Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To Management and the Board of Trustees of The University of Alabama:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of The University of Alabama at Birmingham ("UAB"), a campus of The University of Alabama System, which is a component unit of the State of Alabama, and of Southern Research Institute ("SRI"), its discretely presented component unit as of and for the year ended September 30, 2014 and the related notes to the financial statements, which collectively comprise UAB's basic financial statements, and have issued our report thereon dated January 26, 2015. Other auditors audited the financial statements of SRI, as described in our report on UAB's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of Triton Health Systems, L.L.C. and UAB Research Foundation were not audited in accordance with *Government Auditing Standards* and accordingly, this report does not include reporting on internal control over financial reporting on compliance and other matters associated with Triton Health Systems, L.L.C. or UAB Research Foundation. Our report includes an emphasis of a matter regarding the presentation of the financial statements as discussed in Note 1 to the financial statements.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered UAB's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of UAB's internal control. Accordingly, we do not express an opinion on the effectiveness of UAB's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material

weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether UAB's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

PricewaterhouseCoopers LLP

January 26, 2015

**Independent Auditor's Report on Compliance with Requirements
That Could Have a Direct and Material Effect on Each Major Program and on
Internal Control Over Compliance in Accordance with OMB Circular A-133**

To Management and the Board of Trustees of The University of Alabama:

Report on Compliance for Each Major Federal Program

We have audited the compliance of the University of Alabama at Birmingham ("UAB"), a campus of The University of Alabama System, which is a component unit of the State of Alabama, with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of UAB's major federal programs for the year ended September 30, 2014. UAB's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

We did not audit Southern Research Institute's ("SRI"), a discretely presented component unit of UAB, compliance with the terms and conditions of its federal grants, contracts, and agreements with the federal government; and its subgrants received from UAB. Compliance with these requirements was audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to SRI's compliance with those requirements, is based solely on the report of the other auditors.

The University's basic financial statements include the operations of Triton Health Systems, L.L.C. and UAB Research Foundation, which did not receive federal awards during the year ended September 30, 2014. Accordingly, our audit, described below, did not include the operations of these component units.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of UAB's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about UAB's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of UAB's compliance.

Opinion on Each Major Federal Program

In our opinion, based on our audit and the report of other auditors, UAB complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2014.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item 2014-001. Our opinion on each major federal program is not modified with respect to these matters.

UAB's response to the noncompliance findings identified in our audit is described in the accompanying Management Views and Corrective Action Plan. UAB's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of UAB is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, except as noted in the following paragraphs, we considered UAB's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly we do not express an opinion on the effectiveness of UAB's internal control over compliance.

We did not consider internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to the federal programs of SRI. Internal control over these compliance requirements was considered by other auditors, and our report, insofar as it relates to UAB's internal control over those compliance requirements, does not include SRI.

The University's basic financial statements include the operations of Triton Health Systems, L.L.C. and UAB Research Foundation, which did not receive federal awards during the year ended September 30, 2014. Accordingly, we did not consider internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs for these component units.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material

weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration and the other auditor's consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. Also, the report of other auditors associated with student loans referred to above did not identify any deficiencies in internal control over compliance that they consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements that collectively comprise UAB's basic financial statements as of and for the year ended September 30, 2014, and have issued our report thereon dated January 26, 2015, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

PricewaterhouseCoopers LLP

June 29, 2015, except for our report on the Schedule of Expenditures of Federal Awards, for which the date is January 26, 2015.

University of Alabama at Birmingham

Notes to Schedule of Expenditures of Federal Awards

Year Ended September 30, 2014

1. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") summarizes the federal expenditures of The University of Alabama at Birmingham ("UAB"), a campus of the University of Alabama System, under programs of the federal government for the year ended September 30, 2014. Other campuses of the University of Alabama System are presented in separate reports. The amounts reported as federal expenditures were obtained from UAB's general ledger. The information in this Schedule is presented in accordance with the requirements of Office of Management and Budget ("OMB") Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the statements of net position, the related statements of revenues, expenses, and changes in net position and cash flows of UAB. The federal expenditures of Southern Research Institute ("SRI"), a discretely presented component unit of UAB, have not been included within the Schedule as they have been included in a separate schedule of expenditures of federal awards that has been audited by other auditors.

The blended component units of UAB include Triton Health Systems, L.L.C. and UAB Research Foundation. These component units do not expend federal awards and therefore are not subject to requirements of OMB Circular A-133.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between UAB and agencies and departments of the federal government and all subawards to UAB by nonfederal organizations pursuant to federal grants, contracts, and similar agreements. Negative amounts represent adjustments or credits to amounts reported as expenditures in prior years. Catalog of Federal Domestic Assistance ("CFDA") numbers and pass-through numbers are provided when available.

UAB is also the subrecipient of federal funds that are reported as expenditures and listed as federal pass-through funds. Pass-through CFDA numbers are included for pass-through awards when available. Federal awards other than those indicated as pass-throughs are considered direct.

Subrecipients

Certain funds are passed through to subgrantee organizations by UAB. Expenditures incurred by the subgrantees and reimbursed by UAB are presented in the Schedule. For the year ended September 30, 2014, UAB passed through approximately \$51 million to subgrantee organizations, which is presented in the table below:

University of Alabama at Birmingham
Notes to Schedule of Expenditures of Federal Awards
Year Ended September 30, 2014

CFDA #	Agency	Total
Various	Research and Development	\$ 46,256,954
14.235	Department of Housing and Urban Development	235,130
93.069	Department of Health and Human Services	147,015
93.107	Department of Health and Human Services	119,577
93.110	Department of Health and Human Services	41,990
93.184	Department of Health and Human Services	822,212
93.236	Department of Health and Human Services	330,000

93.941	Department of Health and Human Services	271,530
93.	Department of Health and Human Services	123,210
		<u>\$ 51,047,163</u>

2. Summary of Significant Accounting Policies

For purposes of the Schedule, expenditures for federal award programs are recognized on the accrual basis of accounting and in accordance with accounting standards generally accepted in the United States of America. Expenditures for federal student financial aid programs include Federal Direct Student Loan ("FDSL"), Federal Perkins Loan ("Perkins"), and Federal Pell Grant ("Pell") program grants to students, the federal share of students' Federal Supplemental Educational Opportunity Grant ("FSEOG") program grants, Federal Work-Study ("FWS") program earnings, and administrative cost allowances where applicable.

3. Facilities and Administrative Costs ("F&A Costs")

UAB operates under predetermined fixed F&A cost rates which are effective from October 1, 2011 through September 30, 2015. The predetermined fixed rates were based on 2010 financial information. The base rate for on-campus research is 47.0% for the year ended September 30, 2014. Base rates for other F&A cost recoveries range from 26.0% to 47.0% for the year ended September 30, 2014.

University of Alabama at Birmingham
Notes to Schedule of Expenditures of Federal Awards
Year Ended September 30, 2014

4. Federal Student Loan Programs

Direct Loan Programs

The Perkins, Health Professions Student Loan (“HPSL”), Nurse Faculty Loan Program (“NFLP”), and Loans to Disadvantaged Students (“LDS”) programs are administered directly by UAB, and balances and transactions relating to these programs are included in UAB’s basic financial statements.

The balances of loans outstanding at September 30, 2014 and funds advanced by UAB to eligible students during the year ended September 30, 2014 under the federal student loan programs are summarized as follows:

	Perkins (CFDA#84.038)	HPSL (CFDA#93.342)	NFLP (CFDA#93.264)	LDS (CFDA#93.342)	Total
Funds advanced to students during fiscal 2014	\$ 2,061,008	\$ 156,093	\$ 390,533	\$ 30,000	\$ 2,637,634
Total loan balance outstanding, September 30, 2014	\$ 13,423,919	\$ 1,960,737	\$ 998,558	\$ 438,517	\$ 16,821,731

The Perkins Loan Cancellations (CFDA# 84.037) for the year ended September 30, 2014 is \$282,121.

Administrative Cost Allowance

During the program year ended June 30, 2014, UAB charged \$103,569 of administrative cost allowance to the FWS program and \$75,469 of administrative cost allowance to the Perkins program.

Federal Direct Loans

The FDSL program (CFDA Number 84.268) was established under the Higher Education Act of 1965, as amended in the Student Loan Reform Act of 1993. The FDSL enables an eligible student or parent to obtain a loan to pay for the student’s cost of attendance directly through UAB rather than through private lenders. UAB began participation in the FDSL on July 1, 1994. As a university qualified to originate loans, UAB is responsible for handling the complete loan origination process, including funds management and promissory note functions. UAB is not responsible for collection of these loans.

During the year ended September 30, 2014, UAB processed the following amount of student loans under FDSL:

	CFDA #	Total
Direct Student Loans	84.268	\$ 132,819,504

Auditee qualified as low-risk auditee? X yes ___ no

Section II - Financial Statement Findings

No matters were noted.

University of Alabama at Birmingham

Schedule of Findings and Questioned Costs

Year Ended September 30, 2014

Finding 2014-001: Fiscal Operations Report and Application to Participate (FISAP) Reporting and Submission

Federal Agency: Department of Education
Program: Student Financial Aid Cluster
CFDA #: 84.038
Award #: N/A
Award Year: 2013-2014

Criteria

OMB Circular A-110, Subpart C, Financial and Program Management Sections 20-21

Condition

There were two errors found in UAB's FISAP for the 2013-2014 award year. UAB submitted the FISAP on September 26, 2014 in advance of the due date of October 1, 2014. The cash on hand and in depository as of October 31, 2014 for the Federal Perkins Loan Program was not included on the FISAP and should have been included in an updated FISAP filed with the Department of Education by the December 15, 2014 deadline for corrections. However, UAB did not file an updated version that included the October 2014 cash balance. In addition, investment income was inappropriately included in the calculation of the total principal and interest repaid by borrowers from all sources during the 2013-2014 award year related to the Federal Perkins Loan Program.

As a result of the exceptions noted above, management refiled the FISAP in May 2015 to correct the October 2014 cash balance, which resulted in an increase to cash in the amount of \$406,357, and again in June 2015 to remove the investment income from the calculation of the total principal and interest repaid by borrowers (a reduction of \$1,668). As a result, the FISAP is correct as of June 15, 2015.

Questioned Costs

There are no questioned costs.

Cause

There was insufficient review and supervision over the preparation and submission of the FISAP.

Effect

As a result of insufficient review and supervision of the FISAP reporting process, the incorrect data that was submitted could hinder the Department of Education from making appropriate decisions based on the University's financial information.

Recommendation

We recommend that UAB re-communicate its established processes and controls to the FISAP preparers and independent reviewer to help ensure that the financial information reported is accurate and submitted timely. As management resubmitted the final corrected FISAP on June 15, 2015, no further updates are necessary for the 2013-2014 award year.

June 29, 2014

**Management Views and Corrective Action Plan
Year Ended September 30, 2014**

The following was noted during the audit of Federal programs in accordance with OMB Circular A-133. Management agrees with this finding and proposes the following Corrective Action Plan:

Finding 2014-001: Fiscal Operations Report and Application to Participate (FISAP) Reporting and Submission

Management's View

Due to a personnel turnover, the new Director of Student Financial Aid was not aware of any FISAP corrections that were needed or that the Perkins Cash balance should be updated as part of the December 15, 2014 FISAP deadline. The University corrected the 2013-2014 errors by resubmitting corrected FISAP reports in May and June 2015. No further corrections or submissions are required.

Corrective Action Plan

Effective June 2015, the University Student Accounting department and the Student Financial Aid office implemented a dual verification procedure to prepare and review the FISAP report to ensure that the financial information is accurately submitted. In addition, Management will ensure that the FISAP report is submitted by the due date of October 1st and corrections filed by the December 15th deadline.

Sincerely,

Tricia Raczynski
Chief Financial Officer

Part III
Summary Schedule of Prior Audit Findings

University of Alabama at Birmingham

Summary Schedule of Prior Audit Findings

Year Ended September 30, 2013

Finding Number 2013-001: Return of Title IV Funds:

According to 34 CFR, Section 668.22, when a Title IV calculation is performed, the school must round the percentage to three decimal places. If the student has completed greater than 60% of the period, then 100% of the Title IV funds have been earned. If the student has completed 60% or less of the period, then a return of Title IV funds is due. The University performed manual calculations for returns of Title IV funds for students with Pell funds and rounded the resulting amounts to the nearest whole percent (two decimal points). As a result, for 1 out of a sample of 40 students, the University inappropriately gave the 100% earned exemption to a student with a completion percentage equal to 60%. Additionally, 1 out of a sample of 40 students selected for testing contained less than 60% completion during the period for which no return of Title IV calculation was performed.

Status

Effective May 16, 2013, the University implemented a procedural change whereby all Return of Title IV refunds are calculated in Banner, but if a manual calculation is necessary, it no longer rounds the refunds up to 60%. In addition, on May 23, 2013 the University's IT Department changed the scheduled run time of the report to prevent the exclusion of any student withdrawals in the future. No exceptions were identified after May 23, 2013.

Introduction to UAB

Vision

To be an internationally renowned research university – a first choice for education and health care.

Mission

To be a research university and academic health center that discovers, teaches and applies knowledge for the intellectual, cultural, social and economic benefit of Birmingham, the state and beyond.

The University of Alabama at Birmingham (UAB) became an autonomous campus within The University of Alabama System in 1969 and, in the four decades since, has grown into a world-renowned research university and medical center, occupying 95 city blocks in Alabama's largest metropolitan area.

UAB is the state's largest single-site employer with more than 23,000 employees. The university has seen record overall enrollment for six consecutive years, with 18,698 students in fall 2014. As part of that record enrollment, UAB had its largest freshman class ever (1,773), two-thirds of whom live on campus (also a record). UAB Honors College had its largest-ever incoming class of freshmen at 375 (total enrollment of more than 1,100) with an average GPA of 4.1, ACT of 30, and 18% are first generation college students.

UAB attracted more than \$454 million in research funding in FY2013 and currently ranks 11th among public universities in National Institutes of Health funding. Researchers and physicians continue serving in top national posts in recent years, including presidency of the American Cancer Society, the American Heart Association,

the National Society for Gynecologic Cancer, and the American Society of Transplantation. In the Performance Ranking of Scientific Papers for World Universities, UAB ranks 42nd in clinical medicine and 86th in life sciences.

