginning July 1. The total budget shall not exceed the amount of annual BJH donations plus the amount of FPF donations under the respective Trust Agreements.

30. FUTURE ACCOUNTING PRONOUNCEMENTS

In November 2006, the GASB issued Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* (GASB Statement No. 49). This statement addresses accounting and financial reporting standards for pollution (including contaminations) remediation obligations, which are obligations to address the current or potential detrimental effects of existing pollution by participating in pollution remediation activities such as site assessments and cleanups. GASB Statement No. 49 is effective for the City for the year ending June 30, 2009, as applicable.

In June 2007, the GASB issued Statement No. 51, *Accounting and Financial Reporting for Intangible Assets* (GASB Statement No. 51). This statement establishes accounting and financial reporting requirements for intangible assets, thereby enhancing the comparability of the accounting and financial reporting of such assets among state and local governments. GASB Statement No. 52 is effective for the City for the year ending June 30, 2010, as applicable.

In June 2008, GASB issued Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments* (GASB Statement No. 53). This statement is intended to improve how state and local governments report information about derivative instruments, financial arrangements used by governments to manage specific risks or make investments, in their financial statements. The statement specifically requires governments to measure most derivative instruments at fair value in their financial statements. The guidance in this statement also addresses hedge accounting requirements and is effective for the City for the year ending June 30, 2011, as applicable.

The City has not completed its assessment of the impact of the adoption of these statements.

31. SUBSEQUENT EVENTS

a. Tax and Revenue Anticipation Notes

The City issues tax and revenue anticipation notes in advance of property tax collections, depositing the proceeds in its general fund. In July 2008, the City issued $50,000 in Tax and Revenue Anticipation Notes payable from the general fund. The notes mature on June 30, 2009 and bear interest at a rate of 3.25% per year.

b. Issuance of the Lease Certificates of Participation Series 2008

On September 9, 2008, the SLMFC issued Lease Certificates of Participation Series 2008 in the amount of $9,100. The Series 2007 Certificates were used to refund the LCRA's Kiel Site Lease Revenue Refunding Bonds, Series 1997A and Series 1997B. The Series 2008 Certificates are due in installments through July 2021 and bear an interest rate ranging from 2.15% to 4.55%.

c. Tax Increment Revenue Notes

Subsequent to June 30, 2008, the City issued tax increment revenue notes totaling $16,173 with interest rates ranging from 5.0% to 8.5%.

d. Convention Center Capital Improvement Projects Leasehold Revenue Bonds, Series 2008

On November 25, 2008, the SLMFC issued the Convention Center Capital Improvement Projects Leasehold Revenue Bonds Series 2008 in the amount of $21,850. The proceeds of the Series 2008 Bonds were issued to fund certain capital improvements to the City of St. Louis Convention Center Property. The Series 2008 bonds principal payments commence fiscal year 2002 and bear an interest rate of 5.0% to 5.625%.

e. Airport Commercial Paper

On July 2, 2008, the Airport issued $1,000 in Series 2004A Commercial Paper Notes, due September 4, 2008, at an annual interest rate of 1.65% for the purpose of financing the cost of extension, improvement, purchase, acquisition, construction or enlargement of facilities, appurtenances and equipment at the Airport.

On September 4, 2008, the Airport issued $1,000 in Series 2004A Commercial Paper Notes, due November 6, 2008, at an annual interest rate of 1.78% for the purpose of financing the cost of extension, improvement, purchase, acquisition, construction or enlargement of facilities, appurtenances and equipment at the Airport.

On November 6, 2008, the Airport issued $1,000 in Series 2004A Commercial Paper Notes, due January 14, 2009, at an annual interest rate of 1.30% for the purpose of financing the cost of extension, improvement, purchase, acquisition, construction or enlargement of facilities, appurtenances and equipment at the Airport.

f. Market Conditions

For the period from June 30, 2008 through the date of this report, overall credit market conditions have deteriorated and impacted financial markets. Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the City which could impact the value of the investments after the date of these financial statements. Despite the market dislocation the City believes its investments are prudent. The average life of its operating funds is less than one year. The City does not expect a need to liquidate a material amount of those investments prior to their maturity in order to maintain sufficient liquidity. As a result, the City anticipates that maturity of those investments in the ordinary course will provide sufficient liquidity to maintain operations without reliance on the credit markets for liquidity. The City Treasurer, his staff and its investment advisors are monitoring the situation closely to determine appropriate ongoing investment strategies and actions.

Notes to Schedule of Revenues, Expenditures, and Changes in Fund Balances
Budget and Actual—General Fund – UNAUDITED
For the Year ended June 30, 2008
(Dollars in thousands)

---

1. EXPLANATION OF BUDGETARY PROCESS

The City prepares annual budgets for the general fund, the debt service fund, the capital projects fund, and the following nonmajor special revenue funds: use tax fund, transportation fund, convention and tourism fund, licensed gaming program fund, assessor's office fund, lateral sewer program fund, tax increment financing fund, communications division fund, public safety fund, parks and recreation and other budgeted special revenue fund. An annual budget is not prepared for the grants major special revenue fund.

The City follows the procedures outlined below in establishing the budgetary data:

1) On or before 60 days prior to the start of each fiscal year, the Budget Director submits to the Board of Estimate and Apportionment (E&A), which consists of the Mayor, the Comptroller, and the President of the Board of Aldermen, for approval and submission to the Board of Aldermen (Board), a proposed annual operating budget for the fiscal year commencing the following July 1. The operating budgets include proposed expenditures and the means of financing them at the sub-fund level. A public hearing is held by E&A in order to afford citizens an opportunity to be heard on the proposed budget. The Board may reduce any item, except amounts fixed by state statute or for the payment of principal or interest of the City debt or for meeting any ordinance obligations, but may not increase such amount nor insert new items. Expenditures may not legally exceed appropriations at the fund level; however, supplemental appropriations may be made by the Board.

2) The annual operating budgets are adopted by the affirmative vote of a majority of the members of the Board and approval by the Mayor on or before the last day of the preceding budget year. In the event the Board has not acted upon the proposed budget ordinance by this time, the budgets, as recommended by E&A or in its absence, the submission by the Budget Director, shall be considered to be adopted and approved by the Board.

3) During the year, management with the approval of E&A, may transfer part or all of any encumbered appropriation balance among programs within a department, office, or agency, without approval of the governing body. Legislative action is required when the budget for an entire fund is to be increased. The amount of such transfers during the year was not significant.

4) If it is determined that there are revenues in excess of those estimated in the budget that are available for appropriation, the Board may, by ordinance, make supplemental appropriations for the year up to the amount of such excess.

5) At the end of each budget period, all unencumbered appropriated balances lapse, with the exception of appropriations for capital improvements that lapse upon completion of the related capital improvement project.

(Dollars in thousands)

2. EXPLANATION OF THE DIFFERENCES BETWEEN THE EXCESS/(DEFICIENCY) OF REVENUES AND OTHER FINANCING SOURCES OVER EXPENDITURES AND OTHER FINANCING USES—BUDGET BASIS AND NET CHANGE IN FUND BALANCE—GAAP BASIS

The City's budgetary process is based upon accounting for certain transactions on a basis other than accounting principles generally accepted for governmental entities in the United States of America (GAAP). To provide a meaningful comparison of actual results with the budget, the actual results of operations are presented in the Schedule of Revenues, Expenditures, and Changes in Fund Balances—Budget and Actual—General Fund in accordance with the budget basis of accounting.

