INDEPENDENT AUDITORS' REPORT

Honorable Lourdes A. Leon Guerrero Governor Government of Guam:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government of Guam (GovGuam) as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise GovGuam's basic financial statements as set forth in Section III of the foregoing table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the GovGuam Retirement Fund, which represents 92%, 94% and 51%, respectively, of the assets, net position/fund balances and revenues of the aggregate remaining fund information, and the Antonio B. Won Pat International Airport Authority, the Guam Housing Corporation, the Guam Economic Development Authority, and the Guam Preservation Trust, which represent 22%, 150% and 9%, respectively, of the assets, net position and revenues of GovGuam's discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the GovGuam Retirement Fund, the Antonio B. Won Pat International Airport Authority, the Guam Housing Corporation, the Guam Economic Development Authority, and the Guam Preservation Trust, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Deloitte.

Opinions

As discussed above, the financial statements of the GovGuam Retirement Fund were audited by other auditors. We audited the reclassification adjustment described in Note 1Q that was applied to revise the GovGuam Retirement Fund financial statements. In our opinion, such reclassification adjustment is appropriate and has been properly applied. However, we were not engaged to audit, review, or apply any procedures to the financial statements of the GovGuam Retirement Fund other than with respect to such reclassification adjustment and, accordingly, we do not express an opinion or any other form of assurance on the financial statements of the GovGuam Retirement Fund taken as a whole.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government of Guam as of September 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

Restatement

As discussed in Note 14K to the financial statements, the beginning net position of the aggregate discretely presented component units has been restated to correct an error.

COVID-19

As discussed in Note 15 to the financial statements, GovGuam determined that the COVID-19 pandemic may negatively impact its financial position. However, due to uncertainty surrounding the duration of the state of emergency, GovGuam is unable to reasonably estimate its ultimate financial impact.

Our opinions are not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 24, the Schedule of Revenues, Expenditures and Changes in Deficit - Budget and Actual - General Fund and notes thereto on pages 128 through 130, the Schedule of Proportionate Share of the Net Pension Liability, on pages 131 through 133, the Schedule of Pension Contributions on page 134, the Schedule of Changes in the Proportionate Share of the Total OPEB Liability and Related Ratios on page 135, the Schedule of Proportionate Share of the Total OPEB Liability on page 136, and the Schedule of OPEB Contributions on page 137, be presented to supplement the basic financial statements. information, although not a part of the basic financial statements, is required by the GASB who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information, in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information, comparing the information for consistency with management's responses to our inquiries of the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Deloitte.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise GovGuam's basic financial statements. The Other Supplementary Information, as set forth in Section V of the foregoing table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Other Supplementary Information is the responsibility of management. The additional information on pages 139 through 150 and 157 through 214 as well as the 2019 information on pages 151 through 156 were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the additional information on pages 139 through 150 and 157 through 214 as well as the 2019 information on pages 151 through 156 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The 2018 information on pages 151 through 156 as well as the information on pages 215 and 216 have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 26, 2020, on our consideration of GovGuam's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of GovGuam's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering GovGuam's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

Our discussion and analysis of the Government of Guam ("GovGuam") financial performance provides an overview on the background and history of GovGuam's financial activities and details for the fiscal year ended September 30, 2019. Please read it in conjunction with GovGuam's financial statements, which follow this section. Fiscal year 2018 comparative information has been included, where appropriate.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to GovGuam's basic financial statements. GovGuam's basic financial statements are comprised of three components: 1) governmental-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains additional required supplementary information in the form of a budgetary schedule, which is prepared on the budgetary basis of accounting, and other optional supplementary information, in addition to the basic financial statements themselves, which include combining statements for governmental funds and component units.

GOVERNMENTAL FUNDS FINANCIAL STATEMENTS

The General Fund is the chief operating fund of GovGuam.

The graph below shows the annual tracking of the Statement of Revenue, Expenditures and Changes in Fund Balances (Deficit) of the General Fund over the last ten years (Graph 1). In 2006, the General Fund deficit reached its largest deficit of \$524 million. Since that time, the Government has achieved a steadily improving trend. This has been managed by maximizing revenues, limiting expenditures and by replacing unfunded current obligations with bonded long-term debt which has structured repayment requirements. This debt represents a level of confidence by outside investors in the ability of GovGuam to manage its responsibilities.

FY2010 \$(321.3) Fund Balance (Deficit) at the End of Year FY2011 \$(303.1) \$125,000,000 FY2012 30.1 \$0 FY2013 2.3 FY2014 \$ (59.6) (\$125,000,000) FY2015 \$(119.1) FY2016 \$(105.7) (\$250,000,000) FY2017 \$ (73.0) FY2018 \$ (83.4) (\$375,000,000) 2010 2011 2012 2013 2014 2015 2016 2017 2018 2019 FY2019 \$ (47.8)

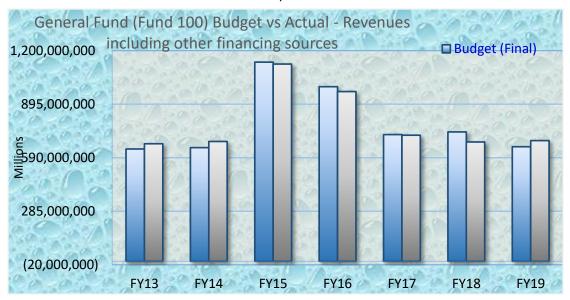

Graph 1

For FY2019, the General Fund generated an excess of revenues over expenditures of \$35.6 million.

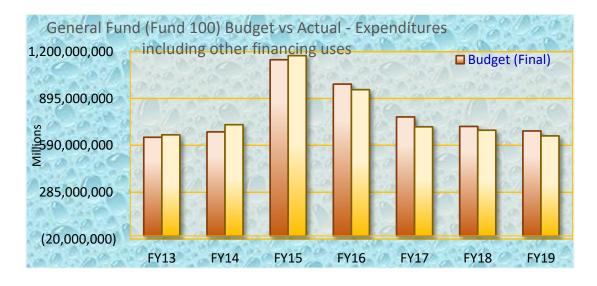

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

• The General Fund is required to assume the burden of any shortfalls in other funds and activities. In FY2014 and FY2015, the increased deficit can be attributed to several factors, including the payment of debt service costs related to the closure of the Ordot landfill facility of Guam Solid Waste Authority (GSWA). Until April 2019, this enterprise was operating under Federal receivership and the Court permitted GSWA to use income received from tipping fees for operations and certain landfill closure expenses, leaving the General Fund to service the debt that had been taken on under Court Order, in support of the landfill closure. Additionally, also unbudgeted, was debt service costs in support of the Guam Department of Education, which also became the responsibility of the General Fund. These excess costs exacerbated deficits also due to unanticipated expenditures and revenue shortfalls.

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

FINANCIAL HIGHLIGHTS

Government-Wide Highlights

- The liabilities and deferred inflows of GovGuam exceeded its assets and deferred outflows of resources at September 30, 2019 by \$2.438 billion (net position). Unrestricted net position, which may be used to meet GovGuam's ongoing obligations to citizens and creditors, was a negative \$3.566 billion, a decrease of \$43.2 million (or 1.2%) from the previous year.
- For the fiscal year ended September 30, 2019, GovGuam's total net position increased by \$40.1 million (1.6%) from a negative \$2.478 billion in the prior year to a negative \$2.438 billion. This was primarily attributable to revenues for governmental activities of \$1.358 billion exceeding expenses for governmental activities of \$1.309 billion.
- The total deferred outflows of resources decreased to \$352.5 million, a \$22 million (or 5.9%) decrease. This was due to the decrease in deferred outflows for OPEB liability and deferred loss on refunding in the amounts of \$23.4 million and \$5.3 million, respectively, offset by the increase in deferred outflows for net pension liability in the amount of \$6.7 million. The total deferred inflows of resources increased to \$561.9 million, a \$374.8 million (or 200%) increase. This was due to the increase in deferred inflows for OPEB liability in the amount of \$382.7 million offset by the decrease in deferred inflows for net pension liability in the amount of \$7.9 million.
- GovGuam's liabilities decreased during the current year to \$4.079 billion, a decrease of \$408.7 million. This decrease was primarily due to the decrease in liabilities associated with OPEB and capital leases offset by an increase in liabilities associated with pensions. In accordance with GASB Statement No. 75, Accounting and Financial Reporting For Postemployment Benefits Other Than Pensions, GovGuam's liability for postemployment benefits other than pension decreased to \$1.275 billion, a decrease of \$394.8 million for the fiscal year ended September 30, 2019. Capital lease obligations associated with municipal school lease agreements decreased to \$168.9 million, a decrease of \$23.2 million for the fiscal year ended September 30, 2019. In accordance with GASB Statement No. 68, Accounting and Financial Reporting For Pensions, GovGuam's liability for pensions increased slightly to \$1.014 billion, an increase of \$8.4 million for the fiscal year ended September 30, 2019.
- During fiscal year 2019, GovGuam's expenses for governmental activities were \$1.309 billion and were funded by \$536.7 million in program revenues, including federal supplements of \$444.2 million, and \$821.6 million in taxes and other general revenues.
- General revenues increased by \$20.6 million (or 2.6%) from the previous fiscal year. This was due to an increase, compared with prior year, in gross receipts tax collections of \$45.3 million (16.8%), real property taxes of \$3.4 million (11.4%), tobacco tax of \$6.9 million (24.1%), liquid fuel taxes of \$1.1 million (8.5%) and hotel occupancy taxes of \$1.5 million (3.5%) offset by a decrease in income tax collections of \$37.3 million (11.7%) and Section 30 federal income taxes of \$.75 million (1.0%).

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

Fund Highlights

- General Fund revenues of \$687.5 million were higher than estimated collections of \$652.7 million. The net increase of \$34.8 million is primarily attributable to income tax collections of \$31.9 million above budget, and gross receipts tax collections exceeding budget by \$3.4 million offset by Section 30 federal income tax collections below budget by \$0.95 million.
- General Fund budgetary expenditures (including operating transfers out) of \$651.7 million were lower than authorized appropriations of \$683.8 million. The net decrease of \$32.1 million is primarily attributable to continued cost reduction measures by line agencies of \$24.6 million and decreased subsidies to autonomous agencies of \$3.6 million, which were offset by non-appropriated expenditures of \$0.2 million.
- For the fiscal year ended September 30, 2019, the General Fund reported expenditures (including transfers out) of \$702.4 million, a decrease of \$23.7 million (or 3.3%) from fiscal year 2018 expenditures and transfers out of \$726.1 million. Correspondingly, the General Fund reported revenues (including transfers in) of \$738.1 million, an increase of \$22.4 million (or 3.1%) from fiscal year 2018 revenues and transfers in of \$715.6 million.

Government-Wide Financial Statements

The government-wide statements report information about GovGuam as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and deferred outflows of resources, and liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report GovGuam's net position and how that has been impacted in the current Fiscal Year. Net position is the difference between GovGuam's assets (and deferred outflows) and liabilities (and deferred inflows).

- Over time, increases or decreases in GovGuam's net position is an indicator of whether its financial health is improving or deteriorating.
- To assess the overall health of GovGuam, additional non-financial factors such as changes in GovGuam's tax base, the condition of GovGuam's roads and infrastructure, and the quality and dependability of services also need to be considered.

The government-wide financial statements of GovGuam are divided into two categories:

- Primary government this grouping comprises governmental activities, which includes most of GovGuam's basic services such as education, public safety, health, finance, judiciary, and general administration. Local sourced tax revenues and other federal grants finance most activities of the primary government.
- Discretely presented component units GovGuam includes other entities in this report. Although legally separate, these component units are reported because GovGuam is financially accountable for them.

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

Governmental Fund Financial Statements

The fund financial statements provide more detailed information about GovGuam's most significant funds - not GovGuam as a whole. Funds are accounting devices that GovGuam uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by enabling legislation.
- GovGuam establishes other funds to control and manage money for particular purposes (like Solid Waste Operations Fund) or to show that it is properly using certain grants (like federal grants reported in the Federal Grants Assistance Fund).

GovGuam presents separate statements for the following funds:

- Governmental funds Most of GovGuam's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of GovGuam's general government operations and the services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance GovGuam's programs.
- Fiduciary funds GovGuam is the trustee, or fiduciary, for other assets that because of a trust arrangement, can be used only for the trust beneficiaries. GovGuam is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of GovGuam's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of change in fiduciary net assets. We exclude these activities from GovGuam's government-wide financial statements because GovGuam cannot use these assets to finance its operations.

A FINANCIAL ANALYSIS OF GOVGUAM AS A WHOLE

Net position may serve over time as a useful indicator of a government's financial position. At September 30, 2019, GovGuam reported positive balances in two of the categories of net position. By far, the largest portion of GovGuam's net position (\$461.1 million) reflects its investment in capital assets (e.g., land, infrastructure, buildings, and equipment), less any related debt used to acquire those assets that is still outstanding. GovGuam uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although GovGuam's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the liabilities. An additional portion of GovGuam's net position (\$666.7 million) represents resources that are subject to external restrictions or enabling legislation as to the purpose for which they can be used.

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

Net Position

The summary of Net Position (condensed) presented below, with comparable balances for fiscal year 2018, discloses this relationship:

GovGuam's Net Position As of September 30

	Governmental Activities 2019	Governmental Activities 2018	Total Percentage Change 2019-2018
Current assets	\$ 303,725,791	\$ 246,843,752	23.0%
Current liabilities	441,990,225	446,769,414	-1.1%
Net current liabilities	(138,264,434)	(199,925,662)	-30.8%

Long-term assets	1,401,452,927	1,457,027,353	-3.8%
Long-term debt	1,132,446,145	1,131,286,237	0.1%
Other long-term liabilities	2,505,237,767	2,910,291,489	-13.9%
Total long-term liabilities	3,637,683,912	4,041,577,726	-10.0%
Net long-term liabilities	(2,236,230,985)	(2,584,550,373)	-13.5%
Deferred outflows of resources	352,513,405	374,510,664	-5.9%
Deferred inflows of resources	(561,947,886)	(187,112,319)	200.3%
Net position:			
Net investment in capital assets	461,069,658	507,682,196	-9.2%
Restricted	666,747,265	623,207,215	7.0%
Unrestricted	(3,565,880,563)	(3,609,058,589)	-1.2%
Total net position	\$ (2,438,063,640)	<u>\$ (2,478,169,178</u>)	-1.6%

The negative balance of unrestricted net position is primarily attributable to GovGuam's pension and OPEB liabilities of \$1.014 billion and \$1.275 billion, respectively, and having long-term liabilities that are greater than associated assets. Specifically, GovGuam has not included in past annual budgets the full amounts needed to finance future liabilities arising from outstanding bonds payable, capital lease obligations and other loans as well as to pay for closure and post closure costs of the Ordot Dump, and unused employee leave balances. GovGuam includes payments for amounts falling due during the fiscal year in annual budgets.

Changes in Net Position

For the fiscal year ended September 30, 2019, GovGuam's total negative net position decreased by \$40.1 million (1.6%) from a negative net position of \$2.478 billion in the prior year, to a negative net position of \$2.438 billion.

Changes in Net Position, Continued

General revenues increased by \$20.6 million (or 2.6%) from the previous fiscal year. The change was due to an increase, compared with prior year, in gross receipts tax collections of \$45.3 million (16.8%), real property taxes of \$3.4 million (11.4%), tobacco tax of \$6.9 million (24.1%), liquid fuel taxes of \$1.1 million (8.5%) and excise taxes of \$0.81 million (29.6%) offset by a decrease in income tax collections of \$37.3 million (11.7%) and Section 30 federal income taxes of \$0.75 million (1%). GovGuam's total revenues from governmental activities, including local revenues, totaled \$1.358 billion in fiscal year 2019. The cost of governmental activities totaled \$1.309 billion, resulting in a decrease in the negative net position before contributions to permanent funds of \$48.7 million.

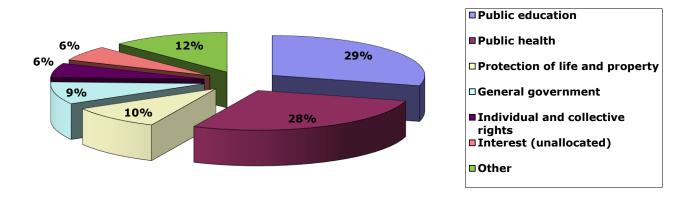

Graphs 4 and 5 below show the major components of revenues and cost of governmental activities.

GovGuam's expenses cover a range of services. The largest expenses were for public education and public health, which comprise 29.2% and 27.6%, respectively, of the total expenses for fiscal year 2019. Other expenses that make up a portion of the costs of governmental activities include transportation (\$43.9 million), community services (\$37.3 million), culture and recreation (\$28.1 million), environmental protection (\$38.2 million), and economic development (\$14.9 million).

Graphs 6 and 7 below show a comparison of the major components of revenues and cost of governmental activities for fiscal years 2019 and 2018.

Other taxes in fiscal year 2019 included hotel occupancy taxes of \$44.7 million, up from \$43.2 million (3.5%) in fiscal year 2018; property taxes of \$33.3 million, up from \$29.9 million (11.4%) in fiscal year 2018; tobacco taxes of \$35.4 million, up from \$28.6 million (24.1%) in fiscal year 2018; and liquid fuel taxes of \$14.4 million, up from \$13.3 million (8.5%) in fiscal year 2018. Excise taxes had the largest increase of \$3.5 million, up from \$2.7 million (29.6%) in fiscal year 2018.

Other expenses in fiscal year 2019 included community services expenses of \$37.3 million, down from \$41.4 million (9.8%) in fiscal year 2018; culture and recreation expenses of \$28.1 million, down from \$32 million (12.1%) in fiscal year 2018; transportation expenses of \$43.9 million, up from \$28.8 million (52.3%) in fiscal year 2018; environmental protection expenses of \$38.2 million, down from \$43.6 million (12.5%) in fiscal year 2018; and economic development expenses of \$14.9 million, up from \$14.5 million (3.2%) in fiscal year 2018.

Analysis of Changes in Net Position

During the current fiscal year, GovGuam's total net position increased by \$40.1 million compared with the prior fiscal year decrease of \$18.3 million. The key element of this change compared with prior fiscal year is a decrease in expenses, net of program revenues, of \$43.8 million (or 5.4%), and an increase in general revenues and contributions to permanent fund of \$20.6 million (or 2.6%) and \$6.0 million (or 236%), respectively. The elements of these changes are reflected below:

Analysis of Changes in Net Position, Continued

General revenues increased marginally by \$20.6 million (or 2.6%) from the previous fiscal year. The increase was primarily due to an increase in taxes with prior year, mainly attributable to an increase in gross receipts tax collections. Tax revenue collections remained constant compared with the previous fiscal year including tax amnesty collections; however, there were significant changes within the respective tax revenue categories as follows: income tax collections decreased by \$37.3 million (or 11.7%) while Section 30 federal income taxes decreased by \$0.75 million (or 1.0%). These decreases were offset by an increase in gross receipts tax collections of \$45.3 million (or 16.8%) and investment earnings of \$1.6 million (or 85.7%). Other taxes in fiscal year 2019 included property taxes of \$33.3 million, up from \$29.9 million (11.4%) in fiscal year 2018; tobacco taxes of \$35.4 million, up from \$28.6 million (24.1%) in fiscal year 2018; and liquid fuel taxes of \$14.4 million, up from \$13.3 million (8.5%) in fiscal year 2018.

Tax revenues increased by \$21.1 million (or 2.7%) from \$791.1 million in the prior year to \$812.2 million. This increase was primarily due to an increase in: (1) gross receipts tax by \$45.2 million (or 16.8%) from \$269.7 million in the prior year to \$314.9 million; property tax by \$3.4 million (or 11.4%) from \$29.9 million in the prior year to \$33.3 million; and (3) tobacco tax by \$6.8 million (24.1%) from \$28.6 million in the prior year to \$35.4 million offset by a decrease in income tax of \$37.3 million (or 11.7%) from \$318.1 million in the prior year to \$280.8 million. Due to the reduction in income tax revenues as a result of the Tax Cuts and Jobs Act 2017, the Legislature was faced with balancing the budget by a combination of raising revenues, together with constraining spending, by increasing gross receipts tax by 1% to 5%, increasing tobacco tax from \$3 per pack to \$4, and increasing property tax from improvements valued at \$1 million or more.

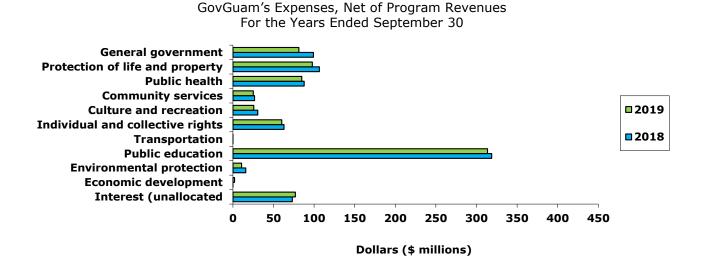

Graph 8 below shows a comparison of the tax revenue collections for fiscal years 2019 and 2018.

Cost of governmental activity expenses, net of program revenues, decreased compared with prior year by \$43.8 million (or 5.4%) primarily due to a decrease in net general government expense of \$17.9 million (or 18%), net protection of life and property expense of \$8.6 million (or 8.1%), net public health expense of \$3 million (or 3.4%), net culture and recreation expense of \$4.8 million (or 15.6%), net public education expense of \$5.2 million (or 1.6%), and net environmental protection expense of \$5.1 million (or 32.2%) offset by an increase in net economic development expense of \$2.9 million (or 310%).

FINANCIAL ANALYSIS OF GOVGUAM'S FUNDS

As noted earlier, GovGuam uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of the end of fiscal year 2019, GovGuam's governmental funds reported a combined fund balance surplus of \$543.9 million, an increase of \$79.6 million compared with a combined fund surplus of \$464.3 million at the end of fiscal year 2018. This is primarily attributable to surpluses in the general fund and other governmental funds of \$35.6 million and \$52.5 million, respectively, offset by a deficit in the Chamorro Lands fund of \$8.6 million.

The General Fund is the chief operating fund of GovGuam. At the end of the fiscal year, the total fund deficit of the General Fund was \$47.8 million, a decrease in deficit of \$35.6 million from \$83.4 million in the prior year.

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

The relationship of Earned Income Tax Credit (EITC) paid compared to the tax refunds paid continues to increase from Tax Year 2000 of 11% to Tax Year 2018 of 38%, which is summarized as follows (Graph 10) measured on an Income Tax year basis (2018 Income Taxes are received in FY2019):

Graph 10

The Federal Grants Assistance Fund has a total fund balance of \$0.1 million, which primarily represents accumulated interest income received not yet expended at year-end.

The GDOE Federal Grants Fund has a zero total fund balance at the end of the current fiscal year. Total revenues and transfers in for the GDOE Federal Grants Fund amounted to \$66.4 million, which funded various education-related federal grant programs and which was marginally lower than fiscal year 2018 revenues and transfers in of \$67.5 million by \$1.2 million (1.7%).

The Chamorro Lands Fund has a total fund balance of \$450.2 million, which decreased by \$8.6 million compared with prior year. This decrease represented the value of leases cancelled during the year.

General Fund Budgetary Highlights

During the fiscal year ended September 30, 2019, there was a \$9.4 million increase in appropriations between the original and final budget for Executive Branch operations due to Public Laws 34-115 and 34-117. Actual revenues collected (including operating transfers in) of \$687.5 million were higher than budgeted amounts of \$652.7 million by \$34.8 million (or 5.3%). The net increase is due primarily to the increase in income tax and gross receipts tax collections of \$31.9 million and \$3.4 million, respectively, offset by a decrease in Section 30 federal income tax collections of \$0.95 million.

Budgetary expenditures (including operating transfers out) of \$651.7 million were lower than authorized appropriations of \$683.8 million by \$32.1 million (or 4.7%). The net decrease is due primarily to cost costing measures by line agencies of \$17 million together with cost savings associated with local matching requirements for federal related programs, including Medicaid, where the U.S. Congress provided for 100% of Medicaid costs, effective January 1, 2019.

Capital asset additions for the fiscal year ended September 30, 2019 amounted to \$35.6 million. Major capital asset additions for fiscal year 2019 were as follows:

- \$0.36 million for acquisition of land associated with the Route 14B (Ypao Road) reconstruction and widening project.
- \$29.8 million for various FHA road infrastructure projects ongoing throughout the island.
- \$0.52 million for various Tourist Attraction Fund projects.
- \$0.13 million for initial commencement of the Layon landfill cell # 3 construction.

Additional information on GovGuam's capital assets can be found in note 5 to the basic financial statements.

Long-Term Debt

The Organic Act authorizes GovGuam to borrow for such purposes as approved by the Guam Legislature. At the end of the current fiscal year, GovGuam had total bonded debt outstanding of \$1.065 billion. Of this amount, \$33.0 million comprises debt backed by the full faith and credit of GovGuam and \$1.032 billion is revenue-bonded debt that is payable from and secured solely by the specific revenue sources. In addition to this bonded debt, GovGuam had loans payable and outstanding of \$8.9 million at year-end.

A breakdown of GovGuam's total long-term debt is shown below.

GovGuam's Outstanding Debt As of September 30, 2019

Total	\$ 1,073,385,308	\$ 1,073,068,944	0.0%

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

During the year ended September 30, 2019, GovGuam issued \$27.6 million in Series 2019A general obligation bonds for the purpose of providing proceeds to fund the construction of a new cell for the Layon landfill, which are backed solely by the full faith and credit of GovGuam.

Overall, GovGuam's total long-term debt increased marginally by \$0.32 million. The increase in new bonded debt of \$27.6 million, as discussed above, was offset by debt service of \$27.3 million during the current fiscal year.