UA Hospital is the largest hospital in Alabama (and 3rd largest public hospital in the U.S.), housing the state's only level 1 adult trauma center and a world Comprehensive Transplant Institute, which has done the second most kidney transplants in the history of medicine and is currently conducting the longest-ever kidney transplant chain at a single site. UAB Health System treats more than a million patients annually.

The information included in this introduction (pages 2-8) does not include data related to component units of UAB that are discussed in the notes to the financial statements.

2014 Overview

As a globally respected academic medical center, UAB excels at translating research into leading-edge patient care. UAB Hospital is the only hospital in the state to be listed in every issue (25 straight years) of U.S. News & World Report's "America's Best Hospitals," which recognizes only three percent of hospitals nationwide, and ranks first locally for patient satisfaction in HHS surveys.

UAB's Comprehensive Cancer Center, among the first eight such centers to be designated by the National Cancer Institute (NCI) in the early 1970s, remains the only one in Alabama and a six-state region. The Center's Wallace Tumor Institute houses an Advanced Imaging Facility and

the most powerful cyclotron at any U.S. academic medical center.

Students are active participants in a robust research enterprise beginning in their freshman year. UAB now offers new undergraduate programs in biomedical sciences (166 currently enrolled) and public health (127 enrolled) and is developing new BS degrees in Informatics, Immunology and Cancer Biology.

Graduate programs also continue to garner national recognition. In the latest U.S. News & World Report "Best Graduate Schools" issue, UAB has 11 programs in the top 25 and five in the top 10, including its master's in health administration that ranks fifth in the nation.

The Scientist online magazine has ranked UAB first nationally among public universities in its "Best Places to Work as a Post-doctoral Fellow."

Students continue to earn prestigious national honors and scholarships: In 2013-2014, UAB students won, among other awards, a Rhodes Scholarship, two Goldwater Scholarships, three U.S. State Department Critical Languages Scholarships and an NIH fellowship.

UAB has an economic impact on Alabama that exceeds \$5 billion annually and supports more than 61,000 jobs state-wide—that's one of every 33 jobs. The Innovation Depot, in which UAB is a founding partner, is the largest business incubator in the Southeast, with 95 start-up companies and a \$1.5 billion economic impact over the past five years.

State Appropriations

State appropriations for UAB are made by the Alabama State Legislature based upon a process which involves requests from the Board of Trustees of The University of Alabama, and budget recommendations by the Alabama Commission on Higher Education and the Governor. State funds are appropriated annually from the Educational Trust Fund (ETF) to UAB. For the fiscal year ended September 30, 2014, UAB received direct funding from the ETF in the amount of \$264,072,721.

Appropriations Received

Fiscal years ended September 30

(Dollars in millions)

■ University ■ Hospital

Sponsored Grants and Contracts

During fiscal year 2014, UAB received \$398.4 million in sponsored grants and contracts revenues (including \$75.0 million of indirect cost recovery). Various federal agencies provided the majority of support for these projects, with the National Institutes of Health (NIH) being the primary sponsor. Nonfederal funding sources include state agencies, local governmental agencies, and a wide variety of private sponsors.

Revenues from grants and contracts (including indirect cost recovery) decreased from \$399.5 million during 2013 to \$398.4 million during 2014,

a decrease of 0.3% for the period. Revenues from grants and contracts were higher in fiscal years 2011 and 2010 due to federal funding received under the American Recovery and Reinvestment Act (ARRA). UAB received approximately \$26.8 million and \$22.5 million in ARRA funds during the years ending September 30, 2011 and 2010, respectively. These funds dropped to approximately \$500,000 for the year ending September 30, 2012. UAB did not receive any ARRA funds during the years ending September 30, 2014 and 2013.

Grants and Contracts Revenues

Fiscal years ended September 30

(Dollars in millions)

Hospital

The University of Alabama Hospital (the "Hospital") is a 1,157-bed quaternary and tertiary care medical facility and part of the UAB Health System. The Hospital includes North Pavilion, Women and Infant Center, Jefferson Tower, Hillman Building, Spain Wallace Building, Quarterback Tower, North Wing, Spain Rehabilitation Center, West Pavilion, Russell Ambulatory Center, Medical Education Building, Highlands and the Center for Psychiatric Medicine. Other clinical facilities in the UAB Academic Health Center include Smolian Psychiatric Clinic, Engel Psychiatric Day Treatment Center, Lurleen B. Wallace Tumor Institute, and the 1917 Clinic. The Hospital also has strong ties with other governmental and private nonprofit institutions located within and adjacent to the UAB campus, including Veterans Affairs Medical Center and Children's Hospital. Other healthcare facilities in the UAB Health System include The Kirklin Clinic, the Callahan Eye Hospital, Medical West and Baptist Health (located in Montgomery, Alabama).

Operations

The Hospital has continued to experience strong growth from operations in fiscal year 2014. Inpatient discharges decreased 6.5%; however, adjusted patient discharges increased 3.0%. This decrease in inpatient discharges is due to the Medicare 2 Midnight Rule which was effective October 1, 2013 and resulted in a reclassification of short stay inpatient cases to outpatient status. Emergency room visits increased 3.7% during fiscal year 2014. As a result of volume increases, as well as contract improvements and ongoing revenue cycle improvements, patient service revenue net of allowances for contractual discounts, charity care and bad debt expense, increased \$69.53 million or 6.1% in fiscal year 2014. The Hospital had an increase in net position of \$63.3 million in fiscal year 2014.

Hospital Awards and Accolades

Eight UAB Medicine specialties are among the nation's top 50 in the 16 categories evaluated at over 4,700 U.S. hospitals this year by U.S. News and World Report. The rankings appear in the 2014-15 annual "America's Best Hospitals" special edition issue. UAB Hospital has been named by Becker's Hospital Review among the 2014 "100 Great Hospitals in America," a compilation of some of the most prominent, forward-thinking and focused healthcare facilities in the nation. UAB Hospital received the 2013 Women's Choice Award, ranking among America's best hospital's for patient experience.

Selected Hospital operating statistics are outlined below:

	2014	2013
Beds in service	1,157	1,157
Patient discharges	45,965	49,149
Adjusted patient discharges	73,500	71,339
Patient days	333,394	339,940
Adjusted patient days	532,537	493,974
Operating room cases	31,996	30,586
Emergency department visits	95,342	91,962
Patient origin:		
Jefferson County	47.8%	48.3%
Other Alabama counties	46.3%	45.7%
Out of state	5.9%	6.0%

Management's Responsibility for Financial Reporting

The accompanying financial statements of the University of Alabama at Birmingham (UAB) for the years ended September 30, 2014 and 2013, were prepared by UAB's management in conformity with accounting principles generally accepted in the United States of America.

The management of UAB is responsible for the integrity and objectivity of these financial statements, which are presented on the accrual basis of accounting and, accordingly, include some amounts based upon judgment. Other financial information in the annual report is consistent with that in the financial statements. The system of internal accounting controls is designed to help ensure that the financial reports and the books of account properly reflect the transactions of the institution, in accordance with established policies and procedures as implemented by qualified personnel.

The Board of Trustees of The University of Alabama, through its Audit and Finance Committees, monitors the financial and accounting operations of the institution, including the review and discussion of periodic financial statements and the evaluation and adoption of budgets. The Board of Trustees of The University of Alabama, through its Audit Committee, monitors the basis of engagement and reporting of independent auditors.

G. Allen Bolton, Jr.

Vice President for Financial Affairs
and Administration

Tricia Raczynski

UAB Chief Financial Officer

Independent Auditor's Report

To the Board of Trustees of The University of Alabama:

Report on the Financial Statements

We have audited the accompanying financial statements of The University of Alabama at Birmingham ("UAB"), a campus of The University of Alabama System, which is a component unit of the State of Alabama, as of and for the years ended September 30, 2014 and 2013, and the related notes to the financial statements, which consist of the statements of net position and the related statements of revenues, expenses, and changes in net position and cash flows of UAB and the statements of net position and of revenues, expenses and changes in net position of the Southern Research Institute ("SRI"), UAB's discretely presented component unit.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the financial statements based on our audits. We did not audit the financial statements of SRI, UAB's discretely presented component unit, as of January 3, 2014 and December 28, 2012 and for the years then ended. Those statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for SRI, is based on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Triton Health Systems, L.L.C. and UAB Research Foundation were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to UAB's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of UAB's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audits and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of UAB and its discretely presented component unit at September 30, 2014 and 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1, the financial statements of UAB are intended to present the financial position, the changes in financial position and, where applicable, the cash flows of only that portion of the business-type activities of the financial reporting entity of The University of Alabama System that is attributable to the transactions of UAB. They do not purport to, and do not, present fairly the financial position of The University of Alabama System as of September 30, 2014 and 2013, its changes in financial position, or its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis for the years ended September 30, 2014 and 2013 and required supplementary information on pages 11 through 17 and page 57, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in the appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise UAB's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards for the year ended September 30, 2014 is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America.

The introductory information on pages 2 through 8 of this report is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 26, 2015 on our consideration of the UAB's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters, for the year ended September 30, 2014. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and considering UAB's internal control over financial reporting and compliance.

PricewaterhouseCoopers LLP

January 26, 2015

Management's Discussion and Analysis (Unaudited)

The objective of management's discussion and analysis is to help readers of UAB's financial statements better understand the financial position and operating activities for the fiscal years ended September 30, 2014 and 2013. UAB's financial statements present the financial position, changes in financial position, and the cash flows of the University, the University of Alabama Hospital (the Hospital), and UAB's blended component units. Condensed financial information of UAB's reportable segments is presented at Note 22. GASB Statement No. 14, *The Financial Reporting Entity* (GASB Statement No. 14), as amended by GASB Statement No. 61, *The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34* (GASB Statement No. 61), requires governmental entities to include in their financial statements as component units, organizations that are legally separate entities for which the governmental entity, as a primary organization, is financially accountable. Southern Research Institute (SRI) is a discretely presented component unit of UAB. Blended component units include Hospital Management LLC (LLC), Triton Health Systems, L.L.C. (Triton), and UAB Research Foundation (UABRF). The following discussion and analysis provides an overview of UAB's financial activities. This discussion should be read in conjunction with the financial statements and notes to the financial statements.

Financial Overview

UAB's financial position remained strong, as assets totaled \$4.07, \$3.90 and \$3.55 billion at September 30, 2014, 2013, and 2012. Increases of \$161 million or 4% from 2013 to 2014 were primarily due to increases in investment assets, the continued growth in accounts receivable and the growth in pledges receivable related to the fundraising campaign launched in fiscal year 2014. Increases of \$358 million or 10% from 2012 to 2013 were primarily due to cash and investment increases related to the bonds issued during the year, as well as increases in investment assets, the continued growth in accounts receivable and an adjustment to capital assets to correct an understatement in library materials.

Total liabilities increased \$15.6 million or 1% from September 30, 2013 to September 30, 2014. The increase relates to growth in accounts payable and accrued liabilities, offset by reductions in bonds payable related to annual principal payments.

Total liabilities increased \$216 million or 19% from September 30, 2012 to September 30, 2013. The increase results primarily from the issuance of bonds during fiscal year 2013, as well as an adjustment to accrued liabilities to correct an understatement in the compensated absences accrual.

The change in net position reflects the operating, nonoperating and other activity of UAB, which results from revenues, expenses, and gains and losses, and is summarized for the years ended September 30, 2014, 2013, and 2012, as follows:

	2014	2013	2012
TOTAL OPERATING REVENUES	\$2,528,819,107	\$2,405,991,627	\$2,312,742,719
TOTAL OPERATING EXPENSES	\$2,819,301,958	\$2,674,554,826	\$2,539,973,735
NET OPERATING LOSS	\$(290,482,851)	\$(268,563,199)	\$(227,231,016)
TOTAL NONOPERATING INCOME, CAPITAL, ENDOWMENT AND OTHER ACTIVITIES	435,218,951	410,964,015	441,328,646
INCREASE (DECREASE) IN NET POSITION	\$144,736,100	\$142,400,816	\$214,097,630

A majority of UAB's endowment funds are invested in common investment pools established by The Board of Trustees of The University of Alabama (the Board). The funds are invested to maximize total return over the long term, with an appropriate level of risk. Any short term reduction in the fair value of the endowment portfolio will not have a meaningful immediate impact on the portion of investment income available to support current year operating expenses since such distributions are made pursuant to The University of Alabama System's (the System) spending rate policy.

Statements of Net Position

The statement of net position presents the financial position of UAB at the end of the fiscal year, and includes all assets, deferred outflows, liabilities, and deferred inflows recorded on the accrual basis of accounting. The changes in net position are indicators of whether the overall financial condition of UAB has improved or worsened during the year. A summarized comparison of UAB's assets, deferred outflows, liabilities, deferred inflows, and net position at September 30, 2014, 2013, and 2012, is as follows:

	2014	2013	2012
ASSETS AND DEFERRED OUTFLOW OF RESOURCES			
Capital Assets, Net	\$1,534,728,580	\$1,524,883,924	\$1,433,681,378
Other Assets	2,531,149,355	2,379,708,092	2,112,597,210
TOTAL ASSETS	\$4,065,877,935	\$3,904,592,016	\$3,546,278,588
Deferred outflow from debt refundings	11,970,051	12,958,289	13,019,885
TOTAL ASSETS AND DEFERRED OUTFLOW OF RESOURCES	\$4,077,847,986	\$3,917,550,305	\$3,559,298,473
LIABILITIES, DEFERRED INFLOW OF RESOURCES AND NET POSITION			
Current Liabilities	\$429,071,009	\$390,353,766	\$342,013,574
Noncurrent Liabilities	937,973,766	961,097,310	793,650,118
TOTAL LIABILITIES	\$1,367,044,775	\$1,351,451,076	\$1,135,663,692
Deferred inflow from debt refundings	241,400	273,518	209,886
Net Position	\$2,710,561,811	\$2,565,825,711	\$2,423,424,895
TOTAL LIABILITIES, DEFERRED INFLOW OF RESOURCES AND NET POSITION	\$4,077,847,986	\$3,917,550,305	\$3,559,298,473

At September 30, 2014, the major categories of current assets consist primarily of cash and cash equivalents, short-term investments, and accounts receivable, which totaled \$1.13 billion of the \$1.19 billion and increased \$125.2 million or 12.4% from 2013. The increase is a result of growth in short term investments.