The major differences between the budget and GAAP bases of accounting are:

1) Revenues are recorded when received in cash (budget), as opposed to when they are measurable and available (GAAP).

2) Expenditures are recorded when paid (budget), as opposed to when the obligation is incurred (GAAP).

3) Certain activities and funds of the general, special revenue, and capital projects fund types are not included in the annual operating budgets adopted by the Board.

Adjustments necessary to reconcile the excess (deficiency) of revenues and other financing sources over expenditures and other financing uses from the GAAP basis to the budget basis of accounting are as follows:

Budget basis	$	(2,423)
Increase (decrease) due to:		
Revenue accruals		2,054
Expenditure accruals		(18,370)
Unbudgeted activities and funds		(1,118)
GAAP basis	$	(19,857)

See accompanying independent auditors' report.

THE COMMON SEAL OF
THE CITY OF ST. LOUIS.

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Use Tax – Used to record revenue received from the local use tax and expenditures made to promote health and welfare activities.

Transportation – Used to record sales tax revenue and expenditures for transportation purposes.

Convention and Tourism – Used to record revenue received from the one-cent restaurant tax, 3½% hotel tax, and football admission gross receipts and expenditures made to promote convention and tourism activities.

Licensed Gaming Program – Used to record revenue received from adjusted gross receipts and admissions taxes imposed on riverboat gaming excursion boats.

Assessor's Office – Used to account for financial assistance received from the State of Missouri, commissions received from the collection of property taxes, and expenditures made to operate the Assessor's office.

Lateral Sewer Program – Used to account for revenue received from charges on specific residential support within the boundaries of the City of St. Louis and expenditures made to repair lateral sewer service lines leading from the residential properties to any sewer main that is maintained by the Metropolitan St. Louis Sewer District.

Collector of Revenue – Used to account for operating receipts and disbursements of the Collector of Revenue's office.

Tax Increment Financing – Used to account for the revenues, expenditures, and other activities relating to the tax increment financing districts.

Transportation Development – Used to record the proceeds of the one-cent transportation sales tax collected on behalf of and remitted to the transportation development districts.

License Collector – Used to account for the operating receipts and disbursements of the License Collector's office.

Communications Division – Used to record revenue received from the cable television franchise tax and expenditures made to promote public services activities.

Demolition and Board-up – Used to record revenue received from the City's insurance recovery program relative to its building demolition activities.

Public Safety Fund – Used to account for revenues derived from an increase in the graduated business license to be used for enhanced public safety.

Public Safety Sales Tax – Used to account for revenues received from an increase of sales tax to be used for public safety.

Parks and Recreation – Used to account for revenues designated for parks and recreation.

Extraordinary Expenses – Used to account for expenses associated with storm damage or other extraordinary expenses.

Other Budgeted Special Revenue – Used to account for the activities of other less significant special revenue sources for which annual budgets are adopted.

Other Nonbudgeted Special Revenue – Used to account for the activities of other less significant special revenue sources for which annual budgets are not adopted.

Debt Service Fund

The debt service fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs.

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of a government, or to other governments, on a cost-reimbursement basis.

Public Facilities Protection Corporation – Used to account for payment of workers' compensation and various other claims against legal actions on behalf of other funds.

Mailroom Services – Used to account for mail handling services provided to other funds.

Health – Used to account for payment of prescription drug claims for participants.

Pension trust funds are used to account for the activity of the three public employee retirement systems for which the City acts as a trustee.

Firemen's System – A single employer public employee retirement system fund used to account for the accumulation of resources to be used for the pension and other benefit payments for City firefighters.

Police System – A single employer public employee retirement system fund used to account for the accumulation of resources to be used for pension and other benefit payments for City police officers.

Employees' System – A multi-employer public employee retirement system used to account for the accumulation of resources to be used for pension and other benefit payments for employees of the City (excluding firefighters and police officers) and other anticipating governmental agencies. City employees account for greater than 99% of total plan participants.

Agency funds are used to account for assets which the City holds on behalf of other entities. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

Collector of Revenue – Used to account for the receipt and disbursement of various taxes and other charges that are collected by the Collector of Revenue and remitted to various City funds and other governmental agencies that levy taxes on residents of the City and on corporations located within the City limits and the employees.

Property Tax Escrow – Used to account for property taxes paid under protest whose disposition is still pending and duplicate payments of property taxes which have not been claimed.

General Insurance – Used to control funds for payroll withholdings and other City deposits to be used for the payment of insurance premiums due from employees and the City.

Bail Bonds – Used to account for bail bonds deposited by court defendants. The bonds are held until court orders are issued to refund the bonds to the defendants or others.

License Collector – Used to account for the receipt and disbursement of municipal manufacturer's and hotel taxes that are collected by the License Collector and remitted to various City funds and other governmental agencies.

Circuit Clerk – Used to account for funds held in a fiduciary capacity by the Circuit Clerk's Office. These funds include various litigation fees, garnishments, and bail bonds, in addition to funds related to the parent locator program.

Other Agency – Used to account for contracts and other deposits, union dues, land auction sales, circuit attorney and probate court funds.

Solid Waste Management Development Corporation—
Discretely Presented Component Unit

Solid Waste Management Development Corporation (SWMDC) owns a system of underground pressurized steam transport pipe in the downtown area commonly known as the steam loop. The steam loop is leased on a long term basis to a steam generating private entity unrelated to the City.

Separate financial statements are not prepared for SWMDC. Accordingly, a statement of revenues, expenses, changes in net assets, and a statement of cash flows for SWMDC have been included within the City's comprehensive annual financial report.

City of St. Louis, Missouri
Statement of Revenues, Expenses, and Changes in Net Assets
Solid Waste Management Development Corporation (SWMDC)
Year ended June 30, 2008
(dollars in thousands)

OPERATING REVENUES	
Lease revenue	$ 348

Source: City of St. Louis Assessor's Office

NOTE:
Residential real property is assessed at 19% of estimated value, commercial at 32%, and agricultural at 12%; personal property and manufacturer's machinery, tools and equipment assessed at 33-1/3%.
A complete reassessment is made on personal property by the Assessor every year and every odd year for real property.

THE GATEWAY TRANSPORTATION CENTER

430 South 15th Street
St. Louis, MO 63103

For nearly twenty years, a multimodal station to connect Amtrak, Greyhound, MetroLink and MetroBus service has been an important concept in the overall design of St. Louis City's transportation systems, but until recently, it was only a concept. This vision has now become reality, thanks to the cooperation of a variety of wonderful partners.

Since the March 2006 groundbreaking, the City of St. Louis worked in partnership with Bi-State/Metro, the Missouri Department of Transportation, the Federal Highway Administration, Amtrak, and Greyhound to complete the new Gateway Transportation Center. Construction was managed by the City's Board of Public Service and built in three phases.

Jacobs Engineering and Kennedy Associates were the primary designers for this $27 million project. Development Programming Associates provided coordination and oversight. K & S Associates served as general contractor for the $14.2 million terminal and concourse linkage project. R.V. Wagner, Inc. was the general contractor for the $4.5 million track package. RQC Quality Constructors was the general contractor for the $2 million Bi-State/Metro bus facility. The total project cost also includes design and other pre-construction expenses. The MetroLinkportion of the complex was previously constructed as part of the original MetroLink alignment.