GovGuam's underlying Standard and Poor's Corporation bond ratings were as follows:

- \$5.4 million General Obligation Bonds, 2009 Series A (BB-/Negative).
- \$27.6 million General Obligation Bonds, 2019 Series A (BB-/Negative).
- \$75.4 million Hotel Occupancy Tax Bonds, 2011 Series A (BB/Negative).
- \$220.8 million Business Privilege Tax Bonds, 2011 Series A (BB/Negative).
- \$101.6 million Business Privilege Tax Bonds, 2012 Series B (BB/Negative).
- \$406.6 million Business Privilege Tax Bonds, 2015 Series D (BB/Negative).
- \$227.2 million Section 30 Bonds, 2016 Series A (BB/Negative).

Moody's Investors Service rates GovGuam's long-term debt as Ba1/Stable.

In January 2020, GovGuam refinanced the 2006 Judicial Building loan by entering into a \$15 million loan facility for the purpose of funding the acquisition of real property, additional renovations to existing facilities, and repayment of the existing 2006 loan.

In accordance with the Organic Act, the debt ceiling limitation or public indebtedness of GovGuam must not exceed 10% of the aggregate tax value (assessed value) of property in Guam, which is \$1.32 billion as of October 2019, the date that such certification was performed. Total debt outstanding as of September 30, 2019, subject to the debt ceiling limitation is \$1.1 billion. The legal debt margin at September 30, 2019 was \$255 million.

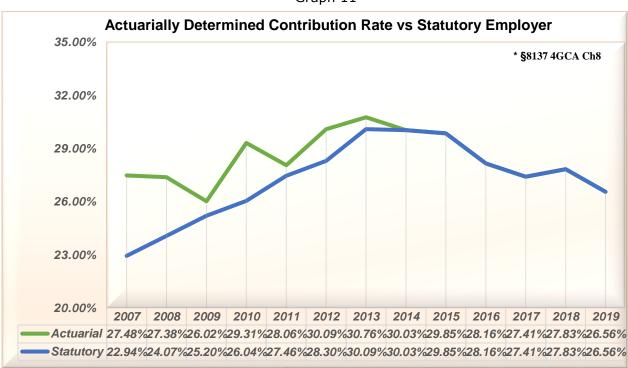

Additional information on GovGuam's long-term debt can be found in Note 6 to the basic financial statements.

GOVGUAM'S PENSION

The Government of Guam closed its defined benefit (DB) plan to new members in 1995 with all new employees participating in a defined contribution (DC) plan. Under 4 GCA, Chapter 8, the Government is required to provide a contribution annually sufficient to pay off existing liabilities by 2033. The Government of Guam Retirement Fund (GGRF) Actuarial Valuation as of September 30, 2019 is available for review and may be accessed on their website www.ggrf.com. Based on this report:

- The unfunded actuarial accrued liability decreased from \$1.176 billion as of September 30, 2018 to \$1.155 billion as of September 30, 2019.
- The annual payment required to amortize the unfunded actuarial accrued liability under GCA Section 8137 has increased from \$108.2 million to \$112.1 million. As a result, the required contribution rate increased to 20.70% of payroll to 21.44% (Graph 11).
- The Government of Guam funds its unfunded actuarial accrued liability and amortized it over the remaining 14.58 years with sufficient annual contribution to fully pay the liability by 2033.

Graph 11

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

There has been growing concern that insufficient savings by certain members in the defined contribution plan compromised their financial well-being during retirement as well as posing a threat for potential social cost to the government. GovGuam employees do not participate in the U.S. Social Security program. Thus, members upon retirement rely on their pension benefits.

- To address insufficient savings by members in the DC Plan, the Guam Legislature reformed its pensions in 2016, creating two new retirement plans, known as the DB (Defined Benefit) 1.75 and the Guam Retirement Security Plan. The Legislature overrode the Governor's veto to enact the law.
- Existing employees currently participating in the Defined Contribution Retirement System had a nine-month window between April 2017 and December 2017 in which they could elect to participate in the new Defined Benefit 1.75 Retirement Plan or remain in the DC plan.
- The law requires those who wish to retire to "buy" their years of service based on an actuarial determine amount from the DC account savings. Participants choosing to opt into the new DB 1.75 Plan were required to transfer all or a portion of their existing Defined Contribution System account balances to the Retirement Fund. This allows these assets to transfer to the fund to pay out future benefits. It also required increased contributions from the employee at mandatory pre-tax employee contributions equal to 9.5% of base salary in addition to a mandatory 1% contribution to the Deferred Compensation [Program].
- As of December 2017 deadline for participants to elect to transfer to the Defined Benefit 1.75 Retirement Plan or the Guam Retirement Security Plan, 3,379 of the 8,947 DC Plan participants elected to transfer to the DB 1.75 Plan. Only 6 participants elected to transfer to the GRSP, which had previously been designated the new default plan. Accordingly these participants, because of low participation and because implementation of the GRSP is considered uncertain pending legislation required to conform the plan to IRC requirements, were permitted to change their elections. GGRF also designated the DC Plan as the GovGuam default plan.
- It had been estimated that the new retirement plans would add \$173 million to the unfunded liability and add two years to the amortization period. The resultant unfunded liability has now been combined with the liability arising from the DB Plan. The actuarial valuation of the Plan as of September 30, 2018 has resulted in an overall decrease of \$92 million in unfunded liability despite the addition of the DB 1.75 Plan members and retirees.

ECONOMIC FACTORS, BUDGETS, CHALLENGES AND ACCOMPLISHMENTS

Guam's economy continues to grow driven by strength in tourism and increased construction related to the military build-up. For FY2018, the most up to date data available, Gross Domestic Product is estimated at \$5.9 billion (US Department of Commerce, Bureau of Economic Analysis), a 26.8% growth over 10 years.

In FY2019, over 1.63 million visitor arrivals were recorded, continuing Guam's success in attracting tourists from its main target markets of Japan and Korea, while also expanding marketing activities to other areas. Guam Visitors Bureau (GVB) support included a concert by AKB48 and a tour for nearly 30 top level travel executives for the Japan market; sponsored baseball and golf tournaments and other cultural events for the Korean market. GVB is also fostering other markets, including the Philippines, China and the US mainland. Through its support of sporting and cultural events and its involvement in infrastructure upkeep such as Tumon Landscaping and Beach maintenance, GVB continues to promote continued growth in this sector and high room occupancy and increasing hotel room rates support Guam's economy.

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

The military build-up efforts continues with 189 military construction projects in progress. The FY2019 National Defense Authorization Act included \$448.5 million for Guam infrastructure with the draft proposals for FY2020 over \$400 million.

Civilian development continues with the construction of a new 340 room luxury hotel newly completed as of June 2020. Other projects include a planning application for a new 246 room hotel near the airport, infrastructure stimulation at Guam International Airport Authority, Guam Waterworks Authority and Guam Power Authority, new hospitality investments such as Olive Garden, Red Lobster and Jollibee and a proposal by a Japanese retailer to open retail store in Tamuning.

Guam's unemployment rate fell to 3.6% as of September 2018, slightly lower than the U.S. unemployment for the same period of 3.7%. To alleviate labor shortages in April 2019, 97 additional H-2B visas were approved along with 258 extensions. A total of 960 H-2B visa workers are currently on Guam.

In May 2019, the District Court of Guam transferred solid waste operations to the Guam Solid Waste Authority (GSWA). The Receiver is still tasked with carrying out certain duties, including finalizing, together with USEPA and Guam EPA financing and engineering associated with the Ordot landfill post closure issues. GSWA issued a contract for the new cell at the Layon landfill site. In order to complete this new construction, the Government issued a \$30 million General Obligation Bond with debt service to be met by GSWA tipping fee revenues with no requirement for an increase in fees for this funding.

The Leon Guerrero-Tenorio administration is committed to fiscal responsibility. The Administration has focused on stabilizing the finances, collecting taxes due, maximizing cost contributions from federal fund sources and collecting this funding and reviewing spending priorities. In FY2019, the Government was faced with a severe reduction in revenues as a result of the Tax Cuts and Jobs Act 2017. The budget was balanced by a combination of raising revenues by increasing Business Privilege Tax by 1% to 5% and by constraining spending. The FY2021 Budget submitted by the Governor to the Legislature is based on improving the quality of life for the people of Guam, balancing disciplined spending with the priorities of public safety, a healthy community, promoting local production and developing efficiencies and transparency in government.

COVID-19

On March 14, 2020 Governor Lourdes A Leon Guerrero declared a Public Health Emergency in response to the COVID-19 outbreak. Schools and non-essential businesses were closed and GovGuam closed its offices and required non-essential employees to work from home.

GovGuam injected funds into the private sector economy which was immediately hit by the cessation of tourism and closure of restaurants, entertainment and other island-based businesses, including a deferral of a proportion of BPT, advance of local funding to begin the payment of Economic Impact Stimulus (EIP) payments and deferral of due dates for business license renewals.

In April 2020, GovGuam received CARES Act funding and EIP funds. Immediate payments of EIP payments were made and CARES Act monies were used to support the exceptional expenses which had been and continue to be incurred by the Government in support of the effort to combat the Coronavirus. In May 2020 cash payments were made to certain lower income households under Prugråmman Sålappe' Ayudon I Taotao and in June 2020 payments of Pandemic Unemployment Assistance and its associated Federal Pandemic Unemployment Compensation were started as well as business interruption payments to businesses affected by the economic downturn. Further payments will be made to needy households under the Ayuda I Mangafa law.

Management's Discussion and Analysis (Unaudited) Year Ended September 30, 2019

Although the number of Guamanians infected with the virus is very much lower than in the US mainland and many other countries, the economic impact on Guam's economy with its focus on tourism has been severe. The public health emergency is continuing and its duration is unknown. The length and depth of the economic downturn cannot be determined. Nevertheless, GovGuam is committed to paying its debt obligations and maintaining all essential and necessary services to the people of Guam.

COMPREHENSIVE ANNUAL FINANCIAL REPORT AND POPULAR ANNUAL FINANCIAL REPORT

The Government will be publishing a Comprehensive Annual Financial Report, which will contain both financial and statistical data and essential facts about the Government of Guam.

The Popular Annual Financial Report is designed to help citizens understand Government finances in a graphical form.

CONTACTING GOVGUAM'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the Government of Guam's finances for all of Guam's citizens, taxpayers, customers, and investors and creditors. This financial report seeks to demonstrate the Island's accountability for the money it receives. Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities Year Ended September 30, 2019

Total net change in fund balances - governmental funds			\$	79,561,057
Amounts reported for governmental activities in the statement of activities are different because:				
Prepayment of capital lease obligations in governmental activities are not financial resources and, therefore, are not reported in the governmental funds. These assets consist of: Guam Department of Education capital lease				(125,000)
Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. For the current year, these amounts consist of: Capital outlays, net of disposals	\$	15,554,131		(2,222,
Depreciation expense	((62,559,355)	<u>)</u>	
				(47,005,224)
Amounts presented in the statement of activities, but not in the change in fund balances due to difference in revenue recognition under different bases of accounting				1,882,990
The incurrence of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and deferred amounts on refundings when debt is issued, whereas these amounts are deferred and amortized in the statement of activities. For the current year, these amounts consist of: Proceeds from General Obligation bonds issued Premium on General Obligation bonds issued Repayment of General Obligation bonds Repayment of Business Privilege Tax bonds Repayment of loans Repayment of capital leases Reduction in tax credits payable Amortization of loss on defeasance Amortization of bond premiums Amortization of bond discounts		(27,610,000) (4,027,747) 5,070,000 7,630,000 13,880,000 713,636 23,192,705 717,903 (5,349,024) 3,896,895 (189,108)		17,925,260
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. For the current year, these				, ,
activities consist of: Change in accrued interest payable Change in compensated absences payable Change in landfill closure and postclosure care costs Change in DCRS sick leave liability Net pension activity Net OPEB activity	((116,194) 171,974 (7,130,004) 4,178 6,183,488 (11,246,987))	(40,400,545)

(1) <u>Summary of Significant Accounting Policies</u>

The accompanying basic financial statements of the Government of Guam (GovGuam) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. GovGuam's significant accounting policies are described below:

A. Reporting Entity

Guam is an unincorporated territory of the United States of America with policy relations between Guam and the United States under the jurisdiction of the Office of Insular Affairs, U.S. Department of the Interior. In 1950, the U.S. Congress provided Guam with an Organic Act that organized GovGuam as a constitutional government comprised of locally elected executive and legislative branches and an appointed judicial branch. In addition, Guam has an elected representative to the U.S. Congress who possesses the same powers and privileges as representatives from the various States, with the exception of voting on the House floor.

The Executive Branch consists of a popularly elected Governor and Lieutenant Governor, each serving a four-year term, with executive department heads appointed by the Governor with the consent of the Guam legislature. The Legislative Branch is a unicameral parliament consisting of 15 members elected for a term of two years. The Judicial Branch is comprised of the Supreme Court of Guam and a Territorial Superior Court with judges appointed for eight-year terms by the Governor. Under the Organic Act, GovGuam is required to submit to the U.S. Congress and the Secretary of the Interior a comprehensive annual financial report in conformance with the standards of the National Council on Governmental Accounting within 120 days after the close of the fiscal year; however, GovGuam has not complied with this requirement.

For financial reporting purposes, GovGuam has included all funds, organizations, agencies, boards, commissions and institutions. GovGuam has also considered all potential component units for which it is financially accountable as well as other entities for which the nature and significance of their relationship with GovGuam are such that exclusion would cause GovGuam's basic financial statements to be misleading or incomplete. The criteria to be considered in determining financial accountability include whether GovGuam, as the primary government, has appointed a voting majority of an organization's governing body and either has the ability to impose its will on that organization or there is potential for the organization to provide specific financial benefits to or impose specific financial burdens on GovGuam. Financial accountability also exists if an organization is determined to be fiscally dependent on the primary government, although the primary government does not appoint a voting majority of the organization's governing board. Each component unit of GovGuam has a September 30 year-end.

Component units are entities that are legally separate organizations for which GovGuam's elected officials are financially accountable or other organizations for which the nature and significance of their relationship with GovGuam are such that exclusion would cause GovGuam's basic financial statements to be misleading or incomplete. GovGuam is financially accountable because it appoints the members of the governing authorities of each of the component units and because it is able to impose its will on these organizations or because the organizations provide specific financial benefits or impose specific financial burdens on GovGuam.

A. Reporting Entity, Continued

The financial statements of the component units have been included in the financial reporting entity as discretely presented component units in accordance with GASB Statement No. 14, The Financial Reporting Entity, as amended by GASB Statement No. 39, Determining Whether Certain Organizations are Component Units, and GASB Statement No. 61, The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34. The component units' column of the basic financial statements includes the financial data of the following discretely presented component units:

- (a) Antonio B. Won Pat International Airport Authority (AWPIAA), formerly known as the Guam International Airport Authority, was created by Public Law 13-57 (as amended) as an autonomous instrumentality of GovGuam to own and operate the facilities of the Guam International Air Terminal. It is charged with the acquisition, construction, operation and maintenance of airports and related facilities for civil aviation on Guam. AWPIAA supports its operations through landing fees and charges for use of its facilities and through rentals under concessionaire agreements and is governed by a seven-member Board of Directors, all of whom are appointed by the Governor of Guam. AWPIAA is fiscally dependent upon GovGuam whereby AWPIAA cannot issue bonded debt without legislative approval.
- (b) Guam Community College (GCC) was created by Public Law 14-77, "The Community College Act of 1977". GCC is governed by a nine-member Board of Trustees, all of whom are appointed by the Governor of Guam. GovGuam provides financial support to GCC through legislative appropriations.
- (c) Guam Housing and Urban Renewal Authority (GHURA) was created by Government Code, Vol. II, Title XIV, Chapter X, 13902. GHURA's purpose is to promote the health, safety and welfare of the people of Guam by eliminating slum and blight conditions, by the orderly redevelopment and renewal of communities, by proper planning of community development and by provision of safe, decent and sanitary dwellings for low-income families, through all available Federal and local governmental programs. The Board of Commissioners of GHURA is appointed by the Governor of Guam. GovGuam has the ability to impose its will on GHURA.
- (d) Guam Memorial Hospital Authority (GMHA) was created by Public Law 14-29 as an autonomous instrumentality of GovGuam to administer and operate the Guam Memorial Hospital. GMHA is governed by a seven-member Board of Trustees, all of whom are appointed by the Governor of Guam. GovGuam provides financial support to GMHA through legislative appropriations.
- (e) Guam Power Authority (GPA) was created by the GPA Act of 1968 and is responsible for the supervision of construction, maintenance of operations and regulations of all electrical utility services within GovGuam. It operates the power system for GovGuam and has created an Island-wide Power System Agreement with the United States Navy. GPA derives revenues from sales of electricity and is governed by the five-member Consolidated Commission on Utilities (CCU), all of whom are elected for two or four year terms. GPA is fiscally dependent upon GovGuam whereby GPA cannot issue bonded debt without legislative approval.

A. Reporting Entity, Continued

- Guam Waterworks Authority (GWA), formerly the Public Utility Agency of Guam (f) (PUAG), was created by Public Law 23-119 and is responsible for supervising the construction, maintenance operations and regulations of all water and sewerage services within GovGuam. GWA derives its operating revenues from water and wastewater fees charged to residential, commercial and government customers, based on consumption, and is governed by the CCU. GWA is fiscally dependent upon GovGuam whereby GWA cannot issue bonded debt without legislative approval.
- Port Authority of Guam (PAG) was created by Public Law 13-87 as an autonomous instrumentality of GovGuam to own and operate the facilities of the Commercial Port of Guam. PAG is governed by a five-member Board of Directors, all of whom are appointed by the Governor of Guam. PAG is fiscally dependent upon GovGuam whereby PAG cannot issue bonded debt without legislative approval.
- University of Guam (UOG) was created by Public Law 13-194 and is responsible for operating Guam's institution of higher education. UOG is governed by a ninemember Board of Regents, all of whom are appointed by the Governor of Guam. GovGuam provides financial support to UOG through legislative appropriations.

In addition, the financial data of the following nonmajor component units are included -Guam Housing Corporation, Guam Economic Development Authority, Guam Visitors Bureau, Guam Preservation Trust, and Guam Educational Telecommunications Corporation (PBS GUAM).

Fiduciary component units are subject to legislative and executive controls. component units, while meeting the definition of a component unit and while legally separate, are presented in the fund financial statements of GovGuam. They have been omitted from the government-wide financial statements as their resources are not available to fund operations of GovGuam. The fiduciary component units are as follows:

GovGuam Retirement Fund (GGRF) has been blended into GovGuam's financial statements. The governing body consists of a seven-member Board of Trustees. Two members are elected by active Fund members; two members are elected by GGRF members among the roster of retirees; and three members are appointed by the Governor of Guam. GGRF was enacted to provide retirement amenities and other benefits to GovGuam employees, who upon entry to service are eligible for membership. GGRF is reported as if it were part of the primary government because of the fiduciary responsibility that GovGuam retains relative to the operations of GGRF. The operations of GGRF are reported as a Fiduciary Fund Type - Pension Trust Fund.

GovGuam's component units, departments, and funds that are separately audited issue their own basic financial statements, each of which has a September 30 year-end. These statements may be obtained by directly contacting the various entities' administrative offices or at the web site of the Office of Public Accountability www.opaquam.org.

In addition to the aforementioned University of Guam (UOG) and Guam Community College (GCC) component units, the accompanying component units' column of the basic financial statements includes the University of Guam Endowment Foundation, Inc. and the Guam Community College Foundation, Inc., which are legally separate, tax-exempt, separately audited, component units of UOG and GCC, respectively. Inclusion of these component units is in accordance with GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*, an amendment of GASB Statement No. 14.

GASB Statement No. 39 provides additional guidance for determining whether certain organizations should be reported as component units based on the nature and significance of their relationship with the primary government and to clarify reporting requirements for those organizations. The foundations' resources can only be used by or are for the benefit of UOG and GCC to which they serve. They are presented within the respective financial statements of UOG and GCC because of their nature and significance to these entities. Complete financial statements of the foundations may be obtained at their respective offices. The foundations are not considered major component units of GovGuam under the definitions put forth under GASB Statement 34, but are blended within UOG and GCC.

The Public Utilities Commission (PUC) is a related organization under GASB Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement Nos. 39 and 61. PUC consists of seven members, all of whom are appointed by the Governor of Guam. GovGuam's accountability does not extend beyond the appointments. Accordingly, PUC is classified as another stand-alone governmental unit, not a component unit of GovGuam, and therefore is not part of these financial statements.

(1) <u>Summary of Significant Accounting Policies, Continued</u>

B. Government-Wide Financial Statements

The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been eliminated from these statements except for other charges between the primary government and the discretely presented component units. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Primary government activities are defined as either governmental or business-type activities. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other non-exchange revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties for goods or services. As such, business-type activities account for operations similarly to a for-profit business. GovGuam did not report any business-type activities during the year ended September 30, 2019. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. Discretely presented component unit activities are presented with their business-type focus.

The Statement of Net Position presents all of the reporting entity's non-fiduciary assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

- Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of those assets. Deferred outflows of resources that are attributable to related debt are also included in this component.
- Restricted net position results when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law.
- Unrestricted net position consists of net position, which does not meet the definition of the two preceding categories. Unrestricted net position often is designated (for example, internally restricted), to indicate that management does not consider it to be available for general operations.

The government-wide Statement of Net Position reports \$666,747,265 of restricted net position, of which \$100,587,859 is restricted by enabling legislation.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function, segment or component unit. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function, segment or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment or component unit. Taxes and other items not meeting the definition of program revenues are, instead, reported as general revenues and offset or supplant the net operating deficit or surplus from governmental operations.

(1) <u>Summary of Significant Accounting Policies, Continued</u>

C. Governmental Fund Financial Statements

The fund financial statements present a balance sheet and a statement of revenues, expenditures, and changes in fund balances for its major and aggregated non-major funds. Separate financial statements are provided for governmental funds and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements pursuant to GASB reporting standards, with nonmajor governmental funds being combined into a single column.

GovGuam reports its financial position and results of operations in funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures. Transactions between funds within a fund type, if any, have not been eliminated.

D. Measurement Focus and Basis of Accounting

Government-Wide Financial Statements:

The government-wide financial statements are reported using the economic resources measurement focus and the full accrual basis of accounting, as are the fiduciary fund and component unit financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Amounts reported as program revenue include 1) charges to customers or applicants for goods, services, or privileges provided; 2) operating grants and contributions; and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. General revenue is derived from taxation, investment income and other fees that are not allocated to specific programs.

Governmental Funds Financial Statements:

Governmental funds financial statements account for the general governmental activities of GovGuam and are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual and are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, GovGuam considers most revenues other than federal grants and assistance awards and property taxes to be available if they are collected within 90 days of the end of the current fiscal period. Federal grants and assistance awards made on the basis of entitlement periods are recorded as revenue when available and entitlement occurs which is generally within 12 months of the end of the current fiscal period. GovGuam considers property taxes to be available if they are collected within 60 days of the end of the current fiscal period.

Significant revenues susceptible to accrual include income and gross revenue taxes, federal grants, federal reimbursements and other reimbursements for use of materials and services and are recognized in the year in which they are received or subject to accrual, grants expended or services provided. Miscellaneous revenues from other financing sources are recognized when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

(1) <u>Summary of Significant Accounting Policies, Continued</u>

D. Measurement Focus and Basis of Accounting, Continued

Governmental Funds Financial Statements, Continued:

Expenditures are recorded in the period in which the related fund liability is incurred. Principal and interest on general long-term obligations are recorded as fund liabilities when due. Compensated absences, claims and judgments, termination benefits and similar activities are recognized to the extent that they are normally expected to be liquidated with expendable available financial resources.

Fiduciary Funds and Component Units Financial Statements:

Discretely presented component units distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a component unit's principal ongoing operations. All other revenues are reported as nonoperating. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All expenses not meeting this definition are reported as nonoperating expenses.

Fund Accounting:

GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments, as amended by GASB Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments: Omnibus, sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses for either fund category or the governmental and enterprise combined) for the determination of major funds. GovGuam has elected to add an additional major fund that is of specific public interest, namely the GDOE Federal Grants Assistance Fund. Major individual governmental funds are reported as separate columns in the fund financial statements. The nonmajor funds are combined in a column in the fund financial statements and detailed in the combining statements. GovGuam reports the following major funds:

- General Fund this fund is the primary operating fund of GovGuam. It is used to account for all governmental transactions, except those required to be accounted for in another fund.
- Federal Grants Assistance Fund a Special Revenue Fund that accounts for all activities of U.S. special federal assistance grants and contracts utilized by GovGuam to finance general governmental operations.
- GDOE Federal Grants Fund a Special Revenue Fund that accounts for all activities of U.S. special federal assistance grants and contracts utilized by GovGuam to finance public education.
- Chamorro Lands Fund a Permanent Fund that accounts for developed Chamorro land and other real estate owned by GovGuam and is held in various land banks. Such are legally restricted to the extent that only earnings from lease rental payments, and not principal, may be used to support GovGuam operations.

D. Measurement Focus and Basis of Accounting, Continued

Fund Accounting, Continued:

The nonmajor governmental funds are comprised of the following:

- Special Revenue Funds these funds account for the financial resources obtained from specific revenue sources and used for restricted purposes.
- Capital Projects Funds these funds account for the financial resources obtained from bond issuances for the acquisition or construction of capital assets and facilities.
- Debt Service Funds these funds account for the financial resources obtained and used for the payment of principal and interest revenue bond obligations established in accordance with bond indentures.