At September 30, 2013, the major categories of current assets consist primarily of cash and cash equivalents, short-term investments, and accounts receivable, which totaled \$1.01 billion of the \$1.06 billion and increased \$140.9 million or 16.3% from 2012. The increase is a result of growth in short term investments.

At September 30, 2014, total current liabilities of \$429.1 million consist primarily of accounts payable, accrued payroll and related benefits, and unearned revenue, which totaled \$387.1 million, compared to \$357.4 million at September 30, 2013, an increase of \$29.7 million or 8.3% from 2013.

At September 30, 2013, total current liabilities of \$390.4 million consist primarily of accounts payable, accrued payroll and related benefits, and unearned revenue, which totaled \$357.4 million, compared to \$308.8 million at September 30, 2012, an increase of \$48.6 million or 15.7% from 2012.

UAB's endowment and life income investments increased \$32.3 million to \$425.6 million from September 30, 2013 to September 30, 2014. This increase resulted from net investment gains and by the establishment of new endowment funds through gifts and the creation of Board-designated quasi-endowments.

UAB's endowment and life income investments increased \$25.7 million to \$393.4 million from September 30, 2012 to September 30, 2013. This increase resulted from net investment gains and by the establishment of new endowment funds through gifts and the creation of Board-designated quasi-endowments. UAB's endowment funds consist of both permanent and quasi-endowments.

Permanent endowment funds are those funds received from donors with the requirement that the principal remain unspent and invested in perpetuity to produce income to be expended for the purposes specified by the donor. Quasi-endowments consist of restricted or unrestricted funds that have been set aside by actions of the Board to produce income for an established purpose until the time the Board reverses its action. Endowment income supports scholarships, fellowships, professorships, research efforts, and other programs and activities of UAB.

At September 30, 2014, 2013, and 2012 respectively, UAB's investment in the Professional Liability Trust Fund (PLTF) and other long-term investments totaled approximately \$52.8, \$50.4 and \$38.9 million. The \$2.4 million increase from September 30, 2013 to September 30, 2014 is a result of growth in investment values at September 30, 2014. The

\$11.5 million increase from September 30, 2012 to September 30, 2013 is a result of growth in investment values at September 30, 2013.

UAB implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB Statement No. 65) during fiscal year 2013. As a result, \$12.9 million in bond deferred refunding amounts were reclassified to Deferred Outflows of Resources and \$0.3 million in bond deferred refunding amounts were reclassified to Deferred Inflows of Resources. Prior to this implementation, the amounts were reported in long-term debt. At September 30, 2014, these amounts dropped to \$11.9 million in Deferred Outflows of Resources and \$0.2 million in Deferred Inflows of Resources related to the annual amortization of these balances.

Capital and Debt Activities

An aspect of UAB's continued growth is an emphasis on the expansion and maintenance of capital assets. UAB continues to implement its long-range capital plan.

Capital assets primarily include land, buildings, fixed equipment systems, and inventoried equipment. The original cost of capital assets increased approximately \$66.5 million and \$170.8 million from September 30, 2013 to September 30, 2014 and from September 30, 2012 to September 30, 2013, respectively. This increase consists primarily of capital expenditures and capital additions totaling \$143.1 million (offset primarily by \$76.7 million in disposals) and \$194.8 million (offset primarily by \$24.0 million in disposals) in 2014 and 2013. Capital additions are comprised primarily of renovation and new construction of student, research and health care facilities, as well as additions to improve information technology systems. Annual additions were funded with capital funds, grants, gifts of \$24.7 million and \$14.1 million, debt proceeds of \$40.2 million and \$47.5 million, and the remainder by UAB funds designated for capital purchases in 2014 and 2013, respectively.

Capital projects in process at September 30, 2014 include construction of a new residence hall and the replacement of Hill University Center. Capital projects in process at September 30, 2013 include construction of the Abrams-Engel Institute for Visual Arts, renovation of the School of Dentistry and renovation of UAB Highlands Hospital.

UAB's long-term debt related to capital assets, consisting of bonds and capital leases, totaled \$939.4, \$956.1 and \$789.6 million at September 30, 2014, 2013, and 2012, respectively. The decrease in debt during 2014 consisted primarily of the principal payments made in accordance with the debt instruments. The increase in debt during 2013 consisted primarily of the bonds issued during the year, partially offset by the refunding of debt outstanding.

Net Position

Net position represents the residual interest in UAB's assets and deferred outflows after liabilities and deferred inflows are deducted. UAB's net position at September 30, 2014, 2013, and 2012, is summarized as follows:

	2014	2013	2012
INVESTED IN CAPITAL ASSETS	\$694,736,792	\$696,323,637	\$686,141,974
RESTRICTED			
Nonexpendable	297,300,148	273,651,082	252,844,971
Expendable	238,570,638	212,482,294	211,866,065
UNRESTRICTED	1,479,927,233	1,383,368,698	1,272,571,885
TOTAL NET POSITION	\$2,710,561,811	\$2,565,825,711	\$2,423,424,895

Net position invested in capital assets represent UAB's capital assets, net of accumulated depreciation and outstanding principal of debt in excess of related bond proceeds attributable to the acquisition, construction, or improvement of those assets. The balance remained relatively flat from September 30, 2013 to September 30, 2014, with a decrease of \$1.6 million related to the annual depreciation of capital assets, offset by the use of bond proceeds attributable to the acquisition, construction and improvement of capital assets. The \$10.2 million increase in 2013 reflects the continued capital asset development in accordance with UAB's long-range capital plan and an adjustment made during the year to capital assets to correct an understatement in library materials, offset by the increase in debt related to the bonds issued during the year.

Restricted nonexpendable net position includes UAB's permanent endowment funds and annuity and life income assets that will ultimately become pure endowment funds. The \$23.6 million increase in 2014 and the \$20.9 million increase in 2013 result primarily from the increase in fair values of investments and contributions.

Restricted expendable net position is subject to externally imposed restrictions governing its use. Restricted expendable net position includes UAB's assets whose use is restricted by an external restriction. The \$26.1 million increase in 2014 and the \$0.6 million increase in 2013 result primarily from gifts.

Unrestricted net position includes UAB's assets whose use is not restricted by an external entity. Unrestricted net position increased \$96.6 million and \$110.8 million or 7.0% and 8.7% in 2014 and 2013, respectively.

Although unrestricted net position is not subject to externally imposed restrictions, UAB has designated available unrestricted net position to be used for academic and research programs as well as capital projects.

Statements of Revenues, Expenses, and Changes in Net Position

The statement of revenues, expenses, and changes in net position presents UAB's results of operations, as well as the nonoperating revenues and expenses. Annual state appropriations are classified as nonoperating revenues according to governmental accounting standards, even though the state-appropriated funds are used to support the operations of UAB. Without the nonoperating revenues, in particular the state appropriations and private gifts, UAB would not be able to cover its costs of operations. A summarized comparison of UAB's revenues, expenses and changes in net position for the years ended September 30, 2014, 2013, and 2012 is presented on the following page:

	2014	2013	2012
OPERATING REVENUES			
Student tuition and fees, net	\$161,170,368	\$146,183,606	\$130,569,653

Figures A and A1 are graphic illustrations of revenues by source (both operating and nonoperating), which are used to fund UAB's operating activities for the years ended September 30, 2014 and 2013, respectively.

Figure A: Revenue Streams 2014

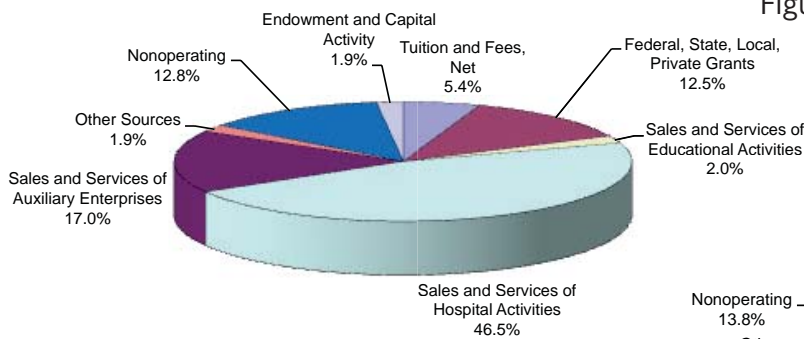

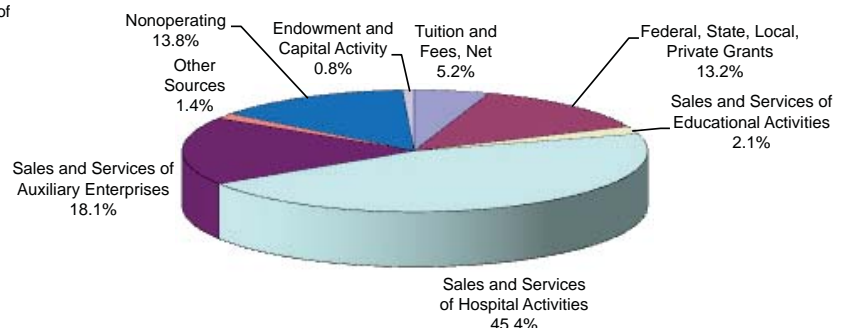

Figure A1: Revenue Streams 2013

Gross tuition and fees revenue increased by \$19.5 million and \$16.0 million in 2014 and 2013, respectively. Tuition rates increased 6% in 2014 and 5% in 2013. Total student headcount of 19,824 and 19,283 increased by 541 and 506 or 2.8% and 2.7% in 2014 and 2013, respectively.

UAB recognized \$68.6, \$46.1 and \$44.1 million in gift revenue (composed partially of \$7.6, \$4.4 and \$0.5 million and \$17.0, \$9.6 and \$11.0 million in capital and endowment gifts, respectively) for the years ended September 30, 2014, 2013, and 2012, respectively.

UAB receives state educational appropriations and capital funding from the State of Alabama. UAB recognized educational appropriations and capital funding from the State of Alabama totaling \$294.8, \$267.1 and \$279.7 million, of which \$264.1, \$258.4 and \$268.6 million was primarily from the Educational Trust Fund (ETF), which is included as nonoperating revenue in 2014, 2013, and 2012, respectively. The remaining \$30.8, \$8.7 and \$11.1 million represents Public School and College Authority funds and other

state capital funds in 2014, 2013 and 2012, respectively. UAB received no State Fiscal Stabilization Funds in 2014 or 2013; however, UAB received \$0.5 million in State Fiscal Stabilization Funds in 2012.

Net hospital sales and service revenue totaled \$1.38 billion, \$1.28 billion and \$1.19 billion, an increase of 7.8% and 7.0% from 2013 to 2014 and 2012 to 2013, respectively. This increase results from increased volume, contract improvements, and ongoing revenue-cycle improvement activities.

UAB receives grant and contract revenue from federal, state, local, and private agencies. These funds are used to further the mission of UAB: research, education, and public service. In addition to the funds received in exchange for services performed, UAB received \$0.65, \$0.06 and \$3.2 million in 2014, 2013, and 2012, respectively, in funds to be used to acquire capital assets. Figures B and B1 are illustrations of the breakout of the funding sources for grant and contract revenue for the years ended September 2014 and 2013, respectively.

Figure B: Grants and Contract Revenues

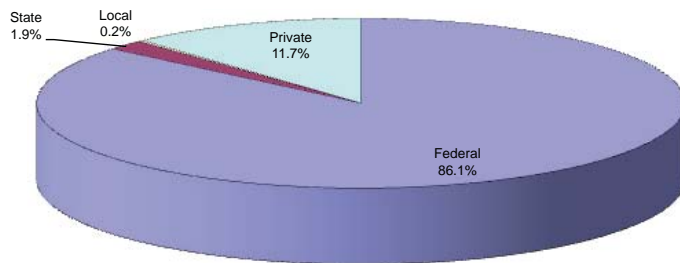

Figure B1: Grants and Contract Revenues

Net investment income decreased \$3.7 million and \$41.0 million from 2013 to 2014 and 2012 to 2013, respectively. The decreases are primarily a result of decreases in the fair value of investments.

A comparative summary of UAB's operating expenses for the years ended September 30, 2014, 2013, and 2012, is as follows:

	2014	2013	2012
Salaries, Wages, and Benefits	\$1,380,369,207	\$1,327,917,671	\$1,244,287,467
Supplies and Services	1,288,371,950	1,227,334,700	1,153,881,410
Depreciation	129,547,649	98,303,065	123,047,954
Scholarships and Fellowships	21,013,152	20,999,390	19,158,774
	\$2,819,301,958	\$2,674,554,826	\$2,540,375,605

Salaries, wages, and benefits increased \$52.5 million or 4.0% during 2014 and \$83.6 million or 6.7% during 2013. This increase in 2014 is primarily due to the growth of UAB's salary base and rising benefit costs. This increase in 2013 is due primarily to the growth of UAB's salary base, benefit costs, and an adjustment to salaries expense to correct an understatement in the compensated absences accrual. Supplies and services expenses increased \$61.0 mil-

lion and \$73.5 million or 5.0% and 6.4% during 2014 and 2013, respectively. This increase is primarily attributable to UAB's continued growth.

In addition to their natural classification, it is also informative to review operating expenses by function. Graphic illustrations of UAB's operating expenses by function for the years ended September 30, 2014 and 2013, respectively, are presented as follows:

Statements of Cash Flows

The statement of cash flows presents the significant sources and uses of cash. UAB's cash, primarily

held in demand deposit accounts, is minimized by sweeping available cash balances into investment accounts on a daily basis.