OMB Circular A-133 Single Audits
For The Year Ended
June 30, 2008

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

FINDING 99-13

Federal Program:	Human Immunodeficiency Virus (HIV) Cluster: HIV Emergency Relief Project Grants and HIV Emergency Relief Formula Grants
CFDA Nos.:	93.914 and 93.915
Federal Grantor:	U.S. Department of Health and Human Services – passed through the Missouri Department of Health
Compliance Requirement:	Matching, Level of Effort, and Earmarking
Contact Person:	Henrietta Brown, Fiscal Manager Department of Health & Hospitals
Contact Telephone:	(314)612-5048

Status as previously reported: **Not Corrected**. All service providers in the St. Louis Emergency Management Agency who receive Federal funds for HIV service delivery are required to report unduplicated cases each month as a part of the reporting and invoicing process to the St. Louis City Department of Health. Included in these reports are demographic statistics describing clients who have utilized services throughout the Emergency Management Agency. Demographics collected and reported include age, race/ethnicity, gender and DCN. In addition, health status is reported where feasible. The rate of expenditures for women, infants, children and youth (WICY) is reviewed quarterly for each service category and reported to the WICY advisory group of the HIV Health Services Planning Council. If it happens that some service categories are not serving sufficient numbers of WICY, epidemiological data, combined with data gathered from the Emergency Management Agency's Needs Assessment will be examined to determine if a barrier exists to accessing these services at the rate indicated by the epidemic data. If it is determined that access and utilization are indeed short of projections, the WICY advisory group, along with the Grantee, will examine programs and require program changes that will allow access to services by WICY. Historically, the expenditures for women, infants, children and youth as a percentage of total expenditures supported by Federal funds (Ryan White Title I) have exceeded the percentage of WICY living with AIDS in the St. Louis Emergency Management Agency.

The Grants Administrator tracks and provides a breakdown of predicted expenditures for WICY for each service category supported with funds

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

from Title I, followed by the percentage of the total dollar amount to be spent to the U.S. Department of Health and Hospitals.

Plan of Action: Appropriate internal control measures are in place for funding received from Ryan White Title I with respect to earmarking compliance. Other St. Louis City Department of Health Program Managers responsible for administering other grant funding relative to HIV are currently developing outcome-based measurements of program success. This will involve financial and programmatic monitoring of St. Louis City Department of Health subrecipients. Subrecipients will have to demonstrate that HIV service delivery meets contractual and programmatic goals before receiving payment from the St. Louis City Department of Health. Additionally, these subrecipient performance measures should incorporate an analysis of expenditures relative to the percentage of WICY living with AIDS in the St. Louis Emergency Management Agency.

Internal Audit Section Review November 2008
Corrected. DOH has implemented an effective system of internal controls to ensure compliance as it related to monitoring the administrative costs.

Status as previously reported: **Partially Corrected**. In January, 2003, St. Louis City Department of Human Services and the City's Comptroller Office Federal Grants Section signed a "Memorandum of Understanding" related to the "Annual Progress Report (APR) Process". With the implementation of the process defined in this agreement, the City has made significant strides in this area and hopes to ensure the continued compliance with the reporting compliance requirement.

Updated Status: **St. Louis City Department of Human Services Responses October 2007**
Three Program Specialist II's were hired in October 2006 to ensure that Annual Progress Reports (APRs) are received timely. Due to continuous

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

findings related to the APRs, all Program Specialists were given duties of Contract Compliance Officers. The primary responsibilities of the Contract Compliance Officers are to ensure internal control of contracts, timely submission of technical submissions and APRs and conduct site visits/monitoring. To date the restructuring of the duties in the Homeless Services Division has significantly improved the reporting of APRs.

Internal Audit Section Review November 2008
Not Corrected. DHS and FGS have implemented an agreement and internal procedures for processing the Annual Progress Reports (APRs). The agreement includes timelines for reporting the APRs for each agency and the U.S. Department of Housing and Urban Development (HUD). An APR schedule and APR tracking sheets were developed to ensure the 24 CFR, Section 583 deadlines are met for the Supportive Housing Program contracts. However, the system is not operating effectively. The review of the September 2008 APR schedule revealed that:

- Five (5) of the eighteen (18) APRs on the schedule were not sent to HUD within the required period of 90 days of contract end.
- Eleven (11) APRs were not submitted to FGS timely. The average number of days late was (27).
- The APR schedule was incomplete.
    - The dates in which APRs were sent to FGS for review and distribution were missing for six (6) contracts. FGS submitted one to HUD. Documentation for the remaining five (5) was not maintained in FGS.
    - The dates for which five (5) APR were submitted to FGS did not agree to the tracking sheets.

FINDING 02-05

Status as previously reported: **Not corrected**. In August, 2003, St. Louis City Department of Human Services and the City's Comptroller's Office Internal Audit Section signed an "Interdepartmental Agreement" which defines the city's responsibilities and procedures related to subrecipient monitoring from

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

a fiscal standpoint. This agreement is renewed on an annual basis and has been in effect since February 1, 2000. It is unclear from the "Condition Found" component of this finding which two (2) subrecipients were involved. The aforementioned agreement would normally preclude this finding from occurring.

The St. Louis City Department of Human Services Homeless Services Program Manager has initiated a standardized programmatic subrecipient monitoring system which was not completely in place during the audit period. The St. Louis City Department of Human Services Homeless Services Program Manager has developed written procedures that will define this programmatic subrecipient monitoring system.

All St. Louis City Department of Human Services Homeless contracts now identify the appropriate Catalog of Federal Domestic Assistance (CFDA) number.

With the continued implementation of the aforementioned fiscal monitoring agreement, the development of written programmatic monitoring procedures and the inclusion of CFDA numbers on St. Louis City Department of Human Services. Homeless contracts, the City hopes to ensure compliance with the subrecipient monitoring compliance requirement.

Copies of all of the aforementioned agreements are available for audit review at St. Louis City Department of Human Services and at the Federal Grants and Internal Audit Sections of the City's Comptroller's Office.

Internal Audit Section Review November 2008
Partially Corrected. IAS has performed risk assessment of all Department of Human Services' (DHS') subrecipients for FY 08 and FY 09. The risk assessment calculations were explained and documented on a Grants Risk Analysis Worksheet in August 2007 and August 2008. However, the risk assessment does not address programmatic risks relative to compliance requirements having a direct and material effect on the program, as well as risks unique to individual subrecipients

Status as previously reported: **Partially Corrected**. Written policies and procedures are in place to minimize the time elapsing between the transfer of funds from the Treasury and the time of disbursement. Due to turnover earlier in the year including the Grants Manager as referenced in our Action Plan (copy attached), implementation of written procedures has occurred at a slower pace than originally anticipated. However, regular monthly drawdowns/transfers have begun this fiscal year. Additionally, a new Grants Manager has been hired effective December 15, 2003, which will facilitate consistent implementation of developed policies and procedures and increase quality control. We address each specific action plan item below:

Internal Audit Section Review November 2008
Corrected. (Allowable Cost/Principles) -The Department of Health **(**DOH) has established an effective system of internal controls to ensure compliance for time and effort certifications required by OMB Circular 87.

The Internal Audit Section (IAS) reviewed a sample of A-87s on file for employees whose salaries were 100% grant funded, and noted that the A-87s were properly completed. There were also time reports on file for each pay period documenting how time was allocated among different programs as required.