In addition, GovGuam reports the following fiduciary fund types:

- Pension Trust Funds these funds account for resources that are required to be held in trust for the members and beneficiaries of GovGuam's pension plans.
- Private Purpose Funds these funds account for resources held in trust under which principal and income benefit certain individuals.
- Agency Funds these funds account for assets held on behalf of others, are custodial in nature and do not involve measurement of operations.

E. Cash and Cash Equivalents

Cash and cash equivalents of the primary government and the discretely presented component units include cash on hand, demand deposits, and short-term investments in time certificates of deposit and U.S. Treasury obligations with a maturity date within three months of the date acquired by GovGuam. Deposits maintained in time certificates of deposit with original maturity dates greater than three months are classified as investments.

F. Investments

Investments and related investment earnings of the primary government and the discretely presented component units are recorded at fair value using quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability (ie, the exit price) in an orderly transaction between market participants at the date as of which the fair value of an asset or liability is determined.

GovGuam categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In certain instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy is based on the lowest level of input that is significant to the fair measurement. Investments not categorized under the fair value hierarchy are shown at either Net Asset Value (NAV) or amortized cost.

G. Restricted Assets

As of September 30, 2019, certain assets of the primary government are reported as restricted assets due to constraints placed on the assets externally imposed by creditors (such as through bond indentures), court orders and grantors including: \$641,348 externally restricted under a Chamorro Lands loan guarantee program; \$5,865,535 externally restricted for Child Support; \$132,144,828 externally restricted under various bond issues (including \$92,565,910 for future debt service requirements and \$39,578,918 in unspent bond proceeds); \$472,435 externally restricted under the Judicial building loan agreement for future debt service requirements; \$902,104 externally restricted under the Judicial building loan agreement for future debt service requirements; and \$5,840,010 externally restricted for Court ordered postclosure costs.

H. Land and Other Real Estate

Land and other real estate held as investments in permanent funds of \$450,181,806, which comprise of \$443,478,921 held by the Chamorro Land Trust Commission and \$6,702,885 held by the Guam Ancestral Lands Commission, are reported at fair value. Fair value is based on estimated current value (primarily assessed real estate property tax valuations) and appraisals. Investments that do not have an established market are reported at estimated fair value. Earnings from lease agreements associated with these investments are reported as revenues of the Chamorro Land Trust Commission and the Guam Ancestral Lands Commission. Only developed land supported by valid lease agreements is included in the valuation whereas other undeveloped land not supported by lease agreements is reported at historical cost.

I. Receivables and Tax Abatements

In general, tax revenue is recognized on the government-wide financial statements when assessed or levied and on the governmental financial statements to the extent that it is both measurable and available. Receivables are stated net of estimated allowances for uncollectible accounts. Reimbursements due to GovGuam for its expenditures on federally funded reimbursement and grant programs are reported as "receivables from federal agencies" in the governmental funds balance sheet.

Receivables of the primary government and the discretely presented component units are primarily due from businesses and individuals residing on the island of Guam. The allowance for uncollectible accounts primarily represents estimated uncollectible amounts that are determined based upon past collection experience and aging of the accounts.

Tax abatements represent reductions in tax revenues that result from an agreement between GovGuam and individuals or entities where: (i) GovGuam promises to forgo tax revenues to which it is otherwise entitled to; and (ii) the individuals or entities promise to take specific action that contributes to economic development.

J. Prepaid Items and Inventories

Certain payments made to vendors or persons for services reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Inventories of the primary government comprise supplies while inventories of the discretely presented component units comprise fuel oil, diesel fuel, parts and supplies, and are generally valued at the lower of cost (FIFO) or market.

Notes to Financial Statements September 30, 2019

(1) <u>Summary of Significant Accounting Policies, Continued</u>

K. <u>Interfund Receivables/Payables</u>

During the course of its operations, GovGuam records transactions between individual funds for goods provided or services rendered. Receivables and payables resulting from transactions between funds are classified as "due from other funds" or "due to other funds" on the governmental fund balance sheet. These balances result from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur; transactions are recorded in the accounting system; and payments between funds are made, and are scheduled to be collected in the subsequent year.

Receivables and payables resulting from transactions between component units and the primary government are classified as "due to/from primary government" or "due to/from component units" on the governmental fund balance sheet and the statement of net position. Interfund receivables and payables for the primary government have been eliminated from the statement of net position.

L. Capital Assets

Capital assets, including property, plant, equipment and infrastructure (e.g. roads, bridges, ramps and other similar items), are reported in the governmental activity column of the government-wide financial statements. Such assets, whether purchased or constructed, are recorded at historical cost or estimated historical cost. Construction in progress includes all associated cumulative costs of a constructed capital asset. Construction in progress is relieved at the point at which an asset is placed in service for its intended use. Donated capital assets are recorded at estimated fair market value at the date of donation. Capital assets are capitalized when the cost of the individual items exceeds \$50,000. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend asset lives are not capitalized. With the exception of the Layon Landfill, capital assets of the primary government are depreciated using the straight-line method with a full year's depreciation charged in the year of acquisition and disposal, regardless of date. Landfill cells are depreciated based on capacity used/available at year end.

Capital assets of the discretely presented component units are capitalized upon purchase and depreciated on a straight-line basis over the estimated useful lives of the assets.

M. Provision for Tax Refunds

During the calendar year, GovGuam collects individual and corporate income taxes through withholdings and payments from taxpayers. At September 30, GovGuam estimates the amount owed to taxpayers for overpayments during the first nine months of the calendar year. These estimated amounts and the actual tax refunds claimed for prior years but not paid at year-end are recorded as provision for tax refunds and as a reduction of tax revenue. The provision for tax refunds is evaluated on a regular basis by management and is based upon management's periodic review of tax returns in light of historical experience and the nature and volume of tax returns submitted. In Tax Year 2018, the Tax Cuts and Jobs Act (TCJA) provided for significant changes to tax rules including changes to the Child Tax Credit, Other Dependents Credit, personal exemptions, and standard deductions. The impact of TCJA changes is currently not determinable and, therefore, this evaluation is subjective as it requires estimates that are susceptible to significant revision as more information becomes available. Accordingly, changes to the provision for tax refunds are accounted for on a prospective basis. As of September 30, 2019, GovGuam recorded a provision for unpaid tax refunds in the amount of \$131,049,773, which includes amounts relating to the U.S. Federal Earned Income Tax Credit (EITC).

Notes to Financial Statements September 30, 2019

(1) <u>Summary of Significant Accounting Policies, Continued</u>

N. Unearned Revenue

Unearned revenue is recorded when cash is received prior to being earned and relates to Section 30 federal income tax collections remitted from the United States Government in the amount of \$69,928,937, which pertains to revenues of the following fiscal year.

O. Long-term Debt

The liabilities reported in the government-wide financial statements include GovGuam general obligation bonds, limited obligation bonds, long-term notes and capital leases, and long-term liabilities including vacation, sick leave, pension and other postemployment benefits, long-term liabilities to other governmental entities, and closure and post-closure costs associated with the Ordot Dump and Layon Landfill. Capital lease liabilities consist of lease contracts that transfer substantially all of the benefits and risks of ownership of property to GovGuam. Long-term obligations financed by component units are recorded as liabilities in the discretely presented component unit's column.

In accordance with Section 1423a of the Organic Act, the debt ceiling limitation or public indebtedness of GovGuam must not exceed 10% of the aggregate tax value (assessed value) of property in Guam, which is \$1,351,507,821 as of October 31, 2019, the date that such certification was performed. Total debt outstanding as of September 30, 2019, subject to the debt ceiling limitation is \$1,079,107,145.

P. Bond Premiums and Discounts

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the effective interest rate method. Bonds payable are reported net of bond premiums and discounts. Bond issuance costs, except any portion related to prepaid insurance costs, are expensed in the period incurred. Prepaid insurance costs are reported as assets and are amortized over the term of the debt using the straight-line method.

In the governmental fund financial statements, governmental fund types recognize bond premiums, discounts and issuance costs in the period the bond proceeds are received. The face amount of the debt issued is reported as other financing sources. Premiums received and discount deducted on debt issuance are reported as other financing sources and other financing uses, respectively. Issuance costs, whether or not withheld from the actual debt proceeds, are reported as expenditures.

Q. <u>Deferred Outflows/Inflows of Resources</u>

In the government-wide financial statements, the statement of net position will sometimes report separate sections for deferred outflows and deferred inflows of resources. Deferred outflow of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (deduction of net position) until then. On the other hand, deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (additions to net position) until then.

In the governmental fund financial statements, deferred inflows of resources consist of unavailable revenue, which is revenue that does not meet the "available" criterion for revenue recognition under the modified accrual basis of accounting.

Notes to Financial Statements September 30, 2019

(1) <u>Summary of Significant Accounting Policies, Continued</u>

Q. Deferred Outflows/Inflows of Resources, Continued

GGRF recorded a receivable at September 30, 2019 in the amount of \$14,339,393. Public Law 25-72, passed in September 1999, required the payment of supplemental annuity and cost of living allowance benefits to retirees, and specified that these payments were vested, limited-duration benefits to be provided by GGRF. GGRF initially recorded these benefit payments as a receivable in the amount of \$137,200,000 and has reduced this amount each year by a portion of employer contributions received. For the year ended September 30, 2019, the statutory contribution rate for the DB Plan is 26.56% of covered payroll, of which 1.2016% was used to reduce this receivable. In the opinion of GovGuam management, the corresponding liability is embodied within the governmental activities net pension obligation of \$1,013,574,175. Thus, no separate corresponding liability is required to be recorded. Accordingly, GovGuam management considers that this amount represents a consumption of net position that applies to a future period and, as a result, revised the GGRF financial statements by reclassifying this receivable as a deferred outflows of resources.

R. Fund Equity/Net Position

GovGuam reports net position as restricted when restrictions are externally imposed by citizens and/or public interest groups or legally segregated for a specific future use by enabling legislation in accordance with GASB Statement No. 46, Net Assets Restricted by Enabling Legislation. Otherwise, these balances are considered unrestricted.

Net Position has been restricted as follows:

"Restricted for capital projects" - identifies amounts of unspent proceeds of bond issuances that can only be used for capital projects.

"Restricted for retirement of indebtedness" - identifies amounts held by fiscal agents to fund future debt service obligations as required under bond indentures. Because removal of monies from these restrictions would constitute a technical default to bondholders, the amounts are restricted.

"Restricted for endowments: nonexpendable" - identifies amounts held for endowment and similar type funds, including land and other real estate, in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

"Restricted for other purposes" - identifies amounts held for various externally imposed restrictions either by creditors, grantors or laws and regulations of other governments. It also includes various restrictions put forth by the GovGuam enabling statutes. Included in this restriction are reserves for prior appropriations continued.

Notes to Financial Statements September 30, 2019

(1) <u>Summary of Significant Accounting Policies, Continued</u>

R. Fund Equity/Net Position, Continued

Fund balance classifications are based on the extent to which GovGuam is bound to honor constraints on the specific purposes for which amounts in those funds can be spent and are reported under the following fund balance classifications:

- Non-spendable includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- Committed includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the Guam Legislature, GovGuam's highest level of decision-making authority, and does not lapse at year-end. Formal action of the Guam Legislature is required to establish, modify or remove the limitations on committed fund balances.
- Assigned includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Intent is expressed by either the Guam Legislature or a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- Unassigned includes negative fund balances in other governmental funds.

GovGuam has a general policy to first use restricted resources for expenditures incurred for which both restricted and unrestricted (committed, assigned, and unassigned) resources are available. When expenditures are incurred for which only unrestricted resources are available, the general policy of GovGuam is to use committed resources first, followed by assigned, and then unassigned. The use of restricted/committed resources may be deferred based on a review of the specific transaction.

A formal minimum fund balance policy has not been adopted.

S. Compensated Absences

Compensated absences are recorded as a long-term liability in the statement of net position. Amounts to be paid during the next fiscal year are reported as current liabilities. For the governmental fund financial statements, vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources are reported as expenditures and fund liabilities. Vacation pay is convertible to pay upon termination of employment.

In accordance with Public Law 27-5 and Public Law 28-68, employee vacation rates are credited at either 104, 156 or 208 hours per year, depending upon their length of service: (1) One-half day (4 hours) for each full bi-weekly pay period in the case of employees with less than five (5) years of service; (2) Three-fourths day (6) hours for each full bi-weekly pay period in the case of employees with more than five (5) years of service but less than fifteen (15) years of service; or (3) One (1) day (8 hours) for each full bi-weekly pay period in the case of employees with more than fifteen (15) years of service.

Notes to Financial Statements September 30, 2019

(1) <u>Summary of Significant Accounting Policies, Continued</u>

S. Compensated Absences, Continued

The statutes further amended the maximum accumulation of such vacation credits from 480 to 320 hours. Public Law 27-106 amended subsection (c) of 4 Guam Code Annotated § 4109. Employees who have accumulated annual leave in excess of 320 hours as of February 28, 2003, may carry over their excess and shall use the excess amount of leave prior to retirement or termination from service. Any unused leave over the excess shall be lost.

Public Law 26-86 allows members of the Defined Contribution Retirement System (DCRS) to receive a lump sum payment of one-half of their accumulated sick leave upon retirement. GovGuam has accrued an estimated liability of \$17,206,088 at September 30, 2019 for potential future sick leave payments as a result of this law. However, this amount is an estimate and actual payout may be materially different than estimated.

T. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the GovGuam Retirement Fund (GGRF) Defined Benefit (DB) Plan and additions to/reductions from the DB Plan's fiduciary net position have been determined on the same basis as they are reported by GGRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pensions are required to be recognized and disclosed using the accrual basis of accounting. GovGuam recognizes a net pension liability for the defined benefit pension plan in which it participates, which represents GovGuam's proportional share of excess total pension liability over the pension plan assets - actuarially calculated - of a single-employer defined benefit plan, measured one year prior to fiscal year-end and rolled forward. The total pension liability also includes GovGuam's proportionate share of the liability for ad hoc cost-of-living adjustments (COLA) and supplemental annuity payments that are anticipated to be made to defined benefit plan members and for anticipated future COLA to DCRS members.

Changes in the net pension liability during the period are recorded as pension expense, or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change, in the period incurred. Those changes in net pension liability that are recorded as deferred inflows of resources or deferred outflows of resources that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants in the qualified pension plan and recorded as a component of pension expense beginning with the period in which they are incurred. Projected earnings on qualified pension plan investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred inflows of resources or deferred outflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred.

Notes to Financial Statements September 30, 2019

(1) <u>Summary of Significant Accounting Policies, Continued</u>

U. Other Post-Employment Benefits (OPEB)

OPEB is required to be recognized and disclosed using the accrual basis of accounting. GovGuam recognizes a net OPEB liability for the defined benefit OPEB plan in which it participates, which represents GovGuam's proportional share of total OPEB liability - actuarially calculated – of a single-employer defined benefit plan, measured one year prior to fiscal year-end and rolled forward. An OPEB trust has not been established thus the OPEB plan does not presently report OPEB plan fiduciary net position. Instead, the OPEB plan is financed on a substantially "pay-as-you-go" basis.

Changes in the net OPEB liability during the period are recorded as OPEB expense, or as deferred inflows of resources or deferred outflows of resources depending on the nature of the change, in the period incurred. Those changes in net OPEB liability that are recorded as deferred inflows of resources or deferred outflows of resources that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants in the qualified OPEB plan and recorded as a component of OPEB expense beginning with the period in which they are incurred.

V. Property Taxes

On or before September 1 of each tax year, GovGuam's Real Property Tax Division is mandated to make available a tax roll listing identifying all taxable properties and corresponding tax assessments levied. By October 31 each year, the tax assessment roll is certified and real property taxes become due and payable on December 15. The tax levy is divided into two installments: the first installment is due February 20; the second installment is due April 20. Real property taxes become a lien on the property as of noon the first Monday in March each year to secure the payment of all taxes, penalties and interest that is ultimately imposed on the property. The tax rate is established by 11 GCA 24, *Real Property Tax*, wherein a levy is assessed on all land property in Guam at the rate of seven-seventy seconds percent (7/72%) of the value thereof and seven-eighteenths (7/18%) of the value of the improvements thereon. In addition to this levy, there is hereby levied on improvements on all land property in Guam with a value of \$1,000,000 or more a yearly tax at the rate of seven eighteenths percent (7/18%) of the value thereon.

W. Encumbrances

GovGuam utilizes encumbrance accounting to identify fund obligations. Encumbrances represent commitments related to unperformed contracts for goods. At September 30, 2019, GovGuam has significant encumbrances summarized as follows:

	Federal Grants	GDOE Federal	Chamorro	Other	
<u>General</u>	<u>Assistance</u>	<u>Grants</u>	<u>Lands</u>	<u>Governmental</u>	<u>Total</u>
\$ 7,760,001	\$ 60,645,155	\$ 14,025,659	\$ -	\$ 17,967,963	\$100,398,778

Notes to Financial Statements September 30, 2019

(1) <u>Summary of Significant Accounting Policies, Continued</u>

X. New Accounting Standards

During the year ended September 30, 2019, GovGuam implemented the following pronouncements:

- GASB Statement No. 83, Certain Asset Retirement Obligations, which addresses accounting and financial reporting for certain asset retirement obligations (AROs) associated with the retirement of a tangible capital asset.
- GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements, which improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements.

The implementation of these statements did not have a material effect on GovGuam's financial statements. However, the implementation of GASB Statement No. 88 did result in additional required disclosures surrounding debt. See Note 6.

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying fiduciary activities of all state and local governments. The provisions in Statement No. 84 are effective for fiscal years beginning after December 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In June 2017, GASB issued Statement No. 87, *Leases*, which establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions in Statement No. 87 are effective for fiscal years beginning after December 15, 2019. Management has yet to determine whether the implementation of this statement will have a material effect on the financial statements.

In June 2018, GASB issued Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, which requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. The provisions in Statement No. 89 are effective for fiscal years beginning after December 15, 2019. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In August 2018, GASB issued Statement No. 90, Majority Equity Interests - an Amendment of GASB Statements No. 14 and No. 61, which improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and the relevance of financial statement information for certain component units. The provisions in Statement No. 90 are effective for fiscal years beginning after December 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In May 2019, GASB issued Statement No. 91, Conduit Debt Obligations, which clarifies the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The provisions in Statement No. 91 are effective for fiscal years beginning after December 15, 2020. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

Notes to Financial Statements September 30, 2019

(1) <u>Summary of Significant Accounting Policies, Continued</u>

X. New Accounting Standards, Continued

In May 2020, GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, which postpones the effective dates of GASB Statement No. 84, 89, 90 and 91 by one year and GASB Statement No. 87 by 18 months; however, earlier application of the provisions addressed in GASB Statement No. 95 is encouraged and is permitted to the extent specified in each pronouncement as originally issued. Management has yet to ascertain whether implementation of these statements will be postponed as provided in GASB Statement No. 95.

Y. Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and deferred outflows of resources, liabilities and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results may differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the provision for tax refunds.

Z. Total Columns

Total columns are presented primarily to facilitate financial analysis. The Management's Discussion and Analysis includes certain prior year summarized comparative information in total. Such information does not include sufficient detail to constitute a full comparative presentation. Accordingly, such information should be read in conjunction with GovGuam's financial statements for the year ended September 30, 2018 from which summarized information was derived.

(2) Deposits and Investments

The deposit and investment policies of GovGuam are governed by 5 GCA 21, *Investments and Deposits*, in conjunction with applicable bond indentures. The Director of Administration is responsible for the safekeeping of all monies paid into the Treasury of Guam. The Director of Administration invests any monies of GovGuam that are deemed not necessary for immediate use. Legally authorized investments include securities issued or guaranteed by the U.S. Treasury or agencies of the United States government; demand and time deposits in or certificates of deposit of, or bankers' acceptances issued by, any eligible institution; corporate debt obligations, including commercial paper; certain money market funds; state and local government securities, including municipal bonds; and repurchase and investment agreements. With the exception of investments in U.S. government securities, which are explicitly or implicitly guaranteed by the United States government, all other investments must be rated Aa1/P-1 by Moody's.

A. Deposits

Custodial credit risk is the risk that in the event of a bank failure, GovGuam's deposits may not be returned to it. Such deposits are not covered by depository insurance and are either uncollateralized, collateralized with securities held by the pledging financial institution, or held by the pledging financial institution but not in the depositor-government's name.

Notes to Financial Statements September 30, 2019

(2) <u>Deposits and Investments, Continued</u>

A. Deposits, Continued

As of September 30, 2019, the carrying amount of the primary government's total cash and cash equivalents and time certificates of deposit was \$277,804,159 and the corresponding bank balances were \$319,651,998. Of the bank balances, \$170,180,209 is maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance or credit unions subject to National Credit Union Administration (NCUA) insurance. The remaining amount of \$149,471,789 represents short-term investments held and administered by GovGuam's trustees in accordance with various trust agreements and bond indentures. Based on negotiated trust and custody contracts, all of these investments were held in GovGuam's name by GovGuam's custodial financial institutions at September 30, 2019.

As of September 30, 2019, bank deposits in the amount of \$1,012,037 were FDIC insured and bank deposits in the amount of \$349,753 were NCUA insured. In accordance with 5 GCA 21, *Investments and Deposits*, GovGuam requires collateralization of deposits in excess of depository insurance limits in an amount in value at least ten percent in excess of the amount of monies deposited with the financial institution. Such collateralization shall be in securities in U.S. treasury notes or bonds or in U.S. government agencies for which the faith and credit of the United States are pledged for the payment of principal and interest; evidence of indebtedness of GovGuam; investment certificates of the Federal Home Loan Bank; or such other securities as may be approved by the Director of Administration and the Governor of Guam. As of September 30, 2019, substantially all of GovGuam's bank deposits in excess of depository insurance limits are collateralized with securities held by the pledging financial institution but not in GovGuam's name.

B. Investments

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Concentration of credit risk for investments is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB Statement No. 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for GovGuam.

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to the transaction, GovGuam will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. GovGuam's investments are held and administered by trustees in accordance with various bond indentures for the purpose of funding various health-related projects under a tobacco settlement agreement and future debt service requirements. Based on negotiated trust and custody contracts, all of these investments were held in GovGuam's name by GovGuam's custodial financial institutions at September 30, 2019.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt instruments. GovGuam does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

As of September 30, 2019, the primary government's short-term investments of \$10,994,823 represent amounts held in time certificates of deposit.

Notes to Financial Statements September 30, 2019

B. Investments, Continued

Government of Guam Retirement Fund (GGRF):

Investments of GGRF include U.S. Federal Government and agency obligations, foreign government obligations, real estate, commercial mortgages, corporate debt, mutual funds and equity instruments. Investments are reported at fair value. Securities transactions and any resulting gains or losses are accounted for on a trade date basis. Investments other than real estate, commercial mortgages and other loans, and municipal revenue bonds are reported at market values determined by the custodial agents. The agent's determination of market values includes, among other things, using pricing services or prices quoted by independent brokers at current exchange rates.

Commercial mortgages and other loans and municipal revenue bonds have been valued on an amortized cost basis, which approximates market or fair value. No allowance for loan loss has been provided as all loans and bonds are considered by management to be fully collectible. Short-term investments are reported at cost, which approximates market value. For investments where no readily ascertainable market value exists, management, in consultation with their investment advisor, has determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk.

Northern Trust Company holds the investments as custodian in GGRF's name. In addition, GGRF has selected investment managers who are given authority to purchase and sell securities in accordance with the following guidelines:

- a. Cash and Cash Equivalents Cash equivalent reserves must consist of cash instruments having a quality rating of A-2, P-2 or higher. Eurodollar Certificates of Deposit, time deposits, and repurchase agreements are also acceptable investment vehicles. All other securities will be, in the judgment of the investment managers, of credit quality equal to or superior to the standards described above. No single issue shall have a maturity of greater than two years, and the cash portfolio shall have a maturity of less than one year. Any idle cash not invested by the investment managers shall be invested daily through an automatic sweep managed by the custodian.
- b. Investment managers may invest in U.S. and non-U.S. common stocks, American Depository Receipts (ADRs), convertible bonds, preferred stocks, fixed-income securities, mutual funds and short-term securities. All fixed-income securities held in the portfolio must have a Moody's, Standard & Poor's and/or a Fitch's credit quality rating of no less than "BBB". U.S. Treasury and U.S. government agencies are qualified for inclusion in the portfolio. No more than twenty percent (20%) of the market value of the portfolio may be rated less than single "A" quality, unless the manager has specific written authorization. Eighty percent (80%) of the fixed-income portfolio must be in bonds of credit quality of no less than "A". Total portfolio quality (capitalization weighted) must maintain an "A" minimum rating. In case such bonds or other evidence of indebtedness are not so rated by two nationally recognized and published rating services, the net earnings available for fixed charges over a period of five fiscal years preceding the date of investment have averaged per year and during either of the last two years have been, after depreciation and taxes, not less than:
 - Two times its average annual fixed charges over the same period, in the case of any public utility company;

Government of Guam Retirement Fund (GGRF), Continued:

- ii. One and one-half times its average annual fixed charges over the same period, in the case of any financial company; or,
- iii. Three times its average annual fixed charges over the same period, in the case of any other company.

With the written petition and subsequent written approval of the Trustees, opportunistic investment bonds issued by national governments other than the United States or foreign corporations may comprise up to six percent (6%) of each fixed-income manager's portfolio. In no case shall these investments exceed three and one-half percent (3.5%) of the total GGRF investments. All non-U.S. securities will be, in the judgment of the investment managers, of credit quality equal to or superior to the standards described above.