	2014	2013	2012
Net Cash Used In Operating Activities	\$(164,743,273)	\$(179,888,501)	\$(105,779,543)
Net Cash Used In Capital and Related Financing Activities	(145,181,642)	(15,544,611)	(171,438,508)
Net Cash Provided By Noncapital Financing Activities	345,440,094	326,613,818	348,365,524
Net Cash Used In Investing Activities	(2,707,331)	(60,852,837)	(127,966,171)
Net Increase (Decrease) In Cash And Cash Equivalents	\$32,807,848	\$70,327,869	\$(56,818,698)
Cash and Cash Equivalents, Beginning Of Year	\$339,152,287	\$268,824,418	\$325,643,116
Cash and Cash Equivalents, End Of Year	\$371,960,135	\$339,152,287	\$268,824,418

UAB used \$164.7, \$179.8, and \$105.8 million of cash for operating activities, offset by \$345.4, \$326.6, and \$348.4 million of cash provided by noncapital financing activities in 2014, 2013 and 2012, respectively. Noncapital financing activities, as defined by the GASB, include state educational appropriations and gifts received for other than capital purposes that are used to support operating expenses.

Cash of \$145.2, \$15.5, and \$171.4 million in 2014, 2013 and 2012, respectively, was used for capital and related financing activities, primarily purchases of capital assets and principal and interest payments on long-term debt, partially offset by sources that included bond proceeds, gifts, and grants and contracts for capital purposes. Cash used in investing activities totaled \$2.7, \$60.9, and \$128.0 million in 2014, 2013 and 2012, respectively.

Economic Factors That Will Affect The Future

As a labor-intensive organization, UAB faces competitive pressures related to attracting and retaining faculty and staff.

The State of Alabama appropriates money each year to UAB for operating costs and nonoperating cash requirements, including capital expenditures. Because the State is mandated by its Constitution to operate with a balanced budget, the State occasionally has reduced its appropriations, through a process known as "proration," when its annual revenues are not expected to meet budgeted appropriations. During the year ending September 30, 2011, the State implemented proration. As the State could implement proration in future years, UAB continues implementing cost-saving measures in order to balance its own budget.

Private gifts are an important part of the fundamental support of UAB. Economic pressures affecting

donors may also affect the future level of support UAB receives from corporate and individual giving. In October 2013, UAB launched its largest fundraising campaign to date known as "Give something change everything." The fundraising goal is \$1 billion and will run through 2018.

During fiscal year 2014, 70% of UAB students received financial aid, including \$155.2 million of Federal Financial Aid. In recent years, financial aid reform and reauthorization of existing aid programs have been topics in legislative sessions. Management is monitoring proposed future legislation in order to respond in a manner to assist current and future students.

The Hospital faces significant challenges in a dynamic healthcare sector and volatile economic environment. The demand for health care services and the cost of providing them are increasing significantly while the revenues to support these services are diminishing. In addition to cost increases such as rising salary and benefit costs, the Hospital also faces additional costs associated with new technologies, the education and training of health care professionals and provision of care for a disproportionate share of the medically underserved in Alabama. In recent years, federal legislation has been enacted to slow future rate increases in Medicare and Medicaid and reduce medical education and disproportionate share funding. Management is committed to staying abreast of pertinent issues; implementing appropriate management actions and continuing to provide quality care for all patients.

These financial statements are designed to provide a general overview of the University of Alabama at Birmingham and to demonstrate UAB's accountability. Questions concerning any information provided in this report or requests for additional information should be addressed to the Office of the Vice President for Financial Affairs and Administration, The University of Alabama at Birmingham, AB 1030, 1720 2ND AVE S, BIRMINGHAM AL 35294-0106.

The University of Alabama at Birmingham Notes to Financial Statements

September 30, 2014

(1) Summary of Significant Accounting Policies

The University of Alabama at Birmingham (UAB) is one of three campuses of The University of Alabama System (the System), which is a discretely presented component unit of the State of Alabama (the State). The financial statements of UAB are intended to present the financial position, changes in financial position, and the cash flows of only that portion of the business-type activities of the financial reporting entity of the System that is attributable to the transactions of UAB. The System is recognized as an organization exempt from Federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3) of the Internal Revenue Code.

UAB, as a public institution, prepares its financial statements in accordance with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board (GASB).

GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities* (GASB Statement No. 35), establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following three net position categories:

- **Invested in Capital Assets:**

Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.

- **Restricted:**

Nonexpendable: Net position subject to externally imposed stipulations that they be maintained permanently by UAB. Such assets include UAB's permanent endowment funds.

Expendable: Net position whose use by UAB is subject to externally imposed stipulations that can be fulfilled by actions of UAB pursuant to those stipulations or that expire by the passage of time.

- **Unrestricted:**

The net position that is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management. Substantially all of the unrestricted net position is designated for academic and research programs and initiatives and capital programs.

UAB reports as a business type activity, as defined by GASB Statement No. 35. Business type activities are those financed in whole or in part by fees charged to external parties for goods or services.

UAB policy states that operating activities as reported by the statement of revenues, expenses, and changes in net position are those that generally result from exchange transactions such as payments received for providing services and payments made for services or goods received. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues, as defined by GASB Statement No. 35.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The estimates susceptible to significant changes include those used in determining the allowance for contractual adjustments and uncollectible accounts, valuation of investments, accruals related to compensated absences, allowance for self insurance, estimated amounts due to or from third-party payors, and reserves for general and professional liability claims. Although some variability is inherent in these estimates, management believes that the amounts provided are adequate.

Scope of Statements

UAB is principally comprised of a university (the University) and the University of Alabama Hospital (the Hospital) which are UAB's reportable segments as defined by GASB Statement No. 37, *Basic Financial Statements and Management's Discussion and Analysis-For State and Local Governments: Omnibus an Amendment of GASB Statements No. 21 and No. 34*. UAB's financial statements present the financial position, changes in financial position, and the cash flows of the University, the Hospital, and UAB's blended component units. Condensed financial information of UAB's reportable segments is presented at Note 22. GASB Statement No. 14, *The Financial Reporting Entity* (GASB Statement No. 14), as amended by GASB Statement No. 61, *The Financial Reporting Entity: Omnibus* (GASB Statement No. 61), requires governmental entities to include in their financial statements as a component unit, organizations that are legally separate entities for which the governmental entity, as a primary organization, is financially accountable.

The by-laws and corporate charter of the Southern Research Institute (SRI) allow UAB to appoint a majority of the board of directors and UAB is financially accountable for SRI. Therefore, management has

determined that SRI is a discretely presented component unit of UAB under GASB Statements No. 14 and No. 61. SRI reports financial results under principles prescribed under the GASB. SRI offers research and technology services to support industry and federal government agencies primarily in the areas of drug design and evaluation, environmental controls, materials engineering, and chemical and biological defense. The activities of SRI are maintained using a fiscal calendar year-end that ends prior to UAB's fiscal year-end of September 30. The financial results of SRI are discretely presented in the accompanying financial statements.

The by-laws and corporate charters of the UAB Research Foundation (UABRF) allow UAB to appoint a majority of the board of directors and allow UAB to impose its will on the entity. UABRF operates for the exclusive benefit of UAB. Additionally, Triton Health Systems, L.L.C. (Triton) and UAB Hospital Management, L.L.C. (LLC) have governing bodies that are substantively the same as the governing body of UAB and there is a financial benefit or burden relationship between UAB and these entities. Therefore, management has determined that UABRF, Triton, and LLC (the Blended Component Units) constitute blended component units of UAB under GASB Statements No. 14 and No. 61. The Blended Component Units report financial results under principles prescribed by the GASB.

Triton was formed to advance the educational and research mission of UAB and to educate and train physicians and other health care professionals. Triton is owned 99% by UAB and 1% by The UAB Educational Foundation (UABEF). UABRF was organized exclusively for charitable, scientific, and educational purposes in order to benefit UAB. The LLC was organized for the exclusive purpose of supporting UAB in connection with the management, administration, and operation of the Hospital, including, without limitation, providing management, administrative, and staffing services to the Hospital. UABRF and the LLC maintain a September 30 year-end. The activities of Triton are maintained using a fiscal calendar year-end that ends prior to UAB's fiscal year-end of September 30. However, interfund cash transactions during the period from January 1 through September 30 have been eliminated. Since Triton qualifies as a major component unit under GASB Statement No. 61, condensed financial information is presented at Note 23. Separate financial statements are available for Triton and UABRF by contacting UAB.

Other significant accounting policies are as follows:

Cash and cash equivalents: For purposes of the statement of cash flows, UAB considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. Cash equivalents representing assets of UAB's endowment, life income, and other long-term investments are included in noncurrent investments.

Investments: UAB accounts for its investments, other than land and other real estate held as investments by endowments, in accordance with the provisions of GASB Statement No. 31, *Accounting and Reporting for Certain Investments and For External*

Investment Pools (GASB 31) (see Note 4). Investments in equity securities with readily determinable fair values and all investments in debt securities are recorded at their fair value. UAB invests certain amounts in a commingled investment pool sponsored by the System. The value of the investments in the pools is determined by the System and based on UAB's proportionate share of the net asset value of the investment pools. Fair value for the investment pools is provided by the System, based on the fair value of the underlying investment securities held by each investment pool. Fair value of the underlying securities held in each investment pool is based on quoted market prices or dealer quotes, where available, or determined using net asset values provided by underlying investment partnerships or companies, which primarily invest in readily marketable securities. Certain real estate and non-readily marketable securities held in the System-sponsored Endowment Fund and Prime Fund are carried at cost (Note 4). Investments carried at cost are subject to review for impairment.

UAB accounts for its land and other real estate held as investments by endowments in accordance with GASB Statement No. 52, *Land and Other Real Estate Held as Investments by Endowments*. Investments are reported in four categories in the statement of net assets. Investments recorded as endowment and life income investments are those invested funds considered by management to be of long duration. Other long-term investments include amounts resulting from UAB's equity investment in other entities, as discussed in Note 4 and Note 19. Investments for capital projects are included in noncurrent assets. All other investments are included as short-term investments.

Inventories: Inventories are carried at the lower of cost or market. Inventories consist primarily of textbooks, medical supplies, and pharmaceuticals.

Accounts receivable: Accounts receivable consist primarily of tuition charged to students and amounts due from federal, state, and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to UAB's contracts and grants.

Capital assets: All capital assets are carried at cost on date of acquisition (or in the case of gifts, at fair value on the date of donation), less accumulated depreciation (or in the case of assets leased under capital leases, net of accumulated amortization). UAB computes depreciation for buildings and building improvements (15-40 years) and for fixed equipment systems (3-20 years) using a component method. Depreciation of land improvements (40 years), library collection (10 years), and inventoried equipment (3-20 years) is computed on a straight-line basis. The Hospital uses guidelines established by the American Hospital Association to assign useful lives to inventoried equipment.

Capital assets acquired under capital leases are amortized over the shorter of the lives of the respective leases or the estimated useful lives of the assets. Capital assets acquired through federal grants and contracts in which the federal government retains a reversionary interest are capitalized and depreciated.

Interest costs, net of any related investment earnings, for certain assets acquired with the proceeds of tax-exempt borrowings are capitalized as a component of the cost of acquiring those assets.

Computer software capitalization, which is included as inventoried equipment, includes the costs of software and implementation. Implementation costs include consulting expenses and allocation of internal salaries and fringes for the core implementation team.

Pledges: UAB receives gift pledges and bequests of financial support. Revenue is recognized when a pledge representing an unconditional promise to give is received and all eligibility requirements, including time requirements, have been met. In the absence of such a promise, revenue is recognized when the gift is received. Pledges are recorded at their gross, undiscounted amount. Endowment pledges do not meet eligibility requirements and are not recorded as assets until the related gift is received in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions (GASB Statement No. 33)*.

Endowment spending: The Alabama Uniform Prudent Management of Institutional Funds Act (UPMIFA) was enacted by the State Legislature and signed into law effective January 1, 2009. UPMIFA prescribes new guidelines for the expenditure of donor-restricted endowment funds in the absence of overriding, explicit donor stipulations. Its predecessor, UMIFA, focused on the prudent spending of the net appreciation of the fund. UPMIFA instead focuses on the entirety of a donor-restricted endowment fund, that is, both the original gift amount(s) and net appreciation. UPMIFA eliminates UMIFA's historic-dollar-value threshold, an amount below which an organization could not spend from the fund, in favor of a more robust set of guidelines about what constitutes prudent spending, explicitly requiring consideration of the duration and preservation of the fund.

UPMIFA permits the Board of Trustees of the University of Alabama (the "Board") to appropriate an amount of realized and unrealized endowment appreciation as the Board determines to be prudent. UAB's policy is to retain the endowment realized and unrealized appreciation within an endowment after the spending rate distributions in a manner consistent with the standards of prudence prescribed by UPMIFA. The Board approved a spending rate for the fiscal years September 30, 2014 and 2013 of 5% of a moving three-year average of the market (unit) value.

Unearned revenue: Unearned revenue consists primarily of student fees related predominantly to future fiscal years and amounts received from grant and contract sponsors that have not yet been earned under the terms of the agreements and, therefore, have not yet been included in the net assets.

Federal refundable loans: Certain loans to students are administered by UAB with funding primarily supported by the federal government. UAB's statement of net assets includes both the notes receivable and the related federal refundable loan liability representing federal capital contributions owed upon termination of the program.

Compensated absences: UAB accrues annual leave for employees at rates based upon length of service and job classification. UAB accrues compensatory

time based upon job classification and hours worked. These amounts are included in accounts payable and accrued liabilities.

Student tuition and fees: Student tuition and residence fees are presented net of scholarships and fellowships applied to student accounts, while stipends and other payments made directly to students are presented as scholarship and fellowship expenses.

Grant and contract revenue: UAB receives grant and contract revenue from governmental and private sources. UAB recognizes revenue associated with the sponsored programs in accordance with GASB Statement No. 33, based on the terms of the individual grant or contract.

Hospital revenue: Net patient service revenue is reported at the Hospital's estimated net realizable amounts from patients, third-party payors, and others for services rendered, included estimated retroactive revenue adjustments due to revenue audits, reviews, and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered.

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its estimated rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

Auxiliary enterprise revenue: Auxiliary enterprise revenues primarily represent revenues generated by intercollegiate athletics and parking as well as subscriber premiums.