Not Corrected. (**Cash Management) -** DOH stated that in December 2007 it began coordinating reconciliations efforts, on a monthly basis, with FGS for all grants to ensure that the draw downs are consistent with the city general ledger. IAS observed a reconciliation of FGS' August 19, 2008 draw down to DOH's ledger and expenses paid for the period of April thorough June 2008.

Compliance Requirement:	Matching, Level of Effort, and Earmarking
Contact Person:	Henrietta Brown, Fiscal Manager Department of Health & Hospitals
Contact Telephone:	(314)612-5048

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Status as previously reported: **Not Corrected**. DOH has implemented an effective system of internal controls to ensure compliance as it related to monitoring the administrative costs. We will be able to document that the City maintained its level of expenditures for HIV-related expenditures for HIV-related services to individuals with HIV disease at a level equal to the City's prior year funding level of such expenditures. These expenditures primarily consist of City funded salaries for individuals performing HIV-related services. It should also be noted that in the current year, the Fiscal Manager, Grants Manager and the Grants Administrator will be working to identify additional monies that the City contributes to AIDS related services through one of its community partners, Connect Care.

Also in this area, processes are in place whereby we can document the earmarking and expenditures of federal awards on infants, women and children with AIDS proportionately with the number of infants, women and children with AIDS compared to the total AIDS population within the relevant specified area. We address each specific action plan item below:

ACTION PLAN

Effective at various dates throughout the course of the Fiscal Year ended June 30, 2003 (unless otherwise indicated):

The Grants Administrator[1], located in the Grants Administration Section of the Communicable Disease, is responsible for identifying those coasts that should be classified as administrative versus quality management related. The nature of a given cost is determined by and marked on the invoice by Grants Administration. The Grants Administrator initials each invoice, indicating his approval, prior to it being routed to Fiscal.

Management Response:
Resolved. The Accountant II is then responsible for making sure that each invoice is paid out of the correct cost center indicated by the Grants Administrator.

Management Response:
Resolved. The Grants Manager reviews each voucher prepared by the Accountant II to ensure that the Accountant II has prepared the voucher with the correct dollar amount and the correct cost center. The Grants Manger initials and dates each voucher he reviews before it is forwarded

[1]Has an extensive background in Public Health in the area of HIV/AIDS services, including grant administration.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

to the Fiscal Manager Department of Health & Hospitals for final signature approval.

Management Response:
Resolved. It should be noted that due to the termination of the former Grants Manager employed at the time the Corrective Action Plan was prepared, St. Louis City Department of Health was without a Grants Manager for six months. Thus, the Fiscal Manger performed the above task. The new Grants Manager (hired 12/15/03) has been updated on the procedure and will assume this responsibility effective January 2004. In addition to the Grants Manager review and sign-off, the Fiscal Manager also reviews and initials the voucher before going to the Commissioner for final approval signature. Additionally, the Grants Manager reviews the batched vouchers before they are sent to the Comptroller's Office.

- If any expenditures are posted to the wrong cost center subsequent to the voucher being processed, the Accountant II should note, rectify, and document this during the reconciliation process discussed above.

Management Response:
Resolved. Separate cost centers are in place for both the Grant periods 3/1/02 through 2/28/03, and 3/1/2003 through 2/28/04, to track administrative expenses at the services level and quality management expenses.

Management Response:
Resolved. Additionally, a separate cost center is in place for case management services. Included in this cost center are administrative type expense line items. As with all other expenditures, the Grants Administrator determines on the invoices the account number under which an expense is to be paid.

Management Response:
Resolved. The Accountant II prepares the budget for each of these cost centers at the Grant Administrator's direction.

Management Response:
Resolved The Grants Manager, the Grants Administrator and the Accountant II all sign-off on the budget prior to it being forwarded to the Federal Grants Section of the Comptroller's Office, where it is keyed into the General Ledger system**.**

Management Response:
Resolved. The Accountant II, upon processing the vouchers for payment of expenditures, tracks the administrative expenditures in the Case Management cost center in conjunction with administrative costs posted to

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

the service level administrative cost center to make sure that in aggregate, total administrative type expenditures do not exceed the 10% cap.

Management Response:
Resolved. The Grants Manager reviews this spreadsheet in conjunction with the reconciliation to ensure Compliance with the Earmarking component of the OMB A-133 Circular. He signs and dates this spreadsheet indicating his verification of Compliance.

Management Response:
Resolved. It should be noted that due to the termination of the former Grants Manager employed at the time the Corrective Action Plan was prepared, St. Louis City Department of Health was without a Grants Manager for six months. Thus, the Fiscal Manger performed the above task. The new Grants Manager (hired 12/15/03) has been updated on the procedure and will assume this responsibility effective January 2004.

- The Grants Manager then provides the spreadsheet (along with the other reconciliation documents) to the Fiscal Manager for final approval.

Management Response:
Resolved. It should be noted that due to the termination of the former Grants Manager employed at the time the Corrective Action Plan was prepared, St. Louis City Department of Health was without a Grants Manager for six months. Thus, the Fiscal Manger performed the above task. The new Grants Manager (hired 12/15/03) has been updated on the procedure and will assume this responsibility effective January 2004.

- The Grants Manager and the Fiscal Manager are working with Facilities Management and the Comptroller's Office to document expenditures that will meet the Level of Effort requirement. We have requested from the Comptroller's Office information on operating costs of the building in which the Department of Health is located. The Grants Manager is also working on an allocation of appropriate salaries and other administrative costs that can be documented as City expenditures made toward HIV-related services. Consequently, we will be able to provide documentation for the grant period 3/1/2002 through 2/28/2003 and going forward into the future.

Management Response:
Resolved. It should also be noted that in the current year, the Fiscal Manager, Grants manager and the Grants Administrator will be working to identify additional monies that the City contributes to AIDS related services through one of its community partners, Connect Care.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

- The Fiscal Manager must review and provide final approval of any allocation determined relative to the Level of Effort Compliance.

Management Response:
Resolved. Starting in May of 2002, our new case management database, maintained by the Grants Administrator, allows for the calculation of actual cost of services at the individual level as well as in the aggregate for each service category. This varies from the previous collection methods that did not allow for the breakdown of unit cost per individual accessing services. This enables the Department of Health to verify that earmarked expenditures of federal funds for infants, women, and children with AIDS (WIYC) are spent in proportion to the AIDS population within the specified area.

Management Response:
Resolved. During the programmatic subrecipient monitoring performed by the Grants Administration area, documentation is reviewed to verify the infants, women, and children with AIDS data provided to the Department of Health by the subrecipient.

Management Response:
Resolved. The Grants Administrator documents the review of the supporting data in his programmatic subrecipient monitoring report, a copy of which is forwarded to Fiscal to keep with the grant file.

Management Response:
Unresolved. Programmatic reporting is not consistently being forwarded to Fiscal. The new Grants Manager and the Fiscal Manager will work with the Grants Administrator to develop a process whereby this happens consistently by February 15, 2004.

- The Grants Administrator is ultimately responsible for the verification of WIYC data collected.

Management Response:
Resolved.

Internal Audit Section Review November 2008
Corrected. DOH has implemented an effective system of internal controls to ensure compliance as it related to monitoring the administrative costs.