For U.S. equities, equity holdings are restricted to readily marketable securities of corporations that are actively traded on the major U.S. exchanges and over the counter. For investments in common and preferred stock:

- i. The issuing institution has reported a profit in at least four of the five fiscal years preceding the date of investment, or alternatively, in at least seven of the ten fiscal years preceding the date of investment;
- ii. The issuing institution has paid a cash dividend on its common or capital stock in at least four of the five years preceding the date of investment, or alternatively, in at least seven of the ten fiscal years preceding the date of investment;
- iii. Total cash dividends have not exceeded total earnings in five years preceding the date of investment;
- iv. On the date of investment, the issuer is not in default in payment of principal or interest on any of its publicly held bonds or other evidence of indebtedness, and any contingent interest, cumulative and non-cumulative preferred dividends and dividends on prior common or capital stock have been paid in full; and
- v. Preferred stock must also adhere to the following the net earnings of the institution available for fixed charges over a period of five fiscal years preceding the date of investment have averaged per year, and during either of the last two years have been, after depreciation and income taxes, no less than:
 - 1. Two times its average annual fixed charges, maximum contingent interest and preferred dividend requirements over the same period, in the case of any public utility company; or
 - 2. Three times its average annual fixed charges, maximum contingent interest and preferred dividend requirements over the same period, in the case of any other company.

Government of Guam Retirement Fund (GGRF), Continued:

For non-U.S. equities, common or capital stock of any institution or entity created or existing under the laws of any foreign country are permissible investments, provided that:

- i. The issuing institution has reported a profit in at least four of the five fiscal years preceding the date of investment, or alternatively, in at least seven of the ten fiscal years preceding the date of investment;
- ii. The issuing institution has paid a cash dividend on its common or capital stock in at least four of the five years preceding the date of investment, or alternatively, in at least seven of the ten fiscal years preceding the date of investment;
- iii. Total cash dividends have not exceeded total earnings in five years preceding the date of investment; and
- iv. On the date of investment, the issuer is not in default in payment of principal or interest on any of its publicly held bonds or other evidences of indebtedness, and any contingent interest, cumulative and non-cumulative preferred dividends and dividends on prior common or capital stock have been paid in full.

Consistent with the desire to maintain broad diversification, allocations to any country, industry or other economic sector should not be excessive.

- c. No investment management organization shall have more than twenty-five percent (25%) of the GGRF's assets under its direction.
- d. No individual security of any issuer, other than that of the United States government or GovGuam, shall constitute more than five percent (5%), at cost, of the total GGRF or of any investment manager's portfolio.
- e. Holdings of any issuer must constitute no more than five percent (5%) of the outstanding securities of such issuer.
- f. Investments in a registered mutual fund managed by the investment manager are subject to prior approval of the Board of Trustees.
- g. The following securities and transactions are not authorized: letter stock and other unregistered securities; non-negotiable securities; commodities or other commodity contracts; and short sales origin transactions. Options and futures are restricted, except by petition to the Trustees for approval.

Investments of GGRF as of September 30, 2019 are classified as follows:

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater is the sensitivity of its fair value to changes in market interest rates. One of the ways that GGRF manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

As of September 30, 2019, GGRF's investments in debt securities were as follows:

		Investment Matu	ırities	(In Years)		
	Less				Greater	Fair
	Than 1	<u>1 to 5</u>		6 to 10	Than 10	<u>Value</u>
U.S. Treasury notes	\$ -	\$ 45,604,968	\$	13,021,879	\$ 73,924,849	\$ 132,551,696
U.S. government agencies	2,784,756	35,201,105		3,783,767	53,392,490	95,162,118
Corporate notes and bonds	 7,549,202	 250,344,258		70,308,753	 50,441,504	 378,643,717
	\$ 10,333,958	\$ 331,150,331	\$	87,114,399	\$ 177,758,843	\$ 606,357,531

GGRF's investments are typically made in corporate equities, U.S. Treasury obligations, and commercial paper. These types of investments are not more sensitive to interest rate fluctuations than as already indicated above. Investments that are highly sensitive to interest rate fluctuations include Federal agency securities with coupon multipliers that are reset frequently, mortgage-backed securities, and Federal agency securities with interest rates that vary inversely to a benchmark set quarterly.

GGRF has invested in mortgage backed securities, which are more sensitive to fluctuations in interest rates than already indicated in the information provided above. Such securities are subject to early payment in a period of declining interest rates. The resultant reduction in expected total cash flows affects the fair value of these securities and makes the fair values of these securities highly sensitive to changes in interest rates. At September 30, 2019, GGRF held mortgage-backed securities valued at approximately \$34,700,000.

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Presented below is the minimum rating required by (where applicable) the Guam Code Annotated and GGRF's investment policy, and the actual rating as of September 30, 2019:

Investment Type	Minimum <u>Rating</u>	<u>Amount</u>	Rating as of Year End

B. Investments, Continued

Government of Guam Retirement Fund (GGRF), Continued:

GGRF's investment policy contains limits on the amount that can be invested in any one issuer. At September 30, 2019, the Fund did not hold any investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total GGRF investments.

Foreign currency risk is the risk that changes in foreign exchange rates will adversely affect the fair values of an investment or deposit. At September 30, 2019, GGRF held approximately \$33,000,000 in corporate bonds issued by companies organized in various foreign countries. Of this amount, approximately \$12,000,000 was issued by Canadian companies, \$4,000,000 by Dutch companies, \$3,000,000 by British companies, \$2,000,000 by Irish companies, \$2,000,000 by German companies, and \$10,000,000 by 22 other country companies.

At September 30, 2019, GGRF held investments (generally U.S. dollar denominated ADRs) in corporate stocks issued by companies organized in various foreign countries. These ADRs are indirectly affected by fluctuations in currency exchange rates. The market value of these investments at September 30, 2019 was approximately \$179,000,000. Of this total, approximately \$69,000,000 relates to companies whose functional currency is the Euro, \$30,000,000 relates to companies whose functional currency is the Japanese yen, \$21,000,000 relates to companies whose functional currency is the British pound, \$15,000,000 relates to companies whose functional currency is the Australian dollar, \$11,000,000 relates to companies whose functional currency is the Swiss franc and the remaining \$33,000,000 relates to companies representing eight separate functional currencies.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

The Guam Code Annotated and GGRF's investment policy contain legal requirements that limit the exposure to custodial credit risk for deposits and investments. The Guam Code Annotated requires that a financial institution secure deposits made by GovGuam agencies by pledging securities in: "(a) Treasury notes or bonds of the United States, or those for which the faith and credit of the United States are pledged for the payment of principal and interest, (b) any evidence of indebtedness of the Government of Guam, (c) Investment certificates of the Federal Home Loan Bank, or (d) such other securities as may be ... approved by the Director of Administration and the Governor of Guam.". The fair market value of the pledged securities must be at least ten percent (10%) in excess of the amount of monies deposited with the bank.

Further, to address custodial risk, the Guam Code Annotated requires the custodian to have been in the business of rendering trust custody services for ten or more years, to be organized under the laws of the United States or a state or territory thereof, to have capital and surplus in excess of Ten Million Dollars (\$10,000,000), and to be a member of the Federal Reserve System whose deposits are insured by the Federal Deposit Insurance Corporation. Regardless of the above, any locally chartered bank may act as custodian for GGRF.

B. Tax Abatements

As of September 30, 2019, GovGuam provided tax abatements through the following programs:

Guam Registered Apprenticeship Program (GRAP) provides tax abatement incentives to eligible businesses that employ apprentices who are duly enrolled and registered in the program. Eligible businesses are entitled to tax abatement against their gross receipts tax liability equal to fifty percent (50%) of the eligible training costs paid or incurred by the business. Eligible training costs include direct wages of apprentices, direct fringe benefits (medical and dental insurance), journeyman's wages (on-the-job training), instructor costs (academic and trade theory), training costs (books and tuition), and personal protective equipment.

The GRAP Program was created under Public Law 28-142 for the purposes of reducing the shortage of highly skilled workers; encouraging employers to hire and train apprentices in highly skilled trades and occupations; authorizing up to 50% abatement of gross receipts taxes for certain long term apprenticeship training expenses; and ensuring that apprentices continue to pay income taxes and participate in the economy.

The eligible business should be duly enrolled and registered under GRAP with the Department of Labor. The apprentice's occupation should be on the GRAP Demand Occupations Listing which is compiled by the Director of the Department of Labor and approved by the Governor and the Legislature of Guam. The eligible business must not be a beneficiary of a Qualifying Certificate issued by the Guam Economic Development Authority.

Qualifying Certificate (QC) Program was created under Public Law 8-80 and amended under Public Law 20-178 and Public Law 22-159 as an economic incentive tool to encourage investment in activities that would strengthen the island economy, enrich its growth, and enhance the quality of life in Guam. Qualified individuals and companies may be granted the following tax abatements:

- Up to 100% abatement of real property tax for up to ten (10) years on property utilized by the QC beneficiary to operate its business;
- Up to 100% abatement of gross receipts tax on income from the sale of alcoholic beverages and petroleum products manufactured in Guam for up to ten (10) years;
- Up to 100% abatement of gross receipts tax on income derived from underwriting insurance risks either in or out of Guam for up to twenty (20) years;
- Up to 100% rebate of corporate income tax for up to twenty (20) years.

Guam Community Recycling Tax Incentive Program was created under Public Law 127, which provides recycling and transshipment companies with tax benefits to encourage investment opportunities in recycling and transshipment activities. Qualified individuals and companies may be granted the following tax abatements:

- Up to 100% abatement of gross receipts tax on income derived from recycling activities for up to ten (10) years;
- Up to 100% abatement of excise tax with respect to the property used to construct, furnish and equip the recycling facilities.

Special Hotel Qualifying Certificate (QC) Program was created under Public Law 32-233 specifically for the development of one thousand six hundred (1,600) new hotel rooms by the year 2020, a goal set forth by the Guam Visitors Bureau Vision 2020 plan. This program provides additional incentives to hotel developers in order to meet this goal and shall remain in effect until the earlier of five years; 1,600 hotel rooms have been committed to be built; or a China Visa Waiver or China Visa Parole declaration has been approved for Guam. Developers and owners are allowed a tax rebate, exemption or abatement in an amount equal to ten percent (10%) of their total construction costs, which can be applied by the developer, at their discretion, to the following taxes:

- Up to 100% abatement of real property tax for up to ten (10) years on property utilized by the QC beneficiary to operate its business;
- Up to 50% abatement of gross receipts tax payable to GovGuam for up to twenty (20) years;
- Up to 100% abatement of excise tax with respect to the property used to construct, furnish and equip the new facility construction or substantial expansion of an existing building;
- Up to 100% rebate of corporate income tax for up to twenty (20) years.

HOT Series A, 2011 Bonds

The HOT Series A, 2011 bonds are backed by the full faith and credit of GovGuam, payable solely from and collateralized by a pledge of hotel occupancy tax revenues. These bonds were issued for the purpose of advance refunding 1997 Infrastructure Improvement Bonds and to provide additional proceeds to fund the construction of a new Guam Museum and other projects for the benefit of Guam's tourism industry (collectively, the Infrastructure Improvement Project Costs). Total principal and interest remaining on the HOT Series A, 2011 bonds is \$136,527,688 payable through November 2040. For the year ended September 30, 2019, principal and interest paid and total hotel occupancy tax revenues were \$6,994,750 and \$44,701,481, respectively.

The General Indenture, as supplemented by a supplemental indenture, each dated April 1, 2011, sets forth the establishment of accounts, the application of revenues and of periodic deposits into these accounts, and certain other covenants to ensure payment of debt service. The following rate covenant together with funds and accounts are established under the General Indenture dated April 1, 2011:

Rate Covenant - GovGuam has covenanted that it will impose, levy, and enforce taxes of the type now imposed by 11 GCA §30101 and collect Hotel Occupancy Tax revenues (or may, in its sole and absolute discretion, but shall not be obligated to, pay into the Revenue Fund moneys from any other legally available source) in the aggregate amount within each Bond Year at least sufficient to pay and provide for the sum of: (1) an aggregate amount equal to at least 125% of aggregate annual debt service for such Bond Year; (2) an aggregate amount equal to the amounts required to be deposited in the Rebate Fund during such Bond Year required by the General Indenture, plus the amount of Bond Expenses estimated by the Trustee to be payable during such Bond Year; and (3) such amounts as may be required pursuant to the General Indenture (and any supplemental indenture for the issuance of additional Bonds) to increase or restore the Bond Reserve Fund to the Bond Reserve Fund Requirement.

Construction Fund - Moneys on deposit in the Construction Account will be disbursed by the Depositary for the payment of Infrastructure Improvement Project Costs.

Costs of Issuance Account - Moneys on deposit in the Costs of Issuance Account will be disbursed by the Depositary for the payment of the costs associated with the issuance of the Bonds.

Capitalized Interest Account - Moneys on deposit in the Capitalized Interest Account will be disbursed by the Depositary for the payment of interest on the Bonds.

Bond Fund - the Trustee shall apply moneys on deposit in this Fund solely for the purposes of: (1) paying interest on the Bonds as it shall become due and payable; (2) paying the principal of the Serial Bonds when due and payable; (3) purchasing, redeeming or paying at maturity the Term Bonds as provided in the General Indenture; and (4) paying Parity Payment Agreement Payments due and payable. As of September 30, 2019, GovGuam is not a party to any Parity Payment Agreements.

HOT Series A, 2011 Bonds, Continued

Bond Reserve Fund - the General Indenture created a Bond Reserve Fund available for the purpose of paying debt service on Bonds (including Payment Agreement Payments) in the event of a deficiency in the Bond Fund. GovGuam is required to maintain an amount within the Bond Reserve Fund equal to the maximum annual debt service for the then current or future fiscal year on all outstanding HOT Series A, 2011 bonds. The Bond Reserve Fund Requirement means, as of any date of calculation and with respect to any Bonds, an amount equal to: (i) the least of (A) the maximum annual debt service, calculated on all such Bonds Outstanding as of such date, (B) 125% of average annual debt service on all such Bonds Outstanding as of such date, or (C) such amount as may be calculated in connection with the issuance of an Additional Series of Bonds by adding not more than 10% of the original principal amount of such Additional Series of Bonds to the Bond Reserve Fund Requirement immediately before such issuance; or (ii) such larger amount as may be established as the Bond Reserve Fund Requirement by any supplemental indenture. As of September 30, 2019, GovGuam maintains \$7,093,675 in this fund in accordance with the Bond Reserve Fund Requirement.

Revenue Fund - the General Indenture created a Revenue Fund into which GovGuam shall deposit all hotel occupancy tax revenues, upon receipt, and which the Trustee, as Depositary, will maintain and hold pursuant to the General Indenture.

BPT Series A, 2011, Series B, 2012, Series D, 2015 Bonds

The BPT Series A, 2011, Series B, 2012, and Series D, 2015 bonds are backed by the full faith and credit of GovGuam, payable solely from and collateralized by a pledge of business privilege tax revenues. These bonds were issued for the purpose of providing proceeds to fund other GovGuam obligations, including past due tax refunds, COLA settlement payments, health insurance premium payments and delinquent retirement fund contributions, advance refunding 2007 and 2009 GOB bonds, and funding capitalized interest (collectively, the Eligible Expenses). Total principal and interest remaining on the BPT Series A, 2011, Series B, 2012, and Series D, 2015 bonds is \$1,191,148,676 payable through January 2046. For the year ended September 30, 2019, principal and interest paid and total gross receipts tax revenues were \$50,557,132 and \$314,010,165, respectively.

The General Indenture, dated December 1, 2011, as updated by supplemental indentures, sets forth the establishment of accounts, the application of revenues and of periodic deposits into these accounts, and certain other covenants to ensure payment of debt service. The following rate covenant together with funds and accounts are established under the General Indenture dated December 1, 2011:

Rate Covenant - GovGuam has covenanted that it will impose, levy, and enforce taxes of the type now imposed by 11 GCA §26201 and collect Business Privilege Tax revenues. Furthermore, GovGuam has covenanted that it will not reduce the rate of levy and collection of pledged business privilege tax revenues below 3% nor will GovGuam reduce the services or the products activities to which the pledged business privilege tax applies, nor will GovGuam upwardly adjust any exception or exclusion to, or otherwise impair, the pledged business privilege tax.

Escrow Fund - Moneys on deposit in the Escrow Fund to be disbursed to pay the principal of and interest on the refunded 2007 and 2009 GOB bonds.

Proceeds Fund - Moneys on deposit in the Proceeds Fund will be disbursed by the Depositary for the payment of Eligible Expenses of GovGuam to be funded from Bond proceeds and the costs associated with the issuance of the Bonds.

Costs of Issuance Account - Moneys on deposit in the Costs of Issuance Account will be disbursed by the Depositary for the payment of the costs associated with the issuance of the Bonds.

Capitalized Interest Account - Moneys on deposit in the Capitalized Interest Account will be disbursed by the Depositary for the payment of interest on the Bonds.

Bond Fund - the Trustee shall apply moneys on deposit in this Fund solely for the purposes of: (1) paying interest on the Bonds as it shall become due and payable; (2) paying the principal of the Serial Bonds when due and payable; (3) purchasing, redeeming or paying at maturity the Term Bonds as provided in the General Indenture; (4) paying Parity Payment Agreement Payments due and payable; and (5) paying Credit Agreement Reimbursement Payments due and payable. As of September 30, 2019, GovGuam is not a party to any Parity Payment or Credit Agreement Reimbursement Payment Agreements.

Revenue Fund - the General Indenture created a Revenue Fund into which GovGuam, shall deposit all business privilege tax revenues, upon receipt, and which the Trustee, as Depositary, will maintain and hold pursuant to the General Indenture.

On September 9, 2015, GovGuam issued \$410,485,000 in Business Privilege Tax Revenue Bonds, 2015 Series D to refund \$151,935,000 of outstanding General Obligation Bonds, 2007 Series A bonds and partially refund \$229,020,000 of outstanding General Obligation Bonds, 2009 Series A bonds. Of the net proceeds of \$455,135,254 (including an issue premium of \$44,650,254), \$454,758,932 was deposited to an Escrow Fund to be used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent for the purpose of generating resources for all future debt service payments of the previously issued outstanding General Obligation Bonds, 2007 Series A and General Obligation Bonds, 2009 Series A. As a result, these bonds are considered defeased, and the liability for these bonds has been removed from the government-wide financial statements. The advanced refunding resulted in a loss on defeasance of \$82,801,641, which is deferred and being amortized to expense using the effective interest rate method over average remaining life of the 2007 and 2009 bonds. The unamortized balance of the deferred loss on refunding is \$68,503,173 as of September 30, 2019.

Section 30 Series A, 2016 Bonds

The Section 30 Series A, 2016 bonds are backed by the full faith and credit of GovGuam, payable solely from and collateralized by a pledge of Section 30 revenues. These bonds were issued for the purpose of refunding 2009 Section 30 LOB bonds; refinancing all of the outstanding 2013 Series B Certificates of Participation (Okkodo High School Expansion Project); and to provide additional proceeds to fund certain working capital costs of the Guam Memorial Hospital Authority (the 2016 Hospital Working Capital Project). Total principal and interest remaining on the Section 30 Series A, 2016 bonds is \$353,520,375 payable through December 2046. For the year ended September 30, 2019, principal and interest paid and total Section 30 revenues were \$16,904,500 and \$77,046,768, respectively.

Section 30 Series A, 2016 Bonds, Continued

The General Indenture, dated June 1, 2009, as amended and restated by an Amended and Restated Indenture, dated August 1, 2016, as updated by supplemental indentures, sets forth the establishment of accounts, the application of revenues and of periodic deposits into these accounts, and certain other covenants to ensure payment of debt service. The following revenue covenant together with funds and accounts are established under the Amended and Restated Indenture dated August 1, 2016:

Revenue Covenant - GovGuam has covenanted that it will not issue or incur any obligations having a claim on the Section 30 Revenues prior to the claim of the Section 30 Series A, 2016 bonds and any bonds on a parity therewith. GovGuam has also covenanted that it shall deposit or cause to be deposited all Section 30 Revenues upon receipt into the Section 30 Revenue Fund which the Trustee shall maintain and hold in trust.

Escrow Fund - Moneys on deposit in the Escrow Fund to be disbursed to pay the principal of and interest on the refunded 2009 Section 30 LOB bonds and 2013 Series B certificates of participation.

Project Account - Moneys on deposit in the Project Account will be disbursed by the Depositary for the payment of 2016 Hospital Working Capital Project Costs.

Costs of Issuance Account - Moneys on deposit in the Costs of Issuance Account will be disbursed by the Depositary for the payment of the costs associated with the issuance of the Bonds.

Section 30 Revenue Fund - the Amended and Restated Indenture created the Section 30 Revenue Fund into which GovGuam shall deposit all Section 30 revenues, upon receipt, and which the Trustee, as Depositary, will maintain and hold pursuant to the Amended and Restated Indenture. In accordance with the Amended and Restated Indenture, the Trustee created the following funds within the Section 30 Revenue Fund:

- Bond Reserve Fund the Trustee is required to hold and maintain within the Bond Reserve Fund an amount equal to the Bond Reserve Fund Requirement. The Bond Reserve Fund Requirement means, as of any date of calculation and with respect to any Bonds, monies in the aggregate amount within each Bond Year at least sufficient to pay and provide for the sum of: (1) an aggregate amount equal to at least 125% of aggregate annual debt service for such Bond Year; (2) an aggregate amount equal to the amounts required to be deposited in the Rebate Fund during such Bond Year required by the Amended and Restated Indenture, plus the amount of Bond Expenses estimated by the Trustee to be payable during such Bond Year; and (3) such amounts as may be required pursuant to the Amended and Restated Indenture (and any supplemental indenture for the issuance of additional Bonds) to increase or restore the Bond Reserve Fund to the Bond Reserve Fund Requirement. As of September 30, 2019, GovGuam maintains \$16,317,823 in this fund in accordance with the Bond Reserve Fund Requirement.
- Debt Service Fund the Trustee is required to hold and maintain within the Debt Service Fund an amount equal to the sum of: (1) the interest then due or to become due on all outstanding bonds during the period ending on November 30 of the next succeeding fiscal year; and (2) the principal (including any Mandatory Sinking Account Payments) then due or to become due on all outstanding bonds during the period ending on November 30 of the next succeeding fiscal year.

Limited Obligation Bonds (LOB), Continued:

Section 30 Series A, 2016 Bonds, Continued

On August 17, 2016, GovGuam issued \$236,605,000 in Limited Obligation (Section 30) Bonds, 2016 Series A to refund \$182,610,000 of outstanding Limited Obligation (Section 30) Bonds, 2009 Series A bonds and to provide additional proceeds to fund certain working capital costs of the Guam Memorial Hospital Authority. Of the net proceeds of \$280,547,958 (including an issue premium of \$43,942,958), \$211,658,081 was deposited to an Escrow Fund to be used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent for the purpose of generating resources for all future debt service payments of the previously issued outstanding Limited Obligation (Section 30) Bonds, 2009 Series A. As a result, these bonds are considered defeased, and the liability for these bonds has been removed from the government-wide financial statements. The advanced refunding resulted in a loss on defeasance of \$31,939,331, which is deferred and is being amortized to expense using the effective interest method over average remaining life of the 2009 bonds. The unamortized balance of the deferred loss on refunding is \$26,616,110 as of September 30, 2019.

Events of Default

The respective Certificates and Indentures specify that any one or more of the following events will be considered an Event of Default:

- (A) Default by GovGuam in the due and punctual payment of the principal or Redemption Price of any Bond when and as the same shall become due and payable, whether at maturity as therein expressed, by proceedings for redemption, by declaration or otherwise; default by GovGuam in the redemption from any Mandatory Sinking Account Payment of any Term Bonds in the amounts and at the times provided therefor; or default by GovGuam in the due and punctual payment of any installment of interest on any Bond when and as such interest installment shall become due and payable;
- (B) Default by GovGuam in the observance of any of the covenants, agreements or conditions on its part contained in the Issuance Certificates or in the Bonds, if such default shall have continued for a period of 60 days after written notice thereof, specifying such default and requiring the same to be remedied, shall have been given to GovGuam by the Trustee or to GovGuam and the Trustee by the Holders of not less than 25% in aggregate principal amount of the Bonds at the time Outstanding; or
- (C) The assumption, under the provisions of any law relating to bankruptcy or insolvency or any similar law relating to creditor's rights, by any court of competent jurisdiction, of custody or control of GovGuam or of the whole or any substantial part of its property, if such custody or control is not terminated or stayed within 60 days from the date of assumption of such custody or control.

In the event that the amount in any Fund or Account is insufficient for the purposes for which such Fund or Account was established, the Trustee shall transfer such amount as is necessary to satisfy such deficiency. If after making all such transfers, the amount in such Fund or Account is insufficient, the Trustee shall promptly issue a notice of default to Bondholders.

Notes to Financial Statements September 30, 2019

(6) <u>Long-Term Obligations, Continued</u>

Acceleration of Maturities

If an Event of Default shall occur, then, and in each and every such case during the continuance of such Event of Default, the Trustee or the Holders of not less than a majority in aggregate principal amount of the Bonds at the time Outstanding shall be entitled, upon notice in writing to GovGuam, to declare the principal of all of the Bonds then Outstanding, and the interest accrued thereon, to be due and payable immediately, and upon any such declaration the same shall become and shall be immediately due and payable, anything in the Issuance Certificates or in the Bonds contained to the contrary notwithstanding.

If an Event of Default occurs and is continuing, all moneys then held or thereafter received by the Trustee or the Depositary under any of the provisions of the respective Certificates and Indentures is required to be under the control of and applied by the Trustee as outlined in the respective Certificates and Indentures.