Other revenue: Other revenue represents primarily revenues generated by UAB for activities such as intellectual property income and HSF revenues.

Equity investments: Investments in affiliated companies where UAB can exercise significant influence and for which UAB's ownership interest is 50% or less are accounted for using the equity method. The investment in the Professional Liability Trust Fund (PLTF) also is accounted for using the equity method. See Notes 4 and 19.

Nonoperating revenues (expenses): Nonoperating revenues and expenses include State educational appropriations, Federal Pell grants, private gifts for other than capital purposes, investment income, net unrealized appreciation or depreciation in the fair value of investments, interest expense, and loss on asset dispositions. Also, during 2013, the Hospital sold a repurchase option for certain dialysis units to a third party for approximately \$24.3 million and recorded a gain on that sale as a component of other nonoperating revenue.

(2) Related Parties

UAB is affiliated with the UABEF, the University of Alabama Health Services Foundation, P.C. (HSF), UAB Health System (UABHS), and the Valley Foundation (VF). UAB is not financially accountable for HSF, VF, UABEF, and UABHS; therefore, they do not constitute component units under the provisions of GASB Statements No. 14. These entities are not required to be presented as component units under GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, or by GASB Statement No. 61, both of which amend GASB 14.

UABEF provides funds and certain facilities to UAB for its educational and scientific functions and provides support for UAB athletic programs. UABEF has 13 board members, including seven outside members not affiliated with UAB. UABEF leases certain facilities to UAB, with annual rental expense of approximately \$2,409,000 and \$2,004,000 for 2014 and 2013, respectively. UABEF made contributions to UAB which totaled approximately \$9,097,000 and \$6,766,000 in 2014 and 2013, respectively. UABEF's total assets were approximately \$53,574,000 and \$56,280,000 at September 30, 2014 and 2013, respectively. UABEF's total liabilities were approximately \$17,578,000 and \$18,445,000 at September 30, 2014 and 2013, respectively.

HSF's primary purpose is to provide a group medical practice for physicians who are members of the regular faculty of the School of Medicine at UAB and serve on the University of Alabama Hospital's medical staff. It is governed by a 19-member board of directors, 16 of whom are not affiliated with UAB. An affiliation agreement (the Agreement) documents the relationship between HSF and UAB. The University's other operating revenues include approximately \$31,351,000 and \$23,807,000 of funding from HSF in 2014 and 2013, respectively, which is used to support the educational and research activities of UAB. These funds were paid by HSF pursuant to its tax-exempt purpose and in recognition of the mutual benefit derived by the two organizations from the enhancement and continued development of UAB's programs. The funds were negotiated with HSF as part of UAB's budget development process. In the normal course of business, HSF purchases various services from the Hospital, aggregating approximately \$11,197,000 and \$2,493,000 in 2014 and 2013, respectively, and the Hospital purchases various services from HSF, aggregating approximately \$34,633,000 and \$36,628,000 for the years ended September 30, 2014 and 2013, respectively. As a result of these transactions, the Hospital had a net payable to HSF of approximately \$1,169,000 and \$236,000, respectively, at September 30, 2014 and September 30, 2013.

During 2009, the Hospital entered into an operating agreement with HSF whereby HSF began leasing two floors of the UAB Women and Infants' Facility when construction was completed in February 2010. HSF reimbursed the Hospital for construction costs of this space as they were incurred on a square-footage basis. Total reimbursements are being amortized as

rent revenue on a straight-line basis over a period equal to the 90 year total lease term, commencing on February 20, 2010 when the building was placed into service. The Hospital had received reimbursements from HSF totaling approximately \$13,745,000 and \$13,908,000, which is included in the accompanying statement of net assets as unearned revenue—other for the years ended September 30, 2014 and 2013, respectively. Approximately \$163,000 was recognized as rent revenue during each of the years ended September 30, 2014 and 2013.

The Board and the HSF's board have entered into an agreement under which UAB and HSF have established a common management group, the UAB Health System to provide management for their existing and future health care delivery operations. The UAB Health System Board of Directors is composed of 18 members, of whom nine are appointed by the Board. For the fiscal years ended September 30, 2014 and 2013, respectively, UAB contributed approximately \$8,221,000 and \$8,558,000 to the UAB Health System Board to support Health System administrative functions. In addition, the Health System periodically makes payments on behalf of the Hospital for which it is reimbursed. The Hospital had a net receivable from the Health System of approximately \$3,091,000 and a net payable to the Health System of approximately \$281,000 at September 30, 2014 and 2013, respectively.

In March 2014, the Hospital assumed operations of the outpatient clinics in The Kirklin Clinic and entered into an agreement with HSF to lease the land and the building known as The Kirklin Clinic. The initial term of the lease, which is cancellable by either party upon proper written notice and without penalty, is five years, with automatic one-year renewals thereafter.

VF's primary purpose is to provide a group medical practice for physicians who are faculty members in the UAB School of Medicine Huntsville program. It is governed by a 17-member board of directors, consisting of three nonvoting members and 14 voting members, of whom seven are affiliated with UAB. VF's total assets were approximately \$10,157,000 (unaudited) and \$9,357,000 (unaudited) and total liabilities were approximately \$1,427,000 (unaudited) and \$1,132,000 (unaudited) at September 30, 2014 and 2013, respectively.

The Hospital received premium revenue (capitation fees) of approximately \$61,862,000 and \$56,903,000 from Triton during the years ended September 30, 2014 and 2013.

The Hospital purchased \$155,786,000 and \$88,481,000 in management, administrative, and staffing services from the LLC during the years ended September 30, 2014 and 2013, respectively.

(3) Cash and Cash Equivalents

The Board approves, by resolution, all banks or other financial institutions utilized as depositories for UAB funds. Prior to approval, each proposed depository must provide evidence of its designation by the Ala-

bama state treasurer as a qualified public depository under the Security for Alabama Funds Enhancement Act (SAFE). From time to time, the Board may request that the depository provide evidence of its continuing designation as a qualified public depository. In the past, the bank pledged collateral directly to each individual public entity. Under the mandatory SAFE program, each qualified public depository (QPD) is required to hold collateral for all its public deposits on a pooled basis in a custody account established for the State Treasurer as SAFE administrator. In the unlikely event a public entity should suffer a deposit loss due to QPD insolvency or default, a claim form would be filed with the state treasurer, who would use the SAFE pool collateral or other means to reimburse the loss.

The System sponsors a short-term investment pool for the System entities to invest operating cash reserves. The Short-Term Fund is invested in a treasury obligation money market fund managed by Federated. As of September 30, 2014, the University, within the Short-Term Fund, had approximately \$138,200,000, all of which was invested in the money market fund. As of September 30, 2013, the University had approximately \$118,900,000 in the Short-Term Fund, all of which was invested in the money market fund. The assets held in the money market fund are presented in cash and cash equivalents and restricted cash and cash equivalents. As of September 30, 2014 and 2013, respectively, UAB had cash and cash equivalents totaling \$371,960,135 and \$339,152,287.

(4) Investments

The Board has the responsibility for the establishment of the investment policy and the oversight of the investments for the System and related entities. In order to facilitate System-wide investment objectives and achieve economies of scale, the Board has established four distinct investment pools based primarily on the projected investment time-horizons for System funds. These investment pools are the Endowment Fund, Prime Fund, Intermediate Fund and the Short-Term Fund (collectively, the “System Pools”). Pursuant to Board investment policies, each System or related entity may include all or a portion of their investments within the System sponsored investment pools. These investment funds are considered ‘internal’ investment pools under GASB Statement No. 31, with the assets pooled on a market value basis. Separately managed funds that are resident with each entity are to be invested consistent with the asset mix of the corresponding System investment pool.

UAB applies the same investment policies for separately held investments as those of the System Pools.

The following disclosures relate to both the System Pools, which include the investments of other System entities and other affiliated entities, and the UAB-specific investment portfolio.

Endowment Fund

The purpose of the Endowment Fund is to pool endowment and similar funds to support the System campuses, the Hospital and related entities in carrying out their respective missions over a perpetual time frame. Accordingly, the primary investment objectives of the Endowment Fund are to preserve the purchasing power of the principal and provide a stable source of perpetual financial support to the endowment beneficiaries. To satisfy the long-term rate of return objective, the Endowment Fund relies on a total return strategy in which investment returns are achieved through both capital appreciation and natural income. Asset allocation targets are established to meet return objectives while providing adequate diversification in order to minimize investment volatility. As discussed in Note 1, certain investments within the Endowment Fund are valued at cost, unless impaired. UAB’s portion of investments in the Endowment Fund which are measured at cost totaled approximately \$42,700,000 and \$40,600,000 at September 30, 2014 and 2013, respectively.

Prime Fund

The Prime Fund is a longer-term fund used as an investment vehicle to manage operating reserves with a time horizon of seven to ten years. This fund has an investment objective of growth and income and is invested in a diversified asset mix of liquid and semi-liquid securities. This fund is not currently invested in long-term lockup funds with illiquid assets. As discussed in Note 1, certain investments in the Prime Fund are valued at cost, unless impaired. UAB’s portion of investments which are measured at cost totaled approximately \$6,600,000 at September 30, 2014 and 2013, respectively.

Intermediate Fund

The Intermediate Fund serves as an investment vehicle to manage operating reserves with a time horizon of two to six years. This fund is also used to balance the other funds when looking at the System’s entire asset allocation of operating reserves relative to its investment objectives. The Intermediate Fund has an investment objective of income with preservation of capital and is invested in intermediate term fixed income securities. System policy states that at least one of the Intermediate Fund investment managers must be a large mutual fund providing daily liquidity.

Short-Term Fund

The Short-Term Fund contains the short-term operating reserves of the various System entities. Because of the different income and disbursement requirements of each entity, consolidation of these funds reduces daily cash fluctuations and minimizes the amount of short-term cash reserves needed. Assets held in the Short-Term Fund are invested with the primary objective of stability of principal and liquidity. Such investments are restricted to high quality, liquid, money market funds and other fixed income obligations with a maturity of one year or less. Refer to Note 3 for additional information related to the Short-Term Fund.

At the September 2014 Investment Committee meeting of The Board of Trustees of The University of Alabama, the committee approved the consolidation of three working capital pools to two and a name change for these investment pools. The Intermediate Fund will be renamed the Short Term Liquidity Pool (STLP) and the Prime Investment Fund will be renamed the Long Term Reserve Pool (LTRP). The Short Term Fund (Federated Account) will become part of the Short Term Liquidity Pool. The name changes became effective for October 1, 2014.

Although the investment philosophy of the Board is to minimize the direct ownership of investment vehicles, preferring ownership in appropriate investment fund groups, there are certain direct investments that are held in the name of the Board. All other investments in the System Pools are classified as commingled funds.

The composition of investments, by investment type, for the System Pools at September 30, 2014 is as follows:

September 30, 2014								
	ENDOWMENT FUND		PRIME FUND		INTERMEDIATE FUND		SHORT TERM FUND

Investment Risk Factors

There are many factors that can affect the value of investments. Some, such as custodial credit risk, concentration of credit risk and foreign currency risk, may affect both equity and fixed income securities. Equity securities respond to such factors as economic conditions, individual company earnings performance and market liquidity, while fixed income securities are particularly sensitive to credit risks and changes in interest rates.

Credit Risk

Fixed income securities are subject to credit risk, which is the chance that a bond issuer will fail to pay interest or principal in a timely manner, or that negative perceptions of the issuer's ability to make these payments will cause security prices to decline. These circumstances may arise due to a variety of factors such as financial weakness, bankruptcy, litigation, and/or adverse political developments. Certain fixed

income securities, primarily obligations of the U.S. government or those explicitly guaranteed by the U.S. government, are not considered to have significant credit risk.

A bond's credit quality is an assessment of the issuer's ability to pay interest on the bond, and ultimately, to pay the principal. Credit quality is evaluated by one of the independent bond-rating agencies, for example Moody's Investors Service (Moody's) or Standard and Poor's (S&P). The lower the rating, the greater the chance—in the rating agency's opinion—that the bond issuer will default, or fail to meet its payment obligations. Generally, the lower a bond's credit rating, the higher its yield should be to compensate for the additional risk.

Board policy recognizes that a limited amount of credit risk, properly managed and monitored, is prudent and provides incremental risk adjusted return over its benchmark. Credit risk in each investment pool is managed primarily by diversifying across issuers and

limiting the amount of portfolio assets that can be invested in non-investment grade securities. Fixed income holdings in a single entity (excluding obligations of the U.S. government and its agencies) may not exceed 5% of a manager's portfolio measured at market value. At least 95% of these fixed income investments must be in investment grade securities (securities with ratings of BBB- or Baa3) or higher. However, multi-strategy fixed income managers may have up to 20% of their investments in non-investment grade securities. Securities of foreign entities denominated in U.S. dollars are limited to 10% of a manager's portfolio. Securities denominated in currencies other than U.S. dollars are not permissible unless part of a multi-strategy fixed income account where the limitation is 20% of the manager's portfolio.

The investment policy recognizes that credit risk is appropriate in balanced investment pools such as the Endowment and Prime Funds, which are tracked against the Barclays Government Credit Index for U.S. investments and the Citigroup WGBI Index for international investments benchmarks for the fixed income portion of these pools. Fixed income investments within the Endowment and Prime Funds include corporate, mortgage backed, asset backed and U.S. treasury and/or agency bonds with a minimum BBB- rating and an average duration of four years. In addition, approximately \$1,512,000 and \$0 in the Endowment and Prime Funds, at September 30, 2014 and 2013, is invested in unrated fixed income securities, excluding fixed income commingled funds. Fixed income commingled funds were approximately \$326,600,000 and \$317,200,000 in the Endowment

and Prime Funds, at September 30, 2014 and 2012, respectively.