FINDING 05-01

Federal Program:	Community Development Block Grants/Entitlement Grants (CDBG)
CFDA No.:	14.218
Federal Grantor:	U.S. Department of Housing and Urban Development — Direct Program
Compliance Requirement:	Davis-Bacon Act
Contact Person:	Lorna Alexander, Fiscal Coordinator, St. Louis City St. Louis City CDA
Contact Number:	(314)622-3400, Ext.373

Status as previously reported: **Not Corrected**. The subcontractor that did not provide all required weekly-certified payrolls did provide certified payrolls for 34 of the 36 weeks worked. The subcontractor was contacted and instructed to provide the two missing payrolls, which may, we believe, be two weeks in which no work was performed. There is no indication that the subcontractor did not adhere to the prevailing determination based on the payrolls received prior to and after the missing payrolls. In the future, the St. Louis City Community Development Administration will work more closely with general contractors to ensure that all required certified payrolls are received from their subcontractors. The consequences of not submitting all required payrolls will include the withholding of St. Louis City Community Development Administration approval on final payment requests.

The CDBG funding for the construction project, in which the four subcontractors noted above did not have a prevailing wage rate clause in their contract, was awarded as a business development loan by one of St. Louis City Community Development Administration's operating agencies. St. Louis City Community Development Administration has since reviewed and revised its Davis-Bacon Act monitoring procedures with this agency so that CDBG funds will not be disbursed on any construction project without confirmation of the wage rate clauses in all contracts and subcontracts when required. Although the prevailing wage clauses were not included in these subcontracts, certified weekly payrolls, nevertheless, were received from all four subcontractors and their employees were paid at the prevailing wage rate.

Updated Status: **St. Louis City Community Development Administration Responses October 2007**

St. Louis City Community Development Administration considers this finding resolved. It had been St. Louis City Community Development Administration's practice to withhold final payment until all certified payrolls were received from general contractors and subcontractors. The St. Louis City Community Development Administration will now withhold payments to all contractors until a certified payroll for the time period worked is received and reviewed by the St. Louis City Community

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Development Administration's Davis-Bacon monitor.

Internal Audit Section Review November 2008
Corrected. The one subcontractor noted by KPMG provided copies of the certified payroll to CDA and for Internal Audit Section's (IAS') review. CDA contends that the contractor was not required to submit certified payrolls because the contractor was the owner/employee of the company. However, CDA has revised its procedures so that subrecipient's payroll documents first go through the CDA Davis-Bacon compliance monitor before they are forwarded to the fiscal section for processing reimbursement.

Questioned Costs:	$11,906, which represents subrecipient costs for one subrecipient that expended less than $500,000 in federal awards, for which no financial records were made available for the City to review.
Status as previously reported:	**Not Corrected.** The City has an established system of internal control to ensure compliance with subrecipient monitoring compliance requirements The Department of Human Services has an ongoing Memorandum of Understanding with the City' Internal Audit Section to conduct monitoring of subrecipients. The Department of Human Services via the City's Internal Audit Section has made numerous unsuccessful attempts to audit the financial records of Fortress Outreach. The Department of Human Services has subsequently stopped contracting with the agency. As of January 2006, Fortress Outreach filed for bankruptcy. The Department of Human Services is working with the City Counsel to recapture $35,000 from Fortress Outreach for funds awarded to the agency for property acquisition and rehabilitation. The hiring of the Contract Compliance Officer will allow the Homeless Services Division to strengthen its internal control of sub recipient monitoring.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Internal Audit Section Review November 2008
Partially Corrected. IAS has performed risk assessment of all Department of Human Services' (DHS') subrecipients for FY 08 and FY 09. The risk assessment calculations were explained and documented on a Grants Risk Analysis Worksheet in August 2007 and August 2008. However, the risk assessment does not address programmatic risks relative to compliance requirements having a direct and material effect on the program, as well as risks unique to individual subrecipients.

FINDING 05-04

Federal Program:	HOME Investment Partnerships Program (HOME)
CFDA No.:	14.239
Federal Grantor:	U.S. Department of Housing and Urban Development — Direct Program
Compliance Requirement:	Eligibility
Contact Person:	Jill Claybour, Acting Director, CDA
Contact Telephone:	(314)622-3400, Ext 373

Status: **Partially Corrected.** The City considers this finding resolved. The five units noted above were all part of one housing development project secured by one loan agreement and Note and Deed of Trust. During the time of the audit, this file was forwarded to the City of St. Louis City Counselor's office for collection. The loan agreement was considered in default due to the owner's failure to provide the required annual income verifications for his tenants. In response to the City Counselor's correspondence with this owner, the income verification information has since been received.

CDA Responses October 2007
The CDA considers this finding resolved. Along with the documents already maintained in the files, the Section 8 Fair Market Rent, the HOME rent and the rent charged, the CDA monitor now verifies by signature and date, that the rent charts have been reviewed and the rent being charged does not exceed the maximum rent allowed.

Internal Audit Section Review November 2008
Partially Corrected. CDA maintains it has always compared the high/low rents with the maximum rents allowed for the HOME program. CDA has implemented a form on which the HOME monitor now initials that high/low rents were verified and on the Home Rental Project Compliance Report, the monitor signs and dates that the rent charged is within the maximum amount allowed.

Status as previously reported: **Not Corrected.** The excess cash balances represent excess balances from a previous period during fiscal year 2005 the St Louis Agency on Training and Employment office staff completed reconciliation for that period where proper allocation of expenditures and distribution of cash did occur. Additionally, internal controls for cash management have been in place since June of 2005. The City of Saint Louis general ledger is reconciled monthly to the St. Louis Agency on Training and Employment in-house general ledger. The expenditures reported on the Contract Progress Report (CPR) and the subsequent draw down are based on the true expenditures reported on the City of Saint Louis general ledger. The expenses reported

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

on the CPR and the request of cash for the same is compared to ensure there are no discrepancies before the formal request for a draw down is submitted to the Missouri Department of Economic Development. All records are maintained in St. Louis Agency on Training and Employment office to support the monthly reconciliation, reporting of expenditures and draw down.

Updated Status: **St. Louis Agency on Training and Employment Responses October 2007**

Initial Response-The excess cash balances represent excess balances from a previous period. During fiscal year 2005 St. Louis Agency on Training and Employment office staff completed reconciliation for the period where proper allocation of expenditures and distribution of cash did occur. Additionally, internal controls for cash management have been in place since June 2005. The City of St. Louis General Ledger is reconciled monthly to the St. Louis Agency on Training and Employment in house general ledger. The expenses reported on the CPR and the request of cash for a draw down is submitted to the Missouri Department of Economic Development. All records are maintained at St. Louis Agency on Training and Employment to support monthly reconciliation, reporting of expenditures and draw downs. Current Response- With the final reconciliation it was agreed that the State of Missouri would allow St. Louis Agency on Training and Employment to reimburse them by not drawing down on current expenditures. This finding has been corrected.

Internal Audit Section Review November 2008

Not Corrected. DOH is working on an effective system of internal controls to ensure compliance as it related to monitoring the administrative costs.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Contact Telephone: (314)612-5048

Status as previously reported: **Not Corrected.** Once per year and no later than August 31 of each year a signed contract between the St. Louis City Department of Health and the Internal Audit section of the Comptrollers office is executed. The contract establishes an agreement for all sub recipients to be monitored in compliance with 24 CFR sections 570. The Internal Audit section of the Comptrollers office sends the fiscal manager of the Health Department a summary of each sub recipient's findings. In addition, the Internal Audit section retains a copy of all monitoring for at least 3 years. Any findings are immediately addressed and a corrective action plan is requested for each instance.