Management of GovGuam believes that it is in compliance with all significant covenants, limitations and restrictions of the respective Certificates and Indentures as of September 30, 2019.

Direct Borrowings, Continued:

Judicial Building Loan

GovGuam entered into a loan with a bank to repay a 1988 loan and to fund the construction of a Judicial Building and a Forensic Science Laboratory. The note is collateralized by the pledge and assignment of Judicial Building Fund revenues. The credit agreement, dated September 15, 2006, requires that all funds, monies, securities, and deposits, which comprise the Judicial Building Fund, shall be maintained in accounts with the lender. Furthermore, the credit agreement contains a provision that in the event of default, the lender has the ability to satisfy the indebtedness, in whole or in part, by enforcing and collecting any obligation subject to this pledge and assignment, or by applying any amounts in the Judicial Building Fund to obligations secured hereby. Total principal and interest remaining on the note payable is \$8,347,499 payable through December 2051. For the year ended September 30, 2019, principal and interest paid and total judicial fees, fines and building rental receipt revenues were \$925,481 and \$1,362,441, respectively. (See Note 15)

Congress Building Loan

GovGuam entered into a loan with a bank to fund the modernization, refurbishment and renovation of the Guam Congress Building. The note is collateralized by the pledge and assignment of Capitol District Fund revenues. The credit agreement, dated April 28, 2014, requires that all funds, monies, securities, and deposits, which comprise the Capitol District Fund, shall be maintained in accounts with the lender. Furthermore, the credit agreement contains a provision that in the event of default, the lender has the ability to satisfy the indebtedness, in whole or in part, by enforcing and collecting any obligation subject to this pledge and assignment, or by applying any amounts in the Capitol District Fund to obligations secured hereby. Total principal and interest remaining on the note payable is \$5,316,065 payable through September 2035. For the year ended September 30, 2019, principal and interest paid and total building rental receipt revenues were \$319,200 and \$248,813, respectively.

Management of GovGuam believes that it is in compliance with all significant covenants, limitations and restrictions of the respective credit agreements as of September 30, 2019.

(6) Long-Term Obligations, Continued

Prior-Year Defeasance of Debt:

In prior years, GovGuam defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in GovGuam's financial statements. At September 30, 2019, the following bonds outstanding are considered defeased:

GOB Series A, 2009 \$ 229,020,000 LOB Series A, 2009 \$ 164,845,000

\$ <u>393,865,000</u>

(7) Changes in Long-Term Liabilities

Other long-term liabilities will generally be liquidated in the future from the General Fund. During the year ended September 30, 2019, the following changes occurred in liabilities reported as part of the primary government's long-term liabilities in the statement of net position:

	Balance			Balance

Other long-term liabilities include an amount due to the Internal Revenue Service (IRS) for excess Make Work Pay Credit (MWPC) payments received under the American Recovery and Reinvestment Act of 2009. In accordance with an agreement between GovGuam and the IRS, the amount due was renegotiated in the amount of \$19,937,926. GovGuam has yet to finalize repayment terms and conditions with the IRS.

In addition, other long-term liabilities include an amount due to landowners in the original amount of \$29,112,970, inclusive of interest. On October 31, 2012, a Court Order was issued for the payment of approximately \$25,115,683 for the condemnation of land which encompasses the Layon landfill. A payment of \$3,410,000 was deposited to the Court and distributed to the landowners with the remaining balance of \$21,705,683 plus interest at 6% per annum calculated from January 24, 2008 to be made. GovGuam negotiated long-term tax credit certificates with certain landowners. During the year ended September 30, 2019, tax credits in the amount of \$936,249 were redeemed in lieu of payments, of which \$717,903 and \$218,346 represented principal and interest, respectively, with a remaining amount of \$2,921,198 associated with this Court Order payable to landowners.

Transfers are used to 1) move revenues from the fund that enabling legislation or budget requires to collect them to the fund that enabling legislation or budget requires to expend them, 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and 3) record reductions in interfund loans for amounts that are not expected to be repaid. Specifically, GovGuam transferred a total of \$17,848,170 from the General Fund and the nonmajor governmental funds to the Federal Grants Assistance Fund representing local match requirements under various federal grant awards; \$9,039,946 from the General Fund to the nonmajor governmental funds to finance charter schools administered by the Guam Department of Education; \$13,804,185 from the nonmajor governmental funds to the General Fund operations; \$37,829,289 from the nonmajor governmental funds to the General Fund to primarily finance public school operations and debt service requirements; and \$9,184,284 from the Federal Grants Assistance Fund to the GDOE Federal Grants Fund to finance municipal school lease payments and other programs administered by the Guam Department of Education.

(11) Pensions

GovGuam is statutorily responsible for providing pension benefits for GovGuam employees through the GovGuam Retirement Fund (GGRF).

A. General Information About the Pension Plans:

Plan Description: GGRF administers the GovGuam Defined Benefit (DB) Plan, a single-employer defined benefit pension plan, and the Defined Contribution Retirement System (DCRS). The DB Plan provides retirement, disability, and survivor benefits to plan members who enrolled in the plan prior to October 1, 1995. Article 1 of 4 GCA 8, Section 8105, requires that all employees of GovGuam, regardless of age or length of service, become members of the DB Plan prior to the operative date. Employees of a public corporation of GovGuam have the option of becoming members of the DB Plan prior to the operative date. All employees of GovGuam, including employees of GovGuam public corporations, whose employment commenced on or after October 1, 1995 and prior to January 1, 2018, were required to participate in the Defined Contribution Retirement System (DCRS) Plan. Hence, the DB Plan became a closed group.

Members of the DB Plan who retired prior to October 1, 1995, or their survivors, are eligible to receive annual supplemental annuity payments. In addition, retirees under the DB and DCRS Plans who retired prior to September 30, 2018 are eligible to receive an annual ad hoc cost of living allowance (COLA).

A single actuarial valuation is performed annually covering all plan members and the same contribution rate applies to each employer. GGRF issues a publicly available financial report that includes financial statements and required supplementary information for the DB Plan. That report may be obtained by writing to the Government of Guam Retirement Fund, 424 A Route 8, Maite, Guam 96910, or by visiting GGRF's website – www.ggrf.com.

Plan Membership: As of September 30, 2018 (the measurement date), plan membership consisted of the following:

DB members:

Inactive employees or beneficiaries currently receiving benefits Inactive employees entitled to but not yet receiving benefits	7,273 3,170
Active employees	<u>5,188</u> 15,631
DCRS members: Active employees	<u>5,921</u>
	21,552

Benefits Provided: The DB Plan provides pension benefits to retired employees generally based on age and/or years of credited service and an average of the three highest annual salaries received by a member during years of credited service, or \$6,000, whichever is greater. Members who joined the DB Plan prior to October 1, 1981 may retire with 10 years of service at age 60 (age 55 for uniformed personnel); or with 20 to 24 years of service regardless of age with a reduced benefit if the member is under age 60; or upon completion of 25 years of service at any age. Members who joined the DB Plan on or after October 1, 1981 and prior to August 22, 1984 may retire with 15 years of service at age 60 (age 55 for uniformed personnel); or with 25 to 29 years of service regardless of age with a reduced benefit if the member is under age 60; or upon completion of 30 years of service at any age.

(11) Pensions, Continued

A. General Information About the Pension Plans, Continued:

Members who joined the DB Plan after August 22, 1984 and prior to October 1, 1995 may retire with 15 years of service at age 65 (age 60 for uniformed personnel); or with 25 to 29 years of service regardless of age with a reduced benefit if the member is under age 65; or upon completion of 30 years of service at any age. Upon termination of employment before attaining at least 25 years of total service, a member is entitled to receive a refund of total contributions including interest. A member who terminates after completing at least 5 years of service has the option of leaving contributions in the GGRF and receiving a service retirement benefit upon attainment of the age of 60 years. In the event of disability during employment, members under the age of 65 with six or more years of credited service who are not entitled to receive disability payments from the United States Government are eligible to receive sixty six and two-thirds percent of the average of their three highest annual salaries received during years of credited service. The DB Plan also provides death benefits.

Supplemental annuity benefit payments are provided to DB retirees in the amount of \$4,238 per year, but not to exceed \$40,000 per year when combined with their regular annual retirement annuity. Annual COLA payments are provided to DB and DCRS retirees in a lump sum amount of \$2,000. Both supplemental annuity benefit payments and COLA payments are made at the discretion of the Guam Legislature, but are funded on a "pay-as-you-go" basis so there is no plan trust. It is anticipated that ad hoc COLA and supplemental annuity payments will continue to be made for future years at the same level currently being paid.

On September 20, 2016, the Guam Legislature enacted Public Law 33-186, which created two new government retirement plans; the DB 1.75 Plan and the Guam Retirement Security Plan (GRSP). On February 4, 2020, the Guam Legislature terminated the GRSP. Commencing April 1, 2017, eligible employees elected, during the "election window", to participate in the DB 1.75 Plan with an effective date of January 1, 2018.

The DB 1.75 Plan is open for participation by certain existing employees, new employees, and reemployed employees who would otherwise participate in the DC Plan and who make election on a voluntary basis to participate in the DB 1.75 Plan by December 31, 2017. Employee contributions are made by mandatory pre-tax payroll deduction at the rate of 9.5% of the employee's base salary while employer contributions are actuarially determined. Members of the DB 1.75 Plan automatically participate in the GovGuam deferred compensation plan, pursuant to which employees are required to contribute 1% of base salary as a pre-tax mandatory contribution. Benefits are fully vested upon attaining 5 years of credited service.

Members of the DB 1.75 Plan may retire at age 62 with 5 years of credited service, or at age 60 with 5 years of credited service without survivor benefits, or at age 55 with 25 years of credited service but the retirement annuity shall be reduced ½ of 1% for each month that the age of the member is less than 62 years (6% per year). Credited service is earned for each year of actual employment by the member as an employee. Upon retirement, a retired member is entitled to a basic retirement annuity equal to an annual payment of 1.75% of average annual salary multiplied by years of credited service. Average annual salary means the average of annual base salary for the three years of service that produce the highest average.

(11) Pensions, Continued

A. General Information About the Pension Plans, Continued:

Contributions and Funding Policy: Contribution requirements of participating employers and active members to the DB Plan are determined in accordance with Guam law. Employer contributions are actuarially determined under the One-Year Lag Methodology. Under this methodology, the actuarial valuation date is used for calculating the employer contributions for the second following fiscal year. For example the September 30, 2017 actuarial valuation was used for determining the year ended September 30, 2019 statutory contributions. Member contributions are required at 9.52% of base pay.

As a result of actuarial valuations performed as of September 30, 2017, 2016 and 2015, contribution rates required to fully fund the Retirement Fund liability, as required by Guam law, for the years ended September 30, 2019, 2018 and 2017, respectively, have been determined as follows:

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Normal costs (% of DB Plan payroll) Employee contributions (DB Plan employees)	13.54% <u>9.52</u> %	15.97% <u>9.55</u> %	16.27% <u>9.55</u> %
Employer portion of normal costs (% of DB Plan payroll)	4.02%	6.42%	<u>6.72</u> %
Employer portion of normal costs (% of total payroll) Unfunded liability cost (% of total payroll)	2.29% 21.29%	1.60% <u>22.12</u> %	1.87% <u>21.60</u> %
Government contribution as a % of total payroll	<u>23.58</u> %	<u>23.72</u> %	<u>23.47</u> %
Statutory contribution rates as a % of DB Plan payroll: Employer	<u>26.56</u> %	<u>27.83</u> %	<u>27.41</u> %
Employee	<u>9.52</u> %	<u>9.55</u> %	<u>9.55</u> %

GovGuam's contributions to the DB Plan for the years ended September 30, 2019, 2018 and 2017 were \$47,744,607, \$44,467,536 and \$24,416,430, respectively, which were equal to the statutorily required contributions for the respective years then ended.

GovGuam's contributions to the supplemental annuity benefit payments and the COLA payments for the years ended September 30, 2019, 2018 and 2017 were \$17,918,474, \$18,094,182 and \$18,033,330, respectively, which were equal to the statutorily required contributions for the respective years then ended.

Members of the DCRS plan, who have completed five years of government service, have a vested balance of 100% of both member and employer contributions plus any earnings thereon.

Contributions into the DCRS plan by members are based on an automatic deduction of 5% of the member's regular base pay, which increased to 6.2% effective January 1, 2018. The contribution is periodically deposited into an individual annuity account within the DCRS. Employees are afforded the opportunity to select from different annuity accounts available under the DCRS.

A. General Information About the Pension Plans, Continued:

Statutory employer contributions for the DCRS plan for the year ended September 30, 2019 are determined using the same rates as the DB Plan. Of the amount contributed by the employer, only 5% of the member's regular pay is deposited into the DCRS, which increased to 6.2% effective January 1, 2018. The remaining amount is contributed towards the unfunded liability of the defined benefit plan.

GovGuam's contributions to the DCRS Plan for the years ended September 30, 2019, 2018 and 2017 were \$42,369,530, \$48,699,660 and \$67,736,957, respectively, which were equal to the required contributions for the respective years then ended. Of these amounts, \$32,460,433, \$38,672,664 and \$55,387,310 were contributed toward the unfunded liability of the DB Plan for the years ended September 30, 2019, 2018 and 2017, respectively.

Actuarial Assumptions: Actuarially determined contribution rates for the DB Plan are calculated as of September 30, two years prior to the end of the fiscal year in which contributions are reported. The methods and assumptions used to determine contribution rates are as follows:

Valuation Date: September 30, 2017

Actuarial Cost Method: Entry age normal

Amortization Method: Level percentage of payroll, closed

Remaining Amortization Period: May 1, 2033 (15.58 years remaining as of

September 30, 2017)

Asset Valuation Method: 3-year smoothed market value (effective

September 30, 2009)

Inflation: 2.75% per year

Total payroll growth: 2.75% per year

Salary Increases: 4% to 7.50%

Retirement age: 50% probability of retirement upon first eligibility

for unreduced retirement. Thereafter, the probability of retirement is 20% for each year until age 75, and increases to 100% at age 75.

Mortality:

RP-2000 healthy mortality table (males +3, females +2). Mortality for disabled lives is the RP 2000 disability mortality (males +6, females +4). Both tables are projected generationally from 2016 using 30% of Scale BB.

The actuarial assumptions used in the September 30, 2017 valuation were based on the results of an actuarial experience study for the period October 1, 2011 to September 30, 2015.

The investment rate assumption as of September 30, 2017 was 7%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of the expected nominal return for each major asset class are summarized in the following table:

Asset Class	Target <u>Allocation</u>	Nominal <u>Return</u>
U.S. Equities (large cap)	29.0%	7.47%
U.S. Equities (small cap)	7.0%	8.73%
Non-U.S. Equities	16.5%	9.27%
Non-U.S. Equities (emerging markets)	2.0%	11.09%
U.S. Fixed Income (aggregate)	21.5%	4.67%
Risk parity	8.0%	6.50%
High yield bonds	8.0%	6.59%
Global Real Estate (REITs)	5.0%	8.60%
Master Limited Partnerships	3.0%	6.56%

Changes in Actuarial Assumptions: The following changes in actuarial assumptions occurred from the September 30, 2016 valuation to the September 30, 2017 valuation:

Remaining Amortization Period: The unfunded liability was being amortized over a closed period ending on May 1, 2031. This was extended by 2 years to May 1, 2033 by Public Law 33-186.

Discount Rate: The discount rate used to measure the total pension liability for the DB Plan as of September 30, 2018 was 7% (7% as of September 30, 2017), which is equal to the expected investment rate of return. The expected investment rate of return applies to benefit payments that are funded by plan assets (including future contributions), which includes all plan benefits except supplemental annuity payments to DB retirees and ad hoc COLA to both DB and DCRS retirees. The discount rate used to measure the total pension liability for the supplemental annuity and ad hoc COLA payments as of September 30, 2018 was 4.18% (3.64% as of September 30, 2017), which is equal to the rate of return of a high quality bond index.

(12) Other Post-Employment Benefits (OPEB)

GovGuam's Department of Administration is responsible for administering the GovGuam Group Health Insurance Program, which provides medical, dental, and life insurance benefits to retirees, spouses, children and survivors. Active employees and retirees who waive medical and dental coverage are considered eligible for the life insurance benefit only. The program covers retirees and is considered an OPEB plan.

A. General Information About the OPEB Plan:

Plan Description: The OPEB plan is a single-employer defined benefit plan that provides healthcare benefits to eligible employees and retirees who are members of the GovGuam Retirement Fund. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The Governor's recommended budget and the annual General Appropriations Act enacted by the Guam Legislature provide for a premium level necessary for funding the program each year on a "pay-as-you-go" basis. Because the OPEB Plan consists solely of GovGuam's firm commitment to provide OPEB through the payment of premiums to insurance companies on behalf of its eligible retirees, no stand-alone financial report is either available or generated.

Plan Membership: As of September 30, 2018, the date of the most recent valuation (the actuarial valuation date), plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	7,930
Active plan members	<u>10,136</u>
·	

<u>18,066</u>

Benefits Provided: GovGuam provides postemployment medical, dental and life insurance benefits to GovGuam retirees, spouses, children and survivors, which are the same benefits as provided to active employees. Active employees and retirees who waive medical and dental coverage are considered eligible for the life insurance benefit only. GovGuam contributes a portion of the medical and dental premiums, based on a schedule of semi-monthly rates, and reimburses certain Medicare premiums to eligible retirees. Retirees are also required to pay a portion of the medical and dental insurance premiums. Three types of health plans are offered to eligible participants:

- Standard islandwide Preferred Provider Organization (PPO) Plan
- High Deductible (Health Savings Account HSA) PPO Plan
- Retiree Supplement Plan (RSP)

The PPO and HSA Plans apply to both active employees and retirees and work with set deductible amounts whereas the RSP Plan is an added option for retirees only.

Contributions: No employer contributions are assumed to be made since an OPEB trust has not been established. Instead, the OPEB plan is financed on a substantially "pay-as-you-go" basis whereby contributions to the plan are generally made at about the same time and in about the same amount as benefit payments and expenses becoming due.

B. Total OPEB Liability:

As of September 30, 2019, the GovGuam reporting entity reported a total OPEB liability of \$1,874,970,335 of which GovGuam (the primary government) and its component units reported \$1,275,051,027 and \$599,919,308, respectively, for their proportionate share of the total OPEB liability measured as of September 30, 2018. The following presents GovGuam and its component units' change in proportion since the prior measurement date:

	Primary <u>Government</u>	Component <u>Units</u>
Proportion at prior measurement date, September 30, 2017	<u>68.47</u> %	<u>31.53</u> %
Proportion at measurement date, September 30, 2018	<u>68.01</u> %	<u>31.99</u> %
Increase/(decrease) in proportion	<u>-0.46</u> %	<u>0.46</u> %

The total OPEB liability for the OPEB Plan was determined by an actuarial valuation as of September 30, 2018 (the measurement date) using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation: 2.75%.

Amortization method: Level dollar amount over 30 years on an open

amortization period for pay-as-you-go funding.

Salary increases: 7.5% per year for the first 5 years of service, 6% for 5-

10 years, 5% for 11-15 years and 4% for service over 15 years. Previously, 7.5% per year for the first 5 years of service, 6% for 5-10 years, 5% for 11-15 years and

4.5% for service over 15 years.

Healthcare cost trend rates: For 2018, Non-Medicare 13.5%; Medicare -25%; and

Part B 5.33%. For the second year, 6.75% then reducing 0.25% annually to an ultimate rate of 4.25% for 2029 and later years. Previously, 8% for 2016, decreasing 0.25% per year to an ultimate rate of 4.5% for 2030 and later years. Health care trend assumptions begin at current levels and grade down over a period of years to a lower level equal to some real rate plus inflation. The principal components of health trend are medical inflation, deductible erosion, cost shifting, utilization, technology and catastrophic claims. The overall effect of these components are expected to decline year by year.

Dental trend rates: 3.8% in year one, 3.75% per year thereafter, based on

a blend of historical retiree premium rate increases as well as observed U.S. national trends. Previously, 4%

per year.

Participation rates: Medical - 100% of eligible retired employees will elect to

participate. Dental - 100% of eligible retires will elect to participate. Life - 100% of eligible retirees will elect to participate. Current retirees will continue in the GovGuam plan as provided in the data, and upon attainment of age 65, will remain in that plan or enroll in a Retiree Supplemental Plan per Medicare Enrollment

assumption below.

Medicare enrollment: 15% of current and future retirees are assumed to enroll

in Medicare and will enroll in a Retiree Supplemental Plan upon attainment of age 65. All employees retired prior to September 30, 2008 are assumed ineligible for Medicare upon attainment of age 65 and therefore will

not enroll in a Medicare Supplemental Plan.

Dependent status: Male spouses are assumed to be three years older and

female spouses are assumed to be three years younger than the retired employee. Medical - 100% of spouses of active employees covered under a GovGuam medical plan will elect to participate at the active employee's retirement. Dental - 100% of spouses of active employees covered under a GovGuam dental plan will elect to participate at the active employee's retirement. Life - 100% of spouses of active employees will elect to participate at the active employees will elect to participate at the active employee's retirement. For current retired employees, the actual census information is used. Previously, 60% of employees are assumed to

retire with a covered spouse.

Actuarial cost method: Entry Age Normal. The costs of each employee's post-

employment benefits are allocated as a level basis over the earnings of the employee between the employee's

date of hire and the assumed exit ages.

Healthy Retiree mortality rate: RP-2000 Combined Healthy Mortality Table, set forward

3 years and 2 years for males and females, respectively, projected generationally using 30% of Scale BB. Previously, set forward 4 years and 1 year for males and

females, respectively.

Disabled Retiree mortality rate: RP-2000 Disabled Mortality Table, set forward 6 years

and 4 years for males and females, respectively,

projected generationally using 30% of Scale BB.

Withdrawal rate: 15% for less than 1 year of service, decreasing 1% for

each additional year of service up to 10 years, further decreasing 0.5% for each additional year of service up

to 15 years, and 2% for service over 15 years.

Disability rate: 1974-78 SOA LTD Non-Jumbo, with rates reduced by

50% for males and 75% for females as follows: 0.05% for males aged 20-39 years (0.03% for females); 0.10% - 0.18% for males aged 40-49 years (0.05% - 0.09% for females); 0.32% - 0.53% for males aged 50-59 years (0.16% - 0.27% for females); and 0.76% for males aged 60-64 years (0.38% for females). Previously, 1974-78 SOA LTD Non-Jumbo, with rates reduced by

50% for males and females.

Retirement rate: 50% of employees are assumed to retire at first

eligibility for unreduced benefits under the GovGuam Retirement Fund, 20% per year thereafter until age 75, and 100% at age 75. Previously, 40% of employees are assumed to retire at earliest eligibility for unreduced benefits under the GovGuam Retirement Fund, 15% per year thereafter until age 65, 20% per year thereafter

until age 70 and 100% at age 70.

OPEB plan fiduciary net position: As of September 30, 2019, an OPEB trust has not been established thus the OPEB Plan does not presently report OPEB plan fiduciary net position.

Discount rate: The discount rate used to measure the total OPEB liability was 4.18% as of September 30, 2018 (3.63% as of September 30, 2017). The projection of cash flows used to determine the discount rate assumed that contributions from GovGuam will be made in accordance with the plan's funding policy. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be insufficient to make all projected benefit payments of current plan members. Therefore, the 4.18% municipal bond rate as of September 30, 2018 was applied to all periods of projected benefit payments to determine the total OPEB liability.

(13) Commitments and Contingencies

A. Federal Grants

GovGuam has received federal grants for specific purposes that are subject to review and audit by the grantor agencies. If questioned costs are ultimately disallowed, the General Fund would be liable for the return of such funds. However, no liability, which may arise from the ultimate outcome of this matter, has been provided for in the accompanying basic financial statements. Audits of federal program funds are also performed by various federal agencies. If audits result in cost disallowances, GovGuam may be liable. However, management does not believe that resolution of this matter will result in a material liability. Therefore, no liability for any amount, which may ultimately arise from these matters, has been recorded in the accompanying basic financial statements. Fines and penalties may also be imposed by various federal agencies for violations of certain regulations. However, no provision for any amount has been recorded in the accompanying basic financial statements, as it is not possible to reasonably estimate these fines and penalties.

B. Landfill Closure and Postclosure Costs

In 2004, GovGuam and the U.S. Environmental Protection Agency (EPA) filed a Consent Decree in the U.S. District Court. The consent decree included deadlines for the opening of a new landfill and implementing a plan to permanently close the Ordot Dump. In 2008, the Court issued a Court Order that placed the Solid Waste Division of the Department of Public Works (DPW) in Guam in Receivership. In 2009, the Court issued a Court Order associated with the DPW Solid Waste Division Receivership requiring GovGuam to provide for costs of the new landfill. On June 4, 2009, GovGuam issued \$202,425,000 in Limited Obligation Revenue Bonds for the purpose of financing facilities of the Solid Waste Management System of Guam. On August 31, 2011, the Ordot Dump was finally closed and the Layon landfill opened on September 1, 2011.