The Intermediate Fund is benchmarked against the 1-3 Year Barclays Government Credit Index with funds invested with four separate fund managers. Fixed income investments include corporate, mortgage backed, asset backed, collateralized mortgage and U.S. treasury and/or agency bonds with an average minimum rating of BB or higher. For September 30, 2014 and 2013, approximately \$64,912,000 and \$135,800,000, respectively, was invested by the Intermediate Fund in unrated fixed income securities, excluding commingled bond funds, money market funds and commercial paper. Fixed income commingled funds and commercial paper totaled approximately \$178,200,000 and \$151,300,000 at September 30, 2014 and 2013, respectively. For September 30, 2014 and 2013, \$0 and \$8,100,000, respectively, was invested by the Intermediate Fund in certificates of deposit.

The Short-Term Fund is committed to immediate liquidity to meet the operating needs of the System campuses and the Hospital. The Short-Term Fund is invested in a money market fund, which in turn invests mostly in U.S. Treasury Securities and repurchase agreements that are collateralized by U.S. Treasury Securities. These funds are all commingled with funds of other investors. Refer to Note 3 for additional information related to the Short-Term Fund.

The credit risk for fixed and variable income securities, for the System Pools, at September 30, 2014 and 2013 is as follows:

September 30, 2014 and 2013

	ENDOWMENT FUND		PRIME FUND		INTERMEDIATE FUND		SHORT TERM FUND

Custodial Credit Risk

Custodial credit risk is the risk that in the event of the corporate failure of the custodian, the investment securities may not be returned.

Investment securities in the System Pools and UAB's separately held investments are registered in the Board's name by the custodial bank as an agent for the System. Other types of investments (e.g. open-ended mutual funds, money market funds) represent ownership interests that do not exist in physical or book-entry form. As a result, custodial credit risk is remote.

Concentration of Credit Risk

Concentration of credit risk is the risk associated with a lack of diversification, such as having substantial investments in a few individual issuers, thereby exposing the organization to greater risks resulting from adverse economic, political, regulatory, geographic, or credit developments.

As previously mentioned, credit risk in each investment pool and UAB's separately held portfolio is managed primarily by diversifying across issuers and limiting the amount of portfolio assets that can be invested in non-investment grade securities. As of September 30, 2014 and 2013, there was no investment in a single issuer that represents 5% or more of

total investments held by any single investment manager of the System Pools or UAB's separately held investment portfolio except for investments issued by the U.S. government and money market investments held by the Short Term Fund.

Interest Rate Risk

Interest rate risk is the risk that the value of fixed income securities will decline because of changing interest rates. The prices of fixed income securities with a longer time to maturity, measured by effective duration, tend to be more sensitive to changes in interest rates and, therefore, more volatile than those with shorter durations. Effective duration is the approximate change in price of a security resulting from a 100 basis point (1 percentage point) change in the level of interest rates. It is not a measure of time. The Board does not have a specific policy relative to interest rate risk. As such, there are no restrictions on weighted average maturity for each portfolio as they are managed relative to the investment objectives and liquidity demands of the investors.

The information presented does not take into account the relative weighting of the portfolio components to the total portfolio. The effective durations for fixed or variable income securities, for the System Pools at September 30, 2014 and 2013 are as follows:

	ENDOWMENT FUND		PRIME FUND		INTERMEDIATE FUND	
	2014	2013	2014	2013	2014	2013
U.S. Government Obligations	7.1	5.6	6.5	5.4	3.2	1.8
Corporate Bonds	3.8	4.2	3.8	4.2	1.9	1.5
Commingled Bond Funds	2.3	1.5	2.2	2.3	2.8	2.3
Non-U.S. Bonds					1.9	1.5
Municipal Government Obligations						0.2

There are no fixed or variable income securities in the Short-Term Fund at September 30, 2014 and 2013.

While the Board does not have a specific policy relative to interest rate risk, UAB has historically invested funds outside of the investment pools in fixed income and variable income securities with short maturity terms.

The effective durations for fixed or variable income securities for UAB's separately held investments at September 30, 2014 and 2013 are as follows:

	2014	2013
Commingled Bond Funds	3.1	3.0
U.S. Government Obligations	0.6	1.1

Investments may also include mortgage pass through securities and collateralized mortgage obligations that may be considered to be highly sensitive to changes in interest rates due to the existence of prepayment or conversion features. At September 30, 2014 and 2013, the fair market values of these investments in the System Pools are as follows:

	INTERMEDIATE FUND	
	2014	2013
Mortgage Backed Securities	\$ 107,336,734	\$ 120,283,662
Collateralized Mortgage Obligations	36,037,561	50,078,274
TOTAL	\$ 143,374,295	\$ 170,361,936

Mortgage Backed Securities. These securities are issued by the Federal National Mortgage Association (Fannie Mae), Government National Mortgage Association (Ginnie Mae) and Federal Home Loan Mortgage Association (Freddie Mac) and include short embedded prepayment options. Unanticipated prepayments by the obligees of the underlying asset reduce the total expected rate of return.

Collateralized Mortgage Obligations. Collateralized mortgage obligations (CMOs) generate a return based upon either the payment of interest or principal on

mortgages in an underlying pool. The relationship between interest rates and prepayments makes the fair value highly sensitive to changes in interest rates. In falling interest rate environments, the underlying mortgages are subject to a higher propensity of prepayments. In a rising interest rate environment, the opposite is true.

At September 30, 2014 and 2013, the effective durations for these securities held in the System Pools are as follows:

September 30, 2014 and 2013

	INTERMEDIATE FUND	
	2014	2013
Mortgage backed securities	1.3	0.7
Collateralized mortgage obligations	1.0	1.0

There are no mortgage backed securities or CMOs in the Short Term Fund at September 30, 2014 and 2013.

There are no mortgage backed securities or CMOs in UAB's separately held investments at September 30, 2014 and 2013.

Foreign Currency Risk

The strategic asset allocation policy for the Endowment Fund, the Prime Fund, and UAB's separately held investments includes an allocation to non-United States equity and fixed income securities. Each international equity manager must hold a minimum of 30 individual stocks with equity holdings in a single company remaining below 8% of the investment manager's portfolio, measured at market value. Currency hedging of foreign bonds and stocks is allowed under System policy. As of September 30, 2014 and 2013, all foreign investments in the System Pools and UAB's separately held investments are denominated in U.S. dollars and are in international commingled funds, which in turn invest in equity securities and bonds of foreign issuers except for approximately \$86.7 million and \$1.0 million of foreign bonds denominated in U.S. dollars and held by the Intermediate Fund at September 30, 2014 and 2013, respectively.

Securities Lending

Board policies permit security lending as a mechanism to augment income. Loans of the securities are required to be collateralized by cash, letters of credit or securities issued or guaranteed by the U.S. Government or its agencies. The collateral must equal at least 102% of the current market value of the loaned securities. Securities lending contracts must state acceptable collateral for securities loaned, duties of the borrower, delivery of loaned securities and acceptable investment of the collateral.

At September 30, 2014 and 2013, there were no securities on loan from the investment pools.

Joint Ventures

UAB accounts for its ownership of the PLTF as a joint venture, using the equity method in the amount of approximately \$52,840,000 and \$50,450,000 at September 30, 2014 and 2013, respectively. See Note 19 for further discussion of the PLTF.

(5) Accounts Receivable

The composition of accounts receivable at September 30, 2014 and 2013 is summarized as follows:

	2014	2013
Patient care	\$ 317,171,578	\$ 316,232,867
Receivables from sponsoring agencies	59,548,780	59,222,421
Student accounts	25,414,127	21,573,744
Other	31,969,258	26,063,161
	\$ 434,103,743	\$ 423,092,193
Less: Provision for doubtful accounts from patient care	152,833,331	159,237,478
Less: Provision for doubtful accounts from student accounts	774,293	1,556,559
Less: Provision for doubtful accounts other	1,154,053	1,546,473
Total accounts receivable	\$ 279,342,066	\$ 260,751,683

(6) Loans and Pledges Receivable

The composition of loans and pledges receivable at September 30, 2014 and 2013, is summarized in the following table.

The principal repayment and interest rate terms of federal and university loans vary considerably. The allowance for doubtful accounts only applies to University-funded notes and the University portion of

federal student loans, since the University is not obligated to fund the federal portion of uncollected student loans. Federal loan programs are funded principally with federal advances to UAB under the Perkins and various health professions loan programs.

Pledges for permanent endowments do not meet eligibility requirements, as defined by GASB Statement No. 33, until the related gift is received. Due to uncertainties with regard to their realization and valuation, bequest intentions and other conditional promises are not recognized as assets until the specified conditions are met.

	2014	2013
LOANS RECEIVABLE:		
Federal loan program	\$ 16,982,788	\$ 17,367,247
University loan funds	2,092,549	1,999,468
Other	1,226,687	992,312
Total loans receivable	\$ 20,302,024	\$ 20,359,027
Less allowance for doubtful accounts	2,884,344	2,460,058
Total loans receivable, net	\$ 17,417,680	\$ 17,898,969
Less: current portion	2,473,999	2,312,259
Total loans receivable outstanding, noncurrent	\$ 14,943,681	\$ 15,586,710
GIFT PLEDGES OUTSTANDING:		
Operations	\$ 25,981,904	\$ 12,344,563
Capital	7,684,584	7,308,139
Total gift pledges	\$ 33,666,488	\$ 19,652,702
Less: current portion	13,530,960	8,315,206
Total gift pledges, noncurrent	\$ 20,135,528	\$ 11,337,496

(7) Capital Assets

Capital assets activity for the years ended September 30, 2014 and 2013 is summarized below:

Net interest costs capitalized for the University and Component Units in 2014 and 2013, respectively, were approximately \$4,266,000 and \$2,717,000 (net of \$577,000 and \$1,240,000 investment earnings in 2014 and 2013, respectively). There were no net interest costs capitalized in 2014 or 2013 for the Hospital.

September 30, 2014

(8) Long-Term Debt

Long-term debt activity for the years ended September 30, 2014 and 2013 is summarized as follows:

A portion of UAB's long term debt has been issued with variable interest rates. The interest rates are determined in accordance with the individual related indenture of the related outstanding debt. UAB's bonds are collateralized by pledged revenues as defined in the applicable indentures.

2040-2044	125,460,000	8,172,628		133,632,628
TOTAL UAB	\$ 933,459,098	\$ 515,533,906	\$	1,448,993,004

See Note 10 for information regarding the pledged revenues, associated with certain outstanding debt.

The University defeased certain indebtedness during fiscal year 2013 by depositing funds in escrow trust accounts sufficient to provide for the subsequent payment of principal and interest on the defeased indebtedness. Under the trust agreements, all funds deposited in the trust accounts are invested in obligations of the U.S. government. Neither the assets of the trust accounts nor the defeased indebtedness are included in the accompanying statement of net assets as of September 30, 2014 and 2013. There was no principal outstanding on the defeased indebtedness at September 30, 2014. The principal outstanding on the defeased indebtedness at September 30, 2013, was approximately \$49,840,000, which all related to the University.

The Hospital Revenue Bonds Series 2012B and 2012C bonds include a demand obligation feature that allows the bondholder to tender the bonds back to the Hospital at any date. The Hospital has obtained letters of credit ("LOC") for each of the Series 2012B and 2012C bonds to repay any tendered amounts in the event the remarketing agent is unable to resell the bonds in the allotted time (7 days from the notice of intent to tender). The LOC for the 2012B bond expires on October 30, 2015 and the LOC for the 2012C bond expires on July 30, 2017. Under the terms of the 2012B LOC, no principal amounts are due during the remarketing period, which is 367 days following the date of any draw on the LOC. Thereafter, any amount drawn is payable in quarterly installments over a two-year period. Under the terms of the 2012C LOC, no principal amounts

are due for one year subsequent to the date of any draw on the LOC. Thereafter, any amount drawn converts to a term loan that is payable in quarterly installments over a two-year period.

In March 2013, the University issued \$19,195,000 in Series 2013A-1 General Revenue Bonds. The bonds pay interest at a rate of 1.1% with principal due annually through October 1, 2020. The proceeds of this offering are being used for the purposes of constructing facilities, additions, and improvements at UAB; funding capitalized interest on a portion of the Series 2013A-1 Bonds through October 1, 2015; and paying costs and expenses associated with this issue. In March 2013, the University issued \$72,595,000 in Series 2013A-2 General Revenue Bonds. The bonds pay interest at varying rates of 2.25% to 5.0% with principal due annually through October 1, 2043. The proceeds of this offering are being used for the purposes of constructing facilities, additions, and improvements at UAB; funding capitalized interest on a portion of the Series 2013A-2 Bonds through October 1, 2015; and paying costs and expenses associated with this issue. In March 2013, the University issued \$45,190,000 in Series 2013B General Revenue Bonds. The bonds pay interest at a rate of 1.99% with principal due annually through October 1, 2029. The proceeds of this offering are being used for the purposes of advance refunding Series 2003A General Revenue Bonds; and paying costs and expenses associated with this issue. In March 2013, the University issued \$3,095,000 in Series 2013C General Revenue Bonds. The bonds pay interest at varying rates of 1.0% to 1.45% with principal due annually through October 1, 2019. The proceeds

of this offering are being used for the purposes of advance refunding Series 2003A General Revenue Bonds; and paying costs and expenses associated with this issue. These bonds were issued at a premium of \$2,104,514 resulting in total cash received of \$142,179,514.

In August 2013, the University issued \$20,425,000 in Series 2013D-1 General Revenue Bonds. The bonds pay interest at a rate of 1.97% with principal due annually through October 1, 2023. The proceeds of this offering are being used for the purposes of constructing housing facilities, as well as purchasing two existing housing facilities; funding capitalized interest on a portion of the Series 2013D-1 Bonds through October 1, 2015; and paying costs and expenses associated with this issue. In August 2013, the University issued \$78,325,000 in Series 2013D-2 General Revenue Bonds. The bonds pay interest at varying rates of 4.0% to 5.0% with principal due annually through October 1, 2043. The proceeds of this offering are being used for the purposes of constructing housing facilities, as well as purchasing two existing housing facilities; funding capitalized interest on a portion of the Series 2013D-2 Bonds through October 1, 2015; and paying costs and expenses associated with this issue. These bonds were issued at a premium of \$1,141,688 resulting in total cash received of \$99,891,688.