Internal Audit Section Review November 2008
Partially Corrected. The IAS over-hauled the subrecipient monitoring process during FY 2007. IAS now performs a risk based assessment of all subrecipients and the assessment is documented. However, the risk assessment does not address programmatic risks relative to the compliance requirements having a direct and material effect on the HIV program.

Compliance Requirement: Schedule of Expenditures of Federal Awards (SEFA)
Contact Person: Charles Schroeder
Contact Number: (314)589-6089

Status: **Internal Audit Section Review November 2008**
Partially Corrected. FGS has established a permanent line of communication between various city departments in an effort to reconcile the Schedule of Expenditures of Federal Awards (SEFA) to the general ledger. FGS has agreed to meet with city departments on a semi-annual basis. In addition, FGS has implemented the following procedures:

- Confirming the Catalog of Federal Domestic Assistance (CFDA) numbers listed in the SEFA by reconciling CFDA numbers to the CFDA report issued by the U. S. Office of Management and Budget and to current contracts.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

- Recording accruals based on a summary report generated by the Information Technology Services Agency. This report includes all invoices based on the prior fiscal year.
- Issuing letters to all city department managers to confirm receipt of non-cash expenditures.

The first draft of the June 30, 2008 SEFA was completed on December 23, 2008, and according to FGS, supporting documentation is maintained for any reconciling items that existed between the Comprehensive Annual Financial Report.

A copy of the draft was provided for review by IAS. IAS has scheduled a review of the SEFA.

Status:

St. Louis City Community Development Administration Response October 2007
St. Louis City Community Development Administration considers this finding resolved. The Legal Department personnel now complete daily timesheets. Also, the A-87 certifications not available upon initial request have been received. The St. Louis City Community Development Administration Monitoring Department now requests A-87 certifications from all funded City Departments who have employees being paid 100% from a federal award, no later than two weeks after the semi-annual certification end date. As of this date, St. Louis City Community Development Administration on file all required A-87 certifications for the periods ending December 31, 2006 and June 30, 2007.

Internal Audit Section Review November 2008
Corrected. There was only one legal services employee whose salary was 100% grant funded. The required A-87 forms were on file. For the remaining legal services employees, bi-weekly record time sheets were revised to show hours worked on Community Development Block Grants (CDBG) programs and hours allocated to other activities.

Status:

St. Louis City Community Development Administration Response October 2007
St. Louis City Community Development Administration considers this finding resolved. It had been St. Louis City Community Development Administration's practice to withhold final payment until all certified payrolls were received from general contractors and subcontractors. The St. Louis City Community Development Administration will now withhold payments to all contractors until a certified payroll for the time period worked is received and reviewed by the St. Louis City Community Development Administration Davis-Bacon monitor.

Internal Audit Section Review November 2008
Corrected. The one subcontractor noted by KPMG provided copies of the certified payroll to CDA and for Internal Audit Section's (IAS') review. CDA contends that the contractor was not required to submit certified payrolls because the contractor was the owner/employee of the company. However, CDA has revised its procedures so that subrecipient's payroll documents first go through the CDA Davis-Bacon compliance monitor before they are forwarded to the fiscal section for processing reimbursement.

St. Louis City Community Development Administration Response
St. Louis City Community Development Administration considers this finding resolved. All St. Louis City Community Development Administration subrecipients that expended funds in fiscal year ending June 30, 2007 received a fiscal monitoring of its records by the Internal Audit Section. In fiscal year 2008 the Internal Audit Section and St. Louis City Community Development Administration will review prior year

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

fiscal and programmatic monitoring reports as part of its risk assessment of subrecipients to determine which ones will receive a site review and those that will receive a desk review. Regarding imposing sanctions, whenever a fiscal monitoring report reveals findings of a moderate or serious nature, St. Louis City Community Development Administration will seek the advice of the Internal Audit Section as to the proper sanctions to be imposed and act accordingly.

Internal Audit Section Review November 2008
Not Corrected. CDA has agreements on file with IAS to perform fiscal monitoring for January through December of 2007 and 2008. A risk assessment was performed July 1, 2008 for fiscal year 2009. In addition:

- IAS observed the corrected CFDA number on the report for Section 108.
- The Grants Risk Analysis Worksheet documented how the risk assessment was calculated for each CDA subrecipient. However, the risk assessment does not address programmatic risks relative to compliance requirements having a direct and material effect on the programs, as well as risks unique to individual subrecipients.

Internal Audit Section Review November 2008
Not Corrected. DHS and FGS have implemented an agreement and internal procedures for processing the Annual Progress Reports (APRs). The agreement includes timelines for reporting the APRs for each agency and the U.S. Department of Housing and Urban Development (HUD). An APR schedule and APR tracking sheets were developed to ensure the 24 CFR, Section 583 deadlines are met for the Supportive Housing Program contracts. However, the system is not operating effectively. The review of the September 2008 APR schedule revealed that:

- Five (5) of the eighteen (18) APRs on the schedule were not sent to HUD within the required period of 90 days of contract end.
- Eleven (11) APRs were not submitted to FGS timely. The average number of days late was (27).
- The APR schedule was incomplete.
- The dates in which APRs were sent to FGS for review and distribution were missing for six (6) contracts. FGS submitted one to HUD. Documentation for the remaining five (5) was not maintained in FGS.
- The dates for which five (5) APR were submitted to FGS did not agree to the tracking sheets.

Status: **St. Louis City Community Development Administration Responses October 2007**
St. Louis City Community Development Administration considers this finding resolved. A system has been put into place to ensure that annual inspections are completed to comply with the time parameters outlined in the housing quality standards requirements. The Residential Development Construction Secretary contacts the property owners on the first of the month that the annual inspection is due to ensure ample time to schedule the on-site inspection. For inspections due at the end of the program year, November and December, the Construction Secretary contacts the property owners two months in advance to ensure completion of the on-site inspection by the program's year end.

Internal Audit Section Review November 2008
Corrected. The construction secretary uses an index card filing system to notify property owners that an inspection is due. The date the property was last inspected is noted on the index card. Two to three weeks before the current inspection is due, a letter is mailed to the property owner scheduling the inspection. The dates for inspection on the index cards are

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

compared to the spreadsheet of required inspections date, and date of actual inspection to ensure inspections are timely.

St. Louis City Department of Health Responses October 2007
1) St. Louis City Department of Health has implemented a policy and procedure whereby all required information in accordance with CFR Section 74.53 is retained for a minimum of 5 years. 2) All information and documentation including signed time sheets, is collected and stored located on site. 3) Records pertaining to 45 CFR Section 74.53 are randomly sampled twice per year by the St. Louis City Department of Health Fiscal Section to assure the procedures are being followed. 4) Internal Audit Section of the Comptroller's Office will conduct bi-annual reviews of payroll records and A-87 verifications. Any findings are reflected in the bi-annual internal audit report presented to the Fiscal Manager. 5) St. Louis City Department of Health has implemented a checklist to ensure coordination between Fiscal and the program area, relating to appropriate and timely payroll changes. 6) St. Louis City Department of Health has implemented monthly meeting with the program area to discuss the monthly expenditure report to ensure appropriate expenditures are occurring, including payroll.

Internal Audit Section Review November 2008
Corrected. The Department of Health **(**DOH) has established an effective system of internal controls to ensure compliance for time and effort certifications required by OMB Circular 87.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

The Internal Audit Section (IAS) reviewed a sample of A-87s on file for employees whose salaries were 100% grant funded, and noted that the A-87s were properly completed. There were also time reports on file for each pay period documenting how time was allocated among different programs as required.