State and federal laws and regulations require GovGuam to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Closure and post closure care costs of \$2,177,713 reported as expenditures in the accompanying financial statements represent actual closure and post closure care costs incurred during the year ended September 30, 2019. The estimated landfill closure and post closure care liability at September 30, 2019 is not included in the accompanying fund financial statements. Instead, GovGuam has reported \$20,341,698 as a landfill closure and post closure care liability at September 30, 2019 within GovGuam's government-wide financial statements based on 100% capacity for the Ordot Dump. This amount represents an EPA estimate of \$22,519,411, inclusive of 35% industry standard cost contingency, less current year closure and post closure costs. In addition, GovGuam has reported an amount of \$6,800,392 for Layon landfill based on the use of 7.1% of the estimated capacity. The Layon landfill consists of up to eleven cells and has an estimated lifespan of 50 years. Currently, GovGuam is utilizing two cells that together have a projected life of 10 years. During the year ended September 30, 2019, GovGuam issued the GOB Series A, 2019 bonds for the purpose of providing proceeds to fund the construction of a new cell. GovGuam will recognize the remaining estimated cost of closure and post closure care of \$96,459,442 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and post closure care in 2019. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

C. War Reparations

In 2016, the U.S. President signed into law the Guam World War II Loyalty Recognition Act, which authorizes the adjudication of claims for eligible individuals who suffered harm during the World War II occupation of Guam by Imperial Japanese military forces. Payment of claims submitted by compensable Guam victims and survivors of compensable Guam decedents are to be paid by the United States from a special claims fund established by the Secretary of the Treasury from Section 30 federal income tax revenues collected by the United States in excess of annual estimates. As the liability for these payments has been assumed by the United States government, funded by these excess collections, no liability for any amount, relating to the settlement of these claims, has been recorded in the accompanying financial statements.

D. Litigation

GovGuam is party to several legal proceedings arising from governmental operations; however, the Attorney General of Guam is unable to assess the likelihood of potential liabilities related to claims outstanding as of September 30, 2019. Hence, it is not possible to predict a reasonable estimation of these claims to be paid through the claims process, as set forth in footnote 13J below and, therefore, no provision for any liability that may result has been made in the accompanying financial statements.

E. Tax Refunds

In 2012, the U.S. District Court held a hearing regarding GovGuam's administration of the Guam Territorial Income Tax (GTIT) and the lack of timely payment of tax refunds. In 2013, the Court issued a Permanent Injunction requiring GovGuam to pay GTIT refunds no later than six months after the filing of the claim for refund or six months from the due date for filing the claim for refund, whichever is later in time. Fines and penalties may be imposed by the Court for noncompliance with this Permanent Injunction.

F. Borrowing Authority

In 2008, the Guam Legislature enacted Public Law 29-113 authorizing the purchase of certain firefighting equipment in the amount of \$7,850,000. The financing of this equipment purchase is to be funded by entering into a debt agreement or other financing source, with lower cost of funds, for a term not to exceed ten (10) years. In 2008, the Guam Legislature enacted Public Law 29-135 authorizing the design and construction of a Land Resources Public Facility in the amount of \$15,750,000. The financing of this facility is to be funded by entering into a financing arrangement with the U.S. Department of Agriculture or other financing source, with lower cost of funds, for a term not to exceed forty (40) years. As of September 30, 2019, no commitments have been entered into with respect to these authorizations.

G. Municipal School Lease Agreements

GovGuam, on behalf of the Guam Department of Education (GDOE), has entered into capital leases that are, in substance, a purchase. At the date of acquisition, the assets are valued at the present value of the future minimum lease payments. Capital lease assets and obligations are recorded and reported in the governmental activity column of the government-wide financial statements. Interest expense for capital leases is not capitalized. Amortization of assets acquired under capital lease is included with depreciation expense. Details are as follows:

Guam Public School Facilities Project:

Guam Education Financing Foundation, Inc. (GEFF) was incorporated in Guam as a notfor-profit corporation for the purpose of financing the construction of four new schools to be leased to GDOE upon completion. In 2006, GEFF issued \$50,880,000 in 2006 Series A, Certificates of Participation (COPS) and \$14,015,000 in 2006 Series B, COPS to finance the design, construction, insurance and maintenance of four new schools (the "Leased Schools") on Guam, Okkodo High School, Astumbo Middle School, Adacao Elementary School and Liguan Elementary School. The proceeds of the COPS were remitted to a trustee, who then remitted the amounts to a developer as construction progressed. In 2008, GEFF issued \$7,520,000 in 2008 Series A, COPS to finance the offsite infrastructure improvements, equipment and athletic field lighting (the "Leased Facilities") for the use of the Leased Schools. The holders of the COPS are the current owners of the Leased Schools. On May 25, 2005, GovGuam, on behalf of GDOE, entered into a twenty-year lease agreement with GEFF for the use of the four new schools, which commenced in October 2006. In 2016, GEFF issued \$25,665,000 in 2016 Series A, COPS and \$12,905,000 in 2016 Series B, COPS. The proceeds of the COPS were remitted to a trustee, who then used the funds to provide a portion necessary to defease the lien of the Trust indenture dated September 1, 2006 and supplement dated October 1, 2008, by and between the trustee and holders of the COPS. Proceeds were also used to refund and redeem the 2006 Series A, COPS and 2006 Series B, COPS on October 1, 2026 and to refund the 2008 Series A, COPS as they become due. Accordingly, the lease agreement was amended effective August 1, 2016.

Guam Public School Facilities Project, Continued:

Annual rental payments for the use of the Leased Schools and Facilities commenced on December 1, 2006 and are funded by a pledge of U.S. Compact Impact grant revenues through December 1, 2022, which are paid to a trustee, who then remits those amounts to the holders of the COPS, with the remaining payments subject to future appropriations by the Guam Legislature. Total payments remaining on the lease agreement are \$40,171,250 payable through December 1, 2026. For the year ended September 30, 2019, lease payments made and total Compact Impact grant revenues received were \$6,601,400. After a period of twenty years and after all lease payments have been made, title to the Leased Schools and Facilities will transfer to GDOE upon the payment of all required rents.

Rental payments made under the lease include a base rent and additional rent. The base rent is equal to the required principal and interest payment due under the COPS. The additional rent of \$1,000,000 per year of the lease is used by GEFF for the payment of certain ongoing costs, including maintenance and insurance.

John F. Kennedy High School Project:

CaPFA Capital Corp. 2010A (CaPFA) was incorporated in the State of Florida as a not-for-profit corporation for the purpose of financing the new John F. Kennedy (JFK) High School to be leased to GDOE upon completion. In 2010, CaPFA issued \$65,735,000 in 2010 Series A, COPS to finance the demolition, acquisition, construction, renovation and installation of facilities comprising the new JFK High School (the "new High School"). The proceeds of the COPS were remitted to a trustee, who then remitted the amounts to a developer as construction progressed. The holders of the COPS are the owners of the new High School. On August 1, 2010, GovGuam, on behalf of GDOE, entered into a thirty-year lease agreement with CaPFA for the use of the new High School, which commenced in August 2011.

Annual rental payments for the use of the new High School commenced on December 1, 2010, which are paid to a trustee, who then remits those amounts to the holders of the COPS, and are funded by annual appropriations by the Guam Legislature. After a period of thirty years and after all lease payments have been made, title to the new High School will transfer to GDOE upon the payment of all required rents.

Rental payments made under the lease include a base rent and additional rent. The base rent is equal to the required principal and interest payment due under the COPS. The additional rent of \$1,568,000 per year of the lease is used by CaPFA for the payment of certain ongoing costs, including maintenance and insurance.

Okkodo High School Expansion Project:

Guam Education Financing Foundation II, Inc. (GEFF II) was incorporated in Guam as a not-for-profit corporation for the purpose of financing the expansion of Okkodo High School to be leased to GDOE upon completion. In 2013, GEFF II issued \$21,818,000 in 2013 Series A, COPS and \$1,000,000 in 2013 Series B, COPS to finance the expansion. The proceeds of the COPS were remitted to a trustee, who then remitted the amounts to a developer as construction progressed. The holders of the COPS are the current owners of Okkodo High School. On March 1, 2013, GovGuam, on behalf of GDOE, entered into an eighteen-year lease agreement with GEFF II for the use of the expansion, which commenced in July 2014. In 2016, the 2013 Series B, COPS were refunded through the issuance of the Limited Obligation (Section 30) 2016 Series A, bonds.

Okkodo High School Expansion Project, Continued:

Annual rental payments for the use of the expansion commenced on June 1, 2013, which are paid to a trustee, who then remits those amounts to the holders of the COPS, and are funded by annual appropriations by the Guam Legislature. After a period of eighteen years and after all lease payments have been made, title to the expansion will transfer to GDOE upon the payment of all required rents.

Rental payments made under the lease include a base rent and additional rent. The base rent is equal to the required principal and interest payment due under the COPS. The additional rent of \$650,000 per year of the lease is used by GEFF II for the payment of certain ongoing costs, including maintenance and insurance.

Tiyan Lease:

In 2009, GovGuam, on behalf of GDOE, entered into a lease agreement with an option to purchase for certain property located in Tiyan to temporarily house the JFK High School. The facility was vacated by JFK High School in 2011 and subsequently occupied by Untalan Middle School in 2013. The lease, which is renewable annually, had a fixed annual rent of \$4,493,256 for the first five years payable in cash or by transferable tax credits. Rent commenced in August 2009 with a term through June 30, 2024. Other tenants include the Guahan Academy Charter School and the Guam Police Department, representing a small portion of the total Tiyan property under lease.

In 2011, GovGuam entered into an amendment extending the initial term to October 31, 2024 with a four-month rent abatement from October 1, 2011 through January 31, 2012 due to non-occupancy of the property.

In 2013, GovGuam, on behalf of GDOE, exercised the option to purchase the leased Tiyan property. In addition to the purchase price of \$43,500,000 that comprises the Tiyan High School premises, the Guam Legislature enacted Public Law 31-229, authorizing GovGuam, on behalf of GDOE, to purchase additional property and the construction of new buildings and facilities for the Tiyan High School and the GDOE administration in the amount of \$43,648,970. Title to the Tiyan properties under the lease will transfer to GDOE upon the payment of all required rents. Tiyan 3 lot is owned by the Guam International Airport Authority under lease with the lessor and will be up for renewal in December 2041.

In 2014, the Tiyan Lease Purchase Agreement was amended to extend the lease term through December 31, 2041 plus \$7,499,090 of collateral equipment for the buildings to be constructed. Repayment in the form of tax credits only apply for lease amounts due through January 2015 and included the aforementioned collateral equipment. Effective February 2015, rent and additional rent (insurance and maintenance) due are to be paid in the form of cash.

Annual rent includes principal, interest at 10% per annum of outstanding principal balance, insurance and maintenance costs.

H. University of Guam (UOG) and Guam Community College (GCC) Buildings

In 2016, GCC signed a facilities lease agreement with the GCC Endowment Foundation, Inc. for the lease of the GCC Gregorio G. Perez Crime Lab Building and Building # 100 for a period of forty-two years up to September 30, 2058. The Foundation subsequently entered into a \$5,000,000 loan from the U.S. Department of Agriculture (USDA) for construction of the facilities. During the year ended September 30, 2019, drawdowns of \$5,000,000 were made against this loan.

In 2016, UOG signed a facilities lease agreement with the UOG Endowment Foundation, Inc. for the lease of the UOG Student Success Center College of Natural and Applied Sciences - Engineering Annex. The Foundation subsequently entered into a \$21,700,000 loan from the USDA for the renovation and expansion of the facilities. As of September 30, 2019, no drawdowns have been made against this loan.

I. Sick Leave

It is the policy of GovGuam to record the cost of sick leave when leave is actually taken and a liability is actually incurred. Generally, sick leave is paid only when an employee is absent due to illness, injury or related-family death. For this reason, no sick leave liability is recorded at September 30, 2019. The estimated accumulated amount of unused sick leave at September 30, 2019, is \$126,818,296, of which an estimated \$17,206,088 has been accrued and may be convertible to pay members of the DCRS upon retirement.

Notes to Financial Statements September 30, 2019

(13) Commitments and Contingencies, Continued

J. Self-Insurance

GovGuam does not purchase insurance covering potential risks; it is substantially self-insured against claims for negligence and catastrophic losses. In the event that losses arise from such claims or disasters, the General Fund would be required to pay the majority of these losses. An annual appropriation is made to the Government Claims Fund and then valid claims are paid out against the appropriated amount. GovGuam has not experienced material prior year losses as a result of this policy. Virtually all discretely presented component units have some form of commercial insurance to insure against risk of loss such as property, liability and typhoon.

K. Deposits with Treasurer

In accordance with 22 GCA § 15103, insurance companies doing business on Guam are required to make a deposit with the Commissioner of Insurance in the amount of \$50,000. In addition, 22 GCA § 15503 an alien insurer is required to deposit with the Commissioner of Insurance an amount equal to the minimum amount of paid-in-capital of \$100,000. The deposit requirement is met with any good and sufficient bond as set by the Commissioner. Bonds currently take various forms and range from a surety bond to bank certificates of deposit. Deposits are likewise required of foreign banks and foreign exchanges. At September 30, 2019, \$13,317,866 was held by GovGuam in bonds as security against possible claims.

L. Medicare

Prior to October 1998, GovGuam did not withhold or remit funds to the U.S. Social Security System for the health insurance component. GovGuam has since reevaluated this position and has commenced withholding such amount from its employees. If GovGuam is found to be liable for prior year nonpayment an indeterminate liability could result. Therefore, no liability for any amount, which may ultimately arise from this matter, has been recorded in the accompanying financial statements.

M. Cost of Living Adjustment (COLA) Liability

In 1988, Public Law 19-19, as codified in 4 G.C.A. § 8137.1, required GovGuam to pay an annual lump sum COLA to retirees and survivors on the first retirement payday after July 1 of each year. In 1993, a GovGuam retiree filed a class action suit on behalf of 4,877 retirees and survivors, alleging that they were being denied the COLA benefits prescribed by 4 G.C.A. § 8137.1. The "COLA class" consisted of all GovGuam retirees and survivors that were entitled to retirement benefits during COLA years 1990 through 1994 (payout years July 1991 through July 1995). The Petitioner alleged that GovGuam did not implement 4 G.C.A. § 8137.1. The Governor and the GovGuam Retirement Fund subsequently submitted to the Court their respective calculations of the COLA owed under seal. In 2006, the Superior Court of Guam, pursuant to 4 G.C.A. § 8137.1, ordered the GovGuam Retirement Fund to revise its initial August 2006 COLA calculation of \$96 million, which resulted in the award of \$123,580,231 to the COLA class. As of September 30, 2019, the outstanding COLA liability amounted to \$4,531,673. In accordance with Public Law 31-76, the accrual of interest on outstanding awards ceased commencing October 1, 2011.

N. Chamorro Land Trust Commission (CLTC) Loan Guarantee Fund

GovGuam through the CLTC is authorized to loan or guarantee the repayment of or otherwise underwrite any authorized loan to a Chamorro homeland lessee up to a maximum amount not to exceed the financial ability of the borrower. In the event of default, these loan guarantees may shift the lender's default risk entirely to the CLTC whereby the lender may call upon the CLTC to make partial or full payment of the guaranteed loan. CLTC management is of the opinion that defaulted loans may be reassigned to credit worthy borrowers and that the CLTC has substantial defenses available to it in the event of litigation. As a result, at this time, management does not believe that material exposure exists related to this event. Therefore, no provision for a liability that may arise from this matter has been recorded in the accompanying financial statements.

Antonio B. Won Pat International Airport Authority (AWPIAA):

In 2013, AWPIAA issued \$247,335,000 in Revenue Bonds, 2013 Series A, B and C, to refund \$145,415,000 of outstanding 2003 Series A, B and C bonds and to provide additional proceeds to fund airport facility additions, extensions and improvements and the 2013 Bond Reserve Account. Of the net proceeds of \$281,962,084 (including an issue premium of \$2,891,161 and funds of \$31,735,923 released from bond reserve fund and debt service fund accounts), \$149,056,972 was deposited to an Escrow Fund to be used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent for the purpose of generating resources for all future debt service payments of the previously issued outstanding 2003 Series A, B and C bonds. As a result, these bonds are considered defeased, and the liability for these bonds has been removed from the government-wide financial statements. The current refunding resulted in a gain on defeasance of \$3,008,461. This gain was offset against the unamortized loss on defeasance of \$2,422,781 from prior refunding and resulting in a net credit of \$585,680, which is deferred and is being amortized to expense using the effective interest method over average remaining life of the 2003 bonds. unamortized balance of the deferred gain on refunding is \$117,061 as of September 30, 2019. The bond premium has been deferred and amortized over the term of the 2013 bonds using the effective interest rate method.

AWPIAA revenue bonds are payable solely from and collateralized by a pledge of AWPIAA revenues, which includes all rents, fees and charges received by AWPIAA for the use of the airport facilities. The bond indentures for the 2013 Revenue Bonds include certain debt service and reserve requirements including the requirement that net revenues as defined in the bond indentures equal at least 125% of the annual debt service. The aforementioned bond indentures also require the establishment of special funds and accounts to be held and administered by AWPIAA's trustees for the accounting of the bond proceeds.

F. Bonds Payable, Continued

Guam Economic Development Authority (GEDA):

In 2007, GEDA issued \$36,982,077 in Tobacco Settlement Asset-Backed Bonds, 2007 Series A and B, to refund \$25,040,000 of outstanding 2001 Series A and B bonds and to provide additional proceeds to fund certain expenditures of GovGuam's General Fund and the 2007 Debt Service Reserve Account. Of the net proceeds of \$39,850,293 (including an issue discount of \$1,144,510 and funds of \$4,012,726 released from bond indenture accounts), \$27,132,871 was deposited to an Escrow Fund to be used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent for the purpose of generating resources for all future debt service payments of the previously issued outstanding 2001 Series A and B bonds. As a result, these bonds are considered defeased, and the liability for these bonds has been removed from the government-wide financial statements. The advance refunding resulted in a loss on defeasance of \$2,628,344, which is deferred and is being amortized to expense using the effective interest method over average remaining life of the 2001 bonds. The bond discount has been deferred and amortized over the term of the 2007 bonds using the effective interest rate method.

GEDA tobacco settlement asset-backed bonds are payable solely from and collateralized by a pledge of Tobacco Settlement Revenues (TSR) and other assets pledged for the payment thereof and are not a lien or charge upon the funds of GEDA, except to the extent of the pledge and assignment set forth in the Indenture and in the bonds. The bond indenture includes certain debt service and reserve requirements and also require the establishment of special funds and accounts to be held and administered by GEDA's trustees for the accounting of the bond proceeds.

Annual debt service requirements to maturity for principal and interest are as follows:

Antonio B. Won Pat International Airport Authority (AWPIAA):

In 2012, AWPIAA entered into a loan and related promissory note with a bank for the purpose of financing AWPIAA's Energy Performance Management program. The loan is secured by a Security Agreement and a UCC-1 Financing Agreement with primary source of repayment to be realized from the Energy Performance contract and from AWPIAA's revenues after consideration of the 2013 Revenue Bonds pledge of revenues in the bond indenture. The loan is subject to the U.S. Department of Agriculture's written commitment to the bank to guaranty no less than 90% of the loan to AWPIAA. In the event that AWPIAA defaults in the payment of the loan or in the performance of any of its obligations under the loan agreement or the promissory note, or AWPIAA or any other party defaults in their respective obligations under any of the related security documents, the bank would have the option to declare the unpaid principal amount of the loan, together with any accrued and unpaid interest and charges, immediately due and payable.

The loan security agreement requires revenues derived from the operation of the facility to be transferred to an account designated for debt service, operation and maintenance of the facility. After the payment of principal and interest, \$6,251 per month is required to be transferred to a reserve account until a sum of \$750,060 is accumulated. In addition, UOG assigned and granted to USDA its security interest in all equipment, furniture and fixtures located at the BPA building. The note contains a provision that in an event of default, USDA may, at its option, collect interest income and principal and exercise any other right or remedy provided by the Uniform Commercial Code after giving any notice required thereby.

Performance Management Contracts (PMCs):

Guam Power Authority (GPA) has entered into a PMC with a company for the operation and maintenance of Cabras 1 and 2 generators, which became effective on October 1, 2010 and July 1, 2010, respectively. The PMC was for a period of five years with an option to extend for another five-year term. The extension was exercised and the PMC expires on September 30, 2020. GPA has also entered into a PMC for the operations and maintenance of the Dededo, Macheche and Yigo combustion turbine power plants. The PMC is for a period of five years commencing March 1, 2016 with an option to extend for one additional three-year term and one additional two-year term.

At September 30, 2019, the minimum future fixed management fees are as follows:

Renewable Energy Contracts:

Guam Power Authority (GPA) has entered into two agreements to purchase 20 Megawatts (MW) and 5.65 MW of solar renewable energy. The commercial operation date of the two solar plants is October 30, 2015. The agreements include escalating contract prices per MW hour until 2041 with a total minimum renewable energy purchase commitment of 1.1 million MW hour.

At September 30, 2019, the minimum future renewable energy purchases are as follows:

AWPIAA has lease agreements with scheduled air carriers, various other concessionaires and airport users. The agreements provide the lessees with the use of AWPIAA's system facilities, equipment and services. The signatory airline operating agreement and terminal building leases expired on September 30, 2016 and the lease agreements with six rent-a-car companies expired in June 2016. These agreements are currently under month-to-month extensions pending negotiated agreements. On October 1, 2019, new but substantially similar agreements went into effect with nine of AWPIAA's eleven passenger air carriers servicing the airport. For the two remaining passenger air carriers, AWPIAA is currently negotiating and expects to execute a new agreement with one while another suspended its operations on Guam on December 7, 2019. Other ground lease agreements will expire ranging from September 2019 through September 2035.

Fuel Purchase and Bulk Storage Facility Contracts, Continued:

In September 2017, GPA entered into an agreement for the management and operations of its fuel bulk storage facility. The agreement is for two years ending September 30, 2019 with an option to extend the contract for three additional one-year terms. The initial extension has been exercised and the agreement expires on September 30, 2020. At September 30, 2019, the minimum future management fees for the year ending September 30, 2020 are \$859,329.

U.S. Environmental Protection Agency (EPA):

In 1986, the administrator of the U.S. EPA granted a continuing exemption to the Guam Power Authority (GPA) under the provisions of Section 325(b) of the Clean Air Act, as amended. The terms of the exemption require monitoring by EPA, certain commitments by GPA regarding fuel stocks, and reporting and delineation of grounds for revocation of the exemption.

In 2011, EPA finalized rules under the National Emission Standards for Hazardous Air Pollutants for Reciprocating Internal Combustion Engine (RICE) Maximum Available Control Technology (MACT). Compliance under the diesel MACT was due May 3, 2013. Non-compliance under the diesel MACT could result in penalty fees of \$37,500 per unit per day. GPA applied for and received a one year extension for complying with the rules with respect to its small diesel peaking units. The required stack emission equipment was installed within the extension period. As to compliance with the other units subject to RICE MACT, GPA requested EPA to enter into a consent decree allowing time for GPA to comply with the regulations and allowing potential fines and penalties for non-compliance to be used for compliance with regulations.

In 2015, GPA submitted its compliance plan outlining the proposed timelines for inclusion in a consent decree. In February 2020, EPA and GPA signed the consent decree, which was subsequently approved in April 2020 by the U.S. District Court. The consent decree requires GPA to permanently retire the Cabras 1 and 2 units by October 31, 2022; bring the MEC 8 and 9 units into compliance by switching from residual fuel oil to ultra-low sulfur diesel oil and installing oxidation catalysts by December 31, 2021; construct a new power plant that will comply with the requirements of Clean Air Act to be activated by October 1, 2022; and pay \$400,000 as civil penalty.

Environmental Monitoring:

In 2000, the U.S. Navy (the Navy) transferred 1,417 acres of property to the Antonio B. Won Pat International Airport Authority (AWPIAA) and GovGuam at no cost and paid \$10,000,000 to AWPIAA. In exchange for the payment, AWPIAA and GovGuam agreed to complete certain environmental monitoring work on the property even if the cost of the environmental monitoring work exceeds the \$10,000,000 remitted by the Navy. AWPIAA management has received the final draft of the Decision Document for Operable Unit 3 which is the groundwater under the former Naval Air Station. AWPIAA's responsibilities under the draft Decision Document are limited to sampling and testing as currently performed. The new task is for AWPIAA to conduct a 5 year review to ensure the remedial action is or will be protective of human health and the environment. This new task may reduce the ongoing sampling and testing requirements or completely eliminate them. Moreover, the granular activated carbon (GAC) treatment provided under AWPIAA's new water system satisfies the GAC treatment component of future wells meeting the selected remedy. No further obligation of AWPIAA is required under the draft Decision Document.

As of September 30, 2019, AWPIAA estimated that its pollution remediation obligations amounted to \$479,614.

Primary Treatment Permits:

In 2011, the U.S. Environmental Protection Agency (EPA) informed GWA that its primary treatment permits for the Hagatna and Northern District Wastewater Treatment Plants had been denied and that GWA would be required to upgrade the plants to secondary treatment. The upgrades have been estimated to cost approximately \$300 million. GWA intends to negotiate with the EPA on the timelines for upgrading the plants, which will determine the implementation schedule for secondary treatment.

Stipulated Order:

In 2002, the U.S. Government filed a complaint against the Guam Waterworks Authority (GWA) and GovGuam for alleged violations under the Federal Clean Water Act (CWA) and the Safe Drinking Water Act (SDWA). Because of GWA's non-compliance with the National Primary Drinking Water Regulations, the U.S. Government is seeking both civil penalties and injunctive relief to address such non-compliance. GWA and the U.S. Government of Justice, Environmental and Natural Resources Division mutually agreed in the form of a Stipulated Order to resolve the violation issues.

In 2003, a Stipulated Order for Preliminary Relief was filed before the U.S. District Court. The Stipulation requires implementation of short-term projects and initial planning measures by GWA. GWA is required to submit a final financial plan in the Master Plan that generates sufficient revenue to cover the cost of all compliance activities and deliverables required by the Stipulated Order for Preliminary Relief, as well as any other anticipated expenses, including any measures necessary to ensure compliance with the CWA and the SDWA and costs related to the infrastructure improvements identified in the Master Plan.