UAB's general revenue bonds and the Hospital Series 2004A, 2006A, 2008A, 2012A, 2012B, and 2012C Revenue Trust Indentures contain certain restrictive financial covenants. UAB was in compliance with these covenants at September 30, 2014 and 2013.

(9) Other Noncurrent Liabilities

The activity with respect to other noncurrent liabilities for the year ended September 30, 2014 and 2013, is as follows for UAB:

September 30, 2014

	BEGINNING BALANCE	ADDITIONS	DEDUCTIONS	ENDING BALANCE
Advances federal loans	\$ 14,727,477	\$ 200,863	\$ (369,216)	\$ 14,559,124
Unearned revenue	14,120,932		(228,422)	13,892,510
Other noncurrent liabilities	2,301,951	109	(246,101)	2,055,959
Total advances federal loans and other noncurrent liabilities	\$ 31,150,360	\$ 200,972	\$ (843,739)	\$ 30,507,593

September 30, 2013

	BEGINNING BALANCE	ADDITIONS	DEDUCTIONS	ENDING BALANCE
Advances federal loans	\$ 14,925,390	\$ 161,028	\$ (358,941)	\$ 14,727,477
Unearned revenue	14,349,359		(228,427)	14,120,932
Other noncurrent liabilities	1,473	2,301,066	(588)	2,301,951
Total advances federal loans and other noncurrent liabilities	\$ 29,276,222	\$ 2,462,094	\$ (587,956)	\$ 31,150,360

(10) Pledged Revenues

Pledged revenues for 2014 and 2013, as defined by the Series 2006A, 2008A, 2012A, 2012B and 2012C Hospital Revenue Trust Indentures, are as follows:

HOSPITAL BONDS	2014	2013
Total pledged revenues	\$ 1,398,810,758	\$ 1,295,916,857

Pledged revenues for 2014 and 2013, as defined by the Series 2005A, 2005B, 2010A, 2010B, 2010C, 2013A, 2013B, 2013C and 2013D General Revenue Trust Indentures, are as follows:

UNIVERSITY BONDS	2014	2013
Tuition fees	\$ 213,508,162	\$ 193,958,793
Indirect cost recovery	75,033,940	76,305,429
Sales and service of educational activities	59,147,027	58,133,856
Auxiliary sales and service	31,380,641	23,792,255
Endowment and investment income	33,292,859	29,808,601
Other sources	50,607,828	35,458,475
TOTAL PLEDGED REVENUES	\$ 462,970,457	\$ 417,457,409

(11) Employee Benefits

Retirement and Pension Plans

Most employees of the University, the Hospital, and UABRF participate in the Teachers' Retirement System of Alabama (TRS), a cost-sharing, multiple-employer public retirement system. Certain employees also participate in an optional 403(b) plan (403(b) Plan). TRS is a defined benefit plan and the 403(b) Plan is a defined contribution plan. The TRS was established as of September 15, 1939, under the provisions of Act 419 of the Legislature of 1939 for the purpose of providing retirement allowances and other specified benefits for qualified persons employed by State-supported educational institutions. The responsibility for the general administration and operation of the TRS is vested in its Board of Control.

Participants in TRS hired before January 1, 2013 are designated as Tier 1 participants. Tier 1 participants who retire at age 60 with 10 years of credited service, or after completing 25 years of credited service, regardless of age, are entitled to an annual benefit, payable monthly for life. Service retirement benefits are calculated by three methods, with the participants receiving payments under the method which yields the highest monthly benefit. These methods include (1) minimum guaranteed, (2) money purchase, or (3) formula. Under the formula method, participants are allowed 2.0125% of their final average salary (average of three highest years of annual compensation during the last 10 years of service) for each year of service. A participant terminating before reaching retirement age, but after completing 10 years of credited service, is eligible for a vested allowance at age 60 provided accumulated employee contributions are not withdrawn. TRS also provides death and disability benefits.

During 2013, TRS created a Tier 2 Defined Benefit plan for all participants hired on or after January 1, 2013. New participants pay lower contribution rates, but will not be able to draw a retirement benefit until they reach age 62.

Covered employees are required by statute to contribute to TRS. UAB, as the employer, contributes to TRS. The contribution requirements for fiscal years 2014, 2013, and 2012, respectively, were approximately \$147,975,000, \$138,146,000, and \$137,065,000, which consisted of \$90,532,000, \$79,253,000, and \$79,548,000 from UAB and \$57,443,000, \$58,893,000, and \$57,607,000 from employees. UAB's contribution rate for the years ended September 30, 2014 and 2013 was 11.71%

and 10.08% for Tier 1 covered employees, respectively, and 11.08% and 9.44% for Tier 2 employees, respectively. UAB's contribution was 10% of salaries and wages for covered employees in 2012. Tier 1 covered employees (except for law enforcement employees) were required by statute to contribute 7.5% in both 2014 and 2013, and 7.25% in 2012 of earned compensation to TRS. The contribution by Tier 1 law enforcement employees was 8.5% in both 2014 and 2013, and 8.25% in 2012 of earned compensation. Tier 2 covered employees (except for law enforcement employees) were required by statute to contribute 6.0% of earned compensation to TRS in 2014 and 2013. The contribution by Tier 2 law enforcement employees was 7.0% of earned compensation in 2014 and 2013. All regular employees of UAB are members of TRS, with the exception of temporary employees who, by definition, are those employees hired for a predetermined period of employment of less than one year and employees working less than one half of a regular schedule.

The actuarial accrued liability ("AAL"), which is the actuarial present value of credited projected benefits, is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The actuarial value of assets, which is the actuarial present value of assets, is a standardized disclosure measure of the present value of accumulated assets, adjusted for projected investment performance and contributions. TRS does not make separate measurements of assets and the AAL for individual employers. The AAL and the actuarial valuation of assets at September 30, 2013 (the most recent valuation date) for TRS as a whole, determined through actuarial valuations performed as of that date, were \$29.7 billion and \$19.7 billion, respectively, resulting in an underfunded AAL of \$10.0 billion. Complete financial presentation and disclosure of the financial position and activities of the TRS are presented in the September 30, 2013, annual financial report of TRS. That report is publicly available and may be obtained by contacting TRS.

As previously noted, some employees participate in the optional 403(b) Plan, which is a defined contribution plan. In defined contribution plans, benefits depend solely on amounts contributed plus investment earnings. All full-time regular monthly employees are eligible to participate from the date of employment. UAB contributes a matching amount of up to 5% of total salaries for participating employees. UAB's contribution is funded as it accrues and, along with that of the employee, is immediately and fully vested. The

contributions for 2014 and 2013, respectively, excluding employee amounts not eligible for matching, were approximately \$37,935,000 and \$34,307,000 which included approximately \$18,967,000 and \$17,154,000 each from UAB and its employees.

The University, the Hospital, LLC and UABRF total salaries and wages for fiscal years 2014 and 2013, respectively, were approximately \$1,016,856,000 and \$967,667,000. Total salaries and wages during fiscal years 2014 and 2013 for covered employees participating in TRS were approximately \$773,118,000 and \$786,243,000, respectively. Total salaries and wages during fiscal years 2014 and 2013 for covered employees participating in the 403(b) Plan were approximately \$398,918,000 and \$360,771,000, respectively.

Triton sponsors a 401(k) plan covering substantially all employees who have completed at least six months of service. Information regarding this benefit is presented in Triton's annual report.

The LLC sponsors a voluntary 403(b) retirement plan for eligible employees. The 403(b) plan is a voluntary, defined-contribution, tax-deferred as well as Roth after tax plan governed by Internal Revenue Code 403(b). Eligible employees can choose between both TIAA and VALIC for investments. Employees are vested after 3 years of employment. Eligibility for matching is for all full-time and part-time regular, twelve-hour shift, and weekend staff employees.

Compensated Absences

Certain UAB employees accumulate vacation and sick leave at varying rates depending upon their years of continuous service and their payroll classification, subject to maximum limitations. Upon termination of employment, employees are paid all unused accrued vacation at their regular rate of pay up to a designated maximum number of days. In accordance with GASB Statement No. 16, *Accounting for Compensated Absences*, the financial statements include accruals of approximately \$77,372,000 and \$74,064,000 as of September 30, 2014 and 2013, respectively, for accrued vacation pay and salary-related payments associated with vacation pay. There is no such accrual recognized for sick leave benefits because there is no terminal cash benefit available to employees for accumulated sick leave.

(12) Other Postemployment Benefits

UAB offers other postemployment health care benefits (OPEB) to all employees who officially retire from UAB. Health care benefits are offered through the Alabama Retired Education Employees Health Core Trust Plan (PEEHIP) with TRS or certain retired employees may elect to continue to participate in UAB's group health plan until they are eligible for Medicare by paying the full cost of the plan premium. Retired employees age 65 or older who are eligible for Medicare must enroll in the Medicare Coordinated Plan under which Medicare is the primary insurer and UAB's health care plan becomes the secondary insurer. Despite the availability of the UAB plan, most retirees elect to participate in the PEEHIP with TRS, in which case the retirees pay a portion of the PEEHIP premium, with UAB paying an allocation towards the cost of retiree coverage.

Certain retirees may also elect to continue their basic term life insurance coverage and accidental death and dismemberment insurance up to certain maximum amounts. The retirees pay the full amount of the premiums in such cases. Retirees are not eligible for tuition assistance benefits themselves. However, their unmarried dependent children may qualify in some cases.

PEEHIP is a cost-sharing multiple-employer defined benefit OPEB plan administered by the Public Education Employee Health Insurance Board. PEEHIP offers a basic hospital/medical plan that provides basic medical coverage for up to 365 days of care during each hospital confinement. The basic hospital/medical plan also provides for physicians' benefits, outpatient care, prescription drugs, and mental health benefits. Major medical benefits under the basic hospital/medical plan are subject to a lifetime contract maximum of \$1,000,000 for each covered individual. The financial report for PEEHIP can be obtained by contacting TRS. The Code of Alabama 1975, Section 16-25-A-8 provides authority to set the contribution requirements for retirees and employers. The required contribution rates of retirees are as follows as of September 30, 2014 and 2013, respectively:

Retired Member Rates

- Individual Coverage/Non-Medicare Eligible - \$151
- Family Coverage/Non-Medicare Eligible Retired Member and Non-Medicare Eligible Dependent(s) - \$391

- Family Coverage/Non-Medicare Eligible Retired Member and Dependent Medicare Eligible - \$250
- Individual Coverage/Medicare Eligible Retired Member - \$10
- Family Coverage/Medicare Eligible Retired Member and Non-Medicare Eligible Dependent(s) - \$250
- Family Coverage/Medicare Eligible Retired Member and Dependent Medicare Eligible - \$109

The required contribution rates of the employer were \$356 and \$336 per employee per month in the years ended September 30, 2014 and 2013, respectively. 100% of 2014 and 2013 contributions were paid in 2014 and 2013, respectively. UAB contributed \$18,081,000 and \$16,071,600 to PEEHIP in 2014 and 2013, respectively. The required contribution rate is determined by PEEHIP in accordance with State statute.

The UAB Plan is considered a single-employer plan and consists of hospital benefits, major medical benefits, a prescription drug program and a basic term life insurance up to an established maximum policy limit. The health care benefits cover medi-

cal and hospitalization costs for retirees and their dependents. The portion of the UAB plan related to health care may be amended by the approval of the President of UAB upon recommendation from the Benefits Committee. The portion of the UAB plan related to the life insurance may be amended by the System.

Employees included in the actuarial valuation include active employees, retirees and disabled employees enrolled in the medical plan and retirees not enrolled in the medical plan with retiree life insurance. Expenditures for postretirement health care benefits are paid monthly on a pay-as-you-go basis.

In accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, UAB accrued an additional \$3,065,896 and \$4,288,767 in retiree healthcare and benefit expense during the years ended September 30, 2014 and 2013, respectively.

The UAB Plan does not issue a stand-alone financial report.

UAB's annual retiree health and life insurance benefit expense and related information for the years ended September 30, 2014 and 2013 is as follows:

		2014		2013		2012
Annual required contributions	\$	6,800,515	\$	9,194,860	\$	10,342,567
Interest on obligations for retiree benefits		1,427,882		1,127,669		728,677
Adjustment to annual required contribution		(1,087,980)		(859,231)		(555,218)
Annual retiree benefit costs		7,140,417		9,463,298		10,516,026
UAB Contributions		(4,074,521)		(5,174,531)		(3,373,676)
Increase in obligations for retiree benefits		3,065,896		4,288,767		7,142,350
Obligations for retiree benefits, beginning of year		20,398,316		16,109,549		8,967,199
Total obligations for retiree benefits, end of year	\$	23,464,212	\$	20,398,316	\$	16,109,549

The annual retiree benefit cost, percentage of the annual retiree benefit cost contributed to the retiree benefit plan and the net obligation for retiree ben-

efits for UAB for year ended September 30, 2014 and 2013 are as follows:

		2014		2013		2012
Annual retiree benefit cost	\$	7,140,417	\$	9,463,298	\$	10,516,026
Percentage of annual cost contributed		57.06%		54.68%		32.08%
Net obligation to the retiree benefit plan	\$	23,464,212	\$	20,398,316	\$	16,109,549

Funded Status

Actuarial valuations represent a long-perspective and involve estimates of the value of report amounts and assumptions about the probability of occurrence of events into the future. Examples include assumptions about future employment, mortality, investment return and health care cost trends. Actuarially determined amounts are subject to peri-

odic revisions as actual rates are compared with past expectations and new estimates are made about the future.

