

Ryan White HIV/AIDS Program by the Numbers

512,214

People served by the
**Ryan White HIV/AIDS
Program**

80.4% of clients are retained in HIV care *

81.4% of clients achieved viral suppression

25.4% of clients have **no** health care coverage

The program reaches approximately

52%

of people living with diagnosed HIV in the U.S.

70.6%

of clients are male

28.3%

of clients are female

1.1%

of clients are transgender

91.1%

of clients live at or below **250%** of the federal poverty level

64.2% of clients live at

or below **100%** of the federal poverty level

of clients are Hispanic/Latino

22.2%

of clients are Black/African American

47.2%

11.8% of clients have temporary housing

4.7% of clients have unstable housing

*Retention in care is based on data for people living with HIV (PLWH) who had at least one outpatient ambulatory medical care (OAMC) visit by September 1 of the measurement year, with a second visit at least 90 days later. Viral suppression is based on data for PLWH who had at least one OAMC visit and at least one viral load test during the measurement year and whose most recent viral load test result was less than 200 copies/mL.