Contact Telephone:	(314)612-5048

Status:

City of St. Louis Department of Health Responses October 2007
1) The Federal Grant Section of the Comptrollers Office has assumed the draw down responsibility for all HIV grants. 2) St. Louis City Department of Health provides the Federal Grants Section with monthly expenditure reconciliations for all grants. This control ensures that the draw downs are consistent with the City General Ledger. 3) St. Louis City Department of Health identifies and rectifies any instances of excess cash during the next drawdown.

Internal Audit Section Review November 2008
Not Corrected. DOH stated that in December 2007 it began coordinating reconciliations efforts, on a monthly basis, with FGS for all grants to ensure that the draw downs are consistent with the city general ledger. IAS observed a reconciliation of FGS' August 19, 2008 draw down to DOH's ledger and expenses paid for the period of April thorough June 2008.

Status:

St. Louis City Department of Health Responses October 2007
1) St. Louis City Department of Health and Internal Audit Section have entered into an interdepartmental agreement whereby Internal Audit Section will monitor 100% of the Ryan White Title I grants on an annual basis as required by 24CFR Section 570. 2) Internal Audit Section sends the Fiscal Manager of St. Louis City Department of Health a summary of each subrecipient's findings, requesting a response and corrective action plan for any findings within 30 days of Internal Audit Section report to St. Louis City Department of Health. 3) Internal Audit Section retains a copy of all monitoring documentation for at least three years. 4) Internal Audit Section will revise the fiscal monitoring program to document an incorporate all elements of risk and compliance requirements which might have a direct and material effect on HIV grants.

Internal Audit Section Review November 2008
Not Corrected. The IAS over-hauled the subrecipient monitoring process during FY 2007. IAS now performs a risk based assessment of all subrecipients and the assessment is documented.

However, the risk assessment does not address programmatic risks relative to the compliance requirements having a direct and material effect on the HIV program.

The City of St. Louis Department Services will establish an effective system of internal control to ensure compliance with the procurement and suspension and debarment compliance requirement. We will establish process and controls relative to ensuring that sub-awards to subrecipients under the Supportive Housing Program are in accordance with 2 CFR Part 180

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Internal Audit Section Review November 2008
Not Corrected. The Homeless Services Program Manager is in the process of developing procurement, suspension and debarment procedures using the EPLS, and is working with DHS' fiscal section to have procedures implemented soon.

FINDING 2007-25

Federal Program Title:	Supportive Housing Program
CFDA No.**:**	14.235
Federal Grantor:	U.S. Department of Housing and Urban Development – Direct Program
Compliance Requirement:	Reporting
Contact Person:	Antoinette Triplett, Division Manager, Homeless Services
Contract Telephone:	(314)612-5922

Status: The City of St. Louis Department of Human Services will establish an effective system of internal control to ensure compliance with the reporting compliance requirement. The Homeless Services Division will hold it recipients responsible for preparing the annual progress reports in accordance with 24 CFR Section 583. During this reporting period, the Homeless Services Division has made tremendous progress in complying with CFR Section 583. consistent turnover on key positions within the Division is an ongoing concern.

Internal Audit Section Review November 2008
Not Corrected. DHS and FGS has implemented an agreement and internal procedures for processing the Annual Progress Reports (APRs). The agreement includes timelines for reporting the APRs for each agency and the U.S. Department of Housing and Urban Development (HUD). An APR schedule and APR tracking sheets were developed to ensure the 24 CFR, Section 583 deadlines are met for the Supportive Housing Program contracts. However, the system is not operating effectively. The review of the September 2008 APR schedule revealed that:

- Five (5) of the eighteen (18) APRs on the schedule were not sent to HUD within the required period of 90 days of contract end.
- Eleven (11) APRs were not submitted to FGS timely. The average number of days late was (27).
- The APR schedule was incomplete.
- The dates in which APRs were sent to FGS for review and distribution were missing for six (6) contracts. FGS submitted one

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

to HUD. Documentation for the remaining five (5) was not maintained in FGS.

- The dates for which five (5) APR were submitted to FGS did not agree to the tracking sheets.

Status:

Community Development Agency's Response October 2008
CDA implemented procedures to ensure that annual inspections are completed to comply with the time parameters outlined in the housing quality standards requirements. The Residential Development Construction Secretary contracts the property owners on the first of the month that the annual inspection is due to ensure ample time to schedule the on-site inspection. For inspections due at the end of the program year, November and December, the Construction Secretary contracts the property owners two months in advance to ensure completion of the on-site inspection by the program's year end.

Internal Audit Section Review November 2008
Corrected. The Construction Secretary uses an index card filing system to notify property owners that an inspection is due. The date the property was last inspected is noted on the index card. Two to three weeks before the current inspection is due, a letter is mailed to the property owner scheduling the inspection. The dates for inspection on the index cards are compared to the spreadsheet of required inspections date, and date of actual inspection to ensure inspections are timely.

Saint Louis Agency on Training and Employment Responses September 2008
Because of timing issues SLATE does have excess cash on hand at various times of the year. Occasionally this also occurs when accruals are paid and if an extension of a contract is necessary in order to pay the accrual. We are working with DWD and subcontractors in an effort to minimize this. We have implemented reconciliation with additional detail when timing is the reason for this. We have also implemented stricter rules for sub-contractors regarding accruals and deadlines for final reimbursements.

Internal Audit Section Review November 2008
Not Corrected. SLATE has excess cash on hand at various times of the year due to timing issues. This occurs when the state re-allocates pools of money after accruals are paid.

However, SLATE has implemented procedures to reduce excess cash by requiring weekly draw downs which are reconciled to reimbursement requests and monthly to funds received from the Division of Workforce Development as recommended.

FINDING 2007-40

Federal Program:	Temporary Assistance for Needy Families (TANF) Program
CFDA No:	93.558
Federal Grantor	U.S. Department of Health and Human Services – passed through the Missouri Department of Economic Development - Division of Workforce Development
Compliance Requirement:	Cash Management
Contact Person:	Michael Holmes, Executive Director, S.L.A.T.E.
Contact Telephone:	(314)589-8000

Status:

Saint Louis Agency on Training and Employment Responses September 2008
This is the same finding for the TANF program as for the WIA program (finding 2007-37). Because of timing issues, SLATE does have excess cash on hand at various times of the year. Occasionally this also occurs when accruals are paid and if an extension of a contract is necessary in order to pay the accrual. We are working with DWD and subcontractors in an effort to minimize this. We have implemented reconciliation with additional detail when timing is the reason for this. We have also implemented stricter rules for sub-contractors regarding accruals and deadlines for final reimbursements.

Internal Audit Section Review November 2008
Corrected. SLATE has excess cash on hand at various times of the year due to timing issues. This occurs when the state re-allocates pools of money after accruals are paid.
However, SLATE has implemented procedures to reduce excess cash by requiring weekly draw downs which are reconciled to reimbursement requests and monthly to funds received from the Division of Workforce Development as recommended.

Contact Telephone:	(314)589-8000

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Status: **Saint Louis Agency on Training and Employment Responses September 2008**

This is the same finding for the TANF program as for the WIA program (finding 2007-38). SLATE and the Comptroller's office are now working together to compile the SEFA. Supporting documentation is maintained for any reconciling items that exist between the CPR, general ledger and the SEFA.