The funded status of the plan as of October 1, 2013, 2012 and 2011 was as follows:

	2014	2013	2012
Actuarial accrued liability	\$ 47,438,259	\$ 46,446,404	\$ 44,358,077
Actuarial value of plan assets			
Unfunded actuarial accrued liability	\$ 47,438,259	\$ 46,446,404	\$ 44,358,077
Funding ratio	Zero	Zero	Zero
Covered payroll	\$ 889,980,309	\$ 967,667,454	\$ 921,253,387
Unfunded actuarial accrued liability as a percentage of covered payroll	5.33%	4.80%	4.81%

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based upon the plan as understood by UAB and plan members, and include types of benefits provided at the time of each valuation and the historical cost pattern of sharing of benefit costs between UAB and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Significant actuarial methods and assumptions used in the valuation were:

- actuarial valuation date, October 1, 2013
- actuarial cost method-projected unit cost method;
- assumed return on investment of 7% per year, based on the estimated return on UAB's assets expected to be used to finance benefits;
- health care cost trend rate 7.5% and 9.5% for the years ended September 30, 2014 and September 30, 2013, respectively, reduced by increments to an ultimate rate of 5.0% over years through 2019;
- amortization of the initial unfunded actuarial liability over 30 years on a level percent of pay method with payroll growth rate of 3.25%

(13) Federal Direct Student Loan Program

The Federal Direct Student Loan Program (FDSLPL) was established under the Higher Education Act of

1965, as amended in the Student Loan Reform Act of 1993. The FDSLPL enables an eligible student or parent to obtain a loan to pay for the student's cost of attendance directly through the university rather than through private lenders. UAB began participation in the FDSLPL on July 1, 1994. As a university qualified to originate loans, UAB is responsible for handling the complete loan process, including funds management, as well as promissory note functions. UAB is not responsible for collection of these loans. During the years ended September 30, 2014 and 2013, respectively, UAB disbursed approximately \$132,820,000 and \$130,081,000 under the FDSLPL.

(14) Grants and Contracts

At September 30, 2014 and 2013, UAB had been awarded approximately \$392,433,000 (unaudited) and \$371,572,000 (unaudited) in grants and contracts which had not been expended. These awards, which represent commitments of sponsors to provide funds for specific research, training, and service projects, have not been reflected in the financial statements.

In addition, during fiscal year 2009, the University began receiving and expending federal funding under the American Recovery and Reinvestment Act (ARRA), primarily in the form of sponsored research grants and State Fiscal Stabilization Funds. At September 30, 2014 and 2013, UAB had been awarded approximately \$226,000 (unaudited) and \$7,153,000 (unaudited) in ARRA funding which had not been expended. These awards have not been reflected in the financial statements.

(15) Net Patient Service Revenue

The Hospital has agreements with governmental and other third-party payors that provide for reimbursement to the Hospital at amounts different from its established rates. Contractual adjustments under third-party reimbursement programs represent the difference between the Hospital's billings at established rates for services and amounts reimbursed by third-party payors. A summary of the basis of reimbursement with major third-party payors follows:

Medicare—Substantially all acute-care services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to patient classification systems that are based on clinical, diagnostic, and other factors. Additionally, the Hospital is reimbursed for both its direct and indirect medical education costs (as defined), principally based on per-resident prospective payment amounts and certain adjustments to prospective rate-per-discharge operating reimbursement payments. The Hospital generally is reimbursed for certain retroactively settled items at tentative rates with final settlement determined after submission of annual cost reports by the Hospital and audits by the Medicare fiscal intermediary. The Hospital's cost reports have been audited and settled for all fiscal years through 2009. Revenue from the Medicare program accounted for approximately 26% of the Hospital's net patient service revenue for the years ended September 30, 2014 and 2013.

Section 302 of the Tax Relief and Health Care Act of 2006 authorized a permanent program involving the use of third-party recovery audit contractors ("RACs") to identify Medicare overpayments and underpayments made to providers. As of September 30, 2014, the Hospital reported claims in various stages of review based on the requests received by the RACs during the fiscal year. Payment recoveries resulting from RAC reviews are appealable through administrative and judicial processes, and the Hospital intends to pursue the reversal of adverse determinations, where appropriate. The Hospital cannot predict with certainty the impact of the Medicare RAC program on our future results of operations or cash flows.

Blue Cross—Inpatient services rendered to Blue Cross subscribers are paid at a prospectively determined

per diem rate. Outpatient services are reimbursed at a prospectively determined rate or under a cost reimbursement methodology. The method of reimbursement is determined by the procedures that are performed. For outpatient services reimbursed under a cost reimbursement methodology, the Hospital is reimbursed at a tentative rate with a final settlement determined after submission of annual cost reports by the Hospital and audits thereof by Blue Cross. The Hospital's Blue Cross cost reports have been audited and settled for all fiscal years through 2013. Revenue from the Blue Cross program accounted for approximately 32% and 30% of the Hospital's net patient service revenue for each of the years ended September 30, 2014 and 2013, respectively.

Medicaid—Inpatient services rendered to Medicaid program beneficiaries are reimbursed at all-inclusive prospectively determined per diem rates. Outpatient services are reimbursed based on an established fee schedule. The Hospital is designated as a Disproportionate Share Hospital (DSH) and receives payments under the Medicaid DSH program. The Hospital participates in the Alabama Medicaid Plan and therefore, also receives supplemental payments based on formulas established by the Alabama Medicaid Agency. The net benefit associated with the Hospital's essential provider designation, totaling approximately \$60,581,000 and \$66,864,000 in 2014 and 2013, respectively, is included in net patient service revenue in the accompanying statements of revenues, expenses, and changes in net position. There can be no assurance that the Hospital will continue to qualify for future participation in this program or that the program will not ultimately be discontinued or materially modified.

Revenue from the Medicaid program accounted for approximately 15% and 16% of the Hospital's net patient service revenue for the years ended September 30, 2014 and 2013, respectively.

Other—The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The bases for payments to the Hospital under these agreements include discounts from established charges, capitation, and prospectively determined daily and case rates.

The composition of Hospital operating revenue follows:

	2014	2013
Gross Patient Service Revenue	\$ 5,175,425,934	\$ 4,595,650,176
Less Provision for Contractual and Other Adjustments	(3,720,591,599)	(3,206,091,880)
Less Provision Bad Debts	(247,495,640)	(251,725,723)
Net Patient Service Revenue	\$ 1,207,338,695	\$ 1,137,832,573
Capitation Revenue	61,861,843	56,902,605
Other Operating Revenue	119,206,925	91,832,795
TOTAL HOSPITAL SALES REVENUE	\$ 1,388,407,463	\$ 1,286,567,973

(16) Charity Care

The Hospital maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for

services and supplies furnished under its charity care policy, the estimated cost of those services, and supplies and equivalent service statistics. The following information measures the level of charity care provided during the years ended September 30, 2014 and 2013:

	2014	2013
Approximate charges forgone, based on established rates	\$ 267,860,000	\$ 256,380,000
Percentage of charity charges to total charges	5.2%	5.6%

(17) Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are local residents and are

insured under third-party payor agreements. The mix of receivables from patients and third-party payors at September 30, 2014 and 2013 follows:

	2014	2013
Other	43%	45%
Medicare	19	19
Blue Cross	31	27
Medicaid	7	9
	100%	100%

(18) Construction Commitments and Financing

UAB has contracted for the construction and renovation of several facilities. At September 30, 2014 and 2013, the estimated remaining cost to complete the construction and renovation of these facilities was approximately \$164,339,000 (unaudited) and \$191,823,000 (unaudited), respectively, which is expected to be financed from private gifts, grants, bond proceeds, and UAB reserves.

(19) Risk Management and Self-Insurance

UAB manages risks related to medical malpractice, general liability, and employee health care through a combination of self-insurance, risk pooling arrangements, and commercial insurance coverage.

UAB's medical malpractice liability is managed by PLTF, a professional liability trust fund. PLTF functions as a risk-sharing vehicle for UAB and more than ten nongovernmental organizations. PLTF covers liabilities of the covered parties, including UAB, arising from reported claims, claims that are incurred but not reported, and future costs of handling these claims. The liabilities are generally based on present value actuarial valuations discounted using interest rates from 2% to 5%. The discount rate used in both 2014 and 2013 was 2%. The associated risks of claims are subject to aggregate limits, with excess

liability coverage provided by independent insurers to protect participants against losses should a claim arise that exceeds PLTF coverage limits. Although UAB is the sponsor of PLTF, it is not the predominant participant in the fund.

The PLTF's policy committee establishes the premium rate of participants based on recommendations from consulting actuaries and considering the assumption of risk from the PLTF's date of inception. Premiums paid to the PLTF are provided by UAB, HSF, and other participants. In addition, certain legal and administrative services are provided to the PLTF by the University of Alabama System.

The PLTF agreement requires 10% of all PLTF assets to be held in liquid assets. At September 30, 2014 and 2013, the liquid assets of the PLTF, as defined by the agreement, were in compliance with the agreement.

As discussed in Note 4, UAB accounts for its ownership of the PLTF as a joint venture and it is not included in the table below.

General liability is subject to various claims and aggregate limits, with excess liability coverage provided by an independent insurer. General liability and employee health care claims and expenses are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Those losses include an estimate of claims that have been incurred but not reported and the future costs of handling claims. The general liability liabilities are generally based on actuarial valuations and are reported at present value. The discount rate used for the general liability was 2% in both 2014 and 2013.

Changes in the total self-insured liabilities for the years ended September 30, 2014 and 2013 are presented as follows for UAB:

SELF INSURED LIABILITIES	2014		2013	
Balance, beginning of year	\$	12,678,140	\$	14,531,084
Claims incurred and changes in estimates		68,801,814		72,076,282
Claim payments		(70,719,872)		(73,929,226)
BALANCE, END OF YEAR	\$	10,760,082	\$	12,678,140

(20) Commitments and Contingencies

UAB has sovereign immunity and is, therefore, in the opinion of UAB counsel, immune to ordinary tort actions including those based on medical malpractice or general injury to patients. Consequently, while UAB is sometimes named as defendant in malpractice actions and other actions for injuries arising in the Hospital, it has consistently been dismissed from those lawsuits on the basis of the sovereign immunity doctrine. That doctrine also protects UAB from vicarious liability arising from the negligence of its employees. To the extent that UAB employees are sued in their individual capacity for action related to their official duties within the line and scope of their employment, UAB has defended those actions and paid for any resulting costs through its self-insured trust fund. While UAB is not aware of any impending threat to this doctrine, UAB is a named insured under the terms of the PLTF and GLTF and excess insurance purchased from commercial companies (Note 19). There are some exceptions to the sovereign immunity doctrine, most notably federal court cases arising under the federal constitution or federal statutes.

UAB is engaged in various legal actions in the ordinary course of business. Management does not

believe the ultimate outcome of these actions will have a material adverse effect on the financial statements. However, the settlement of legal actions is subject to inherent uncertainties and it is possible that such outcomes could differ materially from management's current expectations.

Amounts received or receivable from grantor agencies are subject to audit and adjustments by such agencies, principally the United States Government. Any disallowed claims, including amounts already collected, may constitute a liability of UAB. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although UAB expects any such amounts to be immaterial.

(21) Operating Expenses by Function

Total operating expenses by functional classification for the years ended September 30, 2014 and 2013 are as follows for UAB:

September 30, 2014	SALARIES, WAGES, AND BENEFITS	SUPPLIES AND SERVICES	DEPRECIATION AND AMORTIZATION	SCHOLARSHIPS AND FELLOWSHIPS	TOTAL

(22) Segment Reporting

As discussed in Note 1, UAB's two significant identifiable activities that have bonds outstanding where revenue is pledged in support of the bonds are the University and the Hospital.

Condensed financial statement information related to the University and Hospital for the years ended September 30, 2014 and 2013 is as follows:

UNIVERSITY	2014	2013

(24) Recently Issued Pronouncements

The GASB issued Statement No. 66, *Technical Corrections – 2012 – an amendment of GASB Statements No. 10 and No. 62* (GASB 66), in March 2012. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 and AICPA Pronouncements*. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. The adoption of this statement had no material impact on UAB's financial statements.

The GASB issued Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25* (GASB 67), in June 2012. The objective of this Statement is to improve financial reporting by state and local governmental pension plans. This Statement is effective for financial statements for fiscal years beginning after June 15, 2013. The adoption of this statement had no material impact on UAB's financial statements.

The GASB issued Statement No. 68, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 27* (GASB 68), in June 2012. The objective of this Statement is to improve financial reporting by state and local governmental pension plans. This Statement is effective for financial statements for fiscal years beginning after June 15, 2014. The University is currently evaluating the impact that GASB 68 will have on its financial statements, but notes that the adoption of this standard will likely result in a material reduction of UAB's unrestricted net assets.

The GASB issued Statement No. 69, *Government combinations and Disposals of Government Operations* ("GASB 69"), in January 2013. The objective of this Statement is to establish accounting and financial reporting standards related to government combinations and disposals of government operations. This Statement is effective for fiscal years beginning after December 15, 2013. UAB is currently evaluat-

ing the impact, if any, that GASB 69 will have on its financial statements.

The GASB issued Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees* ("GASB 70"), in April 2013. The objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees. This Statement is effective for fiscal years beginning after June 13, 2013. The adoption of this statement had no material impact on UAB's financial statements.

The GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68* ("GASB 71"), in November 2013. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The provisions of this Statement should be applied simultaneously with the provisions of Statement No. 68. UAB is currently evaluating the impact, if any, that GASB 71 will have on its financial statements.

The University of Alabama at Birmingham

Required Supplementary Information

September 30, 2014 and 2013

Required Supplementary Information

The following required supplementary information relates to UAB's single-employer other postemployment benefit plan (OPEB).

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based up the plan as understood by UAB and plan members, and include types of benefits provided at the time of each valuation and the historical cost pattern of sharing of benefit costs between UAB and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Significant actuarial methods and assumptions used in the valuation were :

- actuarial valuation date, October 1, 2013
- actuarial cost method-projected unit cost method;
- assumed return on investment of 7% per year, based on the estimated return on UAB's assets expected to be used to finance benefits;
- health care cost trend rate 7.5% and 9.5% for the years ended September 30, 2014 and 2013, respectively, reduced by increments to an ultimate rate of 5.0% over years through 2019;
- amortization of the initial unfunded actuarial liability over 30 years on a level percent of pay method with payroll growth rate of 3.25%;

Schedule of Funding Progress

RETIREE HEALTH AND LIFE INSURANCE PLAN						
Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability	(Deficit)	Funded Ratio	Annual Covered Payroll	(Deficit)/Covered Payroll
October 1, 2013	None	\$ 47,438,259	\$ (47,438,259)	Zero	\$ 889,980,309	-5.3%