In 2006, the Stipulated Order was amended which required GWA to perform approximately \$220 million worth of capital improvement projects and perform other actions to bring GWA's system into compliance. However, GWA was unable to meet all deadlines set out in the amended Stipulated Order. The Court ordered the parties to stipulate as to scope of remaining projects and project completion dates; however, the parties were unable to reach an agreement on all items. In 2011, the Court issued an order setting new deadlines for the unfinished projects and establishing new projects that were not part of the amended Stipulated Order. As of September 30, 2019, the financial impact of the order has been estimated to cost approximately \$42 million.

K. Restatement

Subsequent to the issuance of the Guam Housing and Urban Renewal Authority (GHURA) 2018 financial statements, GHURA's management determined that capital assets were understated by \$817,423 and unearned revenue was overstated by \$4,985,444 as of September 30, 2018. As a result of this determination, the beginning net position of the aggregate discretely presented components units has been restated from the amount previously reported of \$137,520,399 to \$143,323,266.

Notes to Financial Statements September 30, 2019

(15) <u>Subsequent Events</u>

Judicial Building Loan

On January 16, 2020, GovGuam refinanced a loan facility by entering into a \$15,000,000 credit agreement for the purpose of funding the acquisition of real property, additional renovations to existing facilities, and repayment of the existing 2006 loan. The note is collateralized by the pledge and assignment of Judicial Building Fund revenues.

COVID-19

On March 11, 2020, the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. On March 13, 2020, President Donald J. Trump declared a national emergency within the United States. Following the national emergency declared by the U.S. President, on March 14, 2020, Governor Lourdes A. Leon Guerrero issued Executive Order 2020-03 declaring a public health emergency in response to the COVID-19 outbreak. Furthermore, Executive Order 2020-04 ordered the closure of all non-essential GovGuam offices, prohibited large gatherings, and restricted entry into Guam from countries with confirmed COVID-19 cases. As a result, schools and non-essential government agencies and private sector businesses temporarily closed. GovGuam closed its offices to the public and required all non-essential employees to work from home.

On March 28, 2020, the U.S. President signed a major disaster declaration for Guam and ordered federal assistance to supplement local recovery efforts in connection with the COVID-19 pandemic. Federal assistance in the form of grants from the U.S. Treasury, funding for Economic Impact Payments and Pandemic Unemployment Assistance has been made available to Guam under the provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act and related legislation.

Because of the evolving nature of the COVID-19 pandemic and the federal and local responses thereto, GovGuam cannot predict the extent or duration of the outbreak. While the disruption is currently expected to be temporary, there is uncertainty around the duration. Therefore, GovGuam expects this emergency to negatively impact local tax collections and general economic conditions globally, nationally and locally, for which the related financial impact cannot be reasonably estimated at this time. GovGuam has resumed normal operations; however, many private sector businesses have either suspended their operations or are conducting business at reduced levels. In common with other States, tribal governments and territories, Guam is continuously evaluating the economic impact of these conditions.

Notes to Required Supplementary Information – Budgetary Reporting September 30, 2019

(1) Budgetary Process

As required under law (5 GCA §4103 and §4106), the Governor directs the preparation and administration of the Executive Budget for GovGuam on an annual basis. The Executive Budget represents the Governor's financial proposal with recommended priorities for allocating resources. The budget process is important and necessary for the enactment of a budget and review of government operations. The Budget Process occurs in four (4) phases: formulation, adoption, execution, and audit.

During the *formulation phase*, the economic forecast and the program and financial plans are prepared for the various departments. Economic data and statistics are utilized in developing projected revenues for the upcoming fiscal year. Once revenues have been projected, a budget call is distributed to all the line agencies. This process starts when the Bureau of Budget and Management Research (BBMR) issues guidelines to each line agency in the preparation and development of their respective budgets. The formulation phase culminates in the transmittal of the Program and Financial Plan (Executive Budget) with the Governor's Budget Message to the Legislature for its consideration.

The adoption phase is the process in which the Legislature considers the Governor's proposal and passes the overall revenue and spending plan under a General Appropriations Bill. The Bill usually receives more detailed hearings within the auspices of the applicable legislative committees. Usually, a series of hearings will be called during which department heads and staff members give an overview of the Governor's proposed budget and are expected to provide explanations when their department's/agency's appropriations are considered. Finally, the Legislature may pass a General Appropriations Bill. The Bill is then transmitted to the Governor for approval. Other bills to include amendments during the fiscal year may be introduced for enactment into law.

The execution phase involves the release of funds appropriated per the General Appropriations Act. Each department prepares allotment of appropriations and may request revisions, legislative or administrative transfers, or supplemental appropriations. BBMR must approve such revisions to allotments. The Bureau also monitors and assists agencies in carrying out the approved budget in line with the established policies of the Governor.

The *audit phase* involves the evaluation of departments/agencies to identify areas in need of improving compliance procedures with applicable laws and regulations. During the audit phase, financial transactions, accounts and reports are assessed and analyzed to improve accountability, effectiveness, and efficiency in the achievement of goals and objectives. This phase is also to assure economic use of resources to enhance achievement of public services.

Budgetary control is maintained within the departmental level. Budget revisions during the year, reflecting program changes or intradepartmental transfers of an administrative nature, may be effective with certain executive and legislative branch approval. Unencumbered appropriations normally lapse at the end of each fiscal year unless they are designated by the Legislature as representing continuing appropriations.

Notes to Required Supplementary Information – Budgetary Reporting September 30, 2019

(1) Budgetary Process, Continued

The Budget Act for fiscal year 2019, Public Law No. 34-116, was approved for the Executive branch and the Legislative branch. Budgets for Special Revenue Funds and Capital Projects Funds are generally not submitted. Accordingly, a budget to actual presentation for Special Revenue Funds and Capital Projects Funds is not required or presented. The accompanying Schedule of Revenues, Expenditures by Department, and Changes in Deficit - Budget and Actual - General Fund presents solely the financial activities of the General Fund administered by the Department of Administration, and does not include the financial activities of the General Fund administered by the Guam Department of Education or the impact of implementation of Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions.

GovGuam's annual budget has been prepared on a basis that differs from governmental GAAP. Actual amounts in the accompanying budgetary comparison statements are presented on a budgetary basis, which includes outstanding encumbrances as a budgetary expenditure.

Encumbrance accounting is employed in governmental funds. For budgetary purposes, the encumbrances (i.e., purchase orders, contracts) are considered expenditures when incurred. For GAAP reporting purposes, encumbrances outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent fiscal year.

OTHER SUPPLEMENTARY INFORMATION

YEAR ENDED SEPTEMBER 30, 2019

General Fund September 30, 2019

The General Fund is the most significant of GovGuam's funds. Most tax revenues and certain miscellaneous revenues are recorded in the General Fund. The General Fund is divided into several accounts. A brief discussion of the accounts that comprise GovGuam's General Fund as of September 30, 2019, follows.

<u>Department of Administration</u> – the Department of Administration is responsible for maintaining the financial data of all line agencies of GovGuam with the exception of the Department of Education.

<u>Guam Department of Education</u> - the Guam Department of Education (GDOE), formerly known as the Guam Public School System, is a line agency of GovGuam. This fund is maintained separately by the Department of Education.

<u>Department of Education Operations Fund</u> - this fund was created by Public Law 28-68 to account for local appropriations to cover the operational expenses of the Guam Department of Education and any use associated with the Guam Department of Education, as determined in the Department of Education budget in accordance with 10 GCA Chapter 3, by the Guam Education Policy Board *or* the laws of Guam. This fund is maintained within the Department of Administration.

Agana Fractional Lots Program Fund - The Agana Fractional Lots Program Fund was initially established to account for transactions relevant to the Agana Fractional Lot Program dating back to the 1960s. Such transactions may involve the condemnation and seizure of lands from property owners by GovGuam and the compensation of those seized lands to the property owners.

<u>Better Public Service Fund</u> - This fund was created by Public Law 29-002 to account for 10% of all fees and license revenues received by the Department of Revenue and Taxation (DRT) for the purpose of improving and modernizing systems used to provide DRT services, including on-line filing of taxes, renewal of licenses and permits, upgrades of computer hardware/software to improve record retrieval by members of the public, and the training of DRT staff in technical skills and customer service.

<u>Census 2020 Fund</u> - This fund accounts for all activities of the United States Census 2020 conducted by the Guam Census Office.

<u>DMHSA Receiver Fund</u> - This fund accounts for all activities of the Federal Management Team associated with the Permanent Injunction requiring GovGuam to provide treatment and develop programs to mentally ill patients residing on Guam.

<u>DOC Inmates Revolving Fund</u> - The fund was created by Executive Order 94-17 and is administered by the Department of Corrections. Revenues are generated from funds collected for housing U.S. prisoners and detainees, meals charged to DOC employees, and sale of wet garbage to private persons. Expenditures are for purchases of clothing, food, equipment, medical supplies and medicines for prisoners and detainees.

<u>D.O.D.</u> Contract Fund - This fund was created by the Department of Administration to account for funds from the United States Department of Defense to the Department of Education (D.O.E.) specifically to provide for fixed tuition payment per eligible D.O.D. student enrolled in the Guam D.O.E. system and for the recruitment of qualified teachers. This fund is not subject to the provisions of OMB Circular A-133.

<u>DPHSS Sanitary Inspection Revolving Fund</u> - This fund was created by the Department of Public Health and Social Services to account for the overall cost of conducting sanitary inspections of temporary workforce housing and other required inspections.

<u>Exxon Fuel Overcharge Fund</u> - This fund was created based on a federal court decision against the Exxon Corporation. Guam was allocated some three million dollars as its share of the settlement. Expenditures are limited to Federal Energy Programs. Revenues are from interest earned on this fund's interest bearing account. This fund is administered by the Guam Energy Office.

<u>Financial Management Revolving Fund</u> - This fund was created by Executive Order No. 2002-12 for costs associated with the handling and accounting for monies and deposits to be charged for treasury services related to the Financial Management Division.

General Fund, Continued September 30, 2019

<u>General Services Agency (GSA) Fund</u> - GSA is maintained within the Department of Administration as the centralized procurement and warehousing for departments and agencies of GovGuam. Additionally, GSA oversees the delegation of procurement authority of approximately eleven departments and agencies.

<u>GSA Inventory Revolving Fund</u> - This fund was created for the purchase and replenishment of items to be carried in the supplies inventory maintained in the warehouse operated by GSA.

<u>Government Claims Fund</u> - This fund was created by Public Law 17-029 in order to pay for claims against any line agency of GovGuam. The sources of revenue are obtained from legislative appropriations. The Attorney General administers this fund and designates which claims shall be paid.

<u>Guam Geodetic Network Fund</u> - This fund was created by Public Law 23-31 for the purpose of accounting for the updating of the 1963 geodetic network by the Department of Land Management.

<u>Guam Memorial Hospital Authority Medicaid Matching Fund</u> - This fund was created by Public Law 32-68 for the purpose of payment of bills for services incurred by qualified Medicaid recipients provided at Guam Memorial Hospital.

<u>Guam Memorial Hospital Authority Pharmaceuticals Fund</u> - This fund was created by Public Law 28-68 for the purpose of accounting for 5.61% of all gross receipts taxes collected in Guam for appropriation by *I Liheslaturan Guahan* to fund all pharmaceutical, drug and medicine requirements for Guam Memorial Hospital.

<u>Guam Telephone Authority Privatization Proceeds Fund</u> – This fund was created by Public Law 26-70 to account for the proceeds realized from the sale of the Guam Telephone Authority.

<u>Housing Revolving Fund</u> - This fund is maintained to account for the leasing of Government of Guam housing units to both private individuals and public organizations. Funding of this program is provided by both rental fees and Government contributions.

<u>Human Resource Services Revolving Fund</u> – This fund was created by Executive Order No. 2002-01 for administrative costs and supplies and equipment costs associated within the areas of classification and pay, recruitment, records, employee benefits, test development, employee management relations, training and development, as well as the Drug-Free Workplace Program of the Human Resources Division.

<u>Income Tax Refund Reserve Fund</u> - This fund was created by Public Law 22-140 for the purpose of receiving General Fund revenues reserved for income tax refund payments. This fund is not subject to any transfer authority of the Governor of Guam.

<u>Income Tax Efficiency Payment Fund</u> – This fund was created by Public Law 26-74 for the purpose of improving the efficiency of tax refund payments by hiring temporary income tax return processors, training of Department of Revenue and Taxation employees, and the purchase of computer and other equipment to quickly process income tax returns.

<u>Legislature Operations Fund</u> - The Guam Legislature was created by the Organic Act of Guam, as amended. It is a unicameral body of 15 members elected bi-annually. It meets in two regular year-round sessions. Funding is provided through General Fund appropriations.

<u>Medically Indigent Program Payment Revolving Fund</u> – This fund was created by Public Law 25-164 to be used for the payment of any authorized Medically Indigent Program obligation, regardless of when the obligation was incurred.

Off-Island Treatment Fund - This fund was created by Public Law 20-220 to be administered by the Director of Administration. Monies from the fund shall be expended upon order of the Superior Court of Guam to send a person under the jurisdiction of the court off-island for residential care arising from a physical, mental or emotional handicap or a severe emotional disturbance. Monies shall be expended for diagnosis, evaluation and treatment fees, medical and incidental expenses, room and board and transportation costs.

Office of Public Accountability Fund – The Office of Public Accountability was created by Public Law 21-122 as an instrumentality of GovGuam, independent of the executive, legislative and judicial branches.

General Fund, Continued September 30, 2019

<u>Public Defender Service Corporation Alternate Public Defender (APD) Fund</u> – This fund was created to account for the operations of the APD within the Public Defender Service Corporation (PDSC) to provide legal services on court appointed matters of conflict cases by the PDSC.

<u>Public Defender Service Corporation Operations Fund</u> – This fund was created by Public Law 13-51 to provide effective legal aid and assistance to those persons on Guam who are unable to afford counsel.

<u>State Agency for Surplus Property Fund</u> – This fund was created for the disposal of salvage and surplus personal property from GovGuam agencies and departments.

<u>Stripperwell Overcharge Fund</u> - This fund was created based on a federal court decision against Stripperwell. As with the Exxon Overcharge Fund, Guam was allocated a share of the settlement. Expenditures are limited to Federal Energy Programs. Revenues are from interest earned on this fund's interest bearing account. This fund is administered by the Guam Energy Office.

<u>Supplemental Annuity Benefits Fund</u> - This fund was created by Public Law 27-29 for the purpose of accounting for the payment of retiree supplemental annuity benefits by the Department of Administration.

<u>Supplemental Appropriations Revenue Fund</u> - This fund was created by Public Law 31-74 to ensure that various GovGuam agencies "deemed vital" would be funded, despite limited resources available.

<u>Unified Courts of Guam Fund</u> - The fund was created as an independent judicial branch of GovGuam to account for the operations of the Supreme Court of Guam and the Superior Court of Guam. Funding is provided primarily through Government of Guam General Fund appropriations.

<u>Water System Revenue Bond Fund</u> - This fund is used to account for an assignment of Section 30 funds required by: (i) the Limited Obligation (Section 30) Bond Series A 2001 bond indenture to redeem bond principal and to pay bond interest as such becomes due; and (ii) a \$10,000,000 promissory bank note.

<u>Limited Obligation Bond Series A 2016 Fund</u> - This fund is used to account for funds required by the Limited Obligation Bond Series A 2016 bond indenture to redeem bond principal and to pay bond interest as such becomes due.

<u>General Obligation Bond Series A 2019 Fund</u> - This fund is used to account for funds transferred from the Solid Waste Operations Fund to redeem bond principal and to pay bond interest as such becomes due.

Nonmajor Governmental Funds - Special Revenue Funds September 30, 2019

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. A brief discussion of GovGuam's nonmajor governmental funds - special revenue funds as of September 30, 2019, follows.

<u>Accessible Parking Fund</u> - The fund was created by Public Law 18-28 to ensure that disabled persons are given equal access to government offices and services. Revenues are generated from fines collected from those parked illegally in handicapped parking spaces. Expenditures are authorized for maintenance of disabled parking areas.

<u>Air Pollution Control Fund</u> - This fund was created by Public Law 24-40 to provide a coordinated Territory-wide program of air pollution prevention, abatement, and control. Revenues are derived primarily from permit application fees and annual emission fees.

<u>Arts in Public Buildings Fund</u> - This fund was created by Public Law 31-118 to assist in the promotion of local art on display in government public buildings.

<u>Banking and Insurance Enforcement Fund</u> – This fund was created by Public Law 33-91 for the purpose of monitoring and enforcing regulations associated with the banking and insurance industries.

<u>Board of Accountancy Fund</u> - This fund was created for the purpose of regulating aspects of the practice of public accountancy. The Guam Code Annotated Title 22, Subsection 35104(d) states, "all fees and money collected by the Board under this Chapter shall be accounted for by the Board and deposited in a special fund known as the 'Guam Board of Accountancy Fund." Sources of revenues are from the issuance of certificates and permit fees collected from public accountants and firms practicing public accountancy. Monies shall be expended for administering the Guam Accountancy Act of 2003.

<u>Capitol District Fund</u> - This fund was created by Public Law 29-69 for the sole purpose of funding the repair, restoration, renovation, or refurbishment of the Guam Congress Building or other Capitol District properties. Income received pursuant to any lease of property within the Capitol District shall be deposited into this fund.

<u>Carrier Off-Duty Services Revolving Fund</u> - This fund was created by Public Law 25-138. Charges from this fund are from services performed by Customs and Quarantine Officers, in the performance of their duties on any day of the week upon special request by the Director of Customs and Quarantine outside of normal working hours.

<u>Chamorro Land Trust Operations Fund</u> - This fund was created by Public Law 28-68 to account for the proceeds from all land use permits, monetary contributions and fees for the benefit of the Chamorro Land Trust Commission (CLTC).

<u>Chamorro Loan Guarantee Fund</u> - This fund was created by Public Law 12-226 to account for loans made by governmental agencies or lending institutions to those holding leases or licenses issued by the Chamorro Land Trust Commission that may be guaranteed. This guarantee may be for home or commercial loan purposes. The loan guarantees shall be subject to certain restrictions.

<u>Chamorro Land Trust Survey and Infrastructure Fund</u> - This fund was created for the purpose of accounting for the receipt of all proceeds from the sale of bull cart trails and land remnants and proceeds from the sale of land under the Land for the Landless program that will be used solely for the surveying of unsurveyed CLTC land and for the operational needs in support thereof.

<u>Community Health Centers Fund</u> - This fund was created to provide for the Southern Community Health Center. Revenues are derived from fees charged to health service recipients utilizing the Center. Revenues are applied to expenditures applicable to the operation of the Center.

<u>Consumer Protection Fund</u> - This fund was created by Public Law 21-18 to account for fees collected by the Attorney General's Office under the Consumer Protection Act.

<u>Contractors' License Board Fund</u> - This fund was created to protect the public by licensing the contractors of Guam. Revenues are derived from both license fees and local appropriations.

<u>Controlled Substance Diversion Fund</u> – This fund was created by Public Law 24-149 for use by the Department of Public Health for programs to monitor controlled substances, to identify and detect its diversion, equipment, supplies and contracts necessary to monitor controlled substances, and training of employees tasked with administering the Act. Revenues for this fund are provided for by fees assessed in relation to the registration and control of the manufacture, distribution and dispensing of controlled substances in Guam.

<u>Criminal Injuries Compensation Fund</u> - The Criminal Injuries Compensation Fund was enacted under Public Law 20-155. The fund was created for the purpose of compensating victims injured through criminal mischief. Public Law 20-155 created the Criminal Injuries Commission which was created to determine, on a case by case basis, who is worthy of compensation. Sources of funding are prosecuted criminals (offenders) and Government appropriations. Per Public Law 20-155, compensation must be made within 18 months of date of injury. In addition, no claim will be awarded in excess of \$10,000.

<u>Customs, Agriculture, and Quarantine Inspection Services Fund</u> - This fund was created by Public Law 23-45 and amended by Public Law 23-96 Section 73145 of the Government Code of Guam. The law requires that each aircraft landing at the Guam International Airport Terminal (GIAT) shall be levied a customs, agriculture, and quarantine inspection service charge reasonably related to the cost incurred by the Customs and Quarantine Agency and the Department of Agriculture in providing, maintaining and operating the service charge facilities, and shall be allocated among air carriers in such a manner reasonably related to the relative demand for such services attributable to each carrier. All expenditures of the Fund shall be made exclusively by appropriation of the Guam Legislature. The Fund shall not be commingled with the General Fund and shall be kept in a separate bank account.

<u>Dededo Buffer Strip Revolving Fund</u> - This fund was created as a result of the re-enactment of Section 68901(1) of Title 21 of the Guam Code Annotated as amended by Public Law 24-59. This authorizes the Department of Land Management to enter into commercial leases, not exceeding ten (10) years, for the use of the Dededo and Yigo Municipal Planning Councils (two-thirds to Dededo and one-third to Yigo) for the upkeep and maintenance of sports and recreational facilities.

Nonmajor Governmental Funds - Debt Service Funds September 30, 2019

Debt service funds are used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources when the government is obligated in some manner for the payment. A brief discussion of GovGuam's nonmajor governmental funds - debt service funds as of September 30, 2019, follows:

<u>Limited Obligation Infrastructure Improvement Bonds Fund</u> – This fund is used to account for funds required by the Limited Obligation Infrastructure Improvement bond indenture to redeem bond principal and to pay bond interest as such becomes due.

Fiduciary Funds - Pension Trusts September 30, 2019

Pension trusts are used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans and defined contribution plans. A brief discussion of GovGuam's fiduciary funds - pension trusts as of September 30, 2019, follows:

<u>Defined Benefit Plan</u> - GovGuam participates in the GovGuam Defined Benefit (DB) Plan, a single-employer defined benefit pension plan administered by the GovGuam Retirement Fund (GGRF). The DB Plan provides retirement, disability, and survivor benefits to plan members who enrolled in the plan prior to October 1, 1995.

<u>Defined Contribution Plan</u> - All employees of GovGuam, including employees of GovGuam public corporations, whose employment commences on or after October 1, 1995, are required to participate in the Defined Contribution Retirement System (DCRS) administered by GGRF.

Fiduciary Funds - Private Purpose Trusts September 30, 2019

Private purpose trusts are used to report any trust arrangement not properly reported in a pension trust fund or an investment trust fund under which principal and income benefit individuals, private organizations, or other governments. A brief discussion of GovGuam's fiduciary funds - private purpose trusts as of September 30, 2019, follows:

<u>Trust Fund</u> - this fund was established to account for judgments compelling individuals to award payments arising from various civil and criminal cases.

<u>Traffic Court Trust Fund</u> - this fund was established to account for deposits made by accused traffic offenders who are contesting charges against them.

<u>Guardianship Trust Fund</u> - this fund was established by Public Law 25-103 to account for the financial affairs of individuals for whom the Court has been petitioned to act as a guardian.

<u>Land Condemnation Trust Fund</u> - this fund was established as an escrow account for governmental land acquisitions.

<u>Jury Trust Fund</u> - this fund was established by Public Law 19-28 to account for funds awarded and to be awarded to citizens who serve on juries. Funding is derived from local appropriations.

<u>Judicial Client Service Trust Fund</u> - this fund was established by Public Law 27-55 to account for funds collected for: (i) the appointment of Counsel of Indigent Defendants including, but not limited to, attorney fees, investigator fees, interpreter fees, expert fees, jury fees, and any other related expenses approved by the Superior Court of Guam or the Supreme Court of Guam; (ii) Law Enforcement Escort Costs; and (iii) operations of Erica's House.

<u>Safe Streets Trust Fund</u> - this fund was established by Public Law 34-107 to account for the operations of the Driving While Intoxicated Court program.

Nonmajor Component Units September 30, 2019

Component units are legally separate organizations for which the elected officials of GovGuam are financially accountable. Nonmajor component units are defined as those component units whose activities are not significant or material to that of the primary government or to all component units as a whole. Proprietary funds are used to account for a government's ongoing organizations and activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the government's business and quasi - business activities - where net income and capital maintenance are measured - are accounted for through proprietary funds. Generally accepted accounting principles are generally those applicable to similar businesses in the private sector: the measurement focus is on determination of the change in net position, financial position and cash flows. A brief discussion of GovGuam's nonmajor component units as of September 30, 2019, follows:

<u>Guam Housing Corporation (GHC)</u> - GHC was organized under the authority of Public Law 8-80 to promote the general welfare of GovGuam by encouraging investment in and development of low-cost housing. GHC provides for its operating needs by charging points on its low cost loans. Interest rates are determined by its Board of Directors. GovGuam has the ability to impose its will on GHC.

<u>Guam Economic Development Authority (GEDA)</u> - GEDA was created to assist in the implementation of an integrated program for the economic development of Guam. Enabling legislation set forth several specific purposes for the establishment of GEDA to include:

- a) Aiding private enterprise without competing with it;
- b) Expansion of the money supply to finance housing facilities; and
- c) Providing the means necessary for acquisition of hospital facilities.

To accomplish the stated purposes, GEDA is authorized to conduct research of, invest in, provide loans to, operate and provide technical assistance to industries and/or agricultural projects; issue revenue bonds; obtain Government of Guam land; purchase mortgages; and recommend to the Governor of Guam businesses qualifying for tax rebates and abatements. GEDA utilizes certain Trust Funds, such as the Guam Development Fund Act and the Agricultural Development Fund to accomplish certain of the stated purposes.

<u>Guam Preservation Trust (GPT)</u> - This fund was created by Public Law 20-151 to establish a program for historic preservation at all levels of government and to promote the use and conservation of such preservations for education, inspiration, pleasure and enrichment of the residents of the Territory. GovGuam has the ability to impose its will on GPT.