Internal Audit Section Review November 2008

Partially Corrected. FGS has agreed to meet with SLATE on a semi-annual basis to reconcile grants for these programs to the SEFA. The first meeting for the fiscal year 2009 was scheduled for January 2009.

Supporting documentation is maintained by SLATE for any reconciling items that exist between the Contract Progress Report (CPR), general ledger and the SEFA. However, SLATE did not submit a copy of the June 30, 2008 CPR to FGS for review of the reconciliation.

The first draft of the June 30, 2008 SEFA was completed on December 23, 2008, and according to FGS, supporting documentation is maintained for any reconciling items that exist between the general ledger and the SEFA. A copy of the draft was provided for review by IAS. IAS has scheduled a review of the SEFA control procedures for the current fiscal year.

Federal Program:	Temporary Assistance for Needy Families (TANF) Program
CFDA No.:	93.558
Federal Grantor:	U.S. Department of Health and Human Services – passed through the Missouri Department of Economic Development - Division of Workforce Development
Compliance Requirement	Subrecipient Monitoring
Contact Person:	Michael Holmes, Executive Director, S.L.A.T.E. Director
Contact Telephone:	(314)589-8000

Status: **Saint Louis Agency on Training and Employment Responses September 2008**

This is the same finding for the TANF program as for the WIA program (finding 2007-39). SLATE and the Internal Audit Section of the Comptroller's office are now working together to complete the reports, including the risk factors.

Internal Audit Section Review November 2008

Not Corrected. The agreement between SLATE and IAS to perform fiscal monitoring is in the process of being updated to include budget amounts for staff salaries, and training.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

A risk assessment was performed for FY 2009 SLATE subrecipients in September 2008.

However, the risk assessment does not address programmatic risks relative to compliance requirements having a direct and material effect on the Workforce Investment Act program, as well as risks unique to individual subrecipients.

Contact Person:	Henrietta Brown, Fiscal Manager Department of Health & Hospitals
Contact Telephone:	(314)612-5048

Status:

St. Louis City Department of Health Responses October 2007
In May 2007, the St. Louis Department of Health established an effective system of internal controls to ensure compliance with the alloable cost/principles compliance requirement for time and effect certifications, speicically as it relates to personal activity reports required by OMB Circular A-87. In addition, all employees who work solely on a program are required to certify that they have worked entirely on activities and objectives of said sole program by completing the appropriate sem-annual time and effort certification form.

DOH has revised the maintenance of effort calculation for indirect costs to match the grant year March 1, 2006 through February 28, 2007. In addition:

- An adjustment was made to adequately reflect the percentage of salaries of the three management employees' time and effort worked on the program.
- Beginning with the Health Resources and Services Administration's fiscal year, March 1, 2008 through February 28, 2009, DOH has implemented an effective system of internal controls to ensure compliance as it related to monitoring the administrative costs incurred by subcontractors.

Internal Audit Section Review November 2008
Partially Corrected. The Department of Health **(**DOH) has established an effective system of internal controls to ensure compliance for time and

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

effort certifications required by OMB Circular 87.

The Internal Audit Section (IAS) reviewed a sample of A-87s on file for employees whose salaries were 100% grant funded, and noted that the A-87s were properly completed. There were also time reports on file for each pay period documenting how time was allocated among different programs as required.

Status:

St. Louis City Department of Health Responses October 2007
The Federal Grants Section of the Comptroller's Office assumed the draw down responsibility for the HIV grant. In December 2007, the St. Louis Department of Health began coordinating reconciliation efforts with the FGS, on a monthly basis, for all grants to ensure that the draw downs are consistent with the City General Ledger. The St. Louis Department of Health reviews and verifies the accuracy of all transactions.

Internal Audit Section Review November 2008
Corrected. DOH stated that in December 2007 it began coordinating reconciliations efforts, on a monthly basis, with FGS for all grants to ensure that the draw downs are consistent with the city general ledger. IAS observed a reconciliation of FGS' August 19, 2008 draw down to DOH's ledger and expenses paid for the period of April thorough June 2008.

Contact Telephone:	(314)612-5048

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

Status: **St. Louis City Department of Health Responses October 2007**

In January 2008, the DOH revised the maintenance of effort calculation for indirect costs to match the grant year March 1, 2006 through February 28, 2007 as opposed to the City of St. Louis fiscal year 2006 (July 1, 2005 through June 30, 2006). In addition, an adjustment was made to adequately reflect the percentage of salaries of the three management employees' time and efforts work on the program. DOH has implemented a system of internal controls to ensure compliance with the matching, level, and earmarking compliance.

Internal Audit Section Review November 2008

Corrected. DOH has revised the maintenance of effort calculation for indirect costs to match the grant year March 1, 2006 through February 28, 2007. In addition:

- An adjustment was made to adequately reflect the percentage of salaries of the three management employees' time and effort worked on the program.

The FGS of the Comptroller's Office assumed the responsibility for the quarterly Federal Cash Transaction Reports for the HIV grant. DOH will coordinate reconciliation efforts with the FGS, on a monthly basis, for all grants to ensure that the quarterly reports are consistent with the City General Ledger.

Internal Audit Section Review November 2008

Not Corrected. FGS assumed responsibility for quarterly Federal Cash Transaction Reports for the HIV grant. DOH has agreed to coordinate

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

reconciliation efforts with FGS, on a monthly basis, for all grants to ensure that the quarterly reports are consistent with the city general ledger. However, IAS saw no evidence that the June 2008 Federal Cash Transaction Report was reconciled to the DOH's ledgers.

FINDING 2007-47

Federal Program:	Human Immunodeficiency Virus (HIV) Emergency Relief Project Grants
CFDA No.:	93.914
Federal Grantor**:**	U.S. Department of Health and Human Services – Direct Program
Compliance Requirement	Subrecipient Monitoring
Contact Person:	Henrietta Brown, Fiscal Manager Department of Health & Hospitals
Contact Telephone:	(314)612-5048

Status: **St. Louis City Department of Health Responses October 2007**
The City over-hauled the entire subrecipient monitoring process during FY07. Internal Audit now performs a risk assessment of subrecipients. Based on this assessment, Internal Audit performs a site visit, a desk visit or a phone review on the score derived from the assessment. The audit program has been revised to cover the applicable compliance which are deemed to have a direct and material effect on subrecipients.

Internal Audit Section Review November 2008
Partially Corrected. The IAS over-hauled the subrecipient monitoring process during FY 2007. IAS now performs a risk based assessment of all subrecipients and the assessment is documented. However, the risk assessment does not address programmatic risks relative to the compliance requirements having a direct and material effect on the HIV program.

Status: **The Department of Public Safety Responses September 2008**
The supply commissioner issued a memorandum on April 1, 2008 indicating the Supply division would verify that vendors have not been

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

excluded or debarred under the provisions of the Code of federal regulation, Part 180.

Internal Audit Section Review November 2008
Corrected. On April 1, 2008, the Supply Commissioner issued a statement to all elected officials, directors and appoint authorities to address 2 Code of Federal Regulation (CFR) 180. The letter informed the various departments that the Office of the Supply Commissioner has agreed to verify that vendors have not been excluded or debarred.

The Supply Commissioner uses EPLS, which is a web based system that identifies those parties excluded from receiving federal contracts, certain subcontracts and certain types of federal assistance and benefits.

The departments or agencies initiating a requisition or request for contract are notified of the specifics surrounding a debarred vendor. IAS observed that verification of debarment checks was maintained on a *Routing Slip for Bid Award* form.