<u>Guam Visitors Bureau (GVB)</u> - GVB is a public corporation created for the purpose of promoting the visitor industry in Guam. Funding is provided from transfers of appropriations from the Tourist Attraction Fund and interest income. GovGuam provides financial support to GVB through legislative appropriations.

<u>Guam Educational Telecommunications Corporation (GETC)</u> - GETC, also known as KGTF-TV, was created as a public corporation by Public Law 12-194, as approved on January 2, 1975. The law sets forth the purpose of the Corporation to present educational television to the people of Guam and involve the people of Guam in its activities to the maximum extent possible. Funding is primarily derived from appropriations from the General Fund, community service grants and contributions from the public. GovGuam provides financial support to GETC through legislative appropriations.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Lourdes A. Leon Guerrero Governor Government of Guam:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government of Guam (GovGuam) as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise GovGuam's basic financial statements, and have issued our report thereon dated August 26, 2020. Our report includes a reference to other auditors and emphasis-of-matters paragraphs for the restatement of beginning net position of the aggregate discretely presented component units and for the impact of COVID-19. Other auditors audited the financial statements of the GovGuam Retirement Fund, the Antonio B. Won Pat International Airport Authority, the Guam Housing Corporation, the Guam Economic Development Authority, and the Guam Preservation Trust, as described in our report on GovGuam's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those other auditors.

For purposes of this report, our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts and grants, and other matters did not include the Chamorro Land Trust Commission, Guam Ancestral Lands Commission, Guam Community College, the Guam Department of Education, the Guam Educational Telecommunications Corporation, the Guam Housing and Urban Renewal Authority, the Guam Memorial Hospital Authority, the Guam Power Authority, the Guam Visitors Bureau, the Guam Waterworks Authority, the Port Authority of Guam, the Solid Waste Operations Fund, and the University of Guam, which were all audited by us. We have issued separate reports on our consideration of internal control over financial reporting and our tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters for these entities. Other auditors issued separate reports on their consideration of internal control over financial reporting and their tests of compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters for the GovGuam Retirement Fund, the Antonio B. Won Pat International Airport Authority, the Guam Economic Development Authority, the Guam Housing Corporation, and the Guam Preservation Trust. The findings, if any, included in those reports are not included herein.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered GovGuam's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of GovGuam's internal control. Accordingly, we do not express an opinion on the effectiveness of GovGuam's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Costs as items 2019-007 and 2019-008 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether GovGuam's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

GovGuam's Responses to Findings

GovGuam's response to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. GovGuam's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

beloite Nautell

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Honorable Lourdes A. Leon Guerrero Governor Government of Guam:

Report on Compliance for Each Major Federal Program

We have audited the Government of Guam's (GovGuam's) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of GovGuam's major federal programs for the year ended September 30, 2019. GovGuam's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

As discussed in Note 3b to the Schedule of Expenditures of Federal Awards, GovGuam's basic financial statements include the operations of certain entities whose federal awards are not included in the Schedule of Expenditures of Federal Awards for the year ended September 30, 2019. Our audit, described below, did not include the operations of the entities identified in Note 3b as these entities conducted separate audits in accordance with the Uniform Guidance, if required.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of GovGuam's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about GovGuam's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

Deloitte

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of GovGuam's compliance.

Basis for Qualified Opinion on Certain Major Federal Programs

As described in Findings 2019-002, 2019-003 and 2019-008 in the accompanying Schedule of Findings and Questioned Costs, GovGuam did not comply with requirements regarding the following:

Finding #	CFDA #	Program (or Cluster) Name	Compliance Requirement
2019-002		SNAP Cluster	Special Tests and Provisions
2019-003		SNAP Cluster	Special Tests and Provisions
2019-008	15.875	Economic, Social and Political	Equipment and Real Property
		Development of the Territories	Management

Compliance with such requirements is necessary, in our opinion, for GovGuam to comply with the requirements applicable to those programs.

Qualified Opinion on the SNAP Cluster and CFDA 15.875 Economic, Social and Political Development of the Territories

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, GovGuam complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the SNAP Cluster and CFDA 15.875 Economic, Social and Political Development of the Territories for the year ended September 30, 2019.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, GovGuam complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs for the year ended September 30, 2019.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as items 2019-001, 2019-004, 2019-005, and 2019-006. Our opinion on each major federal program is not modified with respect to these matters.

GovGuam's response to the noncompliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. GovGuam's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

GovGuam is responsible for preparing a corrective action plan to address each audit finding included in our auditors' report. GovGuam's corrective action plan was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

Report on Internal Control Over Compliance

Management of GovGuam is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered GovGuam's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of GovGuam's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as items 2019-002, 2019-003, and 2019-008 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned costs as items 2019-001, 2019-004, 2019-005, and 2019-006 to be significant deficiencies.

GovGuam's response to the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. GovGuam's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

GovGuam is responsible for preparing a corrective action plan to address each audit finding included in our auditors' report. GovGuam's corrective action plan was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of GovGuam as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise GovGuam's basic financial statements. We issued our report thereon dated August 26, 2020, which contained unmodified opinions on those financial statements and which report included a reference to other auditors and emphasis-of-matters paragraphs for the restatement of beginning net position of the aggregate discretely presented component units and for the impact of COVID-19. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial The accompanying Schedule of Expenditures of Federal Awards is presented for statements. purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Notes to Schedule of Expenditures of Federal Awards Year Ended September 30, 2019

1. Scope of Audit

The Government of Guam (GovGuam) is a governmental entity established by the 1950 Organic Act of Guam, as amended, and has the powers of a body corporate, as defined in the Act and local statutes. All significant operations of GovGuam are included within the scope of the audit. The U.S. Department of the Interior has been designated as GovGuam's cognizant agency for the Single Audit.

2. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of GovGuam under programs of the federal government for the year ended September 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Because the Schedule presents only a selected portion of the operations of GovGuam, it is not intended to and does not present the financial positions or changes in financial positions of GovGuam.

3. <u>Summary of Significant Accounting Policies</u>

a. Basis of Accounting:

All expenditures and capital outlays that represent the federal share are reported as expenditures. Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, consistent with the manner in which GovGuam maintains its accounting records. This includes earned reimbursements under different formula grants and entitlement programs that are accounted for as revenues in the General Fund of GovGuam and Supplemental Nutrition Assistance Program (SNAP) electronic benefits transfer (EBT) during the period. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. GovGuam does not elect to use the de minimis indirect cost rate allowed under the Uniform Guidance.

b. Reporting Entity:

For purposes of complying with The Single Audit Act of 1984, as amended in 1996, GovGuam's reporting entity is defined in Note 1A to its September 30, 2019 basic financial statements; except that the Guam Department of Education, the GovGuam Retirement Fund, and all of the discretely presented component units are excluded. Accordingly, the accompanying Schedule of Expenditures of Federal Awards presents the federal award programs administered by GovGuam, as defined above, for the year ended September 30, 2019.

Notes to Schedule of Expenditures of Federal Awards Year Ended September 30, 2019

3. Summary of Significant Accounting Policies, Continued

The federal expenditure totals for the excluded departments and component units as of September 30, 2019, are as follows:

<u>Department or Component Unit</u> Antonio B. Won Pat International Airport Authority	Fede \$	eral Expenditure Total 8,181,494
GovGuam Retirement Fund	\$	-
Guam Community College	\$	10,506,657

Guam Waterworks Authority	\$	21,801,439
Port Authority of Guam	\$	1,049,444
University of Guam	\$	29,865,717

GovGuam administers certain federal awards programs through subrecipients. Those subrecipients are also not considered part of the GovGuam reporting entity.

c. Cost Allocation:

GovGuam has a plan for the allocation of common costs related to public health and social services federal awards programs. The amounts allocated to 2019 federal awards programs are based on 2019 actual expenditures and caseloads.

d. Matching Costs:

The non-Federal shares of programs are not included in the accompanying Schedule of Expenditures of Federal Awards.

4. Noncash Awards

Certain federal award programs do not involve cash awards to GovGuam. These programs generally could include donated commodities, insurance, electronic benefit payments under the Supplemental Nutrition Assistance Program (SNAP), and loans. For the year ended September 30, 2019, GovGuam had the following noncash award:

Finding No.: 2019-001

Federal Agency: U.S. Department of Agriculture (USDA)

CFDA Program: 10.551/10.561 SNAP Cluster

Federal Award No.: 197GUGU4S2514

Area: Eligibility Liability Amount: \$589,871

Criteria:

A State's eligibility and benefit amount determinations, both underpayment and overpayment, and the correctness of actions to deny, terminate, or suspend benefits must be accurate. The payment error rate is the combined value of overpayments and under payments to participating households, and any State with a payment error rate greater than 6 percent is required to effect corrective action. A State with persistently high error rates is assessed fiscal liabilities based on the amount of benefits issued in error. A liability amount shall be established when, for the second or subsequent consecutive fiscal year, the Food and Nutrition Service (FNS) determines that there is a 95 percent statistical probability that a State's payment error rate exceeds 105 percent of the national performance measure for payment error rates, which is 7.36 percent for FY 2019.

Condition:

On July 6, 2020, FNS determined that Guam's payment error rate for FY 2019 is 11.89% and that FY 2019 is the second consecutive year that Guam exceeded 105 percent of the national performance measure.

Cause:

FNS determined that DPHSS management failed to act upon updated information reported by households on their wages and salaries, and further, that many errors are the result of information not being reported by households (e.g., incomplete applications).

Effect:

FNS established a FY 2019 Guam liability of \$589,871. GovGuam's check payment to USDA-FNS for the full amount is dated August 7, 2020.

Recommendation:

FNS recommends that Guam (1) adopts the best practices shared in the Keys to Payment Accuracy, (2) considers modernization efforts, and (3) evaluates the application, interview process and household notices to ensure requirements are communicated to applicants in clear understandable terms.

Views of Responsible Officials:

Department of Public Health and Social Services provided a corrective action plan to (1) implement case review on all cases processed by Eligibility Specialists (ESs) every day under the direct supervision of the Social Service Supervisor (SSS) I and monitoring by Bureau of Economic Security (BES) Program Administrator. SSS I will require all Eligibility Specialist Supervisors (ESSs) to conduct 90% to 100% supervisory reviews of ES eligibility determinations before case finalization, and (2) create and recruit additional four ESS positions, recruit the six vacant ES positions in the current staffing pattern, and request for additional new four ES positions for recruitment. BES will ensure that all new recruits will be trained especially in the interpretation of policies, manuals, and most importantly, in the navigation of the Ph/pro eligibility system.

Finding No.: 2019-002

Federal Agency: U.S. Department of Agriculture CFDA Program: 10.551/10.561 SNAP Cluster

Federal Award No.: 197GUGU4S2514

Area: Special Tests and Provisions - ADP System for SNAP

Questioned Costs: \$3,935

Criteria:

In accordance with applicable special tests and provisions requirements, the State's Automated Data Processing (ADP) system for SNAP must: (1) accurately and completely process and store all case file information for eligibility determination and benefit calculation; (2) automatically cut off households at the end of their certification period unless recertified; and, (3) provide data necessary to meet Federal issuance and reconciliation reporting requirements.

Condition:

Of 25 case files tested, we noted the following:

1. For 1 (or 4%), the case file was not provided for examination:

FY2019 Issuances and

Case # Issue Date Amount Issued **Ouestioned Cost**

201803451 12/2018 \$520 \$2,756

2. For 2 (or 8%), the ADP benefit calculations exceeded the expected benefits based on USDA quidelines:

201702791 02/2019 \$23 \$276 300080728 07/2019 \$88 \$88

3. For 1 (or 4%), the household exceeded income limits and was terminated in the prior year through a Notice of Action dated 03/14/2018; however, the ADP system continued to process issuances during FY 2019 from 10/2018 through 02/2019:

FY2019 Issuances and

<u>Case #</u> 201701873 <u>Issue Date</u> Amount Overpaid **Questioned Cost**

12/2018 \$163 \$815

Cause:

DPHSS management did not effectively monitor the ADP System for compliance with applicable special tests and provisions.

Effect:

GovGuam is in noncompliance with applicable special tests and provisions requirements for the ADP System. Projected questioned costs exceed \$25,000, and the known questioned cost is \$3,935.

Federal Award No.: 197GUGU4S2514

Area: Special Tests and Provisions – ADP System for SNAP

Recommendation:

Responsible personnel should enforce monitoring and recordkeeping controls over compliance with applicable special tests and provisions requirements. Responsible personnel should assess the ADP system to identify and correct any system-related processing errors.

Views of Responsible Officials:

Finding No.: 2019-003

Federal Agency: U.S. Department of Agriculture CFDA Program: 10.551/10.561 SNAP Cluster

Federal Award No.: 197GUGU4S2514

Area: Special Tests and Provisions – EBT Reconciliation

Questioned Costs: \$0

Criteria:

In accordance with applicable special tests and provisions requirements, States must have systems in place to reconcile all of the funds entering into, exiting from, and remaining in the system each day with the State's benefit account with Treasury and electronic benefits transfer (EBT) contractor records. This includes a reconciliation of the State's issuance files of postings to recipient accounts with the EBT contractor. The State must reconcile the financial and management data that comes from the EBT contractor to the SNAP issuance files and settlement data to ensure that benefits are authorized by the State and funds have been properly drawn down.

Condition:

Of fifty-four reconciliation dates tested, the reconciliation data contained no dates relative to signoffs, system extractions, or printing, etc., to substantiate whether the daily reconciliation occurred.

Cause:

DPHSS management did not effectively monitor compliance with applicable EBT reconciliation requirements.

Effect:

GovGuam is in noncompliance with applicable special tests and provisions requirements for the EBT reconciliation. A potential misstatement of federal expenditures within the Schedule of Expenditures of Federal Awards and basic financial statements or related disclosures could exist undetected and uncorrected for as long as 5 months. No questioned cost is presented, as ending year balances between the State and the EBT contractor are reconciled.

Identification as a Repeat Finding: Finding 2018-002

Recommendation:

DPHSS management should more closely monitor the EBT reconciliation process so that the required daily reconciliations are completed in accordance with applicable special tests and provisions requirements. If reconciliations are not feasible on a daily basis, responsible personnel should consider seeking approval from the Grantor agency for an alternative reconciliation schedule.

Views of Responsible Officials:

Finding No.: 2019-004

Federal Agency: U.S. Department of the Interior

CFDA Program: 15.875 Economic, Social, and Political Development of the Territories

Area: Procurement and Suspension and Debarment

Questioned Costs: \$517,250

Criteria:

In accordance with applicable procurement and suspension and debarment requirements, emergency procurement is allowable when there exists a threat to public health, welfare, or safety under emergency conditions as declared or approved by the Governor. Furthermore, only costs resulting from proper procurements should be charged to Federal awards.

Condition:

For four (or 13%) of 31 transactions tested, aggregating \$6.7 million out of \$14.4 million in total non-payroll program expenditures, emergency procurement was used either monthly or bimonthly to procure services for the Guam Medical Referral Assistance Office relative to serving families who have to travel for medical care. However, the procurement file does not contain sufficient documentation to substantiate existing emergency conditions that prevented formal bid procedures in advance of the known contract expiration dates. Furthermore, the procurement authority documented on the purchase orders indicate that the Chief Procurement Officer ratified a solicitation or award of a contract that was determined to be in violation of the law. Federal expenditures associated with the noncompliant procurement method are questioned costs.

			, .			\$ 330,450

During FY 2019, GovGuam charged the Federal program a total of \$517,250 under eight such noncompliant procurements with the same contractor for the months of October 2018 through June 2019.

Cause:

GovGuam did not effectively plan for the expiration of existing contracts and did not enforce compliance with applicable procurement requirements.

Effect:

GovGuam is in noncompliance with applicable procurement requirements. The total questioned cost is \$517,250.

Identification as a Repeat Finding: 2018-003

Recommendation:

Responsible personnel should closely monitor the expiration dates of existing contracts and should commence procurement procedures in sufficient time to allow for formal bid procedures accordingly. Furthermore, the responsible procurement personnel should enforce compliance with applicable procurement requirements. If noncompliant procurement methods are subsequently ratified by the Chief Procurement Officer and are to be charged to Federal awards, the responsible personnel should consider seeking prior approval from the Grantor agency.

2. For 1 (or 2%), the social security number of one household member was incorrectly entered in the PHPro system, and therefore, the household member was not subjected to the Income Eligibility Verification System (IEVS). The PHPro system did not automatically generate an error report to notify the eligibility specialist of the incorrect social security number.

<u>Case # Service Date</u> <u>FY 2019 Claim Amount</u> 20190076301 04/23/2019 \$4,236

Subsequently, in response to the finding, GovGuam corrected the social security number in the PHPro system and regenerated an IEVS report that substantiated the eligibility of the household. Therefore, no questioned cost is presented for this finding.

Cause:

GovGuam did not effectively manage case files and monitor eligibility determinations for compliance with applicable eligibility requirements. Furthermore, GovGuam was not aware of the PHPro system issue.

Effect:

GovGuam is in noncompliance with applicable eligibility requirements. Projected questioned costs exceed \$25,000, and the total known questioned cost is \$2,312.

Recommendation:

Responsible personnel should enforce recordkeeping and monitoring controls over maintaining compliance with applicable eligibility requirements. Furthermore, responsible personnel should assess the PHPro system to identify and correct any system-related processing weaknesses relative to edit checks and error notifications.

Federal Agency: U.S. Department of Health and Human Services

CFDA Program: 93.778 Medical Assistance Program

Federal Award No.: 1905GQ5MAP Area: Reporting

Questioned Costs: \$0

Criteria:

In accordance with applicable reporting requirements, amounts reported in CMS-64, Quarterly Statement of Expenditures for the Medical Assistance Program, should be supported by underlying accounting records.

Conditions:

Reported expenditures are not supported by underlying accounting records, as follows:

	<u>FY 2019 Expenditures</u>	<u>Federal Share</u>	<u>Local Share</u>
CMS-64	\$ 118,670,685	\$ 111,269,461	\$ 7,401,224

Variances	\$ <u>10,391</u>	\$(<u>4,573,953</u>)	\$ <u>4,584,344</u>

Cause:

GovGuam did not enforce monitoring controls over reconciliations and over compliance with reporting requirements.

Effect:

GovGuam is in noncompliance with applicable reporting requirements. No questioned cost is presented as reported expenditures represent allowable costs.

Recommendation:

GovGuam should enforce monitoring controls over compliance with reporting requirements. Responsible personnel should review underlying accounting records, perform reconciliations, and retain such documents to substantiate reported amounts. Responsible personnel should also coordinate with the centralized accounting division to identify changes and make adjustments to the CMS-64 reports or underlying records accordingly prior to the submission of the CMS-64 reports.

Finding No: 2019-007

Area: General Ledger and Schedule of Expenditures of Federal Awards

Reconciliations

Criteria:

General ledger balances should be timely reconciled to the subsidiary ledger or supporting details and reviewed for ongoing pertinence. The Schedule of Expenditures of Federal Awards (SEFA) should present all amounts passed through to subrecipients.

Condition:

- 1. Reconciliation between the general ledger and the subsidiary ledgers should be timely performed.
 - A post-closing adjustment was provided on July 16, 2020, to reconcile \$13M of Medicaid expenditures in the general ledger. Approximately \$4M of Medicaid expenditures were still unreconciled between the general ledger and the SEFA. An adjustment was proposed to correct the misstatement.
 - An updated SEFA was provided on July 16, 2020, increasing the previously reported expenditures by \$7.4M in Medicaid costs.
- 2. Approximately \$4.2M in recorded expenditures related to subrecipient transactions were not reconciled in the SEFA until July 16, 2020, for CFDA 15.875.

Cause:

Timely reconciliations were not performed, and monitoring controls over the completeness of the SEFA were not effective in detecting and correcting understatements relative to expenditures and subrecipient transactions.

Effect:

The aforementioned accounts and SEFA amounts were misstated.

Recommendation:

GovGuam management should reconcile general ledger accounts with corresponding subsidiary ledgers at least monthly or quarterly. Furthermore, the Division of Accounts should assess whether additional personnel well versed in accounting reconciliations and in SEFA preparation may be required to allow for accurate and complete financial reporting.

Finding No.: 2019-008

CFDA Program: 15.875 DOI Economic, Social and Political Development of the Territories

Area: Equipment and Real Property Management

Area: Capital Assets

Questioned Costs: \$0

Criteria:

- 1. In accordance with the applicable equipment management requirements, grantees that acquire equipment with Federal funds are required to perform a physical inventory of the property and reconcile results with property records at least once every two years. Such property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data, including the date of disposal and sale price of the property. In addition, adequate maintenance procedures must be established to keep the property in good condition.
- 2. Reconciliation with inventory records, capital asset ledgers and the general ledger should be timely performed.
- 3. Capital assets should be reviewed for ongoing pertinence to minimize the opportunity for misstatements and to identify retired assets that have been replaced, disposed, or that have no further value or use.
- 4. Capital assets should be recorded in accordance with the applicable capitalization policy.

Condition:

Equipment and Real Property Management

1. GovGuam performed the required comprehensive physical inventory of its property in January 2016; however, the required reconciliation was not completed. As of September 30, 2019, the required biannual physical inventory and reconciliation were not performed.

We are unable to assess the overall cumulative monetary value of this deficiency. However, the table below summarizes each Government of Guam FY 2019 major program that has a level of total capital outlays over the past five years that is material to the major program.

<u>Program</u>	<u> 2019</u>	<u> 2018</u>	<u>2017</u>	<u>2016</u>	<u> 2015</u>

Capital Assets

- 2. Reconciliation of capital assets was continuously ongoing 8 months after fiscal year end with thirty-two post-closing adjustments were recorded to adjust capital assets.
 - a. Construction in progress included projects of approximately \$47.7M with no additional expenditures related to the projects in FY2019 or were identified to be substantially completed as of 09/30/19. An adjustment was subsequently recorded to transfer these assets as depreciable as of 09/30/19.

c. Capital assets were not recorded in accordance with the applicable capitalization policy. \$345K in assets were less than the \$50,000 threshold per the applicable capitalization policy or were not capitalizable expenses. A subsequent adjustment was recorded to correct this misstatement.

	· · · · · · · · · · · · · · · · · · ·	\$ <u>345,313</u>

3. Construction costs are not easily identifiable by project. The capital asset subsidiary ledger included details of transactions from the general ledger and were not organized in a manner that can be identified by project.

Cause:

The processes over inventory, maintenance and reconciliation of capital assets are not routine. GovGuam requires more funding and human resources to fully develop a reliable equipment management system.

Effect:

GovGuam is in noncompliance with applicable equipment management requirements. The underlying capital outlays are not considered questioned costs, as we are unable to quantify the extent of noncompliance. This noncompliance applies to CFDA 15.875, for which cumulative capital outlays over the past five years exceed the FY 2019 materiality level.

Furthermore, depreciable assets and amounts reported as construction in progress may be materially misstated. Such potential misstatements were mitigated through the proposed audit adjustment.

Recommendation:

GovGuam should complete the required biannual physical inventory and reconciliations during FY 2020 and should consider developing a more detailed corrective action plan with timetables for completing planned actions, such as requesting Federal assistance, processing required reconciliations and reports, training personnel, and coordinating with other governmental units on property management requirements.

GovGuam should continue implementing controls over timely tagging all equipment and over performing the required future inventories and reconciliations in accordance with applicable equipment management requirements.

GovGuam should record capital assets in accordance with the Government's capitalization policy and should implement a policy to monitor replacements, disposals, transfers of assets and construction in progress by project.

The Division of Accounts should investigate whether additional personnel well versed in accounting reconciliations and processes may be required to allow for timely review and recordation of capital assets, especially given the substantial capital asset construction that is undertaken by GovGuam. Furthermore, coordination with DPW and engineering firms must occur at project commencement so that accounts are established to track capital costs and to allow for the preparation of periodic reports documenting a project's percentage of completion.

Equipment management has been a continuing finding in prior audits, and GovGuam management is still in the process of effecting corrective action to develop and fund an equipment management system.

Views of Responsible Officials:

GovGuam's Corrective Action Plan provides details to address the finding and recommendation.

2018-002	DPHSS To ensure that documents on eligibility requirements are available/scanned upon request by the auditors, DPHSS will: As recommended by the Program Specialists from the Food and Nutrition Service (FNS) during their Annual State Agency Management Evaluation (SAME) held in May 2019, the Bureau of Economic Security should hire full-time clerks whose main responsibility will be to scan and dip all documents submitted by applicants and recipients in the front desk or at the time of their appointment or before the application is forwarded to the eligibility specialists (ES). According to the recommendation, all other related matching activities should also be done by the clerk and should be scanned and dipped before being forwarded to the ES. FNS findings also noted that the Eligibility Specialists are overwhelmed with the number of applicants and recipients seen every day coupled with the tasks associated with eligibility determination process and therefore, the possibility of lapses in scanning and dipping of documents may occur. DPHSS has concurred and will implement the recommendation immediately.
	Anticipating a citation regarding Electronic Benefit Transfer (EBT) cards reconciliation, the Bureau of Economic Security's Issuance Unit has started conducting a daily reconciliation of EBT cards issued and returned since May 2019. The need for a daily reconciliation of EBT cards was clarified with FNS Program Specialists during their SAME visit; therefore, the daily reconciliation has been done since then. Additionally, the SOP for EBT Reconciliation was updated and is now being reviewed.
	Department of Administration's management will perform periodic assessments on the EBT reconciliation process to ensure that mandated daily reconciliations are completed and if not feasible, assist agency in obtaining approval from Grantor agency for an alternative reconciliation schedule.
